

COUNTY PRIMARIES

Republican Candidates Who Ask For Nomination for County Offices at the Primary Election August 11th—Second Term Men—A good Array of Capable Men to Choose From. Don't Neglect the Primaries.

Only a little more than a month before the August Primary Election and considering the fact that certain politicians are watching for anything that may be construed to indicate that the electors of Ohio do not care to choose their public officers and that a ballot abbreviated until it includes only a candidate for Governor and a judiciary is demanded; it behooves all public spirited citizens to prepare to exercise their rights and privileges at the coming Primaries.

On August 11th candidates for the respective offices are to be nominated by the voters of the several parties, and the names of candidates thus chosen will appear on the party tickets. Every voter should be interested enough in this primary election to go to the polls and register by his vote his choice of the candidates whose name he desires to see on his party ticket and the time which intervenes between now and August 11th furnishes an opportunity to investigate and determine who that choice shall be.

It is a time honored custom among Republicans and Democrats as well that an officer who has served efficiently and well for one term, to re-elect them for a second term; there are seven such candidates for whom the Republican voters should cast their ballots in August, they have all proven their efficiency and worth and by all precedent and merit are entitled to nomination and election to the respective offices which they now fill with credit to themselves and honor to the county.

Mr. E. H. Reichard as representative has really represented Fulton county in the State Legislature and has worked for the interest and welfare of his constituents. He has stood firm for the Republican principles of government and has made a splendid record thus far during his first term. Commissioner's Barden and Griffin are both entitled to the votes of all good citizens and their names should be marked with a cross before marking the candidate for the third place, a new man who will take the place of A. Q. Price who has served two terms. W. A. Ackerman has proven his worth by his deeds as county Auditor and will have the vote of all Republicans for a second term. John B. McQuillin has made a good sheriff and there is no reason for desiring a change. C. L. Reed as recorder and C. O. Castle as engineer have honored the Eastern part of the county by the able and efficient services they have rendered; it is only the just due of these officers that they should receive the votes of their fellow citizens as an endorsement of their excellent services. Don't let the matter rest by saying "so well they will get the nomination anyway, they won't need my vote." They do need your vote and they ought to

WILLIS CASTIGATES

Primary Ruling Declares Democrats are Using Bluff—Would Thus Keep Progressives From Voting Republican Ticket—Fess Says Opinion Will Not Stand.

Washington, June 28.—Stirred by reports that his henchmen in Ohio connived at the ruling just issued by Secretary of State Graves, which prohibits men who voted the Progressive ticket two years ago from voting in the Republican primaries this year, Representative Frank B. Willis, candidate for the Republican nomination for Governor, gave out a very emphatic denial to-day in which he took occasion to castigate Mr. Graves.

"Neither any of my friends nor I myself had anything to do with that ruling," said Willis, "and the report that my managers conspired to bring it about does not have a shred of truth to rest upon. The reports do not come from a source that is friendly to me. The truth is, that I would be very glad to see the Progressives have an opportunity to vote in the Republican primary, because I know that very generally they would vote for me.

"The rank and file of the Republican and Progressives are together. They are not getting together—they are already together. I am not discussing whether the Progressives came over to the Republicans or the Republicans went over to the Progressives. It is sufficient that they now are together.

"Knowing this to be the fact and seeing the handwriting on the wall, the cunning Democratic leaders have devised this heinous pious ruling in an effort to pry them apart again.

"It is a gigantic bluff to scare Progressives and keep them from voting the Republican ticket. My prediction is, that there will be trouble and plenty of it if a serious effort is made to enforce this indefensible ruling.

Representative S. D. Fess, of Yellow Springs, predicted that the ruling will not stand the test of the Courts, and as well the legal ability and judicial mind as demonstrated by the records of the men. Choose that man with whom you would be willing to trust your own personal interest and that who you could trust to deal justly and without prejudice.

The candidates who are in the field, no candidate who waits until after the primaries and then by petition seeks and secures a place on the ticket should receive consideration.

Aug. 11th is the time to choose the candidates, and those chosen at this time are entitled to the votes of the party that chooses them at the November election.

JAYNS LECTURE ON THE FLAG

John Anderson Jayne gave his illustrated lecture on "Old Glory" last Friday night in the High School auditorium. The weather the threatening permitted a good sized crowd to attend, and none were sorry for being present.

The lecturer, John Anderson Jayne is minister of the Christian church in Bryan. He is a preacher of note and experience. Just recently he has led his congregation in the achievement of building a beautiful new church edifice which was dedicated a few weeks ago with all obligations fully paid.

He illustrated his lecture with beautiful colored pictures thrown from a strong stereopticon. Every one could see and hear all that was going on all the time.

Rapidly and clearly in language most beautiful the lecturer traced the history of our country from its discovery and the flag from its origin to the present day in its victories. The events of history and many of the great men of the nation were made to live again. All saw the "Boston Tea Party" and the "Midnight Ride of Paul Revere" and Sheridan on his black horse riding to save the battle of Winchester. It was a most interesting and profitable lecture and will live long in the minds of those who saw and heard it. Those who would not be present missed a treat such as Wauseon has not had the opportunity of enjoying for a long time.

Livymen recommend Hanford's Balsam as a valuable remedy to be always kept on hand.

JULY FOURTH

1776 138th 1914 Year of American Independence

America, on this, thy natal day, While with thy emblem-fair the breezes play We hail thee!

Young and fair among the nations art thou, Yet many are the honors on thy brow Our Motherland!

Thy bounteous borders stretch from sea to sea, In many climes thy children call on thee Their Honored Mother.

From many lands they come to own thy name, To share thy bounty, to glory in thy fame, Mother of Liberty!

Thy past on History's page is glorious, By patriot sires thy flag was made victorious O, Noble Land!

By sacrifice and hardships gladly borne, Thy sons and daughters, show through stress and storm Their Loyalty.

Thy future! May each year bring honors new Peace and plenty—Standards, high, pure and true— As fits thy Dignity.

To win these Jewels for thy glorious crown, To keep thy honor and ward disaster's frown We pledge our Loyalty!

And may the God who ever guideth thee, Who led our fathers on to make men free Thou Land of Liberty!

Help us our pledge to keep and true to stand, For Justice, Truth and Right within this land America, our Country!

ROLL OF HONOR

Sixteen Dollars Paid In On Subscriptions During The Past Week. A Suggestion For a Fourth of July Investment.

For the first time in many weeks the secretary of the Monumental Association has no new names to add to the roll of honor; subscribers to the fund whose names have previously appeared in the roll have paid in sixteen dollars; of this amount \$10.00 was paid by the W. R. C. of Wauseon as a partial payment on their subscription of \$100.00. It took four long and tedious years of struggle and suffering and weary waiting and heart breaking to put down the rebellion cleanse the country's banner of the stain of slavery and preserve the Union of the States in one heroic Republic. If the heroes and heroines of the sixties could wait and work under the superintendency of Earle H. Hill, Labor and time saved machinery has been installed and much useless expenditure of energy eliminated until at the present time the Wauseon condensory is an industry of which the citizens of Wauseon and vicinity may well be proud.

Many changes have been made since the plant was first established, most of them during the past three years under the superintendency of Earle H. Hill. Labor and time saved machinery has been installed and much useless expenditure of energy eliminated until at the present time the Wauseon condensory is an industry of which the citizens of Wauseon and vicinity may well be proud.

With over \$700,000 in the treasury the active cooperation of every citizen the thing could be finished up in short order and the monument in place before snow flies again.

Readers will remember how one citizen of Wauseon celebrated Decoration Day; he paid ten dollars into the monument fund.

This circumstance suggests that many citizens might celebrate the Fourth of July in a similar manner. Those who are counting on expenditure of money for their own enjoyment and pleasure, let them set aside a certain portion of the amount they expect to expend for the monument fund; others might keep the day by making a contribution for the monument and all who do this may rest assured that the satisfaction derived in time to come will be greater in proportion to the amount expended than any other way of enjoying pleasure. Why not act on the suggestion and enjoy a "Glorious Fourth."

STRANAHAN-LEININGER

Cards have been received by Wauseon friends announcing the marriage of Mr. Loren Stranahan, son of Mr. and Mrs. A. B. Stranahan of this place and Miss Armina M. Leininger, daughter of Simon Leininger of Dover township. This happy event took place at 10:15 and 11:15, June 18th, the day following his graduation at the Ohio State University as a Mining Engineer, having completed a four years course. Mrs. Herman Case a sister of the groom as well as his fiancée enjoyed the commencement program.

The bride has been employed the past year by Lamson Bros. in the book keeping department of their store in Toledo. These young people are very well and favorably known here for their high moral work and industry. The wish wishes of a host of friends go with them to their new home, the cards stating "at home" in Covington, N.Y., June 18th.

They will receive Fulton county friends after spending a couple of weeks of their honeymoon at Cincinnati and Indian Lake.

BASE BALL ON THE ATH.

Next Saturday sees things warm up in the Trolley League and the expanded team will play the Archbold and Wauseon will cross bats in the morning at Archbold game called at 10-15 and at Wauseon Athletic Park in the afternoon, game starting at 2:45.

Wauseon and Archbold put on the hottest game of the season when they formerly met and these games should be fought from start to finish.

Selner, Lehman and Spies will do the twirling in these games and who ever wins from them will have to be on their toes every minute of the games.

Come out and see them.

THE ART OF ADVERTISING

BY AN EXPERT. Reading the other day a little story which caused my lips to curl up in a smile, and at the same time causing my mind to think and my heart to feel. I have decided to pass the good thing on, believing that all can imbibe from it the same benefit.

The story reads: Once upon a time there was an aged, colored minister, whose educational opportunities had been necessarily abbreviated who found his text in the utterance of St. Paul, "There are many adversaries." The word "adversaries" contained more syllables than he could easily negotiate at sight, and he read it, "There are many adversers." Undoubtedly the old man preached a good sermon, or, at least, let us hope so.

However, this misquotation is not destructive in any way, because advertising is worked pretty hard along all avenues, and we are justified in keeping the greatest things of life constant before the public, lest any one should forget. It has proven its usefulness to all concerned after a test of many years. The business man is convinced of this, and so is the laboring man. This can not be gainsaid.

What do you suppose are the elements of strength in advertising? I mean, what are the potent sinews of an advertisement? It is conceded on all hands that they are not many, but just one; a reliable establishment. This is it that makes an advertisement powerful.

In our own fair city, there is a house, represented by trustworthy agents, which is the oldest and most reliable establishment that is doing business to-day under the heavens. They deal fairly with their competitors, but the superiority of their wares is admitted on every turn. Their testimonials are without number, so numerous as the stars. They have been tried in all climates and on all ages and conditions. This house is no more an experiment. Ages have passed since the wares of this establishment record of 1900 years. Next Sunday a demonstration will be made. Come and see the greatest and most suitable product of the centuries—the Gospel of the humble Nazarene. The doors of this reputable house shall swing open all day.

ADVERTISED LETTERS. Persons calling for above letters will please mention that they were advertised.

MAY MILK

Van Camp Condensory Pays \$25,495.79 for May Milk—A Well Systematized Plant. List of Checks Drawn for Fifty Dollars or More.

On the June pay day the Van Camp Condensory paid Fulton county dairymen the sum of \$25,495.79 for their product during the month of May.

The Wauseon condensory is an industry of which the citizens of Wauseon and vicinity may well be proud.

It is a marked decrease in the price of milk, and by this means turns \$25,000 or more into the pockets of the farmers of the community every month; but besides this it has come to be a model plant so far as efficiency of operation is concerned.

Many changes have been made since the plant was first established, most of them during the past three years under the superintendency of Earle H. Hill. Labor and time saved machinery has been installed and much useless expenditure of energy eliminated until at the present time the Wauseon condensory is an industry of which the citizens of Wauseon and vicinity may well be proud.

This means a marked decrease in the cost of production and while it must of course increase the profits of the Van Camp Company at the same time it enables them to pay the best market prices to the original producers, the dairymen. Such an industrial institution is of highest value in any community both in a financial way and as an example of real progress. Following is a list of those receiving \$50.00 or more for May milk:

Table listing names and amounts for May Milk, including J. M. Yarnell (\$63.25), J. E. Andrews (\$57.45), J. Ruhley (\$57.10), Wm. Kenough (\$57.10), E. J. Huffman (\$64.44), W. D. Enthusiastic Audience Listens to Choir

ROYAL WELSH LADIES' CHOIR PLEASES LARGE AUDIENCE AT CHURCH BENEFIT.

The Royal Welsh Ladies' Choir will appear in this city on the Lincoln Chautauqua program the fourth day, afternoon and night.

Oliver McWilliams, who has heard this company and practically all of the big Chautauqua talent in this nation for the last seven years, says, "The Royal Welsh Ladies' Choir is the biggest Chautauqua entertainment that has ever been offered in this country."

The Evening News of May 13, 1914, says: "It was a most enthusiastic audience which listened to the concert given last night by the Royal Welsh Ladies' Choir in the Woman's Club Auditorium. From the moment the curtain rose for the first time to the very end the people there enjoyed the evening."

The costumes worn in the first part of the program were typical of the novelty of the entertainment. The interesting Welsh dress and the knitting work which occupied the fingers of the singers as they sat upon the stage produced an informality in the atmosphere and created a feeling of friendship between the two groups separated by the countless miles which intervened a successful evening.

There were many Welsh airs on the program which aroused enthusiasm especially in those whose forefathers lived in beautiful Wales, an enthusiasm which endured even after the close of the program.

One number which was not written on the program, but which was thoroughly appreciated, was a solo by Miss Edith Malloway Jones, a favorite with Evansstonians. She, as indeed were all those on the program, was generous enough to respond to the wishes of the audience for an encore.

The closing number, a Welsh air, the Welsh national anthem and "The Star Spangled Banner" were a fitting climax to a pleasant concert.
