

IN ALABAMA

THE LAND OF SUNSHINE AND PLENTY—OWN A FARM AND BE INDEPENDENT.

We have a Tract of the Finest Land in Southern Alabama to be sold in 40 to 160 Acre Tracts—Cash or Easy Payments—Located in Washington County—Most Healthful Spot in the South.

No cold weather, no coal to buy, less clothing, and, in fact, living is one-half the cost as in the north. A man with very little capital can own a forty-acre tract and become independent in a few short years by raising vegetables and fruits for the northern and eastern markets. We have the best shipping facilities, both by water and rail, making our lands the best garden spot in the country. This section offers more advantages for the wage earner or the man with a small capital than any spot on this green earth. This land will yield larger profits than you can realize out of northern land worth \$150 per acre. The land is a rich sandy loam, with a clay subsoil, and grows peaches, pears, grapes, figs and all kinds of small fruits and vegetables in great abundance. Also corn, oats, sweet and Irish potatoes and cotton. This location is famous for its salubrious climate and curative powers. Plenty of creeks and pure spring drinking water. We are erecting a hotel, church, schoolhouse and store building in our new town,

FIGDALE, ALABAMA.

The Company's excursion will leave Chicago on March 20th. The fare for the round trip will be \$16.50 and furnishes a delightful excursion to the south. No expense to the purchaser.

LIVE AGENTS WANTED IN EVERY TOWN.

Write for full particulars and illustrated booklet. Address

TOMBIGBEE VALLEY LAND CO., Dept. D, Suite 829-831, 110 La Salle St., Chicago, Ill. Branch Office: Suite 610 City Bank & Trust Co. Bldg., Mobile, Ala.

FROM FOREIGN FIELDS.

The sum of 720,000 marks has been raised by the German army for the Moltke monument in Berlin.

There were 11,885 fewer deaths in London in 1905, ending with the Saturday before Christmas, than for the average of the last ten years.

An amateur society has been formed for the "diffusion of the cult of the bagpipe," not only in Scotland, but in England. A set of pipes costs from \$25 to \$250, according to finish and embellishments.

Harmonious.

The Caller—Your art gallery is a treat. This picture especially is delightful; the values are so well balanced.

Mr. Porkham—That's right. Frame, \$200, picture same price.—Puck.

RESTORE STRENGTH

Dr. Williams' Pink Pills Actually Make New Blood and Good Health Follows.

The evil effects that follow many diseases—particularly the grip and the wasting fevers, such as typhoid and malaria, are caused by the bad condition in which these diseases leave the blood. As a result, the flesh continues to fall away, the sufferer grows nervous and irritable, and even slight exertion causes shortness of breath. These are dangerous symptoms and indicate that the system is in a state that invites pneumonia, bronchitis or even consumption. What is needed is a new supply of rich, red blood to carry health and strength to every part of the body.

"I was all run down from the effects of the grip," says Mrs. Amelia Hall, of No. 5 High street, Norwich Conn., "and could not seem to get strength to walk; could not eat a full meal, my stomach was so weak, and I was so nervous that I could not sleep. I could only stay in bed a few minutes at a time, either night or day. The least little thing would startle me. I had difficulty in breathing and had frequent fainting spells.

"My general health was completely wrecked and I had neuralgic and rheumatic pains, dyspepsia, constipation, and female weakness. My physician attended me for the grip and again for the condition that it left me in, but I got no strength from the tonics he prescribed. In fact, nothing helped me until I tried Dr. Williams' Pink Pills and they cured me.

"I grow stronger and gained flesh from the time I began taking them. I am satisfied that the pills are all that is claimed for them and I shall do all I can to make their good qualities known."

Dr. Williams' Pink Pills cure nervous disorders of every kind, check wasting diseases and build up strength. For booklet, address the Dr. Williams Medicine Co., Schenectady, N.Y.

That Delightful Aid to Health

REVOLUTIONARY HEROINE.

Georgia Amazon, Who, Single-Handed, Captured Ten Depraved Tories.

Nancy Hart, the famous Georgia character of revolutionary days, is by no means mythical, but was a very real personage. Notwithstanding her gigantic frame, red hair, freckles and crossed eyes, her memory is kept greener among the people of her native state than that of many a more prepossessing heroine, says the Richmond News-Leader.

She was what is familiarly known as a Georgia "Cracker," a poor though intelligent white, who lived among the sand hills or in the isolated districts of the state.

Her capture of the ten tories while they were devouring the tempting viands she had been compelled to prepare for them is recognized as a historical fact.

During Andrew Jackson's presidency representatives from Georgia, desiring to bring that state to the notice of the president, decided to present a painting for one of the niches in the rotunda of the United States capitol building. At length it was completed—a portrait of Nancy Hart, bareheaded, barefooted, her skirts to her knees, crossing a shallow stream driving ten tories before her at point of one of their own guns. The president, who was redheaded and came of hardy pioneer stock himself, is said to have been very much pleased with the picture, and it is to be hoped that Georgia profited by the diplomacy of her representatives.

The idea that Nancy Hart followed her husband to Florida and died there is erroneous. After the fierce disturbances of the revolution had gone down as history she buckled up her yoke of oxen and with her children and grandchildren emigrated to South Carolina.

At one of the stops on the route her son-in-law became engaged in a drunken brawl and was taken in custody by an officer. Ever quick to meet an emergency, Nancy went to the rescue. Bestowing a few pugilistic bumps on the detainer of her son-in-law she seized the latter and lifted him bodily into the bed of the wagon and drove out of town.

Nancy Hart located near Edgefield, a small town not far from the Georgia line. Her fame preceded her there, and she was welcomed and respected by her neighbors. My grandfather's grandfather lived in Edgefield and was one of the early Baptist preachers. The Scotch-Irish were almost universally Presbyterian, but once agitated there was soon a large sprinkling of Baptists and Methodists throughout the south. The ministers were for the most part itinerant, and revivals that rivaled Moody's and Jones' in enthusiasm were held under huge open tabernacles, and men rode on horseback 100 miles to be in attendance.

Tradition says that Nancy Hart was converted at one of these meetings. It would be reasonable to suppose that time and hardships would have touched the red hair with gray and curbed the old dauntless spirit, but she was as strenuous in religion as in politics. There are mystical stories in my mind of a gaunt old woman embracing my dignified ancestor and disarranging his stock and dragging sluggard sinners by their queues and coat tails to the penance seat, but these are traditions repeated from generation to generation and I would not vouch for their authenticity.

However, I have always understood that Nancy Hart lived to a good old age, died and was buried in the old Edgefield district, now Edgefield county, S. C.

France's New President.

M. Fallieres, the newly elected French president, was born in Mezin. There is a church dating from the ninth century in the little city. Against its walls once nestled the smithy and home of a blacksmith. It was in that house, for his grandfather's church in 1872, but the smithy was born. The property was sold to the church in 18... but the smithy was carted away and set up again, stone for stone, in the outskirts of Mezin, where it still stands.

SHOULD A HORSE BE CLIPPED?

CLIPPING IN THE EARLY SPRING RECOMMENDED BY LEADING VETERINARIANS.

All Thinking Men Readily Recognize Its Advantages.

"A horse is a valuable asset, and should receive the best care possible. He should be well fed, comfortably stabled, carefully groomed and clipped in the early spring. If he receives these attentions he will work well and improve in value. A horse lives under artificial conditions. In his wild state he required none of these attentions, for he was able to look out for himself. The domesticated animal, being worked under conditions that are in themselves artificial, must be kept in condition for such work.

The clipping of a horse in the early spring is now conceded by all the leading veterinarians to be as essential to a horse's well being as shoeing him or giving him a comfortable bed to lie on. Farmers in England and France have been clipping their horses for many years, and American farmers are not slow to realize its advantages. A clipped horse dries out rapidly after a hard day's work, and will rest comfortably and be refreshed for the work the following day. An unclipped horse is liable to catch the heaves, pneumonia and all sorts of colds, rheumatism, etc. More especially is this so in the early spring, when his hair is long and he is "soft." If worked hard he will perspire freely and the moisture will be held by his long hair, and the food that should go to nourish him will be used to replenish the heat that is being constantly taken from his body by the mass of cold wet hair. If clipped, the perspiration will evaporate almost as soon as secreted, and when put in the stable he rests comfortably and his food does him good.

Some years ago a Buffalo street car company tested the value of clipping in the following manner: They owned 500 horses, and 250 of these were clipped early in the spring and 250 were not clipped. A careful record was kept of results, and it was found that of the 250 unclipped horses 153 were afflicted with coughs and pneumonia, while of the 250 clipped not one case of sickness was reported.

A man would not expect to enjoy very good health if he did hard manual work clothed with heavy underwear, a heavy suit and a fur overcoat, and after perspiring freely, as he naturally would, go to sleep without removing same. It is just as ridiculous to expect a horse to be in perfect health if worked under the same conditions.

If you would get the best returns from your investment in your horse, treat him right, and be sure and clip him in the early spring. A first-class horse-clipping machine can be bought at almost any hardware store for less than \$7.00.—Horse Review, Dec. 6th, 1905.

If you use Ball Blue, get Red Cross Ball Blue, the best Ball Blue. Large 2 oz. package only 5 cents.

A pretty girl never will get lonesome if she is given a chance to show off.

BABY'S TORTURING HUMOR.

Ears Looked as If They Would Drop Off—Face Mass of Sores—Cured by Cuticura in Two Weeks for 75c.

"I feel it my duty to parents of other poor suffering babies to tell you what Cuticura has done for my little daughter. She broke out all over her body with a humor, and we used everything recommended, but without result. I called in three doctors, they all claimed they could help her, but she continued to grow worse. Her body was a mass of sores, and her little face was being eaten away; her ears looked as if they would drop off. Neighbors advised me to get Cuticura Soap and Ointment, and before I had used half of the cake of Soap and box of Ointment the sores had all healed, and my little one's face and body were as clear as a new-born babe's. I would not be without it again if it cost five dollars, instead of seventy-five cents. Mrs. George J. Steese, 701 Coburn St., Akron, Ohio.

"Whenever there is an impending crisis," said the professor, who was in a retrospective mood, "there are always plenty of helpers to push it along."—Chicago Tribune.
