President Cleveland has given no attention to the Cincinnati Enquirer's charge that Senator Sherman once beat the government in a "boss" trade. Why is this thus? Did Grover get a part of the swag? Who has not discovered that charity is better than a censorious spirit?—Western Christian Advocate.

That's an easy one. The man who has not made the discovery can be found in this city—when he is not somewhere else?

If there is a paper in the country which is the president's organ, it is the New York Star, owned and edited by a gentleman who holds an important federal position. It is a significant fact that the Star is a ferocious free trade organ.

Twinapolis (Minneapolis and St. Paul) now has a joint population of 260,000 people, and will have a million before the year 2,000. If it does not, please call on us and we will do the handsome thing by you. We shall insist, however, that you shall have made a fair count.

Dr. Leonard is an eloquent orator and preacher and is really opposed to the liquor traffic, but in fact he is really and truly a democratic deceiver, all the same. Do not vote for him—if you are opposed to free whiskey and coal-oil corruption, and if you are not, you might as well vote for Hooley.

The unfortunate ex-Governor Moses, of South Carolina, who has been dead-beating in Massachusetts for a week or so and is now in prison, makes the surprising statement that he "never drank liquor." He must have poured it into his throat by the bucketful, for he has scarcely been sober for five years.

Everybody should vote for the two constitutional amendments next week. One is to provide that we have no October election in presidential years, saving many thousands of dollars for the state in various ways. The other is that township officers, trustees especially, hold their offices for at least three years.

The bankers of the country are solidly arrayed against silver. If they really rely on the silver dollar it is really a handsome coin, essentially and typically an American product, and as Mr. Toombs said of his wife, so we say of the cart wheel coin—the often it can produce itself the better.

St. John does not predict the defeat of Foraker. He says the prohibition gains are being made from the democracy. He told Gessner, of the Cincinnati Times-Star, that "Hooley is driving votes from his party by his injudicious speeches and by his stand against temperance." The prohibitionists are beginning to discover the facts as to the situation.

Dr. Leonard handles his mouth very carefully when he is making political speeches. We have been frequently forced to defend the doctor from the accusation that he is a liar, and the accusation comes from the misstatements he makes in his enthusiastic charging that the republican party is in favor of the "regulation by taxation" of the liquor traffic; whereas it declares in its platform of 1885 in favor of "regulation and taxation."

We denounce the democratic party for the destruction of the south law, and the consequent increase of the burdens of taxation upon all property, and the abandonment of an annual revenue of \$2,000,000, and while recognizing the people's right to amend the organic law, we demand the enactment of legislation as will give us the most practical and efficient measure for the regulation and taxation of the liquor traffic attainable under the constitution.

Pretty solid plank, that! Eminently practical and effective!

Hon. Theodore Roosevelt, one of New York's brightest and strongest young men, while he has no disposition to flout the bloody shirt, still demands that justice shall be done. He does not wish to "revive" or "cherish" the "issues of the war" but "the contrivances by which South Carolina, with a population about equal to New York city, and about as large a republican majority as New York has democratic, sends to congress eight democrats to co-operate with the eight from New York he could not regard as an obsolete issue." The thing had been done very recently, and was soon to be done again. He admitted "that the republican majority in South Carolina was inferior in intelligence and political experience to the democratic minority," but he thought "the same might be said of the democratic majority as compared with the republican minority in New York," and yet he had not heard anyone propose "that that minority should disfranchise the majority by any contrivance and send eight republicans to the house from our chief seaport." Mr. Roosevelt has well put the whole thing in good shape, in a nutshell. He has stated one of the vital issues of this campaign, and of all future campaigns that shall be fought before this question is settled, and settled correctly. Senator Sherman and his young friend, Roosevelt, occupy common ground—ground which must be occupied by all men who have the eye of a true statesman and patriot.

"Cracked" Voice. The editor of the Voice, New York, is very bright and smart but he is grossly ignorant of Ohio politics and people. He writes at too long range. He says: McDougall bearded Leonard in his den at Springfield, but he was careful to beard him when he wasn't there. He will take good care not to beard him when he is there.

Nonsense! Tom McDougall is not afraid to meet any man living—or dead. Leonard knew when he was here and he took good care not to be in town. The Voice has this also:

According to a Cincinnati paper, Col. Isaac Tucker, a former well-known republican politician of Columbus, O., has joined the prohibition party. He spoke for Leonard at September 24th, at Catawba, September 24th at Columbus, and September 26th at Carlisle.

If this great Colonel Isaac Tucker were as "well-known" to the editor of the Voice as he is to Mr. Sprague, of this city, and to the public generally, he would not boast of him as an accession to the prohibition ranks. Gen. Butler doesn't seem to be a "patching" to him in the spoon business. The Voice's bad and frequent breaks make well-posted people smile.

THE SULTAN GIVES IN. HE ACCEPTS THE UNION OF BULGARIA AND ROMANIA. A Sensational Rumor, Which, However, Lacks Confirmation—Prince Alexander, Messengers Arrested and Imprisoned on the Sultan's Order. (From Morning Edition.)

ALEXANDER'S COURTESY ARRESTED. CONSTANTINOPLE, Oct. 7.—The war-like attitude of Sultan Abdul Hamid, the sultan to call out more reserves for service on the frontier. The Turkish military believes that the Serbian troops will cross the frontier although sure of defeat. In order to raise the question of Serbia's rights, the sultan has ordered the foreign ambassadors here that the Serbian revolution would lead to an agitation in Bosnia, and that Austria and Russia would eventually be drawn into the conflict. The Emperor and Emperor, Petroff and Tchanoff, who were accompanied by Prince Alexander, were notified of the sultan's order and order to notify the ports that peace and order reigned in Eastern Roumelia, arrived at the Yildiz Kiosk and solicited an interview with the sultan. They were immediately arrested and were subjected to an official examination.

TRAMPED OR MURDERED? A Wealthy Farmer of Bennington, O., Found Dead Near His Horse's Hoofs. NEWARK, O., Oct. 7.—The family of John Douglas, a wealthy farmer of Bennington township, this county, went to the barn about midnight to ferret out the cause of his long absence from the house. He had taken a lamp some time previous to see to put the horse away after returning home from Newark. Mr. Douglas was found beneath the horse's feet, dead, and badly bruised and cut. The family were horrified at the discovery. The barn door was fastened on the inside, and it had to be broken open. It is not known whether he was murdered and placed under the horse's feet to divert suspicion, or whether he was kicked to death by the animals. There are some suspicious circumstances, and investigation will follow.

Heavy and Damaging Rain in Mexico. City of Mexico, Oct. 7.—Heavy and damaging rains are still reported from the interior of the state of Mexico. At Leon, owing to the giving way of trees, oil on the hills above, the city was badly flooded, and many houses were swept away. The Mexican Central railroad was badly inundated. The bridge at San Francisco, Mexico, has again succumbed. The vicinity of Leon for many miles is under water. Mail communication is again interrupted.

TOLEDO, Oct. 7.—The Cleveland, Delphos and St. Louis railroad, running from Delphos, O., to Cory, O., was today sold by United States Marshal Goodspeed for \$110,500 to a committee of bondholders representing the Pittsburgh interest.
