

Marietta Daily Leader.

THE ONLY ASSOCIATED PRESS REPORT IN MARIETTA BY PRIVATE WIRE.

VOL. VII NO 159

MARIETTA, OHIO, THURSDAY, JULY 4, 1901.

TEN CENTS A WEEK

PRIVATE BANK

At Mansfield, Owned by Sturges, Has Receiver Appointed.

It Carries With It the Mansfield Machine Works--Sturges Was Interested in Many Enterprises.

By Associated Press.
Mansfield, O., July 3.—The Sturges bank failed to open its doors today and is in the hands of a receiver. The closing of this bank was followed by the assignment of Willis M. Sturges, owner of the bank, and by the appointment of a receiver for the Mansfield Machine Works, capital \$300,000, that was controlled by Sturges and associates. The Sturges bank was a private institution.
Its depositors are mostly grain men and farmers. No other bank here is affected. It paid interest on deposits from the time money was received.
W. M. Sturges, its owner, was interested in numerous enterprises and was a breeder of fine cattle, giving a great deal of his time at that. He owns a lumber works, a coal yard and a large stock farm. He owns valuable property in the city. H. B. Dirlam has begun work as receiver of the Sturges bank.
Sturges filed suit against the Mans-

field Machine Works to assess the stockholders. This concern went into the hands of a receiver today. A. A. Peck, President of the company, being appointed receiver. His bond was fixed at \$50,000. He was given authority to continue running the plant, which employs several hundred men. Its capitalization is \$300,000. Sturges owned \$82,800 stock in this concern and was indorser for over \$54,000. Other heavy stockholders are John E. Sturges, \$20,200; Mary D. Sturges, \$5,600; A. A. Peck, \$10,500; A. A. Peck, guardian, \$5,300.
There are a large number of small stockholders, among them being the late John Sherman, who held three shares. On the smaller stockholders the loss will not be heavy. The machine works has not paid any dividends for five years. There have not been additional failures, but claims are being put in by creditors. There is no schedule of assets and liabilities filed as yet.

of the combination of heat and grip of which New York horses are afflicted, that it is necessary to send to other cities to get a fresh supply.

Express Train Robbed.

By Associated Press.
Butte, Mont., July 3.—An express train on the Great Northern was held up near Wagner station, Mont., today. There were three in the gang which boarded the train and compelled the engineer to pull the express car a mile from the train, where they blew it up with dynamite and, it is said, secured \$40,000. Railroad officials say that the train was held six hours and have no further information. A reward of \$5000 is posted at Butte for the capture of the robbers. Whether any body was hurt or shot in the attack is not yet known.

MARIETTA FIELD.
Special to the Leader.
Marietta, O., July 3.—Kingsley &

Co.'s No. 6 Dye makes a very light showing in the first Cow Run. They will probably drill deeper.

CHESTERHILL FIELD.

Special to the Leader.
Chesterhill, O., July 3.—J. A. Henne & Co.'s No. 4 B. Yarnell is drilling. The Southwestern Petroleum Co.'s No. 6 O. and H. Smith is drilling.

SAND HILL FIELD.

Special to the Leader.
Sand Hill, O., July 3.—The Alta Oil Co.'s No. 14 C. Thornley is completed and showing for 10 barrels.

LOUISVILLE FIELD.

Special to the Leader.
Woodsheld, O., July 3.—Galey & Co. of Marietta, drilled in their No. 1 Spears near Louisville, Monroe county, today, and it is showing for 200 barrels natural.

Longfellow Bros. are drilling No. 1, 1000 feet to the southeast, at a depth of 300 feet.

Treat & Crawford are down 1200 feet at the No. 1 Greenbanks. Eight hundred feet to the northeast are two good wells. As the Decker well is two months old and making 25 barrels natural, it makes this look as though it will be one of the best fields in the county.

The Galey will be making 58 barrels after being shot. This is farther south and is showing better than the rest. There have been no wells drilled to the south for three miles and there is room for a large field.

FOUR MEN

Stricken by Lightning During the Heavy Storm of Wednesday.

Special to the Leader.
Cambridge, O., July 3.—A frightful accident occurred at the Palmer farm, three miles west of here, during the heavy storm today. Lawson and Ray Gibson, sons of Albert Gibson, together with the Ringer Brothers, Claude and T. B., took refuge on the porch and while sitting there a large pine tree standing in the front yard was struck by lightning. The bolt divided one part striking the porch and all four occupants were rendered unconscious.

Lawson Gibson was badly burned on the breast, while the lower part of the abdomen and right leg were burned to

a blister, and his clothing was torn into shreds. His brother, Ray, was severely burned across the back.

Claude Ringer was struck in the neck and he was rendered deaf. His brother, T. B.'s, right leg was severely burned.

A messenger was quickly summoned for medical aid and physicians have been laboring with the stricken men all day.

Tonight report from the Gibson home says that Claude's condition is very serious. Lawson has partially regained consciousness, but is unable to move any part of his body. The Ringer boys are thought to be out of danger.

BRIEF

Items Gathered During a Very Hot Day.

HOT IN KANSAS.

By Associated Press.
Kansas City, Mo., July 3.—Kansas City today was the center of the hot test area in the country. Within a radius of 200 miles of the city the temperature ranged from 96 to 108 degrees. In central Kansas hot winds are reported burning up all vegetation. In Joplin the drought so reduced the water supply as to threaten a shutting down of many mining plants unless rain comes soon.

ORDERED TO WASHINGTON.

By Associated Press.
Washington, D. C., July 3.—The Secretary of War today ordered General Wood, Governor General of Cuba, to come to Washington for consultation upon Cuban affairs. It is said that this action has no reference to political conditions in the island.

VICTORIOUS CORNELL.

By Associated Press.
Ithaca, July 3.—The victorious Cornell crews, with Coach Courtney, arrived here this afternoon. They were carried on the shoulders of a crowd, headed by the Ithaca band and a procession of students. At the Ithaca hotel a banquet was held.

FEVER MODERATED.

By Associated Press.
Havana, July 3.—Governor General Wood is suffering from typhoid fever. His fever moderated to day.

PREACHER SUICIDED.

By Associated Press.
Kearney, Neb., July 3.—Rev. I. G.

Brocker, of the Evangelical church, known as the "cowboy preacher," committed suicide by shooting at his home here today. He is about 45 years old and leaves a widow and six children.

MARRIED IN ENGLAND.

By Associated Press.
London, July 3.—Dion Boucicault, the actor, and Irene VanBrugh, the actress, were married today at Brunton.

ABOLISHED THE OFFICE.

By Associated Press.
Columbus, O., July 3.—The Hocking Valley Railway Company abolished the office of claim agent. Edward J. Kelly, who held the position, was retired.

NEGRO LYNCHED.

By Associated Press.
Charlotte, N. C., July 3.—Jim Bailey, a negro, was captured by a posse and lynched near Smithfield, N. C., last night, for assaulting Maud Strickland, a white girl.

WILL SELL HORSES.

By Associated Press.
Anaconda, July 3.—Mrs. Marcus Daly today announced that she will sell in New York in November all the trotting stock belonging to Marcus Daly's estate.

NOT SO BAD YESTERDAY.

By Associated Press.
Chicago, July 3.—The temperature of today was lower than that of several days of the last week. But three deaths, 16 prostrations and one case of insanity were due to the heat. The maximum temperature was 84.

Signed Wage Agreement.

By Associated Press.
Pittsburg, July 3.—Today the officials of the Keystone Rolling Co., of this city, signed the Amalgamated association wage agreement.

FOUND GUILTY

Of Murder in the First Degree, Was Sidney Cole.

Who Shot and Killed William Terry, Carpenter of the Keystone State, During the Recent Flood.

By Associated Press.
Parkersburg, W. Va., July 3.—The jury in the case of Sidney Cole, who shot and killed Wm. Terry, carpenter of the Keystone State, while the boat was passing by Parkersburg during the recent flood, brought in a verdict of first degree murder tonight with a recommendation of life imprisonment. The prisoner appeared unconcerned.

COLE DENIED CHARGES.

Special to the Leader.
Parkersburg, W. Va., July 3.—Sidney Cole, on trial for his life before Judge Stapleton, was this morning placed on the witness stand to give evidence in his own behalf. This was in regard to the shooting by which Capt. W. T. Terry was killed while on the hurricane deck of the Keystone State, while the boat was drifting down the Ohio river opposite the house wherein Cole resided at that time.

Cole stated in substance as follows: He was awakened from his sleep by some one of the members of the house who told him that the boat was passing the house and that it was in danger from the wash of the wheel. He got up and went out on the front porch with his rifle, as soon as he could slip on some clothing. The boat had by that time passed beneath the B. & O. bridge, and when he got to the porch was drifting in the river with its prow toward the Belpre landing and its stern toward his home. The wheel was slowly revolving. He called to the boat's officers telling them to stop mov-

ing, three times, but apparently no one heard him, or if they did, paid no attention. He then pulled up and fired in the direction of the boat in order to attract the attention of the officers. He fired twice, but not at anyone on the boat. He never had known Capt. Terry and did not know that he had been killed until some time after the boat had landed.

A continuous effort has been made since the beginning of the trial to have various of the witnesses answer questions relative to the depth of the water about the house at the time and as to the possible danger of the house from the wash of the Keystone State owing to the situation of this house in the water. Time and again was the question put, in different forms, and just as many times did the prosecution object and the court sustain the objection. This phase of the case was kept up so long, both yesterday and today, that it actually became tiresome. The defense always took exceptions to the ruling of the court in this matter, which would seem to indicate that an attempt would be made to carry the case to the supreme court.

At 11:30 o'clock today, the evidence had all been taken. Attorney Via for the defense then asked that the court conduct the members of the jury to the scene of the shooting, and, according to law, allow them to refresh the general knowledge which every juror is supposed to possess. The prosecution objected to this on the ground that the evidence had all been taken and that it was too late.

UNION

And Non-union Miners Fight, Several Fatalities.

By Associated Press.
Telluride, Col., July 3.—In a fight between striking miners and non-union men at the smuggler mine, near here, today, two men are known to have been killed and three wounded.

There was great excitement around the mines all day, but it subsided this evening. The controversy is satisfactorily adjusted for the present and everything is quiet in Marshal and Savage basins.

Early this morning word was received in town of considerable shooting going on at the Smuggler mine and all kinds of rumors were afloat. The strike has been on for some time and the feeling of union miners is bitter against non-unionists. During the forenoon shots were exchanged between miners, deputies and guards, but at one o'clock they ceased with the exception of a few shots now and then.

Some time this forenoon one cabin, near the office building, was blown up, but it is impossible to learn what damage, if any, was done.

Liberty Bell and Tombey miners have practically gone out in sympathy, it is said, and they are with the Smuggler union miners today.

It was also reported that miners from Ouray and Silverton sides came over to Smuggler this morning and that Camp Bird and Revenue mines went out in sympathy. The mayor ordered all saloons closed. Telephone wires were out and there is no communication between the town and Smuggler hill.

News of rioting came from Ouray, and across the mountains from Telluride. It is said that 800 union miners are in a fight with guards and non-union miners. At 8 tonight it is reported that matters are quiet and that the Miners' Union is in possession of the Smuggler mine. The sheriff earlier in the evening wired Governor Orman for troops to assist in suppressing the rioters but will revoke the request if calmness continues.

New College President.

By Associated Press.
Newark, O., July 3.—Rev. Emory William Hunt, D. D., pastor of the Clarendon street Methodist church of Boston, has been elected President of Dennison university at Granville to succeed Dr. D. B. Purinton, who has accepted the Presidency of the West Virginia University. Dr. Hunt has not yet signified his acceptance.

SALE

Of Aristocratic Horses at Sheepshead Bay.

By Associated Press.
New York, July 3.—Senator McCarrren's first racing stable was sold at auction at Sheepshead Bay today. Green B. Morris and others also sold some horses. Among the horses disposed of were:
Property of P. H. McCarrren—King Bramble, four year old, by Bramble-Beluga, A. Miller, \$14,000.
Potente, six year old, Racine-Powwow, J. J. McCafferty, \$2050.
Alfonso, three year old, Charaxus, Genevieve, H. T. Griffin, \$1700.
Bluff, three year old, St. Blaize-Satisfaction, J. McCormick, \$2000.
Misleader, by Deceiver-Nance, A. C. McCafferty, \$1900.
Shandon, Field, two year old, Prince of Monaco, Wm. Abrams, \$1000.
Property of Green B. Morris—Modrine, four year old, Sir Modred-Katherine, W. H. Houston, \$2000.
Bedeck, Star Ruby-Bedotte, P. Ryan, \$1700.
G. Whittier, two year old, Kismet-Proset, E. M. Taylor, \$1600.

Weather Forecast.

West Virginia—Partly cloudy, probably thundershowers Thursday. Friday fair, variable winds.
Ohio—Warmer and partly cloudy Thursday and probably Friday, light southerly winds.

STRIKERS

Enjoined From Interfering with Employes.

By Associated Press.
Cincinnati, O., July 3.—Judge Thompson, of the U. S. Court, today allowed a temporary injunction against striking machinists. July 15 was set for the hearing for permanent injunction before Judge Clark, of Chattanooga.
The order as issued was a very broad one. It enjoins the defendants from picketing or patrolling around the factories of plaintiffs and from guarding the doors or streets in front of the factories and from interfering in any way with employes now in factories. It also forbids the use of violence, threats or intimidation to induce any person to leave the employment of the plaintiffs or to prevent any one from entering their employment.
The order of injunction names Business Agent Schilling, who is in charge of the strikers, and a large number of others connected with the strike.

DEATHS

From Heat are Numbered by the Hundred.

By Associated Press.
Washington, D. C., July 3.—Hot weather continued today in nearly all sections east of the Rocky Mountains, but as a rule it showed some let up from the previous day. Temperate weather came from thunderstorms in many localities, but there is no immediate prospect of a general break in the hot spell. During the afternoon showers in the upper Ohio valley and middle Atlantic states caused a decided fall in temperature. Almost similar conditions are expected tomorrow.
A slight disturbance was noted last night in the West Indies, but it is not making any marked advance and relief hoped for in that direction is not materializing. The area of low pressure in the Lake Superior region is moving very slowly to the northeast and remains practically lifeless, so that little relief is expected from that source. It will be warm again in the morning and Weather Bureau officials say that the only appreciable breaks in the temperature will result from local storms. In Washington the thermometer reached a maximum of 96, but toward evening grew cooler and at 8 o'clock 80 prevailed. Fifteen prostrations from heat and

two deaths are reported up to ten tonight.

COOLER AT CLEVELAND.

By Associated Press.
Cleveland, O., July 3.—At 8 o'clock the weather became several degrees cooler, the highest temperature being 81. There was four deaths and seven prostrations today.

SUFFERING AT PHILADELPHIA.

By Associated Press.
Philadelphia, July 3.—Although the temperature did not reach the record made yesterday and Monday by four degrees, the suffering from the heat and the fatal results were nearly as great as on the two previous days.
The maximum temperature today at 2 p. m. was 98. A thunderstorm then sent the mercury downward, and at 8 o'clock tonight when the storm arrived the temperature was down to 80. There was only a light shower of rain. Up to midnight the number of deaths attributed to excessive heat reported since last midnight was 47, with 250 prostrations.
Hundreds of horses perished since the hot spell began. Many industrial establishments were again shut down or are working on short hours.
Reports from interior towns of the state tell of only slight moderations in the excessive heat of the two previous days. Nearly all reports are of prostrations, with here and there a death, directly attributable to the heat.

WELCOME RELIEF.

By Associated Press.
Cincinnati, O., July 3.—The humidity of the atmosphere together with some slight breezes favored a welcome relief from the heat here tonight. The maximum temperature was 97, minimum 83. Four deaths and 14 prostrations occurred.

HOSPITALS OVERCROWDED.

By Associated Press.
New York, July 3.—Rain storms today with consequent fall in temperature brought much relief to sufferers from heat in this city. As soon as the storm passed the temperature immediately began to rise. Considerable humidity made the suffering almost as intense as when the thermometer registered several degrees higher.
Most of the hospitals are already crowded to their utmost and many of them have erected tents on the grounds for the accommodation of heat victims. The morgue is taxed as never before. Hospital attendants are collapsing under the strain and were it not for volunteers who come to their aid, the situation would be greatly aggravated by the enforced neglect of heat patients. Although the ambulance service is augmented by the addition of automobiles loaned for the purpose, it is greatly inadequate. Many horses have given out and their places are being filled from outside sources and so great is the scarcity of available animals, because
