**WONDERS OF MECHANICAL INGENUITY AT TOLEDO AUTO SHOW**

Exhibitors Enthusiastic—Better Cars and Greater Volume of Business is the Slogan.

The Toledo Automobile Show held at the Terminal Auditorium from February 7th to 12th inclusive, promises to far surpass the exhibits of previous years. More cars are represented, displays are more attractive and the public shows greater interest than ever before. A large attendance is looked for from outside towns as this is a most satisfactory time for making comparisons and see-all makes to best advantage.

The exhibition is exclusively domestic, and offers the public a display of stream line body designs that surpass last year's models for gracefulness, comfort, and general attractiveness. There are surprises and points of fascinating interest at nearly every step.

That prosperity reigns throughout the United States is common knowledge, but the demonstration of national wealth at the national automobile show is spectacular enough to draw gasps of surprise from men in close touch with the financial pulse of the country.

For the average man or woman whose purse calls for a lower price car, the Chicago show offers a splendid variety. The lowered cost of the four cylinder cars has surprised the

automobile public, for manufacturers have figured their products to be within the radius of the average man's financial means more this year than ever before.

**Buy 70 Per Cent of Output**

"It is only in recent years that the farmer has been considered seriously as a motor car buyer and his purchases have grown so rapidly that about 70 per cent of the output of American factories is now absorbed by the country districts.

With from 50 to 80 per cent of his production going to farmers the motor car designer has been forced to take into consideration the farmers' needs in building his car, and the average automobile of today is better built, more simply designed, and will stand more abuse and costs less for upkeep than was thought possible a few years ago.

**Give Thanks to Farmer.**

"What the next few years will develop is hard to say, but I think we will all agree that up to the present time the city buyer can thank the farmer of the country for the efficiency and low cost of the average American automobile today."

**Talk Against Monarchy**

There are vague reports of popular movements in Athens to dethrone King Constantine and set up a Greek Republic.

**The Greatest Car of Any Show**  
**80% More Efficiency New Limits of Endurance**

**The World's Record Breaker**

**A 7-Passenger Super-Six Makes Fastest Time for Touring Cars up to 100 Miles, in Official Tests, Under A. A. A. Supervision**

**100 miles in 80 min., 21.4 sec. averaging 74.67 miles per hour, with driver and passenger.**

The best previous stock car time was made by a car with more cylinders, more cylinder capacity and driver only.

**75.69 miles in one hour with driver and passenger.**

Some laps were made at 76.75 miles per hour.

**70.74 miles in one hour, carrying 5 passengers, with top and windshield up.**

The best previous time for stock cars similarly equipped was made by a car with more cylinders, more cylinder capacity, and with two passengers only.

**Standing start to 50 miles an hour in 16.2 sec.**

All these Hudson records were made with the same stock car, using the same motor, at Sheepshead Bay Speedway in November, under supervision of the American Automobile Association.

**During these tests the car was driven 1,350 miles at top capacity, at speed exceeding 70 miles per hour, without discoverable wear on any part.**

An endurance record seemingly impossible.

**Proving the most powerful motor per cubic inch displacement that the world has ever known.**
