

CARRIER pigeons are in regular service between Catalina island and Los Angeles, a flight of about fifty miles.

A GERMAN has invented a chemical torch which ignites when wet. It is to be used on life buoys. When one is thrown to a man overboard at night he can thus see the light and find the buoy.

A TROLLEY railroad running for fifty miles along country highways, and connecting six Indiana towns with Chicago, is soon to be built. It will be the longest trolley road in Indiana, and one of the longest in the country.

THE discovery of wood pulp as a substitute for rags in the manufacture of paper will, it would seem, soon have to be followed up by the discovery of a substitute for wood pulp. It is estimated that 800,000,000 feet of spruce logs will be needed to fill the requirements of the mills this year.

THE United States voting precinct with the highest altitude is that of the North Star, located near the celebrated North Star mine of King Solomon mountain in San Juan county, Col. The stone at the office door of the usual polling place is exactly 13,101 feet above the level of the sea.

BOYS living in and about San Diego, Cal., are making money catching horned toads for the Hawaiian government, which is importing them to destroy a Japanese bug which is ruining many crops in the islands. The government wants 5,000 toads, and is paying the boys \$1 a dozen for them.

HUXLEY'S face was thin and his complexion so dark as to be almost swarthy. When he shaved off his mustache and beard the skin was quite blue-black. His hair was worn long. On the platform he was a remarkably self-possessed man, without a trace of self-consciousness or embarrassment.

FRANCE is going to build at once two large cruisers of great power and speed, capable of competing with the British Terrible and our Columbia, and of overtaking the fast Atlantic liners. They will have a maximum contract speed of twenty-three knots, and must steam 7,500 knots at twelve knots an hour without recoaling.

SINCE the earthquake in Florence there is hardly a street in the ancient town that does not contain one or more lighted shrines holding figures of the Madonna and saints. In some streets there are as many as four or five of these shrines, with garlands of evergreens and flowers around them and rows of burning candles before the images.

THE effect of the Chicago drainage canal on lake levels is still under discussion. One of the leading engineers in charge of the work assures the secretary of war that the reduction of the lake level when the canal is taking its maximum of 10,000 cubic feet of water a second will never reach six inches, and that the average reduction throughout the year will not exceed three and one-half inches.

MRS. HETTY GREEN, who is not a new woman, but the richest old woman in the country, refused to pay ten cents for a slice of railroad lunch-counter pie at Freeport, Ill., the other day. She said that the price was exorbitant, and the meek pie man, in the confusion of the moment, cut it to five cents, under the impression that it was wrong to rob a pauper. Now he is robbing everybody else for revenge.

THE consumption of tobacco in its various forms shows a steady increase. Last month, according to government reports, there were manufactured in this country 365,726,647 cigars, 305,150,360 cigarettes, 22,057,443 pounds of tobacco and more than a million pounds of snuff. This was an increase over the production during the same period last year of nearly two million cigars, half a million cigarettes and one and a half million pounds of tobacco.

A BEETLE which feeds on the larvae of the potato bug has been discovered in Japan by Prof. Koelbe, of the California Horticultural commission, who recently discovered the Australian ladybird, which is fast clearing California orchards of scale pests. He has not communicated any details concerning the new discovery, but says he believes the beetle will exterminate the potato bug, which has cost American farmers so many millions of dollars.

F. L. COOMBS, ex-minister to Japan, says that, as to opportunities now in Japan for the average American, they are not good, as the Japanese are themselves back of every new enterprise, and others meant to develop the empire. "The Japanese have the money, too, to push these things," said Mr. Coombs. "They do not have to borrow it. Their exports last year exceeded the imports by \$20,000,000, and sums like this in a small country, among economical people, count a good deal."

A RAILROAD map, which is said to be the largest in the world, was put in place a few days ago in the great main waiting room of the new passenger depot of the Pennsylvania railroad at Philadelphia. The map measures 112 1/2 feet long by 15 feet wide. It is painted beautifully upon canvas, which is stretched along the upper half of the side walls of the waiting room, and the work is done so neatly as to make it appear that the painting is upon the wall itself. The lower portion of the wall space is to be finished with handsome wainscoting.

SONGS OF PRAISE.

They Float on the Air in Boston—The Big Religious Convention.

Boston, July 13.—The third day of the fourteenth international Christian Endeavor convention opened Friday with ideal weather. Despite the immense amount of energy expended by the delegates at the great meetings of Thursday and the greater meetings in the evening, thousands of them were up almost with the sun Friday morning, making their way to thirty churches in the city and vicinity, to attend the early prayer-meetings that began at 6:30 o'clock a. m. and lasted forty-five minutes.

All of the churches were filled at the early meetings, and it is estimated that fully 20,000 persons participated in them. Besides the delegates, many residents of the city attended before beginning their labors for the day. After the church meetings rallies and song services were held in the streets in many parts of the city, and hundreds of people on their way to work stopped to participate in them.

The morning sessions of the convention in tents Williston and Endeavor and in Mechanics' hall were attended by the same great hosts that were there Thursday. Before 9 o'clock a throng crowded the steps at the entrance of Mechanics' hall singing endeavor songs while they waited admission. On the Common the scene was duplicated outside the tents. As on Thursday hundreds were unable to secure admittance at the hall and later repaired to the tents. The sessions Friday forenoon partook more of a business character than their predecessors, interesting reports of the information committees and reports from the denominational meetings taking up an hour of the meetings in the tents.

Features of the sessions were the presentation of the state banner for the greatest proportionate increase in the number of local societies made by Rev. Wayland Hoyt, D. D., of Minneapolis, in Mechanics' building, to England's representatives; of the state banner for the greatest absolute gain in the number of societies, by Rev. F. E. E. Hamilton, of Newtonville, Mass., in tent Williston, and of the junior state banners for the greatest proportionate and greatest actual gain in the number of societies, by Rev. J. F. Cowan, D. D., of Pittsburgh, Pa., in tent Endeavor.

Addresses on the "Cardinal Principles of Christian Endeavor" were made at Mechanics' building by Rev. Knight Chaplin, D. D., of London, and Rev. O. A. Smith, D. D., of Evansville, Ind.; in tent Williston, by Rev. W. J. L. Cross, Sydney, N. S. W., and in tent Endeavor by Rev. J. L. Lamont, of Belfast, Ireland, and Rev. S. P. Rose, D. D., of Montreal. Owing to the international fame of the speakers these addresses attracted much attention.

The open debates on live endeavor topics at each of the meetings were earnestly participated in and were interesting features. The address of President E. A. Turner, D. D., of Lincoln, Ill., whose subject was "I Ought, Therefore I Can," delivered in Mechanics' building, was heartily received and produced much enthusiasm.

The praise and prayer services at the morning meetings were not a bit less earnest than they have been since the convention opened and with the chorus singing continue to be the great inspiration of the gatherings.

In the afternoon the committee work was discussed by the chairmen in fifteen churches. Evening praise and prayer services were held at the hall and two tents, and these three auditoriums crowded in upward of 30,000 delegates, and so great was the crush that fully 20,000 were turned away to hold open-air meetings. Following the half-hour prayer some of the ablest orators were heard, and encouraging reports were made of the Christian Endeavor movement in nearly every country under the sun, many of the speakers appearing in the costumes of the people they represented.

In the afternoon 1,000 of the most prominent delegates met in the Auditorium to consider the formation of a World's Endeavor society. The general sentiment was favorable to the plan, and it was voted to temporarily organize and to appoint a committee of five to formulate plans of organization and report at Washington next year. The name decided on was the World's Christian Endeavor union, its officers to be representatives of the unions of each nation. Temporary organization was effected by the election of Dr. Francis E. Clark, president; John Willis Baer, secretary, and William Shaw, secretary.

Three thousand persons packed old Faneuil hall in the forenoon to hear Moody, and after prayers at the beginning of the service Mr. Moody spoke with great vigor and force. The first part of his address was on the importance of prayer in successful Christian work and the impossibility of God's blessing without it.

Down on the "T" wharf the rally was opened with the hymn "Throw Out the Life Line," and it was chorused by both dealers and fishermen. Then followed an address and words of prayer by Frank A. Waterman.

Down in the pit of the chamber of commerce, surrounded by 200 builders and bears, Rev. Arthur Little led a band of 300 Endeavorers, who sang, prayed and spoke.

PASSED AWAY.

Rev. Dr. McAnally, a Prominent Religious Journalist, Dead.

St. Louis, July 13.—Rev. Dr. McAnally, senior editor of the Christian Advocate, and one of the most prominent men in the southern Methodist church, died at his residence here at 11 o'clock Thursday night. Mr. McAnally was born in Granger county, Tenn., August 31, 1817. He came to this city in 1851 and assumed charge of the Christian Advocate. During the civil war the paper was suppressed on account of its advocacy of the cause of the confederacy.
