JUVENILE COURT
Not many people in Fulton county give much thought to the fact that for the past eight years there has been in active operation here in this county a Juvenile Court. What that court has been doing during the years of its existence, how it has cost to it and what it has done to do it are items of general interest to our readers and we give herewith information gleaned from Judge Barber of this court during a brief interview.

The Juvenile Court in Fulton county during the eight years more than 800 children have been taken care of in one way or another by the court. Many matters pertaining to children have been adjusted by the court without placing the names of the children on the court records and the policy of the juvenile court being to avoid placing even the suggestion of a stigma against the child's name.

The juvenile court in Fulton county has worked constantly to find homes for dependent or neglected children among the people of this county, even though this entailed vastly more work on the part of the court than placing them in institutional homes or schools would have done. Since the beginning of the court two good results; it has benefited the children and saved money for the taxpayers of the county. It is only in most thankful terms that we can commend the work of the juvenile court.

WE HAVE FAITH IN THIS STOMACH REMEDY
A woman customer said to us the other day, "Say, you ought to tell everyone in town about Rexall Dyspepsia Tablets. I would never if I could." That set us to thinking. So many people have used them and have so enthusiastically sounded their praises for both us and their medicine, that we had an idea you all knew about them. But, in the chance that some of you suffer from indigestion, heartburn, dyspepsia, or some other stomach complaint don't know about them—we are writing this.

They contain Bismuth and Pepsin, the greatest digestive agent known to medical science. They soothe and comfort the stomach, promote the secretion of gastric juice, help to quickly digest the food, convert it into rich, red blood, and improve them to be the best remedy made for indigestion and dyspepsia. We certainly wish to get the medicine to you entirely at our risk unless we felt sure they would do you a lot of good. If Rexall Dyspepsia Tablets do not relieve your indigestion, check the heartburn, and make it possible for you to eat what you like whenever you like, come back and get your money.

Sold only at the medicine stores, Rexall Stores and in this town only at our store. Three sizes, 25c, 50c and \$1.00.—Read & Wager, Wauson, O.

In The Frozen North
Many sections of Alaska are isolated for nine months of the year and must depend upon supplies secured during the open season. Almost every camp has Hanford's Balsam for sprains, bruises, inflamed sores, etc., although it takes a year to fill the order. James Anich handles it at T. Tanna—the very heart of Alaska—and out of his own stock cured one woman of a lame back after she had been unable to stand for two years. Another camp is sent back across the mountains above the Artic Circle to Cold Foot. The liniment is worth its weight in gold to the miners.

Good News for Tired Housewives
No more dust-laden, germ-filled carpets to sweep.
No more pulling or driving of carpet tacks each house-cleaning season.
No more back aches at close of sweeping day.
Because no old floor now hidden by carpets is in such condition that the Chi-Namel Graining Process in the hands of an inexperienced person cannot put it in condition for use with rugs.
Come in to our store and let us show you how easy and cheap the process is.

HOW MANY MILES DO YOU WALK IN ORDER TO PLOW TEN ACRES OF LAND WITH A WALKING PLOW?
IF THE FIELD WAS SQUARE YOU WOULD WALK IN THE NEIGHBORHOOD OF 85 MILES.

85 miles is a long walk and if you were asked by some one to walk that far you would look upon it as a pretty big job.

How many miles will you walk behind a plow this spring?

Figure it out and then ask yourself if it would not be a good idea to buy a ROCK ISLAND SULKEY PLOW. Think of how many steps this machine would save you during the life of it. When you consider these things it seems to us as if you would say: "A SULKEY PLOW FOR ME". The Rock Island Sulkey No. 3 shown in the above cut we believe to be as light in draft as any sulkey sold, and any boy who is big enough to drive a team of horses can plow and do a better job with the No. 3 than his father can with the old style walking plow. We have one of these plows set up on our sample floor where you can see it at any time. Stop into the store the next time you are in town and learn why we say The No. 3 ROCK ISLAND SULKEY IS A BETTER FULKEY. Learn its superior points and you will say so to.
