Heretofore, since he has been President, it has been his plan to leave for Washington either after voting or else during the evening of election day. Telegraph wires have been run into his house for furnishing the President with prompt and complete reports of election returns. There will also be increased long distance telephone service provided at the house, furnishing direct communication between the President's Canton home, the home of Gov. Roosevelt at Oyster Bay, N. Y., the White House at Washington and Republican headquarters at Chicago and at New York. To provide for all of these facilities workmen have already begun to string the wires.

LARGE AUDIENCES

Greet Governor Roosevelt in New York.

STATEMENT IS ISSUED BY

The Committee Urging the Voters to Stand Firm.

By Associated Press

Jamestown, N. Y., Nov. 1.—Gov. Roosevelt finished the next to the last day of his New York tour, after having traveled through five counties and making fifteen speeches during the day. His speeches during the day were flavored with vigorous attacks on Richard Croker and National Chairman Jones for their alleged attitude on counting of the ballots, which Gov. Roosevelt diagnosed as an incitement to violence. At both Dunkirk and Jamestown there were large crowds. At Dunkirk in reply to Bryan, among other things he said: "I want to take up one or two statements made last Saturday by Bryan when he was here. In the first place, Bryan said that the argument of the dinner pail was bad because it is not full now. Now, I don't know exactly how full it is, but I do know it is four times as full as it was four years ago. Here are the figures for the present year for these works, as compared with 1896. The average monthly wages paid out was little over \$100,000, against \$28,000 in 1896. The average number of engines turned out is 28 per month, as against eight. The number of men at work is 21,000, against 8000 then."

STATEMENT OF COMMITTEE.

By Associated Press.
New York, Nov. 1.—The Republican National Committee today issued a formal statement to voters as follows: "Boss Croker, the head of the Democratic organization in New York, orders his subordinates to gather in force at the polls next Tuesday and in case they see the count going against them to eject election officers and take possession of the ballot boxes by force. This astounding anarchistic order has been approved and endorsed by Senator Jones, Chairman of the Democratic committee.

The Republican party has always stood squarely for a fair vote and an honest count. Notwithstanding the announcement of this Democratic policy of terrorizing voters and burglarizing ballot boxes, the Republican National Committee desires to state that the Republican managers have taken measures to insure the protection and rights of every voter in the pending election, and that the votes shall be properly counted and recorded as cast. The committee, therefore, admonishes all voters that they must not be deterred by the threats of Democratic leaders from exercising the rights of suffrage on Tuesday next.

Case Postponed.

By Associated Press.
New York, Nov. 1.—The case of Cornelius L. Alvord, the defaulter of the First National Bank, was not transferred to the United States Court today as expected. Alvord's counsel, Jacob F. Miller, objected to the transfer and the case was postponed until tomorrow.

Stone & Ward abandoned the Zoller lease and pulled the casing in their Zoller No. 1 yesterday.

The Hildreth lease has also been abandoned and the casing pulled from the well.

The prospects for a good oil field in this vicinity are not at all encouraging and operations at least for the present have been discontinued in this field.

Alfred Covey has pulled the casing from five wells belonging to the Granite Oil Co. and situated on and near Eighth street. Verily the discovery of a great oil field in the vicinity of Marietta, which seemed imminent one year ago, is apparently farther off than ever.

A SECOND ALARM

Turned in From the Webster Oil Company's Plant Thursday Night.

The fire department was called out at 12:30 last night by an alarm turned in from Webster's oil refinery. The still house, which was afire on Tuesday night, was again ablaze. It is supposed that the escaping gas was ignited by spontaneous combustion. The work of rebuilding the walls of the still house had been begun, but not very much progress had been made. No damage was done to any of the other buildings, as the fire was confined to one room of the still house, which had been gutted of inflammable material on Tuesday night.

Cincinnati, O., Nov. 1.—Jo A. Parker, Chairman of the National Committee of Middle of the Road Pops, tonight received a dispatch from Milton Park, of Dallas, treasurer of the Populist National Committee, denying the statement circulated in dispatches today that he had come out for Bryan.
