

Prospectus of the Wyandot Pioneer.

In view of the rapidly improving condition of the county of Wyandot and town of Upper Sandusky, and for other reasons not necessary to be mentioned, I have purchased a new press type and other printing material for the management of the PIONEER. It is my intention to attempt to get up a large and neat paper as any one printed in any of the adjoining counties, and in so doing, I shall have to look to the citizens of the county for the support necessary for its continuance. The liberality of the people will, therefore, determine the success and publication of the paper, and it will be expected that each man interested in the future growth and prosperity of Wyandot county will freely lend his aid in securing subscribers.

The PIONEER, in politics, will be Democratic; and at the same time, claim nothing for itself that will not be extended to others. While the editor has his peculiar notions of political and other matters, he believes that other men have alike privileges to their opinions. Although I may publish political papers, it must not be free from all factions, and controlled alone by the editor. When I say this, it is not my intention to say that the advice of friends will not be received, for I shall, at all times be pleased to counsel with my friends upon all matters pertaining to the best interests of our county and the publication of the paper. If however, I might differ with others in opinion, that difference can also be changed by a full conviction of my error.

The PIONEER shall not be neglected, as a goodly portion of the Pioneer will be devoted to his interests. A gentleman of ability, has kindly consented to aid me in this department of the paper, and with his aid, I hope to be able to render the country subscribers, good service. The mechanic and laborer will always find the columns of this paper open for the defence of their rights and the advancement of their prosperity. In fact all classes will find our paper ready to vindicate every thing calculated to promote the greatest good to the greatest number.

With this exposition of what the Pioneer will be, I ask every gentleman, who can, to come up to do likewise. The prosperity of every town and country depends more or less upon the paper of the county; and that the paper may be what it ought to be, let it have a good living support.

Job Office.—The selection of job type in the Pioneer office being large, job work of every description will be neatly and expeditiously executed, at low prices.

The following rates and charges will in every particular be strictly observed, and it would therefore be well for subscribers to observe these rules:

Terms of Subscription. The paper will be published weekly, per year if paid in advance, at \$2.00. If not paid till the expiration, - - - 2.50. For six months, if paid in advance, - - - 1.00. If at the expiration of six months, - - - 1.50.

Upper Sandusky, June 20th, 1853.

From the N. O. Pioneer. From the Indian Frontier. Fort Arbuckle, C. N., May 13. Gentlemen—I observe in a late number of the Pioneer another report of an attack on Fort Arbuckle by the Comanche Indians. As these unfounded statements have created much uneasiness to the relatives and friends of officers and others stationed there, I desire to say that on no occasion has there been even the semblance of a hostile feeling shown by any of the tribes that have habitually visited us since the first establishment of this post. And from its position and other causes, it is, of the military stations on this frontier, one of those the least liable to an attack, except in the event of a general Indian war.

Be pleased to make the substance of this communication known, that those interested may be guarded in future against such reports from irresponsible men.

Respectfully your obedient servant, JOHN C. HENSHAW, Brevet Maj. U. S. A., commanding post.

Newspapers and Railroads. We are struck upon opening every mail's exchanges with the railroad enterprises of Ohio, now in process of starting, constructing or completing. North and south East and West, the newspapers are discussing, rallying and announcing upon this subject. The resources of every part of the State are set forth. All routes partake of the element of centralization. And verily we believe that they do. The experience of our railroads, thus far, has been more favorable than was anticipated by the most sanguine.

We cannot fail to notice this one fact, which railroad directors are apt to overlook;—the absolute necessity of engaging the newspaperman the work, in order to make it go.

After the road is completed, the directors too often forget all valuable services rendered by the editor. A little more liberality from railroad directors to editors and printing offices would not be amiss.—Statesman.

OUR CATTLE.—Within the past few years all who are in the habit of going to market can not but see the great increase in the price of meats, such as beef, mutton, pork, &c. It is but a short time that we could go to market and get a good, nice beefsteak for 10 cents; now, for the same kind we have to pay double that price, and for all other meats in proportion. We are told that the foreign demand for such things accounts for the increase in price, which increase is most severely felt here by the laboring classes—those who work by the day or week. We saw an evidence of this demand yesterday in the exportation of one hundred and sixty-two head of splendid beef cattle, shipped to New York by Messrs. White & Wunder, of the Little Miami Railroad. We like to see our butchers well paid, but the poor can not afford to foot the bill.—Cin. Enq.

JUDGE BURNETT.—The personal property of the late Judge Burnett, of Ohio, to be disposed of, amounts to \$100,000.—The real estate is variously estimated, but may be stated at about one million of dollars.

VARIETY ITEMS.

CURIOUSITY is on tip toe at St. Louis to see the great *Eclipse*, which has gone up there to astonish the natives.

The public debt of the United States, on the 21st of March, 1853, amounted to \$65,131,692.

Hon. H. V. Johnson has been nominated, on the 5th ballot, as a candidate for Governor of Georgia, by the Democratic Convention of that State.

Capt. Simmons says the water is getting so shoal at Warsaw that the mud turtles congregate there to lighten the "big cats" over the bar.

The railroad interest of the country is becoming one of great magnitude. The Central and New York and Erie lines alone represent seventy millions of capital.

The Boston *Atlas*, in giving an account of a riot, says: "The Irish maintained their ground, retreating inch by inch."

ATTACHED.—The steamer *Lawrence* was attached at St. Louis on Saturday. Her liabilities are over \$20,000. She took a full cargo for New Orleans, which was re-shipped.

CHANCELLOR H. Walworth has been chosen Grand Master of the Grand Lodge of Free Masons of the State of New York. The Chancellor is a convert, as he was formerly an anti-Mason.

Among the curiosities which will be exhibited at the World's Fair is a leather watch. The main spring is India rubber, while the works are composed of gutta percha. The whole is wound up by two boys and a bed wreath.

Two boys, about 8 years of age each, were amusing themselves at Centerville, Miss., last week by throwing corn-cobs at each other, when unfortunately one of them received a blow on the temple which caused his death in a few hours.

BARNAZ'S LAST.—A Bearded Lady is the last wonder got up by Barnum, and she is exciting the admiration of the New Yorkers. It is probable she will have a prominent place in the New York Crystal Palace Exhibition of the Industry of all Nations.

Does hanging prevent murder? asks the *Columbia Spy*. The question has heretofore been widely debated, with great differences of opinion. Hanging may not deter others from crime, but it generally prevents a fellow from doing the deed again.

A Cleveland paper thinks Judge Flinn, having regard to the reputation of the city, should change his rule, and swear that reporters not to report truly the things that take place in his Court. That would look tolerably sensible.

CHOLERA AMONG THE ENGLISH TROOPS IN INDIA.—The Calcutta correspondent of the *Newbury Herald*, under date of April 23rd, says: "We have accounts from Rome up to the 4th of April. The cholera is raging very virulently among all the regiments there, having already carried off two or three hundred men."

A VALUABLE CARGO.—The Ship *Chaos* 771 tons register, Capt. J. L. Dunton, cleared at Savannah on Thursday last for Havre, with a Cargo of 3370 bales of Upland, and 80 bales Sea Island Cotton, weighing 1,518,668 lbs., and valued at one hundred and sixty-nine thousand seven hundred and ninety-five dollars. But few ships of this tonnage carry so large a cargo.

THE TOWN BOARD OF EXCISE OF Saratoga have licensed thirty hotels and small taverns to sell spirituous liquors—which, for a "watering place," will do pretty well, we should say. Fifteen of the licenses, we observe, are granted with the condition "not to be drunk on the premises," but whether the proviso is meant to apply to the drink or the drinkers, is not very distinctly stated.

FLOGGING.—At Butte City, on Wednesday last, a Mexican who had been detected stealing, was immediately led out and without any ceremony or waste of time tied to a stake, and had forty-nine lashes administered to him, laid on with a right good will. He suffered a good deal by the infliction, which we hope will have a salutary effect upon the large Mexican population in the neighborhood.—*Cal. Ez.*

A vote was taken on the 8th inst., at Big Flat, Trinity county, for the purpose of determining whether the Chinamen should be permitted to work the mines in that locality. The contest was exceedingly spirited. On closing the polls at sundown, however, the result was ascertained to be, sixty-five votes for remaining and sixty-three against—giving a majority of two in favor of law.

DEATH OF A VENERABLE LADY.—Mrs. Jane Pushee died at Antigonish, N. S., May 5, aged 105 years, relict of Nathan Pushee, trumpeter-major of Gen. Washington's staff in the revolutionary war. She had attended at the birth of more than a thousand in the county where she died.—She was a native of Ireland, and leaves one hundred and forty-seven descendants.

J. R. GIDDINGS, through the Ass'tableau Sentinel, calls on the Whigs of Ohio to withdraw their nominations, many leading men, and probably nine-tenths of the Whig party, being desirous to disband. He adds that circumstances induce the belief that Whig candidates, at least a portion of them, are anxious to withdraw. We trust that all the Whig organs of the State will have this thing attended to quickly, for Mr. Giddings is probably in suspense and the Whig candidates are in suspense too.

Matters at Washington.

Washington, June 23, 1853. R. Augustus Ewing, of Connecticut, for some years private Secretary to Governor Seymour, of that State, has been appointed Secretary of Legation to Russia.

The President has entirely recovered from his recent indisposition. He called to-day, in his carriage, with his Secretary, Mr. Sidney Webster, for Sir Charles Lyell, the eminent English Geologist, who is stopping at the National Hotel, and visited with him the prominent points of interest about Washington.

Hon. D. T. Disney and a few other members of Congress are here. The weather has been waxing hotter and hotter for some days—thermometer ranging from 90 to 97. General sickness prevails. Postmaster-General Campbell, Col. Forney and Mr. Eames, of the Union are confined to their rooms.

Senator Sillwell has arrived.—*Cincinnati Enq.*

Baltimore Congressional Convention. Baltimore, June 23. The Democratic contest in the ward elections for Delegates to the Congressional Convention have been very spirited.

Henry May carried a majority of the Delegates in the Third District, over R. M. McLane, the advocate of the T. S. appointments in Baltimore.

In the Fourth District Joshua Van Zandt triumphed over William P. Preston and Pinkney White.

Serious Accident in Philadelphia. Philadelphia, June 23. This afternoon, as eight workmen were standing upon the rafters of a ceiling in Old Masonic Hall, which is now in course of demolition, the ceiling gave way, precipitating them all to the floor. No bones were broken, but they were all considerably cut and bruised.

News from the East Indies. The N. Y. Herald has files of the Singapore Free Press up to the 15th of April. The political news is not of any importance. We learn that the ravages of the cholera had ceased in Singapore. This is ascribed by the Malays to the incessant invocations of Allah, which they had kept up every evening for about ten days previous, and which peculiar form of propitiation, we are informed, is called *ratih*. At Linga the disease is reported to have shown itself with considerable virulence, three to six deaths a day having taken place since its first manifestations.

ALBANY, Thursday June 23.—The *Ogdensburg Sentinel* says that on Friday last 50 imported sheep, the property of Mr. Jewett, of Middlebury, were killed on the Burlington and Rutland Railroad. They were valued at \$10,000.

COMMERCIAL. New York Cattle Market. The price of Beef to-day is notably a shade lower than last week, while really, in consequence of dull sales, the average rate is nearly a cent a pound less for actual weights.—Extra, or 1st quality still for cattle sold for 10 1/2 to 11 1/2 cts per estimated weight of Beef in the fore quarters. Good retailing market Beef, 9 1/2 to 10 cts. Ordinary, or most common quality in market, 8 1/2 to 9 cts. with very fair estimates of weight. Most of the cattle in market today are rather light steers, 3 to 5 years old, and only a few fair working ones.

The Kentucky cattle, and part of those from Ohio, are just in the condition of thrifty growing steers, the weight of which might be increased one-third in one year by high feeding.

The price of Beef having once given way during this hot weather, it will be difficult for drovers to rally it up again to the extravagant high rates which has prevailed for some months. That it will fall, our readers may judge from the fact that the market was so far overstocked to-day, that drovers drew out and held back one-fifth of the number on hand.

SWINE.—The price of Swine remains without change, 60 cts. per lb. live weight. The market will well supply. At Forty-fourth-st, about 800 Ohio Hogs, part of which came by railroad and part on foot, are on hand, and two hundred still fed at the Union Yard. Those of 60 to 100 lbs. are the most saleable.

COWS AND CALVES.—All the places of sale have been well supplied, and trade dull during the last week. The largest number of those offered are sold below \$40. I saw very few looking particularly nice. I saw a very fine looking large cow, eight years old, with a full udder, and a good calf, offered and refused at \$60. A great number are sold at half that price, and frequently less.

VEAL CALVES.—Have fallen off in number and price, 60 cts. per lb. live weight. The market is well supplied. At Forty-fourth-st, about 800 Ohio Hogs, part of which came by railroad and part on foot, are on hand, and two hundred still fed at the Union Yard. Those of 60 to 100 lbs. are the most saleable.
