### THE SECRET OF SUCCESS.

Forty million bottles of August Flower sold in the United States since its introduction! And the demand for it is still growing. Isn't that a fine showing of success? Don't it prove that August Flower has had unflinching success in the cure of indigestion and dyspepsia—the two greatest enemies of health and happiness? Does it not afford the best evidence that August Flower is a sure specific for all stomach and intestinal disorders—that it has proved itself the best of all liver regulators? August Flower has a matchless record of over thirty-five years in curing the ailing millions of these distressing complaints—a success that is becoming wider in its scope every day, at home and abroad, as the fame of August Flower spreads. —R. S. Sweet of B. G. gave the JOURNAL a pleasant call on Monday afternoon. Mr. Sweet is secretary of the Wood county fair association and has also built up a splendid business in which he has a monopoly in Wood county. He is an expert accountant and his skill in straightening up accounts has been the means of establishing a business which is not only producing a fine income for Mr. Sweet but is proving a blessing to many business establishments that cannot afford to keep an expert accountant employed all the time but by having Mr. Sweet take their books and look after their accounts they are enabled to get the service of an expert for only such time as is necessary to do the business. Many firms have found this an excellent system and thus Mr. Sweet has work for a large force of clerks whose work he superintends, and thus gives his clients a service they could not afford under any other system.
