BOTH PHONES

NOW FOR THE "FARMER SHOW"

Everyone Waiting The Start Of The Great "Back To The Land" Expo At Toledo In December

All eyes are turned toward Toledo— for on December 4th the Farmers' Exposition will start, and continue up to December 16th. And it will be "some show"—every minute filled with interesting events. There is nothing pertaining to the farm that has been overlooked—tractors will be demonstrated in actual operation.

The live stock will surpass any previous exhibit in this section, hogs, poultry, sheep, cattle all the best types and the blue ribbon winners. Modern dairying will be shown, with forestry a close second.

The electrical displays will include lighting systems, all manner of electrical household goods and novelties never before shown. Free movies and free music, just one continuous round of pleasure, education and sight seeing.

The U. S. government exhibits will

be worth coming miles to see, as this is a big display and the first time Uncle Sam has so fully recognized any but the biggest fairs of the country.

Paste the dates in your hat—and don't let anything interfere with being on hand—the place, the gigantic Terminal building, on Cherry street, Toledo, Ohio. Dates December 4th to 10th. Admission a quarter to all the show, the Third Annual Land Products, Farm Power Machinery, Live Stock and Electrical Exposition.

Railroads will grant special low excursion rates from all points, and surrounding states will all send big crowds, as the interest is at a white heat. Manager Buelow states all exhibitors are promising to have exhibits ready right on the tick of the clock opening day, and that there will be no hitch anywhere. So get ready and be on hand for the "big doings."

Della J. Garnes, administrator of estate of Chas. C. Garnes, deceased, vs. Mary C. Steele, administratrix of

the estate of Albert J. Steele, deceased, damages in the sum of \$15,000.00.

DELCO-LIGHT

ELECTRICITY FOR EVERY FARM

DELCO-LIGHT is a compact, efficient and economical electric plant for farm, village and suburban homes.

Delco-Light furnishes electricity for lighting the house and other buildings—it has a capacity of 40 to 50 lights.

Delco-Light also furnishes power to operate small machinery.

It does the washing.

It pumps the water.

It operates the cream separator.

It churns the butter.

It drives the sewing machine and the vacuum cleaner.

It brings city comforts and conveniences to the farm and takes away much of the drudgery of farm life.

It is so simple that a child can operate it.

It has been developed by the same engineering and manufacturing ability that has made Delco Cranking, Lighting and Ignition for automobiles the standard of the world.

The Price, complete with Batteries, is \$275

F. O. B. Dayton, Ohio

A thousand Delco-Light representatives and service men are in the field—there is one in your locality.

Let him demonstrate Delco-Light to you in your own home.

At least write for illustrated book.

DELCO-LIGHT

ALLWORK ALWAYS

The Light Allwork Tractor Burns Kerosene

Get Your Money's Worth In Work Every Season

THE Light "Allwork" Tractor is built for all around work in any season of the year. Powerful for heavy plowing—light enough to get out on wet land in early spring or on a soft seed bed for harrowing and seeding—low enough for orchard cultivating—plenty of power for belt work. Here is the practical light-weight, high-power farm tractor. Free from freakish features—runs on four wheels; carries the largest 4-cylinder engine we know of on any 3-pow tractor. It sets crosswise on the frame, thus giving direct spur gear drive—no bevel gears. Belt pulley is on direct line with crank shaft.

4 cylinders, 5 in. bore, 6 in. stroke, 750 R. P. M., develops 28 H. P. at belt and 14 H. P. at drawbar. Automobile type front axle, roller bearing rear axle—self-oiling steel gears—pull on 2-foot road grader. Gasoline or kerosene fuel. Two-speed transmission working in oil.

Write for Our Catalog and learn how the "Allwork" can make tractor farming pay big dividends on your farm. It's built by a company with an established reputation—satisfied customers everywhere. Let us refer you to "Allwork" owners near you. Write today.
