LANE'S MEDICINE MOVES THE BOWELS Each Day. In order to be healthy this is necessary. A Suggestion on Money Saving. Going back to the history of Ohio, we find the French made explorations as early as 1669, but not until 1763 was there any establishment of trading post. The art of money saving has gradually grown and from the first trading in 1763 until the present it has been a question with all, how to save money. The establishment of banks is of no use unless we save our pennies. We can do this in no better way than to save it at the trading post. Such a trading post is at Toledo in the large store of Lamson Bros. where they have a large and better selected line of general dry goods, cloaks, curtains and portieres than they have ever before shown. They can save you money in your purchases. When in Toledo do not fail to call at the Lamson Bros. store. You will be welcome whether you wish to make a purchase or not, they will be glad to show you their lines and in any purchase made you can save money.

Last Wednesday night, after Henry Broka had gone to bed like a good citizen should do, Underhill gathered the neighbors together and loaded up with a rocking chair and pair of slippers and plenty of eatables and went over to Broka's, pulled him out of bed and compelled him to put on his best clothes and new slippers and then they seated him in the new chair. All this was done just because Mr. Broka had just scored 50 years. After that they had a splendid supper and a jolly good time and stayed right by Broka until plump two o'clock in the morning. Broka tried to make us think he didn't like it, but the happy smile that was spread all over his face convinces us that those neighbors and friends will always find a hearty welcome at the home of Henry Broka.
