## KICKED IN THE HEAD.

### A Six-year-old boy's Skull Crashed by a Horse.

On Sunday afternoon last, Harold, son of Frank Opperman, living a mile west of Tontogany, sustained injuries which will probably prove fatal. The father was tying a horse in the stall and the boy stepped up behind him in time to receive a blow from his heels. The left side of his skull was crushed in. Doctors removed a portion of the skull from the brain.

#### Astounded the Editor.

Editor S. A. Brown, of Bennettsville, S. C., was once immensely surprised. "Through long suffering from dyspepsia," he writes, "my wife was greatly run down. She had no strength or vigor and suffered great distress from her stomach, but she tried Electric Bitters which helped her at once, and, after using four bottles, she is entirely well, can eat anything. It's a grand tonic, and its gentle laxative qualities are splendid for torpid liver." For indigestion, loss of appetite, stomach and liver troubles it's a positive, guaranteed cure. Only 50c at all druggists.

#### A Belle of Fort Stephenson.

Last Thursday afternoon while hauling away the gravel which was dredged from the river last fall Jason Jacic found what he at first supposed was a peculiar stone. A close examination, however, proved it to be a cannon ball heavily coated with limestone formation. It is supposed it is one of the cannon balls fired at Fort Stephenson when it was attacked in 1813, as it is too large for "Old Betsy" the only cannon Major Croghan had.—Fremont Journal.

## NEW RAILWAY

### To be Built by the Ann Arbor Company.

Another important project which will call for an additional expenditure of \$150,000 is announced by the Ann Arbor railroad in connection with the vast changes and improvements being worked on Frankfort-on-the-Lake.

For some time the Company has been securing the right of way, and is finally in a position to announce the construction of a railroad connecting Frankfort and Crystal Lake, running for a great part of the distance along the shores of Lake Michigan and Crystal Lake.

The primary purpose of this improvement is to enable the guests at the new hotel and the occupants of the summer cottages at Frankfort to enjoy the splendid bathing facilities which will be provided at Crystal Lake. In the summer open cars will leave Frankfort every 45 minutes. The entire trip will require only 45 minutes, and the passengers will be enabled to stop at the grounds and at the colonies at Frankfort and Crystal Lake.

From a railroad standpoint it is also quite important, having a decided bearing upon the success of the vast scheme of important which the Ann Arbor has under way.

People who have visited Frankfort and Crystal Lake will recall that the two resorts are already connected by rail, but this new circle railroad will be a vast improvement for summer traffic, following, as it does, a picturesque and beautiful route close to the shores of the two lakes. It will also provide of course, more frequent and more rapid service, and the ride in itself will be so pleasant and beautiful that it will prove one of the attractions of the resort.

## ON A TOOT

### And Wanted to Kill His Wife and Others.

It was down at Rossford last Monday night when Henry Brown, a farmer and teamster living near Grassy Creek went on a rampage at Rossford and, the Times says, threatened to kill his wife, from whom he was separated, and kept the little village in terror until he was rounded up by Sheriff Kingsbury about 2 o'clock Tuesday morning.

Brown broke loose about 8 o'clock Monday night and, armed with two shotguns, he drove up and down the streets of Rossford vowing vengeance on his wife, on S. Doern, his son-in-law and on every one else that crossed his path. Mrs. Brown kept strictly indoors, and others kept out of his way, so that he did no damage to any one except himself.

On Tuesday night, so the story goes, Mrs. Brown left her husband and succeeded in getting her household goods out of the house. She immediately took her abode with her daughter, Mrs. Doern, in Rossford. It was there that Brown sought her out and laid siege to her for several hours. Sheriff Kingsbury was notified that Brown was on a rampage and came up and made the arrest.

Tuesday afternoon Justice Nearing, at Bowling Green, fined Brown \$5 and costs, a total of about \$15.

#### APPENDICITIS.

Some Facts Regarding Its Rapid Increase.

Appendicitis among Americans is certainly increasing and while this is probably due to the excitement and worry of American business life, it is more often directly traceable to constipation. Appendicitis is caused by extraneous matter entering the vermiform appendix and not by the swallowing of seeds. If the digestive organs are kept in perfect condition so the food is duly assimilated and the bowels move gently at least once a day, appendicitis will never develop. Don't take chances. Regular doses of Dr. Caldwell's Syrup Pepsin before meals will strengthen the organs of digestion, your appetite will be good, constipation disappears and you feel better in every way. Dr. Caldwell's Syrup Pepsin does not relax the bowels by irritation, but by curing indigestion, the cause of constipation. C. P. Champney will sell it in 50c and \$1.00 bottles, under a positive guarantee. Write for book of testimonials to Pepsin Syrup Co., Dept. 5, Monticello, Ill.

## AWAITING TRIAL.

### Beck and Austin Now in Hotel Kingsbury.

Last week Bud Austin, near B. G. was arrested for beating his wife, and given a workhouse sentence. The wife and infant child were taken to the Infirmary.

During the absence of Austin, it is alleged, William Beck of Perryburg and Ira Austin proceeded to dispose of a team of horses and a flock of chickens which were brought to Perryburg. Deputy-Sheriffs Farmer and Roach came over here Saturday and on Saturday night succeeded in rounding up the combination.

Beck was found in Toledo with one of the horses and six chickens. Ira and two little children were found at the home of a relative of Beck's named Roe, where they had been taken by Ira. The horse was also found there. Both were arraigned before Squire Nearing of B. G. on Monday morning and the cases were continued till Wednesday forenoon.

## PROTECTIVE ASSOCIATION

### Organized by Wood County Property Owners.

On Monday last a number of liverymen and stock owners from various parts of the county held a meeting at B. G. for the purpose of organizing a protective association. W. E. Diebly of North Baltimore, has been selected as president of the association and Alf. B. Farmer as secretary. W. H. O'Brien of Bradner, is treasurer.

The sheriff agrees to pay fifty dollars a year toward the expenses of the association, and has placed \$25 in the treasury for the use of persons in their efforts to capture criminals. The county commissioners have offered a standing reward of \$75 for every horse thief caught and convicted.

It is the intention to secure members of the association in all parts of the county.

The JOURNAL is informed that the association's efforts will not be confined to the capture of horse thieves alone but to all classes of thieves and the association will therefore be beneficial to all classes of people. Membership fee is one dollar. The next regular meeting will be held in Bowling Green on Sept. 16.

## GOOD ROADS.

### A Strong Argument in their Favor.

In the course of a report of the Industrial Commission on the distribution of farm products, it is pointed out that the average haul of the American farmer in getting his produce to market, or to the nearest shipping station, is 12 miles. The average cost per ton for hauling over the common country roads is 25 cents per ton per mile, or \$3 per ton for a 12-mile haul. Careful estimates, also, place the total tons hauled at 300,000,000 per year and the average haul at 12 miles, making the total cost of getting the surplus products of the farm to the local market or the railroad, \$900,000,000. This figure is greater than the operating expenses of all the railroads in the United States, which for the year ended June 1898, were only \$818,000,000. This cost will be greatly lessened by improvements in roads.

## HORSE AND BUGGY

### Stolen From Orrin Hubbel of Ross Twp.

Orrin Hubbel lives just over the line in Ross township on the Rossford road. His horse was stolen Thursday night last some time between 9:30 and 10:30 o'clock. It is a roan, aged eight or nine years, weighing 1150 to 1200 lbs., and worth about \$100. A top buggy painted dark red was taken, as was the harness. Sheriff Kingsbury offers \$25 reward for the arrest and conviction of each thief, if there are more than one. This is the second experience of the kind, his team and bobsled being used last winter at the time of the Rossford postoffice robbery, supposedly by the thieves in making their escape.

Sheriff Kingsbury received a message from the Sheriff of Van Wert saying that the horse stolen from Orrin Hubbel, of Ross township last Thursday had been recovered and the thief taken.

## GOOD BUTTER

### The Product of Denmark Creameries Unequaled Elsewhere.

It is reported that there is only one creamery in the United States, (located in Iowa) which can make butter equal to that universally produced in Denmark, but in no other country in the world—a butter that will stand tropic heat, melting and solidifying again without damage as it passes from warm to cold climates and back again. Usually, this change entirely destroys the flavor, leaving the butter like ordinary grease or oil. The Danes, however, produce a quality which will endure this ordeal without affecting its flavor or sweetness, being the only people of whom this may be said. Therefore, it is the popular impression that some secret process is used either in the preparation or the packing of their butter. This is positively denied it being asserted that there is no secret process, no preservatives used, no chemical change produced before packing. Nevertheless, none of the butter packers there will allow their factories to be inspected, thus giving strength to the suspicion of some secret process.

#### What A Tale It Tells.

If that mirror of yours shows a wretched, sallow complexion, a jaundiced look, moth patches and blotches on the skin, it's liver trouble; but Dr. King's New Life Pills regulate the liver, purify the blood, give clear skin, rosy cheeks, rich complexion. Only 25c at all druggists.

—The Ladies' Home Journal for September is the "Special Autumn Fashion Number" of that excellent magazine. In addition to an unusual number of interesting stories and striking features, it devotes seven pages to a complete setting forth of the styles-to-be in dresses, bodices, hats and wraps. The most important literary feature, perhaps, is the initial installment of "Miss Alcott's Letters to Her 'Laurie'"—letters which have never before been printed. They are edited by "Laurie" himself—now grown up. There is a delightful description of a day in the woods with Ernest Seton-Thompson, and a jolly recital of "The College Scrapes We Got Into," by "A Graduate." In addition to the regular department there are valuable articles on "A Cleverly Planned Nursery," "Plants Which Can be Raised in the House," and plans for an ideal \$7000 house. By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a copy.

## SEVERAL YEARS OLDER

### Than That "Ancient Mahogany Chair" of B. G.

B. G. papers published the following item; B. L. Abbott, of this place, has a mahogany chair which, he thinks, is one of the oldest in this section. It was used by Gen. Knox, of the Revolutionary War, and was bought by Mr. Abbott of Miss Harriet Gleason, of Hillsdale, Mich., a great-grand-daughter of Gen. Knox. Mr. Abbott has been offered and has rejected \$100 for the chair.

The above mentioned chair is but an infant compared with one owned by Mrs. H. H. Sargent of this place, which was imported from Holland in 1744, and has been handed down from one generation to another of the relatives, until it now occupies an honored place in Mrs. Sargent's home in Perryburg. The chair is of Mahogany and very valuable not merely as an heirloom, but because of its design and workmanship.

## TOLEDO AMUSEMENTS.

### Opening of Bart's.

It will be pleasing news to theatre going public to know that the handsome Bart opened for the fall and winter season with Thursday matinee. This popular play house has a warm place in the hearts of the people. The opening attraction will be Lincoln J. Carter's scenic comedy drama, "The Eleventh Hour," a play that is calculated to please everyone, a play that has more startling climaxes than anything the author has heretofore presented will be seen. The first act shows a rural home in DeKalb county, Illinois, the third act, a block tower on the Chicago Northwestern railroad, near Chicago. The fourth act is the famous Bismark Gardens of Chicago, a resort patronized by the elite of the city. The fifth and last act is a reproduction from a photograph of one of the best known millionaires mansions on Michigan avenue, a most gorgeous drawing room with all of its costly bric-a-brac, tapestries and hangings. Everything used in this scene is carried by this company and has been made in fac simile of the original. The actual cost of the original of this scene was \$85,000. The cost of this play is far superior to anything that Mr. Carter has ever sent out, comprising several of the best known actors and actresses in the profession.

### The Geraldine Sketch.

Eastern critics for once made no mistake when they called Clayton White and Marie Stuart's turn "the best in vaudeville." It is called "Geraldine," and is the sequel to the "Dickey" that was played at the Farm by the same people during the early part of the season. It can be recommended, and with a clear conscience.

"It was all the devil's fault," says a defendant in Pennsylvania, charged with stealing a coat. "He rose before me in the shape of a dark form and whispered to me: 'Take that coat.' I immediately became his servant." A simpler defense would have been to say that the defendant, being a follower of the new fashion, had merely borrowed the coat long enough to get dinner at a hotel.

How California women keep so young has long been a mystery, and Mrs. Worthington, of Monterey, addressing a meeting of women, explained that she had celebrated her seventeenth birthday twice. This was better than celebrating up to 38 and then stopping.
