

LEADING QUESTION.

Grace—What lovely sleighing weather, Jack! Jack—Yes, it is. Would you like to try it? Grace—Dear me, I should be delighted! Jack—Do you think your father would lend me his horse?

EYES WOULD BURN AND STING

"It is just a year ago that my sister came over here to us. She had been here only a few weeks when her eyes began to be red, and to burn and sting as if she had sand in them. Then we used all of the home remedies. She washed her eyes with salt water, used hot tea to bathe them with, and banded them over night with tea leaves, but all to no purpose. She went to the drug store and got some salve, but she grew constantly worse. She was scarcely able to look in the light. At last she decided to go to a doctor, because she could hardly work any more. The doctor said it was a very severe disease, and if she did not follow his orders closely she might lose her eyesight. He made her eyes burn and applied electricity to them, and gave her various ointments. In the two and a half or three months that she went to the doctor, we could see very little improvement. "Then we had read so much how people had been helped by Cuticura Pills for purifying the blood, bathed only with Cuticura Soap, and at night after washing, she anointed her eyes very gently on the outside with the Cuticura Ointment. In one week, the swelling was entirely gone from the eyes, and after a month there was no longer any mucus or watering of the eyes. She could already see better, and in six weeks she was cured." (Signed) Mrs. Julia Caspińska, 2005 Utah St., St. Louis, Mo., Aug. 25, 1910.

Cause and Effect. "Where is Bill today?" "Bill is sick in bed." "What's the matter with him?" "Well, you know that girl of his thinks he doesn't use tobacco. Yesterday he was hurrying around the corner and he ran right into the girl. He had a chew in his mouth." "Yes, yes; go on." "There were two things to do—hurry by or swallow." "Well?" "Bill talked to her for five minutes."

ASK FOR ALLEN'S FOOT-EASE the Antipruritic powder to shake into your shoes. Relieves Corns, Bunions, Ingrowing Nails, Swollen and Sweating Feet, Blisters and Callous spots. Sold everywhere, 25c. Don't accept any substitute. Sample FREE. Address: Allen S. Olmsted, Le Roy, N.Y.

Read not to contradict and confute, not to believe and take for granted, not to find talk and discourse, but to weigh and consider.—Bacon.

Dr. Pierce's Pleasant Pellets first put up 40 years ago. They regulate and invigorate, stomach, liver and bowels. Sugar-coated tiny granules.

Those days are lost in which we do not good; those worse than lost in which we do evil.—Cromwell.

Constipation, indigestion, sick-headache and bilious conditions are overcome by a course of Garfield Tea. Drink on retiring.

You can often tell what a woman really means by what she doesn't say.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

There never was a good war or a bad peace.—Franklin.

FILES CURED IN 6 TO 14 DAYS Your druggist will refund money if FAZO OINTMENT fails to cure any case of Itching, Biting, Bleeding or Prurient Piles in 6 to 14 days.

Even a little trial is a big one if you have no others.

Nature's laxative, Garfield Tea, is made of clean, sweet, health-giving Herbs.

A one sided argument never gets very strenuous.

Work While You Sleep

Millions of people have CASCARETS do Health work for them. If you have never tried this great health maker—Get a 10c box—and you will never use any other bowel medicine.

CASCARETS are a box for a week's treatment, all druggists. Biggest seller in the world. Million boxes a month.

TAKE A DOSE OF PISO'S THE BEST MEDICINE FOR COUGHS & COLDS

NOTES FROM MEADOWBROOK FARM By William Pitt

A hot bed is handy.

Birds destroy weed seeds.

The beet root is about one-eighth sugar.

Nearly one-fifth of the area of France is forest land.

This is the best time of year for culling out the poor cows.

The person to run the incubator is the first condition of success.

Agriculture in Germany supports about 19,000,000 of the population.

In one month a caterpillar will eat six thousand times its own weight in food.

Newly laid eggs need never become showpwn. They're in too good demand.

Don't buy seeds just because they are cheap and come in highly colored packages.

Sheep seem to be able to subsist on the poorest land of South America's farthest extremity.

Under no circumstances should the beginner think that "any old eggs" will do to learn on.

Pea vine hay, if properly sowed, makes a most excellent forage for sheep and stock cattle.

After the third month the calf will begin to want extra water, and some may be mixed with the milk.

The object should be to feed for large and continuous milk flow. This means both summer and winter.

If all the implements were cleaned and painted last fall, a great deal of time will be saved when you must "get busy."

Pigs should have slop three times a day, all they will clean up, and a little corn morning and night, also given on a clean floor.

About testing seeds, in most cases your experiment station will gladly test a sample of your seeds if you will send it to them.

Those who treat their horses kindly can work the brood mares up to the very day they foal their colts without harming them.

Hens or chickens can never do their best when confined in yards so small that a sufficient amount of green food cannot be grown.

Prominent breeders of geese claim that there is at least 100 per cent profit in them; more than twice as much as there is in raising hogs.

Waste milk is now being profitably used in Irish dairies, where it used to be a nuisance, but is now made into a fertilizer resembling bone ashes in value.

Turkey eggs may be hatched in an incubator very nicely, but unless you have a number of hens it is hard to get enough fresh eggs to fill a machine.

While the principal food of the goose is grass, and needs hardly anything else during spring and summer, still it will eat any of the farmer's grains.

Profitable "side-lines" for the creamery man are eggs and ice cream, to say nothing of buttermilk, the sweet cream trade, casein, hogs and other lines of profit.

You can test the germinating power of your seed after you buy it, which, while it insures your not using it if it is untrustworthy, does not save you the expense.

Be careful to remove all the flowers as soon as they begin to fade. Leaves that show any decay should be cut and burned. They are apt to encourage disease and malignant insects.

With automobiles coming into common use, the prices of horses rose from an average of \$95.64 each in 1908 to \$108.19 a head in 1909. In numbers the horses of the United States increased from 20,160,000 to 21,040,000.

The brooder should be large, having not less than nine square feet of floor space. The work demanded of a brooder is not exacting as with an incubator. The heat and circulation of air may vary a little without damage, but they must not fall altogether.

Silage is a cheap feed.

A portable engine is handy.

Great Britain imports 10,000,000 apples a year.

Australia raises nearly 10,000,000 acres of wheat a year.

The yield of the tomato is materially increased by proper training.

For vegetables always use rotted manure from grain-fed cattle or horses.

Showpwn eggs always must be sold at reduced prices. If they can be sold at all.

If air slaked lime be used in earth in which plants are potted it will keep worms away.

The calf need not be kept rolling fat, but it should be kept thrifflily growing from start to finish.

Sow clover seed twice to be sure it will take, and don't forget the alsike along with the red.

Grade your seed oats with a good fanning mill or grain grader and sow only plump, heavy grains.

Many times one hill will produce six 8-ounce potatoes; which is at a rate of 520 bushels per acre.

Milk cooled in a temperature of 35 1/4 degrees may be kept several days at any temperature under 53 degrees.

The neglect of your incubator at a critical time will result in a poor hatch with the best of attention and care.

Incubators improve morals, eliminating the heated temper too often produced by the sitting hen's peculiarities.

To grow crisp early vegetables the soil must be deep, thoroughly pulverized and well filled with rotted stable manure.

From the feed the hen must get lime for the shell, oils and mineral matter for the yolk and albumen for the white.

Every can of milk entering a lot of cheese or butter should be properly cooled if the make is to be of high standard.

Give the birds clean nests and roosting places, study their likings and needs and the egg yield should be increased.

Though but a small nation, Switzerland makes 100,000,000 pounds of honey a year, so well is its flora adapted to bee culture.

To be certain about your seeds buy them only from a reliable seedman, who puts his name and his reputation behind his product.

To destroy the hatchability of eggs without injuring the market value dip in a five per cent solution of water glass; this is satisfactory.

Don't keep the incubator doors open very long at a time, while the machine is hatching, if the room temperature is below 70 degrees.

All seem to agree that it is best to get the manure onto the land daily while it is fresh, but all of us cannot do this because of other work.

A single union of a male and female turkey fertilizes all the eggs a hen will lay for the season, hence one gobbler will suffice for 20 or more hens.

The most costly portion of an egg is the white or albumen. This is derived from the protein in the nitrogenous matter of grains and animal foods.

Profitable farming and gardening calls for more thought put into the business, but it also calls for considerable labor, and that given at the right time.

While it is necessary to feed the breeding ducks liberally, yet at the same time feed so as to keep them hungry, in order to keep them active and healthy.

The largest olive orchard in the world is situated at Sylmar, near Los Angeles, Cal., where there are 120,000 bearing trees, yielding fifty pounds of fruit to the tree.

In plowing it is well to remember that a deep, rich soil should have a deep plowing, providing it is done in the fall and does not render the soil too loose and dry.

A young sow seldom has as many pigs as an older one, they are seldom as large or as strong, neither does she take as good care of them as does the experienced mother.

The farmer who sells his eggs at the store will not for the present receive much encouragement in his efforts to sort out his largest eggs and sell separately from the smaller eggs.

Clover is very rich in protein, and contains potash, soda, phosphoric acid and other ingredients that make it one of the best feeds for fowls that can be named. It contains all the essentials in well balanced proportion, and is palatable to the fowls as well as healthful.

Try This for Colds Prescription Known for Results Rather than Large Quantity.

Go to your druggist and get two ounces of Glycerin and half an ounce of Concentrated Pine compound. Mix these with half a pint of good whiskey. Shake well. Take one or two teaspoonfuls after each meal and at bed time. Smaller doses to children according to age. Any one can prepare this at home. This is said to be the quickest cough and cold cure known to the medical profession. Be sure to get only the genuine (Globe) Concentrated Pine. Each half ounce bottle comes in a tin screw-top sealed case. If the druggist is out of stock he will quickly get it from his wholesale house. Don't fool with uncertain mixtures. It is risky.

RIGHT THERE.

Mabel—Papa says I mustn't encourage you.

Henry—That's all right—I don't need any encouragement.

Railroading and Dancing. Stuart C. Leake, who has a lot to do with managing a big railroad in Richmond, Va., is noted as one of the best dancers in the South.

One night something went wrong with the branch of the road over which Leake has supervision.

"Where in thunder was Leake?" asked the president of the road next morning.

"Leading a german," said the general manager.

"Which," commented the president, "was a dirty Irish trick."—Popular Magazine.

Annie Telford, "Queen's Nurse," of Ballyantral, Ayrshire, England, Writes as Follows:—

I have great pleasure in testifying what a valuable remedy in various Skin Troubles I have found Resinol Ointment to be. I have used it in extremely bad cases of Eczema and in poisoned wounds, and always with most satisfactory results. I have the highest opinion of its curative value.

Prolific. A census-taker while on her rounds called at a house occupied by an Irish family. One of the questions she asked was:

"How many males have you in this family?"

The answer came without hesitation: "Three a day, mum!"

All Snakes Are Killers. But all snakes, great and small, are killers. All of them eat creatures which they slay. None eat vegetable food of any kind. Nor will they eat animals which they find dead. That is one reason, no doubt, why they have always been shunned and dreaded by human beings.

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of J. C. F. Watson.

In Use For Over 30 Years. The Kind You Have Always Bought.

I am not so lost in lexicography as to forget that words are the daughters of earth and that things are the sons of heaven.—Samuel Johnson.

Thousands of Consumptives die every year. Consumption results from a neglected cold on the lungs. Hamlin's Wizard Oil will cure these colds. Just rub it into the chest and draw out the inflammation.

Some men, like some roosters, are always crowing—but what's the use?

TO CURE A COLD IN ONE DAY TAKE LAXATIVE BROMO Quinine Tablets. Don't forget money if it fails to cure. E. W. GIBSON'S signature is on each box. 25c.

The breath of scandal is responsible for much breezy conversation.

Taking Garfield Tea keeps the system clean, the blood pure and the general health good. Buy from your druggist.

Cleanliness is next to godliness.—John Wesley.

What Ails You?

Do you feel weak, tired, despondent, have frequent headaches, coated tongue, bitter or bad taste in morning, "heart-burn," belching of gas, acid risings in throat after eating, stomach gnaw or burn, foul breath, dizzy spells, poor or variable appetite, nausea at times and kindred symptoms?

If you have any considerable number of the above symptoms you are suffering from biliousness, torpid liver with indigestion, or dyspepsia. Dr. Pierce's Golden Medical Discovery is made up of the most valuable medicinal principles known to medical science for the permanent cure of such abnormal conditions. It is a most efficient liver invigorator, stomach tonic, bowel regulator and nerve strengthener.

The "Golden Medical Discovery" is not a patent medicine or secret nostrum, a full list of its ingredients being printed on its bottle-wrapper and attested under oath. A glance at these will show that it contains no alcohol, or harmful habit-forming drugs. It is a fluid extract made with pure, triple-refined glycerine, of proper strength, from the roots of native American medicinal forest plants. World's Dispensary Medical Association, Props., Buffalo, N. Y.

Hustlers.

"A good turkey dinner and mince pie," said Simeon Ford, "always puts us in a lethargic mood—makes us feel, in fact, like the natives of Nola Chucky.

"What is the principal occupation of this town?" "Wall, boss," the man answered, yawning, "in winter they mostly sets on the east side of the house and follers the sun around to the west, and in summer they sets on the west side and follers the shade around to the east."

The Beginning. Children learn to creep ere they can learn to go.—Heywood.

COLDS

Munyon's Cold Remedy Relieves the head, throat and lungs almost immediately. Checks Fevers, stops Discharges of the nose, takes away all aches and pains caused by colds. It cures Grip and obnoxious Coughs and prevents Pneumonia. Write Prof. Munyon, 538 and Jefferson Bldg., Phila., Pa., for medical advice absolutely free.

IRRIGATED FARMS in Glorious CALIFORNIA Almost Given Away

GREATEST OPPORTUNITY since Uncle Sam's free land days in the Mississippi Valley. We are different from any other irrigation organization. We have a record of irrigating 400,000 acres in the Twin Falls Country, Idaho, at a cost of upwards of ten million dollars. We shall spend as much or more in the Sacramento Valley, California, to make one of the finest rural communities in the world. You have a great advantage in buying an irrigated farm now on our ten-year payment plan. With a small payment down, you can make the farm earn all the rest of the payments. It is better than getting a Government farm for nothing, because we already have invested in necessary improvements an amount equal to several times your first payment. Thousands of acres already sold. The most profitable dairy region in the world. An unexcelled fruit country. Hogs, poultry, oranges, peaches, prunes, sugar beets, sweet potatoes, beans or any other special crop will make you lots of money with intelligent handling. Our promises are all backed by money and plenty of it. We have dealt with thousands of settlers, and have kept faith with them all, we want you. This is YOUR opportunity. Fill out the coupon and mail today.

H. L. HOLLISTER & CO., Dept. 302 345 Fourth Ave., Pittsburgh, Pa. Please send free information about Sacramento Valley. Name Address. Enclose 10c if you want our 48-page souvenir book in color, "CALIFORNIA—HOW OR NEVER."
