The Marietta Daily Leader

FRIDAY, MAY 11, 1900.

In Mayor's Court.

Several cases of drunkenness and disorderly conduct were disposed of by Mayor Sykes yesterday morning.

R. A. Robinson, a member of the Wallace circus band, was given a fine of \$5 and costs. His friend, Charles Brothers, plead guilty and will be given a hearing later.

John Mallory, drunk and disorderly, \$5 and costs.

Arthur Kellar, a young man from Circleville, who has been traveling a fast pace about town for several days, was fined \$5 and costs for drunkenness.

Bound Over to Court.

Pinkerton Bishop, the negro who was taken into custody by Sheriff McCullister, Wednesday, for assaulting Mrs. Wilson Bell near the Argand refinery, was taken before Mayor Sykes Thursday morning.

As it appeared that the assault was made more with intent to rob than for a more dastardly purpose, His Honor bound him over to Common Pleas Court under \$100 bond on the charge of assault with intent to rob. Being unable to give bail, Bishop was returned to jail.

Marietta Honored.

Mr. Charles H. Newton, of this city, was chosen Junior Vice Commander of the Ohio Division, G. A. R., at the Encampment just closing at Findlay.

Marietta is proud of the fact that one of her citizens has been honored by this association of the brave boys who wore the blue during the great civil struggle from '61 to '65, and with equal pride congratulates the order which has conferred high rank upon a man whose record as soldier and citizen entitles him to that honor.

Cambridge Sets the Pace.

One hundred and sixty-five of our citizens have bought lots for the new steel mill, and shown their interest in building up Cambridge. The thirty-five lots remaining unsold should be taken at once by the business men who have not already subscribed.

The thousands of dollars paid out monthly in wages will soon pay for at least one lot in the increased trade secured from such an enterprise. A lot only costs thirty-nine cents a day.—Cambridge Sun.

River News.

The river is 5 feet falling at this point. There are no favorable indications for a rise in the near future and by the beginning of next week the larger boats will be forced to the bank.

Yesterday's boats were the Queen City for Cincinnati and Virginia for Pittsburg. The latter will probably not get up the river further than Wheeling.

Married.

Mr. John McGrew and Mrs. May Palmer, both of Marietta, were united in marriage at 4 o'clock Thursday afternoon. The ceremony was performed by Squire N. E. Kidd in the Probate office. The couple spent the night at the St. Cloud hotel, and will leave this morning for Watertown, where they will make their home.

Mr. Riggs, a teacher in the Powhatan school, whipped a boy named Randall Ramsey, it is alleged, with a rubber horse. The whipping took place in January. The boy is now in bed. A suit has been filed against the teacher for \$5000 damages for injuries inflicted.—Woodfield Spirit.

New Cases Filed.

Magnetic Healing.

What Mrs. Drumm, Eighth street, says: "I have been afflicted for a long time with stomach trouble and constipation in its worst form. Bowels locked; had not moved for 10 days. Also had kidney trouble. Tried medicine and doctors and could get no relief. Was permanently cured in one week by Magnetic Healer, 104 Wooster street. I cheerfully recommend him to all who suffer as I did."

OFFICERS ELECTED

By the Board of Trade.—Other Business Transacted.

The Board of Trade met last evening at the rooms of the Marietta Club. About twenty-five members were present. Minutes were read and approved and officers for the coming year were elected. A re-election of the past year's officers was the result:

S. J. Hathaway, President.
Howard Stanley, Vice President.
C. L. Flanders, Secretary.
S. R. VanMetre, Treasurer.

President Hathaway stated that as it was the business of the Board to foster any movement that had for its object the advancement of Marietta's interests, the publication of a pamphlet setting forth the commercial, industrial and educational progress of the city, as well as the prospects for further advancement, would be in line with the Board's work, and that therefore they would be ready to listen to the proposition of a gentleman who was here for the purpose of carrying out such a project.

The gentleman mentioned, Mr. D. P. Robbins, of Erie, Pa., was introduced and briefly outlined his plan of getting up a pamphlet descriptive of Marietta, her institutions, facilities and advantages. He desired to do the work under the auspices of the Board of Trade, who were requested to take 100 copies of the work at the price of \$30.00.

The President was authorized to appoint a committee of three to take the matter into consideration and if they thought it advisable, to act according to their judgment.

It was reported that 31 of the 50 lots in the Glass Plant addition had been sold to secure the bonus for the Darcy Furniture Company and that the sale is growing dull. It is urged that these lots be sold soon in order to secure the location of this big industry.

The town of Conestoga, Pa., where the Darcy Company is now located, is doing all in its power to hold them there and has made them a very substantial offer.

The financial report of Secretary C. L. Flanders for the year just ended was read, received and placed on file.

The following gentlemen were admitted to membership: Jewett Palmer, R. C. Lopans, H. E. Smith, D. P. Robbins, J. W. Dwyer, C. W. Spritz, Charles A. Ward, A. J. Bankson, E. C. S. Holmboe, R. T. Moore, H. P. Phelps, J. W. Rex.

Building Collapsed.

Tuesday evening during a severe windstorm accompanied by rain, the large two story frame business room of Charles Joost, on Court street, which was nearly completed, was blown flat to the ground. The building had all the outside work done, all the windows in except a large glass front and was so nearly completed that it had received one coat of paint. It seems that the slate roof was very heavy on a spiked frame and the strong wind getting on the inside of the building completely destroyed it.

The loss will be heavy for Mr. Joost, the contractor, who has the sympathy of the entire town. Mr. Joost will also lose much in the way of rent by not having his building completed. It is the most complete wreck ever made by a windstorm in this county. A number of men just left the building in time to save their lives. George E. Hubbard had sought shelter in the building and was still in it when it fell, but luckily there was no floor in the building and his presence of mind saved him. He dropped down into the cellar.—Woodfield Spirit.

Quiet Again on the Hock Hocking.

The belligerent condition that has been in evidence between the students and the faculty of the university here for the past week or more is practically eliminated and the bellicose student has decided that it is better to allow the faculty to run the institution than it is to go back to the farm and toil and sweat under the rays of a spring-time sun. The demands of the faculty in the adjustment of the difficulty may have been a little severe, yet from our point of view nothing is so effective in reducing to moral size of the hat band of the student whose conception of his importance as a great factor in the universe is equaled only by his ignorance of common courtesy, as to feel the keen sting of the lash of discipline. We are with the faculty.—Athens Messenger.

Blood

If the blood in sufficient quantity leaves the body because of a wound or hemorrhage of the lungs the result is death.

Life depends on the blood because the blood carries to all parts of the body the nutritive elements necessary to sustain it. What if these nutritive elements are absent?

What if they are supplanted by poisonous, effete matter and disease germs?

The first result is disease—partial death. The final result is the same as from loss of blood.

All disease is traceable to impurity or weakness of the blood and that is the reason the "Golden Medical Discovery" cures so many different diseases—it purifies and vitalizes the blood—makes it rich, red and healthy—fills it with nutrient for the starving nerves and tissues.

Consumption is properly a disease of the blood—so is scrofula—so is rheumatism. They look like different diseases, but one medicine will relieve all three.

"I am using a good many of your medicines in my practice," writes Dr. Joseph F. Rice, of Los Angeles, Marion Co., Kansas. "Ten years ago a patient of mine was badly affected with that dreadful disease, scrofula. Her mouth and throat were in an awful condition, and there were lumps on the outside below the jaw the size of a hen's egg. Other doctors said it was a fatal case. I felt confident that none of my remedies would benefit her any. It came to my mind that Dr. Pierce's Golden Medical Discovery was recommended for such cases, so I gave it to her as directed. Five bottles cured her and she is well to-day. She is married now and has three healthy children."

C. R. Richardson's Report of Yesterday's Market.

Oil City Exchange, 3 p. m.—Credit balance declined two cents to 1.42. Cash oil not quoted.

New York Stock Exchange, 3 p. m.—The bears seem to find no trouble in picking out soft spots in the stock market. Tobacco was the target and was pounded down from 100 1/2 to 95 1/2. Others were not in sympathy and held their own. Sugar only fractionally lower than yesterday. Steel stocks comparatively firm. Call loans 2 1/4 per cent.

Chicago Board of Trade, 1:15 p. m.—Wheat was narrow in range and extremely dull, fluctuating only one-eighth of a cent, July closing at 67 cents. Corn and oats opened lower, but recovered to last night's figures. Provisions took a little spurt but settled back and closed unchanged from yesterday.

Cars today: Wheat, 19; corn, 144; oats, 85; hogs, 22,900.

Gentlemen—Having used your Grain-O for the past three months I thought I would write and let you know how much good it has done me. When I was away on my vacation last summer, the people I visited asked me to try some Grain-O, and I drank some, but I didn't like it at all, but the more I drank of it the better I liked it, and now I wouldn't drink anything else. I never weighed over 105 pounds and now I weigh just 120, and I never felt better in my life. It gives me an awful appetite, and makes me strong. It is doing more good than anything I ever took, and I would recommend it to everybody.

Yours truly,

Headaches Caused By Defective Eyes.

About nine out of every ten persons, old or young, who suffer with headaches, may be assured that defective eyes are the principal cause.

HYPERMETROPIA, or far sight, is the principal cause of dull and constant headache. A HYPERMETROPIC eye is insufficient in its length or in the power of its refracting media which results in the focus being thrown toward a point beyond the retina, thereby causing excessive, or over measurement, resulting in a constant strain upon the ciliary or accommodation muscles, and that in turn will affect what is known as the third nerve or motor oculi, which causes extreme nervousness. With the use of properly made and properly fitted glasses, the eye becomes artificially normal, by causing the focus to fall upon the retina the same as it does in a perfectly normal eye, therefore these muscles become relaxed from their constant strain thereby relieving the cause, and at once overcoming headaches, blurring, dizziness, excessive winking, etc.

All persons suffering from headache who are in doubt as to the cause, can have a FREE examination by calling on us, and if your eyes are not the cause, we will frankly tell you so.
