

CITY MATTERS.

Large Factory Closing. Mr. Ross, of Fulton, N. Y., has located in this city, and will transfer his works, for the production of machinery for the manufacture of paper, from Fulton to this city.

There was a brilliant masquerade at the Casino rink, Friday night.

County Clerk Harry Rabbitts went over to Columbus to-day on business.

Miss Marie C. Gilmore, of Kenton, left for home this morning, after a very pleasant visit at Mrs. Chas. Wood's on West High street.

Mr. and Mrs. Chas. Knapp are visiting Mr. and Mrs. Frank Bookwalter on South Market street. Mrs. Knapp was formerly Miss India Crothers.

The bill abolishing separate colored schools, in this State, is set for consideration Thursday next in the legislature. There is good prospect of its passage.

Infirmary directors met to-day and had plenty of business. The township trustees say January bills for relief of the poor will be much heavier than were December bills.

Belle Stavek was run in last night by Officer Record for drunkenness. The Mayor witnessed her conduct at the time of the arrest and this morning fined her \$5 and costs.

Our leading farmers are quite positive no serious damage has been done yet, this winter, to wheat in this county, reports to the contrary notwithstanding. The fruit-trailer is on top yet and around numerous, however.

During the fine blighting Friday Mr. Christie Holloway got out his big sleigh and took out a merry party consisting of Mrs. H. L. Rockfield, Mrs. Jerome Fessler, Mrs. Armin Fessler, Mrs. O. S. Kelly, Mrs. Starkey, Mrs. Brown, Mrs. Van Tassel, Mrs. Rouse, Mrs. Christie Holloway, Miss Mary Cassilly, and Miss Daugherty, of Dayton.

Witnesses in the damage suits against the P. C. & St. L. Railway Co., in connection with the killing of a team of horses belonging to the Champion Coal and Ice Co., at Fair street crossing a year or more ago, have been subpoenaed for Tuesday next, when it is expected the case will come up for hearing in Common Pleas. There was no court to-day. In Protea court an incorrigible candidate for the girls' reform school was held to be sent to that institution.

W. S. Newberry, Esq., of this city, has received an invitation from the editor of the Cleveland Gazette, colored people's paper, to write an article for his columns, giving his views as to Forsaker's candidacy for the Republican nomination as Governor. Mr. Newberry has not decided as to complying with the request. The Gazette is outspoken in opposition to Judge Forsaker's nomination again, and claims to speak for a large body of intelligent colored voters.

The members of the Woman's Benevolent Society feel obliged to make the statement to the public that, notwithstanding the generous assistance afforded them by the citizens of the town, the demands upon them have been so unceasing by the suffering poor and those out of employment, that they have been obliged to suspend all aid among them for the present on account of lack of funds. This is printed at the request of the Executive Board of the Woman's Benevolent Society.

The dates fixed for the holding of the Clark County Farmers' Institute of 1885 are March 20, 21 and 22, and Hon. John Howell, committee on place of meeting, is looking around for a suitable hall. It is likely the institute will be held in G. A. R. hall, as last year, and the upper room in the court house is also talked of. The official programme is not quite complete but will be ready for publication in a few days. The points have been given, but assignments for particular sessions have yet to be made.

The Water-Works Trustees met last night at the office in the Arcade and passed a number of bills filed. They discussed the question of increased water supply at the reservoir, in view of the approach of the season when work can be commenced. Nothing definite was decided upon, but some new light gained on the subject and points discovered in which the plans suggested last season can be modified somewhat and still be made practical. Further attention will be given this matter in the near future. The standpipe has been re-painted a delicate red; something between a main's bluish and a new brick pavement.

The utter recklessness of Young America while coasting lasts is really appalling. Regardless of their own safety or that of pedestrians, he takes possession of pavements and roadways on hilly streets and his peremptory cry: "Get out of the road," greets any foot passenger who gets in front of him. The police with the warning given thus publicly that arrests will be made and costs taken to the station house if they are not circumspect and if they do not keep off of the pavements. In some places it is next to impossible for a lady to pass along, such is the constant stream of sleds, each with a yelling youngster upon it. One of them, came not learned, had a leg broken last night while indulging in the dangerous sport on Lincoln avenue.

There was no quorum yesterday in the meeting of the Woman's Relief Corps, G. A. R., and consequently the reception of new members was deferred until the regular meeting next Friday, when reports will be presented from the Akron meeting. At that meeting Mrs. Kate Putnam, delegate from Mitchell Corps, was elected one of the representatives from Ohio to the National Convention of the W. B. C., in Portland next summer, and Mrs. Dela, of No. 22, was elected State Inspector, an important and responsible position. Newly-elected officers of the Department Encampment and Relief Corps were installed before final adjournment at Akron yesterday. The banner described yesterday was presented through, not by Commander Lloyd. The Department Encampment paid for it.

John Speers, colored, was indicted for perjury by the Grand Jury last week, but was not found until last night, when he was arrested by the police somewhere up "on the hill" and patrol-wagoned to the county jail. It is charged against Speers that, at the hearing in Mayor's court in case against Mike Jordan for violation of the ten o'clock ordinance, he denied under oath that he was in Jordan's place after hours. Four good men and true have been since found who swear they saw Speers in there, late, or early, as three o'clock on the morning the offense was alleged to have been committed by Jordan. There is quite certainly a great deal of this sort of thing in examining courts by people who have little conception of the nature of an oath, and a conviction or two for perjury may have a salutary influence.

TRUE ECONOMY

Teaches judicious expenditure. In the purchase of Shoes, for instance, it is more economical to secure the best quality, price considered, than to ignore quality in order to avoid a slight additional outlay. We have a medium grade of Shoes, made of excellent stock without expensive and unnecessary finish, covering all sizes for Men, Women and Children, which for service and value to the wearer are really worth more than others of greater cost. They are not quite so low-priced as shoddy goods, but are ten times more durable. The "Paul Revere" is of this class. Persons who understand how to economize will find that our stock affords them an opportunity. We have no shoddy goods, and will not give them place in our store. They are dear at any price. Our aim has always been to give a better Shoe for the money than any other house in the city, and we have been eminently successful.

Miss Maddern will appear at the Grand Opera House next Tuesday evening in "Fanchon." Her repertoire includes some of the best dramas that have earned popular approval. Admission only 10 cents. Reserved seats 16 cents extra.

Miss Minnie Maddern presented her New York triumph, "Caprice" in Cincinnati last week before the largest and most fashionable audiences of the season and scored an instantaneous success. She was called before her curtain at the end of every act, including the last, and her performances from beginning to end it is said were one series of triumphs with her audiences. Miss Maddern will appear at the Grand Opera House next Tuesday evening in "Caprice."

Slashing Runaway. There was a lovely runaway on West Main street, at 1:30 this afternoon. John Woodward, of Tremont, drove in with a horse and sleigh. One side of the shafts dropped, nearly in front of the Western House, and the horse ran, striking another sleigh on the next square and tearing loss with only the shafts dangling at his heels. Turning north at Mar-

ket street the frightened animal dashed diagonally across the street toward Mr. G. S. Foss's horse and sleigh standing in front of the Lagonda Bank, and making a great leap landed squarely across his back. The Foss horse fell with the other on top and in the kicking that followed the sleigh was so badly wrecked as to be useless. Officer Wilson took Woodward's horse to Gregory's stable, not much the worse for the run. Neither was Mr. Foss's horse much injured. Had he not been there the runaway would have dashed head first through the plate glass of the bank front. A big crowd gathered in three winks.

A COWARDLY ACT.

A Colored Man Named William Easter Assaults a Five Year Old Boy and Beats Him.

Early this morning an affair occurred at New Moorefield, this county, that roused the citizens to the highest pitch of indignation. A colored man named William Easter has been employed for some time on the farm of Mr. Thomas Kennedy, as hostler. Mr. Kennedy also has on his place a little five year old boy, also colored, an illegitimate child, whom Mr. Kennedy took to raise.

This morning Mr. Kennedy and family came to town, leaving Easter and the little boy at home. Easter was out cleaning the stable and the boy was playing near. The latter probably said something which incensed Easter, and without saying a word he picked up a shovel and began beating the little fellow over the head and body. A terrible gash was cut in his head, his lip split, and his shoulder and arm badly bruised. When he was struck on the head he fell to the ground unconscious. Seeing what terrible work he had done, Easter skipped out. When the family returned home they found the boy lying insensible, and he still remains in this condition. An affidavit was immediately filed against him by Mr. T. H. Kennedy, and the latter, leading a posse of men, started in pursuit of the criminal. Finally, after a search of several hours Easter was found in a corncrib on the farm of Mr. Ed. Phleger. He was brought back to Moorefield and taken before Squire Baldwin, who bound him over to court. Easter was then brought here and lodged in jail. At two o'clock this afternoon the little boy is still unconscious, but little hope is entertained of his recovery.

One enthusiastic and hopeful First-ward Democrat says to his friends: "Just wait till after the fight of Mar-ech, when Cleveland comes in, and this howl cry apron. Bedad he'll dole it out by the basketful till ye yell! What a tall will be there, me countrymen!"

Mrs. Charlotte Kenney, 89 West Jefferson, fell on the pavement this morning and broke her hip and either broke or dislocated two ribs. At her age (about 75) the injury is serious.

Last night a party of fourteen couples went from here to Yellow Springs, and several of the ladies had their wraps stolen, at the Yellow Springs House.

Council Finance Committee came to no conclusion, at their meeting last night, regarding the Bolan claim for some extra excavation.

BETHEL TOWNSHIP.

The following extract from the Ohio Educational Monthly pertaining to Township High Schools is worthy the attention of every reader of the Globe-Republic interested in education:

One-third of our high school is composed of pupils from the country. These pupils pay about \$50 tuition. This added to the township tax makes a very high school tax, and shows in a strong light the inefficiency of our country schools. For less money and inconvenience our township schools can have a central high school. In a majority of the States and in many parts of this State, the country schools are organized and managed on the same plan as city schools, and with a saving of one-sixth.—Covington (Ohio) Gazette.

The above touches a matter of vital importance to the school interests of our State. The country people of Ohio are contributing largely to the support of high schools in the cities and towns. They are paying, in many cases, a very high price, and suffering great inconvenience, for benefits which they might enjoy at home at a smaller cost. We have little doubt that accurate statistics would verify the statement that the expense incurred by the country people of the State for superior school advantages away from home would be more than sufficient to sustain a good high school in every township. How much better it would be to spend this money at home. Many times the number of young people would seek to elevate themselves by higher intellectual attainments, if a good school were within reach of their own homes; and many more parents would gladly afford their children these privileges if they could do it without the expense, the risk and the inconvenience of boarding them away from home, and thus every community would become more intelligent, more refined.

We are glad to note that many townships are moving in this matter. The time is coming, and may it soon come, when every township in Ohio will have its school of high grade to which every child in the township may have free access, as soon as it has made sufficient advancement in the sub-district school. The men of large means and influence in each community should be foremost in this movement. Besides the advantages of living in an intelligent and refined community, they would reap advantages from the enhanced value of property. Every good citizen prefers a home where there are good schools, and homes in such communities are always in demand.

"Country teachers, there is a work here for you to do. Study the question in all of its bearings until you are able to present it in its true light to the people of your district; then agitate, agitate, agitate!"
