

## Champney's Spiel No. 2

Some reasons why we solicit and merit your drug and drug sundries patronage.

For us to simply attempt to please a confiding public is to fall short in the execution of a sacred charge.

We aim to do more than please because we feel that the relations between a druggist and the public border more closely on the professional than do many other business associations.

To attempt to simply please without trying to analyze the individual needs of our patrons is to deny them a service to which they are entitled—that of intelligent guidance—in making the purchase of drugs and drug sundries.

To serve and please you in a way that will make for you continued confidence and good will—this is our constant endeavor.
