

SUNDAY GLOBE-PUBLIC

THE SPRINGFIELD GLOBE,
Volume IV, Number 179.

SPRINGFIELD, OH O, SUNDAY MORNING, MAY 8, 1895.

THE SPRINGFIELD REPUBLIC
Volume XXX, Number 579.

OWEN BROTHERS

Washington, May 1.—Ohio Valley and Tennessee—Fair weather, variable winds, generally northerly, higher barometer, slight changes in temperature.

FORGETFULNESS

Is proverbially a falling of mankind. This, therefore, occasions frequent reminding through newspaper mediums the all-important fact that to dress well, from stocks manufactured expressly for the locality in which you live, at prices one profit below any competition, is to know where such stocks are made, kept and sold. Are we frequent enough with remind? Do we practice what we preach? Spring suits and overcoats are, at their best, comparisons with little stocks wherever found, will substantiate our saying the best for the least. It \$3, \$4, \$5 or \$6 difference on a suit is of any account to you, or, if the system of one-price dealing practiced by us, and us alone, is more pleasing to your nature, your purchasing interests are better cared for with us; your buying places here.

Blue, Green, Dahls, Brown, Tan, Gray, Flaid, Check, Stripes, Mixtures; you pick the color, style, price you want to pay; your work is ended, and our's begins. Fitting, sponging and pressing, done while you wait. Overcoats, to look well and stay well, should be cut well, trimmed well and made well. We claim superiority in these points over any manufacturer in the land. Spring weights, \$8, \$10, \$11; some are better than others; some are handsomer than others; perhaps the handsomest are the best, and possibly the best may be at the lowest price. Mixtures, with silk facing to match—silk and satin-lined throughout, the look of a \$40 coat, for half the money.

Everything in Boy's Clothing carefully chosen and made for every class of trade except one—the one that is taken with pretentious flimsy things; we let that go.

Jerseys, in short pants suits, more in favor than ever; two weights; three kinds; five colors; a low price for either.

Boys' fancy cassimere and worsted suits, in sizes 4 to 12 years. Fancy plaid blouse coats, stitching and cording and cording and stitching again, perfect gems of beauty, \$5; others less and more, according to labor and material.

Kills in fancy plaids, others half-and-half one piece, two piece, plaid and attached, or stitched plain. Every shape known to kill, buyers ought to be found in this stock. They ought to be less in price. You'll know if you look at any other market. Ask for it's the time, without the weather. We'll print for the time, and wait for the weather. Gentlemen's fine gauge underwear, finished seams and self-iron, 25c; others less. Jean drawers 40 to 75c, and every size from 28 to 48 waists in stock. In fine flannel, Lisle Thread and summer weight Cashmere, there's a saving by buying directly from the importers—that's us.

The 50c and dollar. One's better than the other by more than the difference. We are the 50c, for those who won't buy the dollar, and the dollar for those who won't buy the 50c. The least is the best for a garment at this price. The most is the best Undershirt. Buy in this or any other market. Ask for the "Shell" shirt, and don't stop till you've found it.

You need not buy the very finest of Gloves to be presentable. There ought to be sold north and south of the equator. We are the merchandise that is only the merchant who keeps no trash who can tell you not to buy the finest. And yet what we call next to the finest are a great deal finer and better than nine-tenths of the other gloves that are sold.

Straw Hat will continue in favor this season.

Just short of the finest gloves are fine and good. In general, the finest things are not the strongest. Advice. Don't rush to the other extreme. Cheap gloves are rarely good for anything. It is only the merchant who keeps no trash who can tell you not to buy the finest. And yet what we call next to the finest are a great deal finer and better than nine-tenths of the other gloves that are sold.

Straw Hat will continue in favor this season.

Just short of the finest gloves are fine and good. In general, the finest things are not the strongest. Advice. Don't rush to the other extreme. Cheap gloves are rarely good for anything. It is only the merchant who keeps no trash who can tell you not to buy the finest. And yet what we call next to the finest are a great deal finer and better than nine-tenths of the other gloves that are sold.

ACROSS THE SEA.

The War Cloud Passing Over.

Denmark's King as Peace-Maker Between England and Russia.

Pirates of the Sea Under the Black Flag.

General Grant Reported in a Worse Condition.

LONDON, May 2.—There is a slight relaxation in the tension of the relations of Russia and England. Russia appears to be disposed to entertain England's latest proposals, to submit to the arbitration of one of the crowned heads of Europe the question whether the convention of March 17 was binding on Russia. It is believed that the King of Denmark will be selected as arbitrator in the event of mediation being accepted.

The Daily News says: A special messenger has left St. Petersburg and will arrive in London Monday or Tuesday, bringing Russia's answer, which will probably be a formal acceptance of the English proposal. The czar has intimated to England, through Baron de Staal, that he earnestly desires peace. If the proposal to arbitrate the question of disregard on the part of Russia of the convention of March 17 is accepted, the joint commission will proceed to delimitate the frontier of Afghanistan without waiting for the decision of the arbitration, as a satisfactory basis for the delimitation had been agreed upon before the English affair. While the commission is at work, the disputed territory will be considered neutral and will not be occupied either by the Russians or Afghans.

The News, in an editorial, says it rejoices to see the prospect of peace between England and Russia are brighter than at any time during the negotiations. The temper of the English ministerial circle is becoming more pacific. It is reported that M. de Giers, the Russian foreign minister, has imparted to Sir Edward Thornton, British ambassador at St. Petersburg, the information that Russia intends to send to the British government a full statement regarding General Komaroff's position and asking England to consent to a mutual inquiry into the alleged breaking of the convention of March 17, with a note that Russia would not absolutely reject arbitration.

The implication of Russia's statement will delay the response of Giers to the last British government dispatch. An agreement has been concluded between the English and Turkish governments, by which the latter will allow vessels of the former to pass through the Dardanelles in event of war with Russia. In return for this favor Turkey will be allowed to send an expedition to occupy Sudan by way of Suakin, and England will restore Cyprus to Turkey at the expiration of the year, guaranteeing the integrity of the Sublime Porte.

The Black Flag.

WASHINGTON, May 2.—The prospect of a war between England and Russia has excited the cupidity of some few Americans, whose desire for wealth exceeds their reverence for the neutrality law. There are here today half a dozen men who see in the outlook an opportunity to engage in a business which will probably return big profits. These men have formed a combination for the purpose of fitting out a privateer to prey upon English vessels. They have seen a side-wheel steamer, said to be in New York harbor at present, which is capable of making two knots in an hour, and is fast, which is for sale. It is proposed to buy this vessel, fit her out as a cruiser, and man her with a crew of a hundred men. She is to be armed with two long-ranged rifled guns, and a number of Hotchkiss and Gatling guns for close quarters. It is believed by those in the scheme that a letter of marque could be secured from Baron de Staver, the Russian minister here, and that "barrels of money" could be made by preying upon the British mercantile marine engaged in the Asiatic trade. The projectors of the enterprise believe that with a fast steamer well armed they can do great execution to British shipping and keep out of range of British guns. The men interested in the enterprise are naturally very reticent about their plans, and are endeavoring to keep the matter a profound secret. What is known is learned through their attempts to secure the co-operation of a gentleman here who has some unemployed capital, but declined to invest in this enterprising piratical scheme. It is said that the prime mover and originator of the enterprise is an ex-captain in the Confederate navy, and that two very prominent government officials are interested with him. Of course, if the intention of the gentlemen becomes known to the authorities their plans would be made to fail. Hence the secrecy.

Manitoba.

FORT QU'APPELLE, N. W. T., May 2.—The Indians have left their reservations at Touchwood and File hills, but whether through fear of the troops or preparatory to a rising, is not known. The settlers in their vicinity are very uneasy. Chief Factor McDonald has confidence in the Indians so far, and does not think there is any danger. Others, equally acquainted with Indian ways, have contrary ideas. The Quebec cavalry have left for the Touchwood hills. It is understood that Governor Dewdney purpose coming here to investigate matters. The York Rangers, Simcoe Foresters and Winnipeg cavalry are still stationed here. Extra precautions are maintained, 100 men being kept a day or two ago.

Newfoundland.

St. John's, May 2.—In the Newfoundland assembly, last night, the expediency of continuing relations with the United States involving the fishery clause of the Washington treaty, was discussed for several hours with closed doors.

Australia.

MELBOURNE, May 2.—Innocent exertions are being made to place the colony of Victoria in a state of security against attacks by Russian cruisers in case of war. Popular enthusiasm in the matter has been thoroughly aroused.

THE STONE-QUARRY WAR.

Two Thousand Armed Strikers Against Twelve Hundred Maitlis.

Great Excitement and Business Suspended.

Loss of Life and Destruction of Property by Flood in Arkansas.

Another Trunk Horror.

CHICAGO, May 2.—10:45 a. m.—The following dispatch is just received from Joliet: Twelve hundred troops arrived at 8 a. m. Twenty-five hundred strikers from the stone quarries in the district, armed with clubs and revolvers, are marching at Joliet, and declare they will give the troops battle. Public excitement is great, and business is entirely suspended.

SPRINGFIELD, Ill., May 2.—The Governor last night issued orders for four companies of the Fourth Regiment to be called out and sent to Joliet at once to quell the riot at that place. Adjutant General Vance and Captain Bell left this place last night for Joliet, and arrangements for the company were also made. The Governor had been informed all day by the Sheriff of Will county for troops, as threats were being made to burn Joliet. It has been learned that the companies ordered to go to Joliet are from La Salle, Bloomington, Streator, and Ottawa.

JOLIET, Ill., May 2.—General Vance has just sent the following dispatch to the Governor: "About half-past two o'clock p. m. two hundred and fifty strikers from Lemont approached Joliet and were met by the company of Colonel Bennett's quarries, where they were placed in special trains and run to Joliet. Under Col. Bennett they were deployed as skirmishers, covering nearly a mile front, and are now occupying the country between Joliet and Sangar's quarry for those who escaped. Killed and wounded none.

OHIO LEGISLATURE.

COLUMBUS, May 1.—SENATE.—Bills passed: Senate bill allowing races and target shooting within corporate limits when on club grounds. House bills—To rebuild school houses; to allow trustees of school lands to make improvements; providing that notices of garnishee may be left at places of business, now a law; making deeds take effect from date of record, now a law; for replacing records of surveys; appropriating \$5,000 for monument to Ohio soldiers; that fell in Gettysburg; for protecting purchasers on the installment plan; appropriating \$5,000 for execution department in the Ohio penitentiary.

HOUSE.—Bills passed: House bill fixing heavy penalties for making fraudulent gas bills; Senate bill exempting only manual labor from execution, regulating practice of medicine, increasing pay of teachers at blind asylum, prohibiting killing of fish with dynamite, appropriating \$1,500 to pay expenses of committee of ladies to visit the home.

REGISTRATION BILL FOR CINCINNATI AND CLEVELAND HAS NOW BECOME A LAW.

COLUMBUS, O., May 2.—The Legislature today passed a law abolishing local boards of underwriters and preventing a combination to fix insurance rates. The House passed the bill providing for the return of \$100,000 given the State Board of Agriculture in case they fail to occupy the grounds. The House adopted the resolution to oust Geo. H. Foster, of Columbus, as Commissioner to settle the swamp Land Claims of Ohio against the General Government. The bill to codify the General laws failed, as did also the bill to pay the penitentiary manager a salary. Both branches adjourned to 8 o'clock a. m. Monday, and at 10 o'clock that day the Legislature will adjourn sine die.

General Grant.

NEW YORK, April 2.—The General worked on his book today, said Col. Fred Grant, "for over two hours and will, on Monday, resume the dictation, after which he will take four or five days rest, collecting data for future dictation. This will, I hope, finish the work. Of course some revision will be necessary, but the General is so concise that it will not be much."

"A statement has appeared in one of the papers that the General has resumed smoking again. Is such the fact?"

"No," said Colonel Grant, "there is not a word of truth in the matter. A few days ago the doctor told father if he wanted to smoke a cigar he might do so, but he has not done so, and will not do so. Perhaps some parties who have seen me at the window smoking may have mistaken me for father, but the story is cut out of the whole cloth. The General's condition is about the same although the swelling in his throat has increased very perceptibly, the pain has not increased, however, very materially. We kept the doctor last night at father's solicitation, though he is no worse tonight. I will have to keep all visitors from him in the future. I can't say what the state of his throat is at present, but of course after consultation to-morrow we will be in the matter to know what progress the disease has made. I want you to contradict the story about the smoking in most positive terms."

Dr. Douglas came at 10 o'clock and will stay all night.

Queen Victoria Returns to England.

LONDON, May 2.—The Queen and Princess Beatrice returned to England from the Continent this evening, and have gone to Windsor Castle.

A BIG FUSS

RAISED ABOUT A VERY LITTLE MATTER.

Officer Bass Gets up a Sensation in Market, Aided by a Colored Woman and Her Son—A Stolen Horse and Its Result—Bass Held—St. Paul M. E. C. Lecture Course—The Texas Colony.

The Townships Trustees at a Regular Meeting Yesterday Morning, Decided, After Considerable Proposals from Nine Well-Known Physicians, to Obtain the Service of Dr. Henry Baldwin hereafter for the poor of this city and township. In adopting this plan the trustees have taken a long needed step in the interest of the township and the poor alike. Dr. Baldwin studied medicine under the late Dr. E. M. Buckingham, graduated with honor from Jefferson Medical College, of Philadelphia and now stands in the front rank of Springfield's younger physicians and surgeons.

There is a certain young lawyer in Springfield whom his friends call "Necessity." They mean by this to impress on the people more forcibly the old adage that, "necessity knows no law."

The ladies of the First Presbyterian church are making extensive preparations for a National Festival, to be held in Black's Opera House May 14 and 15. The program will be flooded over for the occasion.

The Dayton did not play in Springfield Friday according to the championship schedule. That will probably be claimed as a forfeit game and allowed.—Dayton Journal.

An additional member of the Salvation Army arrived yesterday from Springfield. She is known as the "Salvation Midget," and is an excellent talker.—Xenia Telegraph.

Stolen Horse and Its Result.

Yesterday afternoon about five o'clock four little girls, ranging in years from nine to twelve, named Bessie Vinal, Maggie Dowd, Mary Answorth and Lulu Scott, happened upon a horse and buggy in the shed in the rear of the St. John shops, and determined that they would take a free ride. Without asking the owner, Mr. Jennings, superintendent of the shop, they led the horse and buggy out, and all four got in. They then drove out to Legonda, and back going west on Columbia street to Western avenue, thence north to North. Up to this time they had been having fine sport, but here their sport ended. Just as they turned the corner of Western avenue and North street, the buggy collided with a heavy lumber wagon. One of the wheels of the buggy was broken into small pieces, and the children were all thrown out. A gentleman who was close by ran out and caught the horse before any further damage was done. The children were picked up and carried into the corner house, which happened to be the residence of Mr. Jennings, the owner of the horse and buggy. Strange to say, none of the children were badly hurt. One of them sustained a dislocation of the shoulder, but this will be all right in a few days. The horse was scratched and bruised considerably.

Base Ball.

The members of the local base ball club are considerably worried over the statement made in yesterday's GLOBE REPUBLIC that they interested themselves in behalf of Mrs. Ruch, of Hesterville, who deserted her husband and came to this city. The facts seem to be that there are only three members of the club who room at Brown's, and as far as could be learned, they did not do anything towards interfering with the arrest of Mrs. Ruch by officer Condon.

Manager Fisher received a telegram yesterday morning from Manager Barkley, of the Dayton club, telling them not to go to Dayton, as there would be no game. He gave no reasons except that his wife was sick in Georgetown, Kentucky, and that he would have to go there. This is the second championship game between these two clubs that has been postponed. If the weather is at all favorable, however, tomorrow, the regular scheduled game will be played. The Youngstown team will play here Thursday and Friday of this week.

St. Paul M. E. C. Lecture Course.

A series of very interesting lectures has been arranged to be delivered at St. Paul church for the benefit of the hymn book fund, the object of which is to provide hymn books to be placed in the pews of the church for use by the congregation. The first lecture will be delivered next Thursday evening, May 7, by Rev. Lucien Clark, of Pittsburg, formerly pastor of High street M. E. church, this city; the second by Rev. A. B. Leonard, on May 15; the third by Rev. Wm. A. Robinson, of Allegheny City, Pa., formerly pastor of the Central street M. E. church, this city, on May 21; the fourth by President Payne, of Delaware University, on May 28; the fifth by Rev. S. A. Ort, D. D., President of Wittenburg College, on June 4; and the sixth by Rev. J. F. Marley, on June 11. The price of season tickets will be but 50 cents, single admission 15 cents. These lectures will be on very interesting subjects, and the lecturers are all well known, they should be greeted by large audiences.

The Texas Colony held another meeting last night at No. 22 Jefferson street, where all future business meetings will be held. There was a very large attendance and eight new members were added, making a total of fifty-eight. An assessment of \$10 from each member was made, one-half payable in two weeks and one-half in four weeks. Probably at the next meeting a committee will be appointed to go down to Texas prospecting for a location.

Fire.

GREENSBURG, Pa., May 2.—The fire is still making headway in the mine at Preston colliery, No. 3, where the explosion occurred yesterday. The mines have been taken out, and preparations are being made to flood the mine.

MINNEAPOLIS, May 2.—The fire is still making headway in the mine at Preston colliery, No. 3, where the explosion occurred yesterday. The mines have been taken out, and preparations are being made to flood the mine.
