

FULTON COUNTY TRIBUNE.

VOL. XXXIX NO. 2

WAUSEON, OHIO, THURSDAY, APRIL 13, 1922

CORN MAY SPROUT YET THE HOME-LOVING INSTINCT MAKE A WEAK STOCK

Clayton Explains How Rot Works and Sums Up Seed Corn Situation

That the 14 central testing stations which have been established by farm bureaus of 11 Ohio counties are throwing out 40 and 50 percent of tested ears as unfit for seed corn does not mean that these ears were unfitted for seed by freezing in the crib last winter. On the contrary, it was a mild winter and in all our testing we have found practically no winter-killed seed corn.

Neither does it mean that 40 or 50 percent of untested seed corn, planted this spring, will not put out sprouts, or even make stalks. A high percentage of the corn we have tested has sprouted, continues E. E. Clayton, specialist in plant diseases at the Ohio State University, explaining a seed corn situation which, in his opinion, makes careful testing more than ever necessary this spring.

The trouble lies in seed infected with corn ear and root rot, and we find about three times as much infection this year as we did last year. Rot affects seed corn somewhat differently from winter-killing. Infected seed may sprout 75 to 95 percent, and the develop rot, put out sprouts, or even make stalks. A high percentage of the corn we have tested has sprouted, continues E. E. Clayton, specialist in plant diseases at the Ohio State University, explaining a seed corn situation which, in his opinion, makes careful testing more than ever necessary this spring.

Clayton, specialist in plant diseases at the Ohio State University, explaining a seed corn situation which, in his opinion, makes careful testing more than ever necessary this spring.

The desire to own a home is one of the most natural instincts of every man, and no matter if he has spent his entire life in a rented house, he knows that the rented house can never become a real home in the highest, truest sense. No family can ever acquire that deep-seated regard and affection for a rented house that is naturally developed toward a home which they own. What incentive is there for a man to preserve or adorn or embellish a rented house, when he knows that any day his landlord may order him to vacate?

But when the place which shelters him and his loved ones is their very own, when no one has the right to raise his rent or order him to move out, then the place, however lowly or humble it may be, is indeed a home. Then every member of the family becomes inspired with love for the place in which they live; they become interested in its adornment and beautifying; every tree and flower and shrub which they plant in the place, every day they live there, adds to the tender, loving associations intertwined about it, until HOME becomes one of the sweetest words in human speech.

Then every member of the family becomes inspired with love for the place in which they live; they become interested in its adornment and beautifying; every tree and flower and shrub which they plant in the place, every day they live there, adds to the tender, loving associations intertwined about it, until HOME becomes one of the sweetest words in human speech.

CLEAN UP!

For Cleanliness, Thrift and Civic Pride.

PAINT UP!

For Home and Towns Beautiful.

SCHOOL NOTES

According to reports filed by the Wauseon teachers for the month beginning March 31, 1922, and ending March 31, 1922, the following facts may be interesting:

Wauseon High School
Total enrollment to date..... 374
Monthly enrollment..... 356
Average daily attendance..... 340
Percent of attendance..... 94 1/2

Wauseon Grade School
Total enrollment to date..... 368
Monthly enrollment..... 358
Average daily attendance..... 318
Percent of attendance..... 89

Pupils re-enrolled in the entire school..... 7

SHORTS AND MIDLINGS

"Good fences make good neighbors." — Robert Frost.

In the most convenient kitchens, stove, table, water and storage are within a 6-foot radius of each other.

Nobody would know anything about your community if it weren't for the home-town papers. Support them.

A hundred farmers turned out and built a community limestone storage bin in Jackson County one day last month.

KEEP BOOSTING — STOP KICKING

Some people seem to feel that unless they are always complaining about the town, they won't be noticed. They "kick" about everything that is being done to make it a better town. They kick about everything but their own shortcomings. If these "chronics" can "pin" something on the other fellow who is working for an interest of the town they seem to be very much elated over it and go around benefited when things go wrong. Why? Is it because they are a streak of selfishness or jealousy in human nature that is difficult for them to overcome. Stop kicking and BOOST.

A town cannot progress when some pull one way and some another. Everyone must work for the same. It is only by the most earnest co-operation and team work will everything run smoothly. Cheerfulness, good nature and a pleasant smile will do more toward bringing trade to the town than growls and complaints about what the town should do.

Errors are not made purposefully. Mistakes may be caused by carelessness or negligence — those who are in responsible positions may err in judgment, but none are made intentionally. Continually trying to "show up" every little flaw and "rubbing it in" causes trouble and discourages and destroys usefulness of a good official.

Constructive criticism and suggestions made from an unselfish standpoint are always in order for the betterment of a town.

Don't kick — BOOST.

OBITUARY

After a residence of more than sixty-three years in Pettisville, Ohio, William Dimke passed from this life to his Eternal reward, on April 2, 1922, aged ninety years, eleven months and twenty-eight days.

William Dimke, son of John and Sophia Burde Dimke, was born April 5, 1831, in Obornick, Germany.

At the age of fourteen years he was confirmed in Kreuz Kirche in Obornick, and through a long, useful and well spent life remained true to the faith of the Lutheran church. He was one of the founders of St. Paul's Evangelical Lutheran Church at Pettisville.

On September 5, 1854, at the age of 23, he set sail from Bremen for New York, where he landed after a voyage of forty-five days.

He lived in New Pauls Landing in Ulster County, New York, until April 1855, when he came to Pettisville. He remained there until November 1858 when he came to Wauseon, Ohio, which place has since been his home.

August 27, 1861, he was married to Bertha Johanna Schlatter, who preceded him to the Better Land, December 26, 1918.

To this union were born twelve children. Four, Adolph, Louise, Theodore and Emma (Mrs. Chas. Lamme) preceded their parents to the Home Beyond. Two sons, William of Graton, Frederick of Indianapolis and six daughters, Mrs. Anna Repp of Toledo, Mrs. Augusta Prentice of Chicago, Mrs. Bertha Fisk of Catawba Island, Ohio, Mrs. Helen Cluskey of Detroit and Clara and Flora at the old homestead are left to mourn the loss of a most kind, loving and honored father, who was ready and glad to go when his Master called, yet bearing his illness patiently and uncomplainingly, awaiting his Master's call.

Besides these children there are left nine grand-children, three great grandchildren, a number of nieces and nephews and a host of friends and neighbors who will, with the family, reverse his memory.

Estate of Henry Schrag, final account filed, hearing May 1, 1922.

Estate of Adelle Buck, final account filed, hearing May 1, 1922.

Guardianship of Nellie V. Kuhn, statement in lieu of final account filed. Hearing May 1, 1922.

Estate of Clyde U. Savage, application filed, bond filed and approved and letters of administration issued to Rosa Treman. Warrant Treman, Alvin Perry and Geo. Wright, appraisers.

Estate of Geo. D. Bates, application filed, bond waived and letters testamentary issued to Catharine V. Bates, application for authority to settle wrongful death claim filed. Report of settlement filed and confirmed.

ASPIRIN FIENDS

We hear much of opium and morphine fiends; cocaine addicts; and rain jack devotees, but little is said of that large number of respectable citizens who are slaves to the aspirin habit.

Aspirin is a soot tar drug, widely advertised as a relief for headache, LaGrippe and other ills accompanied by pain. The drug has a very depressing effect upon the action of the heart. Aspirin is usually put out in 5 grain tablets. The taking of two or three of these is often accompanied by so-called palpitation, which indicates how profoundly the heart is depressed. "Palpitation" denotes a loss of nerve control of the heart beat, which, if produced frequently, will lead to permanent, serious injury.

The promiscuous use of aspirin therefore is dangerous in two ways: an overdose is liable to cause immediate death; while the habitual use of smaller doses of the drug produces a chronic weakening of the heart that will materially shorten life. The aspirin habit is almost as dangerous as the morphine habit. —Department of Public Welfare.

THE EARLY FLY

"The early bird catches the worm," is a favorite saying at most any season of the year. It might also be said with equal emphasis and truthfulness that swatting a fly now means a million less flies a little later on.

Citizens of Wauseon are aware of the fact that the breeding proclivities of the housefly are unequalled in the insect world. For that reason it is good judgment to start swatting before they have the chance to breed. The fly swatter, tanglefoot paper and other devices for cutting down the ranks of the dangerous pests should find ready sale even this early, for they can be used to greater advantage now than they can later on, when warm weather, fertile breeding places and the ability of the insect to multiply its kind results in great numbers where there are now but a few.

It is the first flies of spring that do the most damage, in assuring the swatter now and practice up on killing them. Rid the house of them as rapidly as they appear. If persisted in, a daily attack will insure comparative freedom from the disease-carrying, food-infecting and baby-menacing destroyers. Make it your business to kill the first fly you see, and continue the practice every day.

IS HOLDING HIS OWN

"Ten years ago I received such wonderful help from your medicine for my stomach trouble that I have recommended it to hundreds of other sufferers. Recently a friend of mine whose brother in a distant city was stricken with acute indigestion and was not expected to live, got his brother to take a bottle on my advice. I had just received word that his brother was holding his own, and I am confident that Mayr's Wonderful Remedy will entirely restore him." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach liver and intestinal ailments, including appendicitis. One bottle will convince or money refunded. All Druggists.

REAL ESTATE

If you want to buy or sell a farm or town property, call at my office in the Newcomer building, second floor. Office phone 345, P. M. Schurz Dealer in Real Estate, Wauseon, O. 49-4f

We are members of the Florists Telegraph Exchange and can wire your order nearly everywhere in the United States or Canada. Wauseon Floral Co. 1-2

Another good way to teach a Wauseon boy arithmetic is to let him figure how many more days until school is out.

STOP KICKING

Smile and the world smiles with you;
Knock and you go it alone;
For the cheerful grin
Will let you in
Where the kicker is never known.

MONEY TO LOAN

Money to loan on farms, for the purpose of erecting or repairing buildings or for paying off an existing mortgage. The amount obtainable is 40 per cent of the value of the farm, exclusive of buildings.

Grisier and Harger,
Wauseon, Ohio

SWAT THE FLY

Now is the time to take the first step towards reducing the summer prevalence of flies during the summer time. Kill the early fly. These few early flies are responsible for the millions that pester the community later on. By killing the early ones, and eliminating the breeding places it would be possible to have a flyless town.

Flies breed principally in manure piles and uncovered garbage; also in their decaying animal and vegetable matter. Therefore see that you have no fly breeding places on your own premises and insist that your neighbors have none. Have tight garbage cans and keep them covered. See that manure is kept in tight bins and is removed at least every five days. Allow no other fly breeding places to exist and report all neighborhood violations to the Health Office.

Kill all early flies and eliminate all breeding places.

Columbia Dry Batteries

are universally used because—
They cost so little, are so easy to obtain, are so powerful, and last so long. That's why they are used everywhere for every battery need. It's why dealers all around you carry Columbias to meet your demands—electricians, hardware stores, general stores, auto supply shops, garages, implement dealers.

For doorbells, buzzers, heat regulators, alarms, etc.; for gas engine and tractor ignition; for quick starting ignition on non-self-starting Ford; for every purpose, always—insist upon Columbia.

The world's most famous dry battery. Used where good quality is needed. Fabulous Spring Clip Binding. Puts on extra charge.

Columbia Dry Batteries work better and last longer

- for bells and buzzers
- for thermometers
- for car engines
- for ignition on the Ford while starting
- for dry battery lighting in closet, cellar, garage, barn, etc.

Columbia Dry Batteries —they last longer

BIRD REFUGES

There is a necessity for preserving bird life in the agricultural districts of this country. The Department of Agriculture at Washington declares that the destruction of damaging insects by this wild bird life in the United States saves to the farmers no less than \$400,000,000 annually. For that reason the department is encouraging refuge for birds on the farms of this country. It is said that hardly any agricultural pest escapes the sharp wits and beaks of wild bird life in our rural communities. Many Wauseon citizens shoot to kill birds without considering the fact that they are hereby lessening the number of insect-destroyers, and thus lessening our grain crops. It would appear that a little campaign of education in our schools, where the men of tomorrow are growing up, would be valuable in the years to come, while the men who have already grown up should remember the momentary saving of \$400,000,000 due to the birds of this country, and give their protection wherever and whenever it lies in their power to do so.

NELL SHIPMAN IN BIG OUTDOOR THRILLER WILL OPEN HERE SUNDAY

The biggest outdoor picture of the year, Nell Shipman in "The Girl from God's Country," will show at the Princess Theatre starting next Friday.

Nell Shipman is star, author and director of this picture, and her work in two entirely different roles offers theatergoers the dramatic treat of the decade in motion pictures.

Thrilling scenes galore have been provided in this picture, and the sensational battle in airplanes 6,000 feet in the air will offer something new in the melodramatic type of picture.

Brownie, the Nell Shipman bear, and the usual array of animal actors are in evidence in "The Girl from God's Country." Their work in this picture will delight grown-ups and children alike.

Many of the scenes were taken in the Canadian North Woods, where beautiful snow effects provide unusual backdrops.

The excellent cast, headed by Nell Shipman, includes Boyd Irwin, Edward Burns, Al W. Filson, George Berrell, Walt Whitman, C. K. Van Auken, Lillian Leighton, M. Wells, Milla Davenport and others.

"The Girl from God's Country" is released by the F. B. Warren Corporation.

Matinee Saturdays 2:30.

Gardening would be as enjoyable as the other fellow contends it is if we could only find somebody to pull the weeds.

Doughboy Flour

"The Country's Best"

Historical Booklet Free To All

"Famous Doughboys," a record of the bravest deeds of American Doughboys in the war, has a place in every home. It tells, in an interesting way, how our bravest fighters won honors on the field of battle — how they helped to save the world from despotism. Don't fail to get a copy. One free copy will be mailed for every picture of a Doughboy cut from a Doughboy Flour sack. Mail to our Toledo office.
