NEARER NOTHING

We are continually striving to get prices down. Almost every day a new thing tumbles. It's not a question of how much we make, but how much we sell.

About as near to nothing as a boy's knee pant suit is likely to get this season is a dollar. About as soon as you can get here after perusal of this advertisement is the time to get a glimpse of what's going for a dollar.

The declining Globe Mills Cassimere Pantaloons have reached a notch never before thought of. Instead of \$6.50 and \$7, they're to be got this week for \$5. Delicate shades, medium shades, dark shades.

There's but our place and another that's worth troubling for hats. What can't be found here for 50c, maybe at 40c, or maybe at 65c, or maybe at 75c. It's a queer head and mind we can't fit and suit with a hat.

Underwear. One minute warmer and you're ready for a change. One minute's thought and you're decided what you'll buy and where you'll buy it.

Sailor Suits. Perhaps there is another store in town showing these suits by the thousand. Is it likely? Perhaps a \$1.25 or a \$1.50 or a \$1.75 or a \$2.00 suit is good enough.

Underwear. One minute warmer and you're ready for a change. One minute's thought and you're decided what you'll buy and where you'll buy it.

ENGLAND AND RUSSIA.

The London Press Roundly Denounces the Government's Weak and Vacillating Policy.

Gladstone Announced by Lord Chamberlain's Interference in the House of Commons.—The Dynamiteres Sentenced for Life.

THREE SWORDS OF HONOR. LONDON, May 19.—The news of the General having presented swords of honor to General Komaroff and General Zakrevsky has created an uneasy feeling in Europe that the present peace is only an armistice, and that the arbitration proceedings are the mere ostentatious.

The London Press Roundly Denounces the Government's Weak and Vacillating Policy. The Daily News in commenting on the Afghan papers presented in Parliament, says: "They show that the seizure of Peshawar had long been a foregone conclusion. It is difficult to believe that the Russians were ever in earnest about a joint commission. The disturbances justify us in making our Indian frontier impregnable."

The Times says: "We ought to ignore all Russian promises and pledges and play our own game."

The Standard says: "The keynote of the whole question is the contrast between Russia's barefaced duplicity and the weakness of the English Government, now rising in indignant protest, now sinking into meek submission."

The St. Petersburg Official Messenger publishes an article declaring the absolute necessity of Russia seizing Herat; otherwise the Russian Government will thereby lose an English instead of a Russian vessel. Soon a nominally Persian, but really English fleet will dominate the Caspian. It is stated that England would build a railway from India to Herat and through Persia, to the southern coast of the Caspian Sea, and the Trans-Caspian territory would become a country affording facilities to only the English traders.

The Russian Government has been annoyed by recent articles in Finnish independent papers which reveal strong animus against Russia. The Russian Government has reprimanded the editor of the journal of Finland and has threatened to increase the severity of censorship.

The papers yesterday morning all contained articles, containing on the revelations contained in the last Russian Blue Book with regard to the negotiations between England and Russia, over the Russo-Afghan frontier question. They roundly denounced the policy, as shown by the dispatches contained in the last publication, and are almost unanimous in asserting that they would prove that Lord Granville was utterly untrue in his statement that he had bewailed the result of the negotiations, while the Tory papers are full of wrath over what they term Granville's imbecility.

The Government is considerably worried by Italy's demand that the agreement be fulfilled by which she was to garrison the Red Sea ports when the British troops were ordered daily on an expedition to gain a valuable foothold in Africa for colonial purposes by this arrangement and she is much chagrined at England's having turned Suakin over to Turkey. As Mr. Gladstone was in London yesterday, he will probably be appointed soon by Russia. His duty will be to deal with the Russian colonies in Central Asia which are of great and growing importance, and in regard to which diplomatic relations have been severed since Mr. Gladstone has invited Mr. James Russell Lowell to dine with him before returning to America.

WASHINGTON.

Goods Manufactured in Europe Imported from Canada at the Original Valuations.

The Count of the Funds in the Treasury Found Correct to a Cent—First Assistant Postmaster General May's Health.

IMPORTING GOODS THROUGH CANADA. WASHINGTON, May 19.—It has been ascertained by Secretary Manning that large quantities of goods manufactured in Europe have heretofore been imported from Canada at ports on the northern frontier, which were imported in Canada at the original European values and which have been passed at our custom houses without any addition being made to raise the invoices prices to the market values of the goods in the markets of Canada. These goods, it is understood, were not destined for the United States at the time of their shipment from the European country of manufacture, but were imported into Canada for the purpose of being sold in this country, either for consumption or for export to the United States, as the circumstances might require. In order to prevent this practice, collectors of customs have been instructed that, in all cases where, in their opinion, the entered and appraised value of goods imported from any foreign country is their duty, under Section 2,929, Revised Statutes, to order a reappraisal and to see that, as required by Section 3,006 Revised Statutes, "merchandise imported from one country, for consumption in another country, or manufactured in another country, is appraised at the actual value in the principal markets of the country from which immediately imported."

On the 25th of last month the press dispatches announced the appointment of a committee to count the moneys in the United States Treasury's office here, and a few days ago it was announced that the work was completed. The report of the committee, which was completed yesterday, shows that the United States Treasurer Wymann's statement of assets reported on the 21st of last month, is correct. This "treasury count" will, it is understood, be repeated every time there is a change in the office of United States Treasurer, so in this case Mr. Jordan having succeeded Mr. Wymann, the count was made by the committee, which was completed yesterday, shows that the United States Treasurer's report is correct. The committee, which was appointed to audit the accounts of the Treasury, were kept the records, were steadily at work for nearly three weeks counting the paper money, bonds, etc., and a dozen clerks, and as many other clerks, were employed for a week or ten days counting the gold and silver coins in the vaults.

Some idea of what is involved in a "treasury count" may be gained by a mere statement of the sum of the money handled, counted and verified in the recent count. The specie handled aggregated nearly \$12,000,000, about 9,000,000 silver dollars and half million minor silver coins, and two millions and a half in gold, including \$1,000,000 in gold certificates, and \$1,000,000 in gold coins. The gold was in bags containing \$1,000 each and gold weighing 69 1/2 pounds. The gold was in bags containing \$5,000 each, bag and gold weighing 18 1/2 pounds. An actual count by piece was only made of a few bags on the start to ascertain the proper and exact weight of a bag of \$1,000 in silver, or \$5,000 in gold, and afterwards of such bags as were not satisfactory in weight. But very few bags either of silver or gold fell short of the standard weight, and in such instances actual count showed the required number of coins below in the Murphy murder case and refused a motion for a new trial. The case was that of Judge Ford, his brother Pat and Court officers W. E. Caulfield, W. H. Buckley and John Murphy who murdered Captain A. H. Murphy on December 1, 1884. Pat Ford and Murphy were sentenced to death, and the rest to twenty years imprisonment in the Great Gaol, was displayed in the case because it was feared that the political influence of the prisoners would gain their acquittal. There is no probability that the Government will interfere in behalf of the condemned.

The losses are: Fenner Bros., of Au Sable, lost about \$10,000; Moore & Whipple, of Bay City, \$10,000; Charlton & Chesnut, of Bay City, \$3,000; Wandell & Remington, of Chicago, \$2,500; Hawkins & Forrest, of Au Sable, \$700; Charles Pack, of Cleveland, \$9,000; Pack, Woods & Co., of Oscoda, \$3,000; F. Thompson, \$7,000; and Fenner Bros., lost over \$200,000.

SANDWICH, MASS., May 19.—Forest fires in the Bourne woods have just been extinguished after burning over three miles of territory and destroying 3,000 acres of valuable timber.

Poundmaker Captured. ST. PAUL, Minn., May 19.—Dispatches from Winnipeg last night state that Colonel Otter had made an attack on Poundmaker on Sunday, and after a severe battle captured him and took 129 prisoners. The battle was fought in Eagle Hills and Otter made the assault against Otter. Twenty-one Canadians and nineteen Englishmen were killed. No other news was received by Poundmaker a week ago and found, and it is supposed that they have been massacred.

An Assailant Recognized. BOSTON, May 19.—Joseph H. Barnabee was confronted yesterday with William R. Marshall, the Brighton milkman, who was assaulted in his barn on Friday morning, and fully identified by the latter as his assailant. Wrestling Match for the Championship. NEW YORK, May 19.—William Muldoon and Carl Abs, the German giant, wrestled last night at Irving Hall for \$500 aside and the championship of America. After struggling for an hour and three-quarters, during the first half Muldoon was the victor, and ordered the men to stop and declared the match a draw.

PETERSBURG, Va., May 19.—At Blacks and Whites, a place fifty miles from here, on the Norfolk & Western Railroad, Henry Stokes and his wife Lizzie were yesterday arrested, charged with the murder of Samuel Stokes, a crippled boy twelve years old. Lizzie is the boy's step-mother, and both, it is said, have treated the lad shamefully. Last Thursday it was reported that Sam's body had been found in the woods and it was hurriedly buried by his father on neighboring farm. Foul play was strongly suspected. The body was exhumed on Saturday and it presented evidence of violence. There were marks of blows about the head and the skull was fractured, but the most horrible of all was the fact that the hands and fingers were incised as if in a struggle to break the lid off of the coffin. The body was not yet stiff, and there is no doubt that the boy was miserably stunned when he fell and died a horrible death in the woods.

I went to that church as I do to some other churches, and there was no one there, except a brave and good man by my presence. It is quite true that, eighteen years ago, some of the members of Dr. Sunderland's church did take offense at my being allowed to deliver a lecture in it. The Association of Mr. Lincoln and Dr. Lesons." I then spoke to a very large audience and was introduced by Chief Justice Chase. I learned afterwards that some members of Dr. Sunderland's church took offense at my being permitted to speak in their church. I went off and until yesterday I have never since ventured within its walls. I have purposely kept away because I did not want to embarrass a brave and good man by causing further trouble in his church by any word of mine or by my presence."
