## Something New for Girls and Boys.

During the past year "St. Nicholas" Magazine, which has been for nearly thirty years the leading children's monthly magazine of the world (and now the only one) has introduced several new departments which have been extremely attractive and have greatly increased the circulation. One of these is

### "Nature and Science."

"Don't bother me—I'm too busy" is too often the remark from a grown up person to a child who really wants to know. The editor of "Nature and Science" gives careful attention to every question asked by his young readers, and "We will write to 'St. Nicholas' about it" has become the motto of the department, which contains interesting short articles, beautifully illustrated, telling of four-footed animals, birds, insects, water animals, plants, and whatever pertains to Nature.

### "St. Nicholas League"

is an organization of those who read the magazine (whether subscribers or not) without dues, and it offers prizes each month for the best drawings, photographs, poems, stories, puzzles, and puzzle answers. Some of the work sent in by young folks shows surprising talent. No one who does not see "St. Nicholas" can realize what an interesting magazine it is, and how exquisitely it is illustrated; it is a surprise to young and old. Of literature it contains the choicest, and in art it has never been surpassed by any grown folks' periodical. The new volume begins with November, 1900, and the subscription price is \$3.00 a year. If there are children in your home, you can hardly afford to be without it.

BOYS AND GIRLS who read this advertisement and who wish to find out more about The St. Nicholas League and its system of monthly prizes may address, without cost, The St. Nicholas League, Union Square, New York.
