CHICAGO'S POPULATION.
Computation Made from Official Reports of School Census Makes Total 2,017,717.

The population of Chicago, according to estimates made on the basis of the school enrollment, was 2,017,717 on June 1, 1900, when the government census work began. The directory figure is 2,010,000. The computation is made from figures forwarded by Superintendent of School Census Stephen D. Griffin to Superintendent Cooley. According to Mr. Griffin's official figures the total enrollment for Chicago schools, including kindergartens, stands as follows:

1898-1899	2,033,948
1899-1900	2,033,948
Increase	5,833

The percentage of increase is thus shown to have been 4.3, with a small fraction. The population of the city in May, 1898, according to the school census, was 1,851,588. Supposing that the increase has been at the same ratio in the school years 1898-99 and 1899-1900, as in the latter year, the annual increase since 1898 would be 79,646, or for two years, 159,292, which would bring the city up to 2,010,880. Allowing for an additional month of growth, as the school census represents the population in May, while the government takes the number of people in June, the total of 2,017,717 is obtained.

The figures are confirmed by results deduced from prior school censuses. In 1894 the school count gave Chicago 1,567,727 souls. This census was taken in May. This shows an increase of 443,861 between May, 1894, and May, 1898, or 79,963 each year. On this basis, the population on May 1, 1900, was 1,993,510, and on June 1, 2,005,346, leaving a difference between the two estimates of but 12,371.

TELEPHONE OVER OCEAN.
Electrical Authorities Place Little Credence In Professor M. L. Pupin's Alleged Discovery.

The statement that Prof. M. L. Pupin, of Columbia college, New York, has discovered a means by which conversation over a telephone wire can be carried on across the Atlantic does not find much credence among electrical authorities in Chicago.

A. S. Hibbard, manager of the Chicago Telephone company, says that Pupin's scheme of a series of coils to be inserted at intervals under the sheath of the cable would render it difficult, admitting its practicability, to build and lay a cable of that kind at the bottom of the ocean.

Mr. Capen, superintendent of the Postal Telegraph company, says that in a recent conversation with the electrical engineer of his company at New York regarding the practicability of telephoning across the Atlantic the engineer said it may yet be found to be not an impossibility, but there was nothing known at present that would enable one to talk across the ocean.

ABNORMALLY LARGE HEART.
Man Who Dropped Dead in New York Is Found to Have Been Strangely Afflicted.

The heart that Dr. Hamilton Williams, coroner's physician, found in the body of a man at the morgue at New York the other day may prove to be the largest on record in America. It weighed 36 ounces, which is about four times the weight of the normal man's heart. The mammoth heart proved the death of its owner, who was yet unidentified. The man was walking on West Twenty-fifth street, when suddenly he was seen to drop to the sidewalk. He was dead before medical aid arrived. Superficial examination caused the ambulance surgeon to think that the man had been choked to death. There was a piece of tobacco in his throat which might have strangled him. But Dr. Williams brought to light the giant heart, which was the cause of his death.

COMPLIMENT TO WORLD'S FAIR
The Kind Things Said About the Big Chicago Exposition of 1893.

A new occasion for paying hearty compliment to the world's fair of 1893 was found the other evening at the dinner given at the Rensselaer restaurant at the Paris exposition in honor of Mme. Fegard, the indefatigable general secretary of the recent women's congress, who has just been made a member of the Legion of Honor. Prof. C. Hally-Bert, of the University of Paris, drinking to the memory of the Chicago world's fair, made an eloquent speech, and Mme. Fegard, who was French delegate to the women's congress in 1893, also said many pleasant things of Chicago and of the world's fair, to which the French are so willing to acknowledge the debt of their present exposition.

THE SIX-INCH SONS.
Decided by the Board of Construction to Place Them on the New Protected Cruisers.

At a meeting of the board of construction a decision was reached in regard to the armament of the new protected cruisers authorized by the last congress. The main battery of each of these ships will consist of 16 six-inch guns, a type which is regarded as the most efficient of all calibers. There was some question whether a majority of the guns could not be of eight-inch caliber, but the ordnance experts were of the opinion that the six-inch gun was the most useful, and their opinion prevailed.

How to End the War.
"Bobs" should try to get close enough to the Boers, says the Chicago Record, to tell them they are whipped.

Victory at Last.
For ten long years I was a sufferer with kidney dyspepsia and rheumatism disease. I treated with many Columbus doctors; took patent medicine. No results whatever until I discovered and took ONE BOTTLE OF DENN'S SURE, SAFE and SPEEDY CURE. In three days I threw down my crutches. Ordinary cases cured in one day. Only 25 and 75 cents at A. J. Richards and W. H. Styer, a Samples free.

Special sale of Millinery Goods now going on at the "See Hive", 168 Front Street.

LIGHTNING STRIKES A CHURCH
A Funeral Was in Progress, and 20 Persons Were Injured. Three Probably Fatally.

Cleveland, O., July 21.—At Chaffield, O., lightning struck a church in which a funeral was in progress. The edifice was packed to the doors and a panic ensued. The lightning ran down a pillar. Mrs. Simon Shade, who was leaning against it, was prostrated and may die.

Twenty-five others were injured, two of whom (Miss Dora Bowers and George Hooker), it is believed, fatally. Many women fainted. In the excitement the coffin fell from its supports to the floor. The church was but slightly damaged.

Gen. Dick's Military Staff.
Columbus, O., July 21.—Maj. Gen. Dick, of the O. N. G., announced his military staff as follows: Assistant adjutant general and chief of staff, George M. Wright, of Akron; assistant inspector general, Chas. C. Ames, of Columbus, now quartermaster clerk in the adjutant general's office; chief surgeon, H. M. W. Moore, of Columbus; chief quartermaster, Moulton Honk, of Toledo; chief commissary, Harry Freese, of Canton; judge advocate general, S. F. Hainemann, of Ravenna. Two aides are yet to be appointed from the line of the guard.

Unlucky Retiree.
Mr. Cleveland has been heard from in the shape of an expression of regret that the platform at Kansas City failed to harmonize the "discordant sentiment" in the Democratic party. Mr. Cleveland should be heard from again. He should make haste to do something more than merely manifest his grief and his surprise that the Kansas City convention should have implicitly obeyed the orders it received from the imperialist who sat on his porch at Lincoln and dictated the precise language in which the platform should declare the attitude of the Democracy on the money question. The admirers of Mr. Cleveland have a right to expect something explicit as to "The Duty of Democrats." They would like to know, we feel sure, whether the great man prefers Bryan and Bryanism to McKinley and McKinleyism; whether his hatred of Protection outweighs his hatred of 16 to 1, Populism, and the balance of the revolutionary hodge-podge which goes to make up the Bryan platform. It is up to Mr. Cleveland to speak again.—American Economist.

Real Estate Deal.
S. A. Coffman has sold the R. S. Babb property on Franklin street to Basilus E. E. Fischbach. Consideration private.

The property consists of a seven room house and lot 25 by 120 feet.

Mr. Fischbach takes possession August 1, and will move in at once.

The Charles Mellyar property on Third street, above Washington, has been sold by G. B. Sunderland to Lawrence Stevens, of Macksburg. Possession will be given in sixty days and it is understood that Mr. Stevens will occupy the residence. The consideration in the deal was \$4,800.

Messrs. Hannold & Hart report the sale of a lot in the Porter subdivision, belonging to John C. Sauer, to John Marken. Consideration \$400.

A Common Danger.
If you have ever had a cold which you permitted to "wear away" it may interest you to know it was a dangerous proceeding. Every cold and cough which is neglected paves the way for consumption, bronchitis, asthma or catarrh. Otto's Cure, the famous German throat and lung remedy, will cure any cough cold and save you from consumption. Sold by all druggists. Prices 25c and 50c per bottle.

He Earned His Penny.
Tommy—Mr. Y., my sister Laura said at table this morning that she thought you had the prettiest mustache she ever saw.

Y.—You oughtn't to tell things you hear at table, Tommy.

Tommy—But she's going to give me a penny for telling you.—Tit-Bits.

"Do you have any trouble keeping your servant?"

"None. I'm married to her."—Chicago Times-Herald.

One-Sided Race.
"Yes," said the poet, "I have been pursuing fame for the past five years."

"Do you think," she innocently asked, "that it is any farther ahead of you now than it was at the start?"—Chicago Times-Herald.

About the Size of It.
"Vinegar never catches flies." So the proverb maker wrote; And vinegar candidates likewise, Ne'er catch the floating vote.—Chicago Daily News.

DISHONEST.
Mrs. Floppy—Come off those scales, Albert, and don't be helping the grocer to cheat people!—N. Y. World.

The Similitude.
Mother—Why, Rupert! I can't see how you can possibly eat another mouthful!

Son—I guess I am a regular "trust," Mamma! The more I gobble the more I want!—Puck.

Geo. B. Sunderland, Headquarters for Real Estate, opposite Union Depot, Marietta, can accommodate any prospective purchaser in anything he wants whether city property or farm land. I have 100 lots which I can offer on the installment plan at most favorable prices. If you want to buy or sell or exchange real estate you should not miss calling on Sunderland. He can give you exactly what you want and make the terms to suit the purchaser. Telephone; Office, 27, real estate, 21 Street.

PLENTY OF IT.
Lots More Proof Like This and It Is All From Marietta People.

"The proof of the pudding is in the eating of it." If any city or town in the following subject it is Marietta. Genuine merit is finding its reward in the hearty endorsement of local citizens. When people right here at home, friends and neighbors of our readers, give a statement like the following for publication, it is proof convincing for the most skeptical. Read this testimony:

Mrs. R. B. Griffin, of 116 South Second street, says: "It would be almost impossible for me to give more praise to Doan's Kidney Pills than their merit deserves. I suffered for a number of years from severe attacks of backache and other evidences of a disordered condition of my kidneys until I had the great good fortune to learn of Doan's Kidney Pills and went to Wm. H. Styer's drug store 240 Front street, and procured this remarkable kidney cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.
