LOCKES & BLYMYER, PLAIN AND ORNAMENTAL JOB PRINTERS, PUBLISHERS OF THE Tiffin Tribune. Office in Shuman's Block, corner Main & Market Streets.

Table with 4 columns: Rate, Length, and other details for advertising.

Local and Miscellaneous. "Pleur is like a hornet—generally ends with a sting." Josh Billings at National Hall, Saturday night.

A BIG TIGHT FOR Tiffin.—The Columbus, Tiffin & Toledo Railroad. The Columbus, Tiffin & Toledo Railroad.

LOCKES & BLYMYER.—The above named firm is composed of three members—O. T. Locke, C. N. Locke and W. G. Blymyer. It is to be hoped that this explanation will secure each of the two first named individuals from the imputation of having himself addressed or spoken of as "Mr. Lockes."

Nearly it.—The nearest thing to velocipede riding we have seen in this city was a young man about "half size over," going down Main street. His motions were very similar to those of a new beginner on the velocipede, and he found no more trouble to bark his nose.

Sandusky had a Grant and Colfax Entertainment last night, without the Grant and Colfax. It was a dance, etc., given under the auspices of the Grand Army Boys. Just think of a dance being named after the President and Vice President elect of the United States.

INCORPORATED.—We understand that the certificate of incorporation of the Young America Mining Company of South Pass City, was filed in the Secretary of State's office, Columbus, December 24, 1888.

GRIS.—The Fat Contributor, served up his feast of "Injun Meal" at Norman Hall, Sandusky, on Tuesday evening last, which his hearers no doubt relished. We like meal in any form.

THE FLAX INTEREST IN OHIO.—A meeting to organize those interested in the purpose of developing the flax-raising and manufacturing interests in Ohio, will be held in Columbus about the first of January. The meeting, it is hoped, will be well attended.

While we are on this subject we suggest that flax-raising in this county, to a large extent, could be made profitable. It is an easy crop to raise, is not exhausting to the land and a ready sale can always be found. It is a very remunerative crop.

AGAIN, some man of means, can do a good thing for himself and for the county by putting up mills for the manufacture of linseed oil. This would give the farmer a home market for his flax-seed and retain in the county capital that now goes out of it.

There is a big thing in the oil business, and some one in Tiffin might profit by it.

"Sum people are alwus babes. The never get threw with spoon vittles. The alwus will, at a hotel tabul, get out with the apple butter, pudding and abuzur dishes with their own individual spoon."

Columnas, Tiffin & Toledo R. R. We call attention to a communication in another column, in reference to the new railroad enterprise. The writer of it has had much to do with railroads, both in building and in their management when finished, and his opinion is worthy of much consideration.

In Tiffin the matter is being pushed, and the subscription to the capital stock is increasing considerably. It is evident that our people are beginning to look at this matter in the right light, and are prepared to do what the interests of Tiffin and the country demand—subscribe liberally that the road may be secured.

Some little talk as to how the road shall be built has been had. It seems to be the general idea not to let the road get into the hands of Eastern speculators, as has been the case with most of the Western railroads. It is proposed to keep the road in the hands of the stockholders along the line, they to retain control from the inception of the work till it is completed.

The contracts for grading, bridging, etc., will be let to responsible parties at home, who will receive their pay from the per cent. to be levied on the capital stock. The capital stock is to be large enough to complete and equip the road, with the assistance of the Cleveland, Columbus & Cincinnati Railroad and the Pittsburg, Ft. Wayne & Chicago Railway, both of which take a lively interest in the road.

The track of the former is to be used by the C. T. & T. from Crestline to Columbus. The C. C. & C. R. R. is an evidence that a railroad can be built by the stockholders on the line and they retain possession of it. That railroad was built in that manner, and to-day the stock is not on the market, but remains in the hands of the heirs of the builders of it. The same cannot be said of any other road in the West, and withal it is more than a first-class investment.

We must have the Columbus, Tiffin & Toledo Railroad without fail. Our future prosperity depends upon it. And if we let this opportunity slip we shall do injustice to our pockets and to the welfare of the city and county.

Shall this matter not be pushed with the vigor it demands? Let us have no dead-heads—but push things.

"The virchowas of a convent" like hot-house fruits—tender but tasteless.

Don't fail to hear Josh Billings, the great humorist, next Saturday night at National Hall.

SUDDEN DISAPPEARANCE.—For about a year there has flourished, until very recently, at Republic, in this county, a gentleman of fine, commanding presence, scholastic ability and administrative powers, a pedagogue—named S. B. Witter. We believe they have in that town an institution of learning of the denomination Academic. The building is a credit to the place, and it was fondly hoped by the citizens, when this "Professor" Witter was employed to preside therein, that the school would become renowned. If the school did not, the "Professor" did. His fame spread abroad among the people to such an extent and in such a manner that disturbances were created and the usually quiet town became a scene of constant excitement. Suddenly, about two weeks since, Witter was seen for the last time in Republic, and some of his friends, affecting to believe that he had been foully dealt with, called a meeting at the town hall one night last week to take measures for the recovery of the "gold corpus," and the condign punishment of the miserable wretches who had "kicked his head."

It was there stated that the Professor was seen in Tiffin on the morning subsequent to his disappearance from Republic.

It is said that a woman—pretty, and all that sort of thing—is at the bottom of the whole matter.

POSTORIA ITEMS. RELIGIOUS.—Rev. Charles Reynolds, Pastor of the M. E. Church, commenced a series of meetings last Monday evening, which will be continued as long as there is a prospect of doing good in the conversion of sinners. It is to be hoped that the Church will reap an abundant harvest.

Business in Postoria is beginning to brighten up. Pork is coming into market in small quantities. Our merchants and business men generally are doing a lively trade, and expect a continuance during the winter. A large business is now being done by different parties in buying and shipping poultry, Turkeys, geese, ducks and chickens are in good demand here and bring the highest market prices.

The Presbyterian Society here intends holding a Fair during the holidays. Various articles, manufactured by the Sewing Society, will be for sale, the proceeds to go to the benefit of the Church.

AN ALARM of fire was made last Monday evening by some mischievous boys, which caused a general rush into the streets. But no fire or boys could be seen.

WATER set in, in earnest on the morning of December 1st, and has continued in force ever since; and from present appearances we will soon hear the jingle of the merry bells on our streets.

DEATH.—Your correspondent regrets to announce the death of an only child of Eli and Delilah Snyder near this place, on the evening of the 2d inst.

THE LODGE of I. O. G. T. of this place, held an open session on Tuesday evening, December 1st. Rev. Charles Reynolds, Pastor of the M. E. Church, delivered a temperance address on the occasion.

Council Proceedings.—After taking the trouble, last week, to copy the proceedings of the City Council we omitted them, and could not then publish. We therefore give the proceedings for the two weeks:

Resolutions of Respect. At a meeting of the members of the Grand Old Democratic Society, the following resolutions and resolutions were read and adopted:

Resolved, That in the wisdom, God has seen fit to remove from earthly existence with us, our Brother Albin Baber, to His will we bow with reverence, while we feel sorely the loss of his worthy and assiduous brother, who by his patient endurance and kindly disposition, his self-sacrifice and sacrifice, in behalf of our beloved country, had won our love and respect. We therefore tender to his family, in their bereavement, our kind wishes, in the hope that his noble spirit may rest in peace.

Resolved, That to keep his memory green among the members of this society, we will keep his name on our roll, calling the same in its proper order at every roll call.

LOCAL BUSINESS NOTICES. Spectacles and Nose Glasses, suitable for all ages, at GALLUP'S.

A FINE DISPLAY.—Passing the book store of Geo. B. Huss a few days since, we noticed a fine display of Statuary, Chromes, etc., in the window, which, it struck us, would be appropriate for Christmas presents. Entering the store, we were informed by Mr. H. that he was receiving a large stock of holiday goods, which would appear on exhibition in ample time for such as desire to make selections for the coming holidays.

THE HOLIDAYS.—Brown, Schlosser & Co., offer holiday presents in the shape of bargains in Dry Goods. These gentlemen know just how to touch the pockets of their customers lightly by giving large amounts of goods for a little money—that is, selling lots of goods and making small profits. That is why they do such a large business. See their advertisement.

HOUSEHOLD WORDS.—When we were young, and the Thompsonian medical practice was in vogue, an article called "No. 6" was supposed to be good for "all the ills that flesh is heir to." Superadded "No. 6" is "No. 4." Look in any direction and you are confronted by "Doerle's No. 4." The exchange is a good one, for while all have lost faith in "No. 6," the knowledge that at Doerle's "No. 4" is the place to secure the best of bargains is spreading and abiding among the people.

PIANOS FOR THE HOLIDAYS.—We are agents for Chickering, Gilbert, Emerson and Guild, of Boston, and Knabe, of Baltimore, and will sell any of those excellent instruments more reasonably than any other dealer.

AMERICAN WATCHES, at lowest prices, at GALLUP'S, Opposite the Court House.

GOLD PENS.—A full assortment of warranted Gold Pens may be found at WM. GALLUP'S, Opposite the Court House.

HOW TO IMPROVE OUR SANITARY CONDITION.—A great cause of disease is improper food and hurried eating. In order fully to understand how to eat and how to conduct ourselves after eating, it is necessary that we should be acquainted, in some measure, with the process of nutrition. Many persons trouble their stomachs by eating too fast and swallow it without mastication, contrary to the laws of nature. Food should undergo thorough mastication and salivation before it enters the duodenum and becomes mixed with the bile and pancreatic juices. This pile is then secreted by the liver. The chyme having undergone the changes referred to is urged, by the peristaltic motion of the intestine, onward through the alimentary canal. If the peristaltic motion be diminished, owing to the deficiency of bile, the progress of digestion is retarded and the bowels become constipated and dyspepsia often follows. In such cases a thorough and active cathartic should be used to produce specific action, arousing the secretions and producing free bilious evacuations. The best article for this purpose is Dr. Roback's Blood Pills, the use of which should be followed by Roback's Stomach Bitters, to give tone to the stomach and aid digestion.

HERBIBER & MYERS, sole agents Tiffin, O., no 74.

The deceased died of Consumption. He was a soldier in the 12th U. S. V. and lost a limb at the battle of Winchester. Though he recovered his health, yet he has not been able to do any work since. He was a very kind and generous man, and his death is a great loss to his family and to the community.
