Arrested For Following Girls.

A young man residing near Dunbridge, it is understood, was arrested by the police Saturday on complaint of some girls who claimed that he was following them about the street and annoying them. The boys mother appeared in mayor's court and promised the mayor that if he would let the boy off this time she would see that he did not come to town again. He promised also to stay out and he was released with this understanding.—Sentinel.

Free Tobacco Seed for Farmers.

E. H. McKnight, manager of the L. E. B. G. & N. Ry. Co., says that there is no soil which is better adapted to raising tobacco than that of this section and that those who raise it find it a very profitable crop. He has received from the American Tobacco Co. a lot of seed which he will be pleased to give free to any farmer who cares to start in the business.

COMPLETE BY JULY

Electric Cars Will Connect Weston and Tontogany Soon.

The Desher Flag has the following relative to the new electric line which is being put in from Lima to Toledo via Weston, Tontogany, and Waterville.

Work on the Lima-Toledo Traction line was commenced in earnest this week, when a force of men were put to work on Keyser avenue and the yard at the north edge of town. We are informed that they will commence laying steel through this place before the week ends, the weather permitting.

We have it upon good authority that Desherites can leave by electric car either north or south by July 1st.

TAXES UNDER NEW LAW.

Under the new salary law all taxes must be paid on or before June 20 to save the five per cent. penalty. It is not now optional with the treasurer to extend time of payment and taxpayers should take notice, as conditions under the new law are different than formerly. The former law gave the treasurer more latitude in extending time than now. After the new system is in operation it is said by those who are informed that the people will like it better than the old. The law provides that taxes must be paid on or before a fixed date, and in case they remain unpaid, the five per cent. penalty is collected and put into the county treasury.

Mortimer J. Mann Dead.

IT'S YOUR KIDNEYS

Don't Mistake the Cause of Your Troubles. A Perrysburg Citizen Shows How to Cure them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Perrysburg people testify to permanent cures.

Christopher Knerr, living at corner of Sixth and Hickor streets, Perrysburg, Ohio, says: "Before I had the good fortune to learn of Doan's Kidney Pills some three years ago, I was suffering such severe attacks of backache that it was difficult for me to attend to my work. It hurt me to pick up anything from the floor and to add to the annoyance, I was bothered a good deal with a weakness of the kidneys, causing me to arise several times during the night which greatly disturbed my rest. The secretions were not only too frequent but were painful in passing. I had been troubled more or less in this way for twenty years and during that time I had taken several kinds of medicines but received little benefit. Some one advised me to try Doan's Kidney pills and about three years ago I had my first experience with them and they proved so satisfactory that I never had any desire to change to any other remedy. I keep them in the house all the time and when I feel a little out of sorts, I take a few doses of Doan's Kidney pills and they quickly help me. I know of others who have used them and were cured. I can't say too much in praise of them.

HOT WATER SYSTEM

Commissioners Let Contract for Heating Public Buildings.

After debating the matter of the heating of the county buildings for sometime Thursday afternoon says the Sentinel, the commissioners took a vote Thursday afternoon and by a vote of two to one decided to let the contract for the installation of hot water heat in the court house, jail and residence of the sheriff to the Lake Erie, Bowling Green & Napoleon Ry. Co., the bid of that company having been the best received on Tuesday. Messrs. Long and Gorrill voted for the proposition, while W. W. Sockman voted against it.

The bid of the company for installing the new plant is \$8499, \$51 less than the estimate, while they bid \$700 for the old material. The contract for heating the building is for \$1500 a year, for a period of ten years from the date of connection, and the commissioners have the privilege of renewing it at the end of that time for another ten years under the same conditions.

For the \$8499 the L. E. B. G. & N. Ry. Co. agrees to furnish the material and perform the labor necessary to install a hot water heating system in the court house, jail and residence of the sheriff on plans prepared by S. P. Stewart and Son of this city.

They agree to enter upon the work on or before May 31st and to complete it on or before September 1st, this year, or forfeit ten dollars for each day thereafter which may be taken to complete the plant, unavoidable accidents and casualties excepted. The amount forfeited is to be deducted from the price for installing. The contract becomes effective upon the company filing a bond of \$5000 with the county, which bond must be approved by the commissioners. The work of installing the system is to be done under the supervision and direction of Stewart & Son or some other suitable firm or person employed by the commissioners.

Should any change be desired in the plans or specifications, the same are to be made without violating or affecting the contract. Such work shall be agreed upon and put in writing and endorsed upon the contract; otherwise no allowance is to be made for any change.

The company agrees to do the work without any unnecessary noise to take due precautions for the safety of visitors to the building; to repair any damages to floors, walls, ceilings or fixtures and to leave everything in as good a condition as when found; to remove all dirt and stains; to guarantee a heat of 70 degrees when the water enters the building at 140 Fahrenheit in zero weather.

Installments to be paid to the company upon semi-monthly estimates and are to be equal to 90 per cent. of the material on the ground and the work done. Ten per cent. of the contract price is to be retained until the completion and acceptance of the work.

SUPPLEMENTAL CONTRACT

On September 21st, 1905, the commissioners made a contract with the company for the heating of the county buildings upon the installation of the hot water system, but as this latter was never done, the contract has never been started. Now a supplemental contract has been entered upon also. The two provided as follows: The commissioners agree to pay \$1500 a year for satisfactory heating of court house, jail and residence of sheriff. This is to be paid in three installments of \$500 each, on October (Continued on Eighth Page.)

Wonderful Eczema Cure.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at Wm. Comstock & Son's drug store. 50c.

FIFTY DOLLARS FINE

Bowling Green Officials Soak an Automobile Driver.

A telephone message from Bowling Green's Chief of Police last Friday evening, caused the arrest by Marshal Fuller and Deputy Mills of three men who were running through town in an auto at the rate of about forty miles an hour. They had scooted through Main street of Bowling Green at so rapid a rate that the city officials were given the blind staggers, but revived sufficiently to be able to phone over here to our auto catchers to scoop in the frisky flyers. They were scooped all right and taken back to Bowling Green where "Mayor Jim" said a few words which ended with "fifty dollars and costs," and then held out his hand for \$61.25. The strangers "dug up" and then dug out, for Toledo.

It is claimed that they were making a record run from Cincinnati to Detroit on a wager, but evidently forgot to send word ahead that they were coming.

In the case of Ohio against E. L. Spafford in which the latter was found guilty of presenting an illegal claim and was sentenced to one year in the penitentiary, the circuit court reversed the common pleas court and sent it back for retrial. Their principal reason for the reversal was the question of the length of days for which Mr. Spafford charged the remark by the prosecution that \$626 had been paid back, when this matter had not been testified to in the trial was also taken into consideration. The opinion was the same as that furnished several weeks ago upon a request by the prosecutor to the suspension of execution of sentence.

In the case of Benj. F. McCasin against the Village of Perrysburg and the county commissioners the court sustained the common pleas court. McCasin sought to restrain the defendants from putting in a sewer. Prosecutor Ladd filed a demurrer to his petition and the common pleas court sustained the demurrer and dismissed the case.

SUNDAY SCHOOL RALLY

Will Take Place at Bowling Green, July 4.

It consists of the rallying of all Sunday school forces of this great county, furnishing them with wholesome food for thought, providing them with interesting and innocent amusement, and engendering within the breast of every Sunday school worker a greater desire for more vigorous work.

The arrangements for the coming great rally are fast being completed and it promises to excel, in every feature, all previous occasions of this sort.

Too Swift for B. G.

Indications are that the police will have to get a pole and gate scheme for the capture of speeding autoists. One went through town Monday bound for Boston and his speed would indicate that he expected to be there for supper. He went faster than any telephone message therefore was not headed off anywhere down the line. Perrysburg appears to have the only real lead pipe cinch method of trapping the fiends.—Sentinel.
