### Children Cry for Pitcher's Castoria.

When Baby was sick, we gave her Castoria.  
When she was a Child, she cried for Castoria.  
When she became Miss, she clung to Castoria.  
When she had Children, she gave them Castoria.

### Perhaps no American Miss has ever received such a shower of newspaper approval and eulogy as has fallen to the lot of Miss Betty Fleischman of Cincinnati for having broken her en- gagement to marry a Hungarian nobel- man of wealth and royal connections because he refused to become an Amer- ican citizen. She is a good and patri- otic girl—worthy of being the daugh- ter of the sound Republican, Hon. C. F. Fleischman, her father.The Sorehead and all-over gangrened politicians who are engaged in engin- eering a feeble opposition to the re- nomination of President Harrison may as well subside before they are stamped into the mud by the Republican masses. The intelligence of the party is fully persuaded that to discard Harrison after the magnificent record his admin- istration has made would be to court defeat, if not to deserve it, for he cannot be elected there is no other living man who, under existing con- ditions, could come within one hundred electoral votes of it.—Lancaster Gazette.Probate Matters. In the matter of the will of Samuel Powell; commission issued to A. J. Gardner to take election by Elizabeth Powell, widow, under will. The Police Patrol. Of the many attractions that have been presented at the popular Peoples Theatre, Toledo, none are better than the Police Patrol which will fill a week's engagement, with Tuesday, Thursday and Saturday matinees, commencing Monday, April 18. The matinee closes in time for early trains home. Prices, 15, 25 and 35 cents. Licenses. Christopher M. Parquette and Susie L. Foster. John H. Ducat and Nellie E. Carson. William Surston and Belle Baker. William H. Cromer and Libbie Decker. F. S. Hyter and Minnie E. Gandom. George Brubaker and Mertie Walton. Oscar A. Lowery and Dena Bowers. Frank Smith and Addie Hackman. OAT CULTURE. Experiments as to Quantity for Seeding. This question has been under experi- ment at the Ohio station for four years. In 1888 the largest yield came from plots seeded at the rate of five and six pecks to the acre. In 1889 the yield from the plots seeded at the rate of five, six, seven and eight pecks was practically the same. In 1890 the results were very irregular, owing to the disease of oats so prevalent that year. The plots receiving five, ten and twelve pecks gave the largest yields. In 1891 the experiments was duplicated, two vari- eties of oats being used. The work was done on land very uniform in quality, and the season was favorable. The re- sults are given in the following table: | Seed per<br>acre. | Yield per acre. | |-------------------|----------------------------| | | Widawake. Clydesdale. | | 4 pecks. | 44.1 bushels. 39.1 bushels | | 5 " | 45.6 " 41.1 " | | 6 " | 49.7 " 40.1 " | | 7 " | 50.9 " 42.2 " | | 8 " | 50.3 " 42.4 " | | 9 " | 45.9 " 39.5 " | It will be seen that with both vari- eties the largest yield came from seed- ing at the rate of seven and eight pecks per acre. The wide awake weighed 28 1/2 pounds per bushel, and the Clydes- dale 35 1/2 to 37. In both cases the lightest oats came from the four peck rate of seeding and the heaviest from the seven-peck rate. PREVENTION OF SMUT IN OATS. Repeated experiments, made at the Ohio Experiment Station and elsewhere prove beyond doubt that the loose smut of oats may be almost completely pre- vented by dipping the seed in hot water. To do this, have two vessels, in one of which water is kept heated to about 120 degrees, and in the other to about 135 degrees. Have loosely made baskets, with a wire or cloth cover, and considerably smaller than the vessel containing the hot water. Fill the basket with oats, fasten down the cover and set it in the vessel in which the water is heated to 120 degrees. Let stand ten minutes or more, shaking occasionally, so as to get the oats warmed up to this point, then take out and dip quickly into the water heated to 135 degrees, shake or stir vigorously for five min- utes, then remove and spread out to dry. Tests made at the experiment stations of Kansas and Indiana show that this treatment not only prevents smut, but increases the yield of grain to an amount considerably greater than that represented by the smutted heads, and this amount, as shown by actual count made at the Ohio Station, is often much greater than is suspected. Miles' Nerve and Liver Pills. Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills, speedily cure biliousness, bad taste, torpid liver, piles, constipation, Unqualified for men, women, and children. Smallest, mildest, surest! 50 doses, 25cts. Samples free, at A. R. ### GRAVE MISTAKE.

Physicians frequently make mistakes in  
treatment of Heart Disease. The rate  
of sudden deaths is daily increasing.  
Hundreds become victims of the igno-  
rance of physicians in the treatment of  
this disease. One in four persons has  
a diseased heart. Shortness of Breath,  
Palpitation and Fluttering, Irregular  
Pulse, Choking Sensation, Asthmatic  
Breathing, Pain or Tenderness in Side  
Shoulder, or Arm, Weak or Hungry  
Spells, are symptoms of Heart Disease.  
Dr. Miles' New Heart Cure is the only  
reliable remedy. Thousands testify to  
its wonderful cures. Books free. Sold
