FATALLY INJURED

By Walking Off of a Moving Train.

On Monday evening last an accident occurred at LeMoyno which may result in death to a prominent citizen of that locality.

Caleb Root, a man 70 years of age, and weighing 250 pounds, had been to Bradner and was returning. When the conductor called out LeMoyno, he got up and went out. He stepped off the train before it had reached the depot and was thrown by the impetus of the train, which was going at the rate of about twenty miles an hour.

He was conveyed to his home and medical aid summoned. He was unconscious and little hope is entertained of his recovery.

BADLY BUMPED.

Team and Wagon Knocked off the Track by an Engine.

Wednesday morning, Nov. 6, at about 6 o'clock as Wm. Perrin's team was being driven across the C. H. & D. R. R. track at Roachton, the wagon was struck by the engine of a freight train and the wagon almost completely demolished, the harness badly damaged, and one horse injured in such manner that his usefulness will probably be destroyed.

The driver, Otto Swartz, was walking alongside the wagon and could not see the train on account of the wagon being between them, and as he claims no whistle had been sounded for the crossing, he was unconscious of any danger until the train struck the wagon. It was a narrow escape for him although he was badly shaken up.

One horse was knocked down and it is feared the injury to his legs may make him practically useless.

Great Luck of An Editor.

"For two years all efforts to cure Eczema in the palms of my hands failed," writes Editor H. N. Lester, of Syracuse, Kan., "then I was wholly cured by Bucklen's Arnica Salve." It's the world's best for Eruptions, Sores and all skin diseases. Only 25c at C. P. Champney's.

GOLDEN WEDDING.

Gerhard Kleekamp and Wife Celebrate their 50th Anniversary.

Last Tuesday, Gerhard Kleekamp and wife of Fort Jennings, O., celebrated their golden wedding in St. Rose of Lima Catholic church. They are the parents of Rev. J. H. Kleekamp, pastor of the Catholic church.

The school children accompanied the venerable couple to the edifice. Solemn high mass was celebrated at 9 o'clock by Rev. Father Kleekamp, assisted by Rev. Chas. Braschler of Bucyrus, Rev. Father Rieken of Fostoria, Rev. M. Vollmeyer of Custar, and Rev. Pyl of Maumee. Two grand children carrying bouquets, accompanied the jubilarians to the altar. Excellent music and singing was furnished by St. Rose of Lima choir, Prof. Jos. Rossbach presiding at the organ.

The church was most tastefully decorated for the occasion, and was crowded with parishioners, who came to witness the ceremony.

After high mass a sumptuous banquet was served at the pastoral residence. After the banquet the jubilarians were presented with some very valuable presents. Some of them came from the Misses Bick of Toledo; from the Sisters of Notre Dame, Cleveland, etc. Some of the presents consisted of a silver fruit dish, presented by F. H. Kleekamp, attorney at Ft. Wayne. \$50 in gold, coined in 1851, was presented by Rev. J. H. Kleekamp and his brother Barney. This golden wedding will long be remembered by all who witnessed it.

FAMILY REUNION.

Survivors of a Family of Eleven Who Were Early Settlers.

On Thursday, Oct. 23, a family reunion was held at the home of W. A. Mandell, east of town. The event was in honor of William A. Creps and daughter Mimi who were here visiting relatives—G. W. Creps and John W. Creps being his brothers, and the sole survivors of a family of eleven persons who came to Perrysburg in the Spring of 1833. There are a large number of nephews and nieces who were also pleased to entertain the guests, and Mr. Creps also had the pleasure of visiting old acquaintances who were school mates in the little old brick school house that stood on Walnut street long years ago.

The reunion at Mr. Mandell's was a very pleasant occasion and the guests were delightfully entertained.

On Friday last Mr. Creps and daughter left for their home in California after a months visit with relatives here.

New Goods for Fall and Winter.

Now is your time to get your suits and overcoats before the rush comes, a very large stock to select from and will be made in the best of style. There is a satisfaction in having clothes made to fit and to have a new stock to pick from at reasonable prices. Please call at 107 Summit street.

32d JOHN DAIBER AND SONS.

THE RESULT

In Wood County is Very Gratifying.

Entire Ticket Elected by Largely Increased Majorities.

The JOURNAL goes to press too early (Thursday at 2 p. m.) to be able to give official results of the election in tabulated form in this issue.

In Perrysburg township the vote is as follows:

	N	E	W
Gov—Nash r.....	101	48	142
Kilbourne d.....	157	68	117
Sen—Godfrey r.....	104	51	149

Love's Young Dream.

No more the hammock's on a strain,
No more the front gate groans,
While two young lovers swing, and talk
In dulcet undertones,
But now the coal stove burneth warm,
As stoves are apt to do,
And a capacious rocking chair
Creaks 'neath the weight of two.

TOLEDO AMUSEMENTS.

"Way Down East."

William A. Brady's special production of "Way Down East," which opened at the Valentine theatre on Thursday evening, comes direct from Chicago, where it has been for four months at McVicker's theatre. The business done during this period is said to have been enormous. There will be but four performances of "Way Down East" in Toledo, Thursday, Friday and Saturday nights with a matinee Sunday afternoon of this week.

The agent entered into a contract with the Toledo Transfer company, whereby the latter is to take care of, feed and stable all of the stock carried by the "Way Down East" company. This organization carries a special 60 foot stock car to transport the sheep, cows and horses used in the production. There will be no increase of the regular prices.

"The Evil Eye."

"The Evil Eye," played to another packed house last evening. The performance is new and bright and among the features is the first appearance of the Victoria troupe of royal dancers, a large and handsome group of bonnie English girls, who have been specially imported for this attraction and who excel as clever singers and dancing specialists.

New and attractive ballet divertissements have been prepared by Aurelio Coccia, the noted Maitre de Ballet among which are "The Dance of the Tourists," "The Merry Pierrots," and many other clever terpsichorean novelties.

"San Toy."

San Toy, dainty, picturesque and tuneful, will be the offering at the Valentine theatre, Monday and Tuesday, November 11 and 12. It will be presented here by the Augustin Daly Musical company, which includes Samuel Collins, Carolyn Gordon, George K. Fortescue, Elgie Bowen and others, including a chorus of 75. The orchestra will be under the direction of John Braman.

HOME MISSIONS.

Meeting of the Society Held in Perrysburg last Thursday.

The Woman's Home Missionary society of the M. E. church of Toledo District held their annual meeting at the M. E. church of this place all day Thursday Oct. 31. The church was prettily decorated with flowers and flags—the flags representing the patriotic character of the organization. Missions are conducted among the foreign populations of our cities, among the colored and poor white people of the south, among the Mexicans and Indians of the territories and Alaska, among the Mormons and the Chinese and Japanese of California. A large part of the work is done by deaconesses among the poor of the cities. The object of the society is the elevation, christianization and education of the submerged or lower classes of our own land.

About seventy-five ladies were present from Toledo, Bowling Green, Gibsonburg and Findlay, some of the other auxiliaries of the District not being represented. A very interesting and instructive programme was given. In the evening Miss Margrette Edmonds gave an account of her work in Toledo as Visiting Deaconess.

Mrs. N. W. Bass of Syracuse, N. Y., gave a very fine and comprehensive address upon the work of the Woman's Home Missionary Society, dwelling practically upon the fast-growing national problem of the teaching and Americanizing of the thousands of foreigners who are daily coming to us.

Music was furnished by Mesdames Williams, Eberly, Gilman and Berthoff.

The following officers were elected for the coming year:

Pres.—Mrs. C. W. Wertz, Toledo.

Cor. Sec.—Mrs. John King, Toledo.

Rec. Sec.—Mrs. Stewart Wright, B. G.

Sec. of Mite-boxes—Mrs. Frank Pennell, Gibsonburg.

Sec. of Young People's Work—Mrs. Edith Muddy, Perrysburg.

PROMINENT CITIZEN

Of Lime City Found Dead in His Bed.

On Tuesday morning last about 3 o'clock, Nicholas Zingg of Lime City, passed from life very suddenly. He was in fairly good health when he retired at night but woke up and complained of his feet being cold. His wife carefully wrapped him in flannels and he apparently went to sleep. Later she spoke to him but receiving no reply she observed that his hands were cold, which alarmed her, and upon securing a light discovered that life had become extinct. The Coroner decided that death was due to paralysis of the heart.

Mr. Zingg was 67 years old, and conducted a dairy farm, on which he had lived since 1865. He came to America from Switzerland, his native country. About four years ago he had trouble on account of heart disease, but had not since complained till Monday, while he was milking. He then complained of his heart but finished his work as usual.

Deceased leaves three sons, John, William and Charles, and two daughters—Mrs. Louis Emch and Mrs. Thos. Tinney.

The funeral services were conducted by Rev. Ide at the German Lutheran church in Perrysburg, Thursday forenoon, and the remains interred in Fort Meigs cemetery.

AGRICULTURAL NOTES.

Our Washington Correspondent says: According to Minister Powell, at Hayti, that island will soon rival Cuba in the production of fine grades of tobacco. It has, he says, a more equable climate, free from cyclones and hurricanes, and a far more fertile soil, which has not been weakened by long-continued cultivation; all that is needed is skilled cultivation and proper curing. It may be said that tobacco culture has now passed the experimental stage and will within a few years become an important source of revenue to this Republic. A new species, which has been produced by cross fertilization, is said to surpass in many respects the best Cuban grades. One factory there, under American-German management, employs a force of skilled Cuban cigar makers, who are turning out daily many thousands of fine cigars, amounting in value to \$150,000 per month. Fifty per cent of this is consumed at home, 25 per cent goes to Germany, and the remainder to France, England, and Mexico. Owing to the high tariff, no attempt has as yet been made to introduce the cigars into the United States.

The Agricultural Department is anxious to secure a number of veterinary surgeons for service in the bureau of Animal Industry, where they will be employed as quarantine officers, to supervise the experiments of the Department, to inspect dairy products and certify to their purity and other purposes. A civil service examination is required but as that commission finds it impossible to supply the Department with the number of surgeons needed by it, no competent man will have the least difficulty in securing an appointment.

Dr. Salmon, chief of the Bureau of Animal Industry, urges the keeping of poultry on all farms, and especially in all fruit orchards. He says: "Chickens are especially valuable in orchards, where they can have a free range nearly all the season without doing a particle of damage, while they keep down insects. This is particularly true in regard to plums, which they sometimes save altogether from the ravages of the curculio; apples also are greatly benefited. Where there are small fruits that the poultry might damage, it is easy enough to confine them during the limited time when these are ripening. The waste fruit will also form a substantial part of their food. Poultry however, are exceedingly valuable on any and all farms, when fenced away from the gardens and flower beds. The amount of good they will do in preserving the crops from worms, larvae and insects is simply incalculable—to say nothing of the profit derived from their sale."

A. C. FULLER.

History as well as contemporary evidence corroborates the theory of Hygiene and Climate. Dr. W. Wilson, of the Milwaukee weather bureau, states that the question of health is not so much one of climate as of hygiene. Plague annals of the middle ages and of antiquity show that approach of pestilence aroused in the masses ignorant dread and despairing superstition, alike among pagans and Christians. Plague still afflicts the human race and its beds lie still in the filthy orient. The cleanly west-pays small heed to its couriers beyond bidding towns look after their sanitation. New Orleans was afflicted with almost chronic epidemics until Ben Butler cleaned it up and taught it the practical value of sanitation. Yellow fever used to be held an inevitable summer visitant of the gulf and river towns of the south. Now those whose sanitary systems are scientific pay no attention to its recurrence elsewhere because they escape it on account of their sanitary organization. For the first time in its history Havana was free from yellow fever this June. American sanitation has wrought this change. Many still living remember when the entire population of Michigan, Indiana and other western communities were expected to shake with ague one day and to burn with fever the next. Fever and ague disappeared with the introduction of sanitation. When enlightened man knows how to dress for the tropics, what to eat there and how to adapt himself otherwise to their natural conditions, plus the sanitary system of the temperate zone, climate will count for less in civilization.

That Thrubbing Cough

Would you really leave you and your Dr. King's New Life Pills. Thousands of sufferers have proved their merit as less merit for sick and Nervous Headaches. They make pure blood and build up your health. Only 25 cents. Money back if not cured. Sold by C. P. Champney, druggist.
