Practical Fashions

LADIES' SEMI-PRINCESS DRESS.

Paris Pattern No. 3220, All Seams Allowed.—Made of blue and white foulard, with the sailor collar faced with blue silk, this dress is charmingly effective and springlike. It will be noted the panel effect is visible in the waist as well as the attached nine-gored skirt, and this feature offers great opportunity for hand embroidery when the design is developed in wash materials, or these portions may be made all-over embroidery with great success. The pattern is in 5 sizes—32 to 40 inches bust measure.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

Form for requesting pattern No. 3220, including fields for name, town, street, and state.

BOYS' RUSSIAN SUIT.

Paris Pattern No. 3216, All Seams Allowed.—Blue and white Scotch-ingham in combination with white linen is used for the stylish suit for little lads as here pictured, buttons of polished blue horn giving a little touch of decoration. The suit consists of a blouse with a very becoming panel front, a deep sailor collar and sleeves which may be box-plaited to cuff depth, or finished with gathers and wrist-band; and knickerbockers having the fullness at the knees confined by elastic-run casing. The pattern is in 4 sizes—2 to 5 years. For a boy of 3 years the suit requires as illustrated 1 1/2 yards of checked material 27 inches wide, with 3/4 yard of plain material 36 inches wide, or of one material throughout 2 3/4 yards 36 inches wide.

To procure this pattern send 10 cents to "Pattern Department," of this paper. Write name and address plainly, and be sure to give size and number of pattern.

Form for requesting pattern No. 3216, including fields for name, town, street, and state.

How Mountain Ranges Are Formed. Most mountain ranges are formed by gradual process. Some, however, are formed by sudden upheavals at times of earthquake, some by volcanic eruptions, and some by circumduction, that is, by gradual wearing away of the surrounding materials.

None to Do the Chores. More than four million people are estimated to attend moving picture shows in the United States every day. No wonder it is getting so hard to find somebody willing to do the chores.

CORPSE STANDING UPRIGHT

Section Hands Find Body Leaning Against Pole Near Railroad—Brothers Identify Dead Man.

Massillon, O.—A corpse, said by the police to be that of J. Maddrell, who has one brother here and two brothers in Canton, O., was found standing upright against a telegraph pole near the Pennsylvania tracks here. It was at first thought the body was that of a Cleveland man by the same name, but later the body was identified by the brothers. They left without making arrangements for the burial.

Mystery surrounds the manner in which the man met death. The theory that seems to prevail is that he fell from the vestibule of a train and died from the injuries thus received.

Although an examination disclosed the fact that both arms and one leg were broken and the skull badly crushed, the position of the body was so lifelike many passed it without discovering life was extinct. The wounds on the head are thought to have been the direct cause of death.

A Chicago customs tailor's label, showing the suit on the corpse was made for a man by the name of J. Maddrell, was the only clue as to the identity. The hat found on the body carried the label of Taylor & Puryear, Jonesboro, Ark. In the pockets were found several \$1 bills and a ticket from Canton to St. Louis. These led to the belief that the man came from the west and caused the police to look for a man by that name in Cleveland. The Cleveland man is a soldier in Co. L, Fourteenth U. S. cavalry, which has for several months been stationed at Boise, Ida.

DIES TO SAVE PASSENGERS

Cleveland Engineer Meets Hero's Death in One of Two Train Wrecks on Big Four.

Gallon, O.—Two Big Four passenger trains collided with freights near here, one wreck costing the life of a Cleveland engineer. Southwestern limited No. 11, leaving Cleveland at 1:40 a. m., struck the rear end of a freight near Delaware.

Because of the wreck, passenger train No. 41, which left Cleveland at 3 a. m., was derailed over the Erie tracks from here. Near Caledonia, the passenger hit the rear end of an Erie freight train. While the fireman jumped and escaped injury, Engineer Edward Mahoney, 3172 West Ninety-seventh street, Cleveland, heroically clung to his post, applied the emergency brakes and reduced the speed of the train sufficiently to save his passengers. His bravery cost his life, for he was crushed in the cab.

TAYLOR TO OPPOSE HARMON

Judge to be Administration Candidate for Governor of Ohio, is Latest Announcement.

Washington, D. C.—Robert W. Taylor is to be the administration candidate for governor of Ohio, it was announced here. He is now judge of the United States district court at Cleveland, but it is understood he will resign his office to make the race.

The Taft-Ellis forces have been trying to get Judge Taylor to consent to run for some time, but he has been reluctant to give up a good and dignified life position to enter upon a campaign where the outcome is at least doubtful. The Ohio delegation gave it out here, however, that his consent had been won, the understanding being that if he loses President Taft will put him in a federal job at least as good as the one he has now.

ABE LINCOLN DELEGATE DIES

Joseph Hartwell Barrett, Political Writer, Found Dead in Home Near Cincinnati.

Cincinnati, O.—Joseph Hartwell Barrett, one of the oldest political writers in this country, a man who served as commissioner of pensions under President Lincoln, and the last surviving member of the Ohio delegation to the national Republican convention which nominated Lincoln in 1860, is dead at his home here. He had been suffering from infirmities due to his advanced age of 86 for several months.

Mr. Barrett was to have gone driving with friends in the afternoon, but when they went to his home to call him they found him dead. He had made his home at Loveland, a Cincinnati suburb, for the past 20 years.

Spokane Ohioans Dine.

Spokane, Wash.—The Ohio Society of the Inland Empire, of which Dr. Charles F. Eikenberry, formerly of Eaton, is president, entertained 100 sons and daughters of the Buckeye state at a banquet in the assembly hall of the Spokane Chamber of Commerce. H. G. Kinsel, formerly of Zanesville, secretary of the organization, presided, those responding to the toast being as follows: Rev. Conrad Blum, Cleveland, "Politics in Ohio"; Dr. Charles F. Eikenberry, Eaton, "The Practice of Medicine in Ohio."

WILL MEET UNKNOWN MOTHER

Former Sandusky Girl, After Many Years, Learns of Her Real Parentage.

Sandusky, O.—A daughter and the mother that she never knew will be reunited as the culmination of a quest which, instituted by the mother in New Jersey, gained definite headway in Sandusky, ramified through southwestern Ohio and southern Illinois and ended in a suburb of Chicago. The daughter is Mrs. Grace Loosley, 7246 Princeton avenue, Englewood, Ill. The mother is Mrs. W. A. Walton, 503 Enory street, Asbury Park, N. J.

Until Mrs. Loosley in Chicago was just told the secret of her birth she believed herself the daughter of John Kugler, a former Sandusky furniture dealer. Revelation of the true story of her life caused the woman, long lost to her mother, to collapse. Through the efforts of a Sandusky newspaper man, following the failure of the police to aid Mrs. Walton in her search, trace of the daughter was gained.

CAR MEN ASK FOR BIG RAISE

East Liverpool Traction Employees Make Demands on Company as Wage Scale is Expiring.

East Liverpool, O.—More than 150 motormen and conductors employed by the East Liverpool Traction & Light Co. have made a demand for increased wages and other concessions. The present scale gives first year workmen 21 cents an hour, second year 23 cents, third year 24 cents and 25 cents to those with longer service records. A flat rate of 26 cents per hour to all employees is asked.

Five hours' pay is demanded for each time a car is taken out, even though the men are required to work for less period. Better heat and ventilation accommodations are also wanted. The present scale expires on May 1. Unless traction officials sign by that time, a strike may be declared.

WOODS REVEAL MURDER

Disclose Body of Man with Bullet Hole in Head and Revolver Far Away.

Toledo, O.—With a bullet hole through his forehead, John Hurni, 55, was found dead in a woods near Whitehouse. The revolver was found nearly 100 feet from the victim's body. Theories of suicide have been discarded and authorities are now working on the case as one of murder. Owing to the fact that Justice Schlei of Whitehouse viewed the body without first notifying the proper authorities, Coroner Henzler says he will take legal action in the case.

Charles Zingg, a dairyman living near Hurni, told the police that the victim had recently had a quarrel. Hurni's horses, drawing a heavy wagon, came home on a run two hours before the body was found. The victim was wealthy and a farmer.

BLACKLISTS "OH, YOU KID"

Reformer Asserts Slang Expression Defiles Morals by Disrespecting Marriage Relation.

Massillon, O.—"Use of the expression 'I love my wife, but, oh, you kid,' greatly injures people's morals," asserted Dr. Wilbur F. Crafts of Washington, D. C., superintendent of the national reform bureau, who has been stirring up Ohio cities lately by commenting on their wickedness. "People laugh when I say that, but it's true just the same. A man can't show disrespect for his wife and the marriage relation without affecting his moral character."

City Buys Up Fireworks.

Hamilton, O.—The dealers in fireworks have sold out to the people of Hamilton and the city is sure of a "safe and sane" Fourth of July. The fireworks, bought with a fund of \$500, popularly subscribed, will be set off at a park on the night of July 4 and in the meantime an ordinance forbidding the sale of fireworks will become effective. The common council had refused to pass the ordinance if it should cause loss to the merchants that had stocks on hand.

Two in Rig Hurt by Car.

Ottawa, O.—Harvey McDowell and Stuber Sackett, while driving home from Continental, were struck by a passenger car on the Ohio Electric line. McDowell was thrown about 15 feet, sustaining internal injuries, which will probably result fatally. Sackett suffered several broken bones.

New Rulings on Liquor Tax.

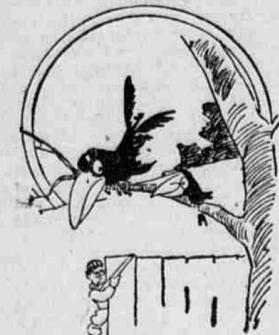

Columbus, O.—State Attorney General Denman has advised Dairy and Food Commissioner Dunlap that the liquor tax cannot be collected for selling malt beverages containing no alcohol. Since the supreme court imposed the tax on "near beer" there has been much question about the extent to which the rule could be applied. Practically none of the "near beer" is offered for sale with all alcohol removed. Denman holds that unfermented grape juice is not a liquor, as defined in the Alken tax law.

DELAY IS DANGEROUS.

When the kidneys are sick, the whole body is weakened. Aches and pains and urinary ills come, and there is danger of diabetes and fatal Bright's disease. Doan's Kidney Pills cure sick kidneys and impart strength to the whole system. Mrs. M. A. Jenkins, Quanah, Texas, says: "I was so badly run down that the doctors told me there was no hope. I was so low my relatives were called in to see me before I died. Different parts of my body were badly swollen and I was told I had dropsy. Doan's Kidney Pills saved my life, and made it worth living."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

WELL, WHY NOT?

Jimmy Crow—Say, maw! Mrs. Crow—Yes, my son. Jimmy Crow—If flies can fly, why can't crows crow?

WASTED A FORTUNE ON SKIN TROUBLE

"I began to have an itching over my whole body about seven years ago and this settled in my limb, from the knee to the toes. I went to see a great many physicians, a matter which cost me a fortune, and after I noticed that I did not get any relief that way, I went for three years to the hospital. But they were unable to help me there. I used all the medicines that I could see but became worse and worse. I had an inflammation which made me almost crazy with pain. When I showed my foot to my friends they would get really frightened. I did not know what to do. I was so sick and had become so nervous that I positively lost all hope.

"I had seen the advertisement of the Cuticura Remedies a great many times, but could not make up my mind to buy them, for I had already used so many medicines. Finally I did decide to use the Cuticura Remedies and I tell you that I was never so pleased as when I noticed that, after having used two sets of Cuticura Soap, Cuticura Ointment and Cuticura Pills, the entire inflammation had gone. I was completely cured. I should be only too glad if people with similar disease would come to me and find out the truth. I would only recommend them to use Cuticura. Mrs. Bertha Sachs, 1621 Second Ave., New York, N. Y., Aug. 20, 1909."

"Mrs. Bertha Sachs is my sister-in-law and I know well how she suffered and was cured by Cuticura Remedies after many other treatments failed. Morris Sachs, 321 E. 89th St., New York, N. Y., Secretary of Deutsch-Ostrower Unt-Verein, Kampner Hebrew Benevolent Society, etc."

Hopeless.

"Your store is no good, sir! I asked for lace curtains last week, and I couldn't get 'em."

"Indeed?"

"Yes. And I asked for silk socks yesterday, and I couldn't get 'em."

"That's strange."

"And today I asked for credit and can't even get that. Is this a regular store, or what?"

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

Or Else Burn.

Andrew Carnegie apropos of his epi-gram about the disgrace of dying rich, said at a dinner in Washington:

"Why should any one die rich? There are no pockets in a shroud, and for the man who'd like to take his money with him, why, even if he managed to do so, it would only melt."

A Good Butcher.

There's a good butcher in Dayton. His clothes, his aprons, his shirts are always so clean and white that people who buy their meats of him know the meat must be clean and good. We don't need to name him right out, but his wife uses Easy Task soap and that cleans butchers' clothes, aprons and linen.

An egotist is a man who is more interested in himself than he is in the tariff question or the price of food-stuffs.

DOCTOR YOURSELF. When you feel a cold coming on by taking a few doses of Perry Davis' Peppermint Cure, it is better than Quinine and saler. The large 50c bottles are the cheapest.

It is foolish to be up to date on somebody else's money.

Text includes '900 DROPS', 'ALCOHOL - 3 PER CENT', 'Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of INFANTS & CHILDREN', and 'The Kind You Have Always Bought Bears the Signature of Dr. J. H. Fletcher'.

The Overland The King of Cars

No other car has so large a sale—none has made such amazing records. Price, \$1,000 up.

It requires four factories, employing 4,000 men—turning out 140 Overlands daily—to meet the flood-like demand for these cars. Yet two years ago a hundred rivals had a larger sale. The reason lies largely in the car's utter simplicity. Its able designer made it almost trouble-proof. He created an engine which, for endurance, is the marvel of engineering. He designed the pedal control. One goes forward or backward, slow or fast, by merely pushing pedals. The hands have nothing to do but steer. A child can master the car in ten minutes. A novice can drive it a thousand miles without any thought of trouble. The Overland always keeps going, and almost cares for itself. All the usual complexities have been eliminated. That is why each car sells others, and our orders for this year's Overlands amount to \$24,000,000.

Another fact is that no other car gives nearly so much for the money. This is due to our enormous output, and the fortunes invested in our automatic machinery. It would bankrupt a smaller maker to try to compete with us. You can get a 25-horsepower Overland, with a 102-inch wheel base, for \$1,000. You can get a 40-horsepower Overland, with a 112-inch wheel base, for \$1,250. The prices include lamps and magneto. The car, which has captured the country, is the car you will want when you know it.
