**Additional Local.**

—Mrs. Chas. Reubensal was a recent guest of Mrs. Walter Pomeroy.

—Mr. Gordan Trumppower, of Delta, spent Sunday at the Thurlby home.

—Rev. Fr. Kiebel made a business trip to Cleveland the first of the week.

—Miss Alta Kelly, of Waterville, was a recent guest of Miss Addie Shipman.

—Mrs. John Cole entertained Mrs. Jacob Winzler, of Maumee, Tuesday last.

—Mr. C. F. Rider attended the Hardware Men's Convention at Cleveland last week.

FOR RENT—10 acres adjoining Perrysburg corporation. Inquire at Journal office. 2a

—Miss Frances is the guest of her grandparents, Mr. and Mrs. Chas. Roe, for the week.

—Mrs. J. F. Gallier, of Bowling Green, visited her mother, Mrs. Kathryn Meeker the first of the week.

—Little Doris Neiderhouse was the guest of her grandparents, Mr. and Mrs. Lewis Shipman, the past week.

—Mrs. Mary A. Dustin and Miss Dustin, of Toledo, were guests at the Wm. Roose home Washington's birthday.

—Wm. Adamson had as visitors last Thursday, Mr. Gene Fassett, Randolph, Mont. and Geo. Walding, of Delta.

—Mrs. Henry Hixson, Mrs. Ira Fish, Mrs. N. T. Sheplar, of Toledo, and Mrs. Nettie Frederick, of Chicago were guests of Miss Tina McKnight.

—Mrs. Fred Schwind, the Misses Kathryn and Margaret Schwind, of Toledo and Maud Place, of Pemberville, and Frank Schwind were guests of Mr. and Mrs. Freeman Bowers, Sunday.

—Mr. E. L. Clay has returned from Cleveland where he attended the Lumbermans' Convention the forepart of the week, the week's end having been spent at the home of his mother at North Bristol.

—Mr. T. R. Shimmin was called to Rochester, N. Y., on Friday on account of the serious illness of his brother, whose death was momentarily expected. Mrs. Shimmin at the same time was attending the funeral of her sister in Pennsylvania.

—Mrs. W. H. Pinck, of Buffalo, N. Y., died on February 19, and her funeral services were conducted on the 22nd. Mrs. Pinck was a cousin of Mrs. E. E. Oblinger and Mrs. E. L. Blue, of Perrysburg, and had many acquaintances in Perrysburg, who regret her departure.

—Miss Mable Frusher was a guest at the Henry Schwartz home the past week.

—For Sale—One cow, fresh about March 15. Call at J. L. MORRIS, Miami.

**Other Sensations Excelled 80 pr. ct. by the**

**HUDSON SUPER-SIX**

**The Car That Now Holds the World's Records.**

**E**VERY other sensation fades away at the Show when you come to the Supex-Six. There are boasted new-type Sixes. There are double motors—Eights and Twelves—which claim a long advance step.

But here is a new motor, exclusively Hudson, which proves itself 80 per cent more efficient.

Which has won the world's records against stock cars of all the lauded types.

Not a little better motor, but an almost twice better—size for size—measured by any performance.

**A HUDSON PATENT**

The other seeming sensations are widely shared. There are numerous cars to claim them.

But this supreme attraction is a Hudson invention. Our patents make it an exclusive feature.

So, for the first time, one car at the Show controls an 80 per cent advantage.

**76 H. P.—NO ADDED SIZE**

Hudson has stood for light weight and economy. It stands for those things still.

The Super-Six has six little cylinders, 3½ x 5, exactly like the Hudson Six-40.

But this Six delivers 76 horsepower. Former like-size motors, at their best, could not deliver more than 42. The reason was vibration, which wasted the power we save.

**VIBRATION AT ZERO**

What we have done is to end this vibration. We have brought it to almost zero.

A smooth-running motor, beyond any parallel, yields that extra 80 per cent.

One result is vast reserve power. With the Super-Six, the most difficult feats are done without evident effort. And usually on high gear.

In quick response the Super-Six has broken every record. Also every speed

record, up to 100 miles, ever made by stock cars.

And the reason lies in smoothness. We have added no size, no cylinders. The same power is created as in other types of like size. But the power that was wasted in vibration gives us the added efficiency.

That means fuel economy, constant and vast. It means engine wear reduced by half. It means a long-lived motor. And it means quiet, bird-like motion.

In all these ways the Super-Six has vastly out-matched every rival type.

**MAKE US PROVE IT**

These are the strongest claims that were ever made about a motor car. They mean for the Super-Six a degree of supremacy never held by a car before.

But these facts have been proved by countless tests, on roads, on speedways and in shops. They can be proved to you at any time, and you should make us do it.

One hour on the road will convince you. It will give to you a new idea of motoring delight. After that, we will rest our case with you. If you find any car at any price which does what this does, buy it. If not, you'll want the Hudson Super-Six.

You will want it both for pride and for service—a car that excels 80 per cent.

Ask us to take you for a ride today in the Super-Six—we will happily do so even though you do not consider the purchase of an automobile for we want to acquaint as many people as possible—as quickly as we can—with the operation of the Super-Six marvel motor—which establishes a new and undreamed of standard in automobiles.

Come today for your ride—we invite the opportunity to have every one learn by personal experience the reasons why this patented automobile—through eliminating vibration—smashes all world's stock car records.
