SATURDAY EVENING, OCTOBER 10, 1885.

Young Butler Mahone should be spanked and put to bed.

Headly's name is not mentioned, even between the lines, in Thurman's speeches.

Thurman's and Durbin Ward's refrain "Oh! no! We never mention him!" viz. Headly.

Green county republicans who strayed off after the prohibitionists are returning to the true fold.

It is what General Durbin Ward does not say, with great emphasis, about Headly, that counts.

Gen. Durbin Ward admits that the chances are against the election of a democratic legislature.

Allen Thurman does not praise Allen O'Myers in his speeches. What's the matter with the Allen's?

The Jobobobobob cry of the plug hat boys seems to have hit the Bellefontaine Examiner in a vital part.

The democrats are naturally very indignant because Halsted once abused Grant. They had a patent on that sort of thing.

In the British Medical Journal Dr. Fothergill says that beet tea is a stimulant not a food, and adds that "it has no food value."

The Philadelphia Bulletin identifies Thurman's red bandana as Sherman's bloody shirt. There should be an investigation at once.

Henry Arthur Jones, the author of "The Silver King," says he had rather eat than write. Playgoers also prefer that he should eat rather than write.

Now John Roster McLean says that he wouldn't accept the position of United States senator in any circumstances. He will not be called upon to do it.

The Bellefontaine Examiner addresses "words" to "fair-minded republicans." Such words, to have much effect, should come from a fair-minded democrat.

The democratic rooster is crowing vigorously this week. In this it shows its smartness, for it is morally sure that it will not have a chance to crow next week.

Cardinal McCloskey's chief characteristics were his freedom from bigotry and his personal christian activity. He followed his Master in "going about, doing good."

The editor of the Cincinnati Enquirer does not wish the republicans to win because he does not "want to see empty stores to rent all along Vine street." He means whisky and beer saloons!

The city of Guadalajara, Mexico, has electric lights, street railways, telephone service, 1,600 members of Protestant churches, and 100,000 people, but no railway connection with the capital.

A rich American, from Baltimore, Winsans by name, is lordling it at a tourist rate in Scotland. He has leased a tract of 250,000 acres, for hunting purposes, and drove off a lot of excise officers from his premises, the other day, because they were disturbing his deer.

Col. Pat Donan is reported to have said that "what Dakota wants is 10,000 more young wives."

The republicans of Ohio have made excellent nominations this year, as usual. This is emphatically true in this senatorial district and in Clark county.

Mr. Fringe and Mr. Rawlins will represent the people very creditably and ably in the legislature. Our county nominations are all very good.

Republicans should vote early—and vote a solid, unscratched republican ticket, Tuesday.

Ex-president Hayes has been spending a few days at the Fifth avenue hotel, New York. A Mail and Express reporter approached him in room 41, while Mr. Hayes was talking to Chief Justice Manning, of Louisiana.

Mr. Hayes opened the conversation, promptly, and the following colloquy occurred: "You desire to know something about the Peabody Fund meeting?" asked the ex-president.

"No, I wish to interview you." "I will not be interviewed. I will not speak about anything."

"I refuse to be interviewed. I did you good nothing?"

The newspaper man felt as if he had been Chicagoed, and went to hunt up some of the New York base-ball fellows that he might receive some points as to coming out strong in adverse circumstances.

O'Myers for Senator. Now that John R. McLean, editor of the Cincinnati Enquirer, the great, bad man of the democratic party in Ohio, has solemnly declared that he wouldn't have a seat in the United States senate in any circumstances, the hour, must, necessarily, fall back on their next worst man, the Hon. Allen O'Myers.

That he would be the fairest representative of the dominant, boodie and whisky and coal oil faction of the democratic party in Ohio, nobody can deny, and should a democratic legislature be chosen in Ohio, Allen Giffett Thurman and General Durbin Ward will be relegated so far to the rear that they will not be "called back" until some time in the following decade.

But O'Myers will be right on the spot and is more likely to be selected as the democratic candidate than the better and decenter men of the party.

I was attacked with inflammatory rheumatism, and after trying a dozen different kinds of medicine, procured a bottle of Arthropora. I was entirely cured and have never had anything like rheumatic pain since.

A HORRIBLE EXECUTION.

A Hanging That Was More Sickening Than That of Hartnet. Chicago Herald.

"A Head Nearly Torn Off" was the starting headline to the account of a gallows tragedy in one of the papers yesterday.

"I've seen worse than that," said an old California reporter as he glanced at the article. "I've seen at a hanging a murderer's head jerked completely off. It was at Martinez, Cal., in 1873. A little old fellow, who, in conjunction with his partner, had murdered the woman's husband, was hanged a year after his crime. He had laid in jail all that time, had got very fat and soft, and his weight was out of all proportion to his frame or muscular development.

In preparing for the execution the bungling sheriff had arranged to give his victim a drop of nine feet, when six or seven is always thought ample. When the fatal moment came and the trembling wreck shot through the trap there was a "glub" that, in conjunction with the rope, and a quick rebound which showed there was no weight on it. An expression of horror was heard on every side, for the first thought was that the rope had broken. But it had not. The noose had cut the poor fellow's head off as clean as though it were an apple. The body fell to the ground and the head, included in the black cap, rolled twenty feet away like a cannon ball. It was," continued the reporter, "the most awful sight I ever witnessed, and though up to that time I had attended more than a score of executions, I resolved never to witness another and I have kept my word."

LOCAL NOTICES.

A Remarkable Escape. Mrs. Mary A. Daley, of Tunkhannock, Pa., was afflicted for six years with asthma and bronchitis, during which time the best physicians could give no relief.

The best blood purifier and system regulator ever placed within the reach of suffering humanity, truly is Electric Bitters. Inactivity of the liver, biliousness, jaundice, constipation, weak kidneys, or any disease of the urinary organs or whose requires an appetizer, tonic, or mild stimulant, will certainly find Electric Bitters the best and only certain cure known.

Keep sweet your breath—'t mid or wife, Or old or young, or large or small, If you have any hopes in life,— If you have any friends at all, Keep sweet your breath—and heed the warning, Use SOZODONT each night and morning!

THE PERFUME WAIVED from the flowers in the world that has been rendered agreeably odorous with SOZODONT, which communicates to the teeth a marble whiteness, and to the gums a roseate tint. Use it, and beautify your mouth.

"SPALDING'S GLETS," useful in every house. Dr. Robert Newton, late President of the Eclectic College of the city of New York, and formerly of Cincinnati, Ohio, used Dr. W. H. BARKER very extensively in his practice, as many of his patients, now living, and restored to health by the use of this invaluable medicine, can amply testify. He always said that so good a remedy ought to be prescribed freely by every physician as a sovereign remedy in all cases of lung diseases. It cures Consumption, and has no equal for all pulmonary complaints.

Cosator Carroll, at Cincinnati, found that Dr. Charles E. Warner took laudanum to allay pain.

EVERYTHING COMPLETE.

FOR THE DESTRUCTION OF HELL CATS TO-DAY.

Three Hundred Thousand Pounds of Dynamite Will Blast the Immense Rock, and the Entrance to New York Harbor Will Be Brought to a Most Dangerous Obstruction.

New York, Oct. 9.—The great explosion of nearly three hundred thousand pounds of dynamite, which is expected to shiver Flood Rock and clear Hell Gate channel is set for tomorrow morning about eleven o'clock. The work of clearing away the machinery, buildings and other valuable property was completed tonight, and all that remains are the elevator timbers of the main shaft and the little tool-shed, which, having been cleaned out and fitted with shelves, holds the cells of the great battery which will cause the explosion. The thirty-six wires running the detonators in the mine are hanging in a bunch, awaiting the time when Lieut. Doby will connect them with the battery, which will be the last work done on the rock. Since early this morning two 18-inch siphons have been running water into the mine, and it is expected that the whole will be flooded by 6 o'clock tomorrow morning.

It has been decided to locate the land battery and instrument on the old Astoria steamboat dock, 1,200 feet from the rock, and the wires to connect the circuit will be run across the channel to-morrow. Cordons of police will keep the crowd at a respectful and safe distance, and owners of buildings in the immediate neighborhood have been warned to stand from home. Steam launches from government vessels will patrol the river and prevent vessels from passing.

Mr. Gohlfeld has deposited with the Spirit of the Times \$500 as forfeit, the event to take place before November 3, to come off on a good day and good track, and the winner to take the entire cash receipts.

A Mysterious Case.

Chicago, Oct. 9.—Yesterday afternoon when Conductor Bigelow's train was passing Sterling on the Chicago & Northwestern railway a carpenter saw the body of a child about ten days old drop from the moving train. The carpenter picked up the child, carried it to Embury, sixteen miles from Chicago, where it died last night. The conductor says he saw a woman on his train with a baby, and when she got off at Lombard she did not have the child. The woman cannot be found, and it is believed she will try to kill her child. The little victim was buried at Embury today.

A Complimentary Notice.

WASHINGTON, Oct. 9.—Charles Foster, of Indiana, who was appointed general counsel to Calcutta, was a clerk in the office of the state statistics of Indiana for several years. During the last campaign he was chief editorial writer of the Indianapolis Telegraph, a leading German paper, and has never been an aspirant for office, and his appointment was made in deference to the wishes of the German element of the democratic party in Indiana.

Rev. Thomas Thomas, of Fayetteville, Ark., is 114 years old.

Too Much Jesse James.

DALLAS, Texas, Oct. 9.—Jesse W. Jones, the youthful road agent who robbed the San Angelo and Brownwood stages running to Cisco and who was arrested a couple of days ago, arrived here tonight from El Paso in charge of United States officers. Jones says that he ran away to Texas and is only fifteen years of age. He read the adventures of Jesse James and other similar books, which so affected him that he ran away from home and turned stage robber.

Servant's Warlike Attitude.

REGINA, Oct. 9.—The portie has asked for an explanation from the Servian government of the warlike attitude Servia has assumed in organizing her army and dispatching troops to the frontier. An answer was given today which was not considered adequate by the Turkish ambassador, and he has gone to Nisa to demand an audience with King Milan respecting the matter.
