[Special Correspondence:]

CINCINNATI, Aug. 16 - When Andrew Erkenbrecher died here two or three years ago, he was the largest manufacturer of starch in the world. He left a great fortune, and a magnificent monument marks his resting place. But his memory will be perpetuated far better by his work for the Zoological garden than by any pile of granite. Born in Bavaria and educated when a boy in a fine school in Germy, he had a strong leaning toward natural history, and that led him when he had be come a man of large means to found one of the best object lessons in natural history that America possesses. The real start of incinnati's Zoological garden was in introducing foreign birds into America. The shout eight by twelve feet and ten high, in which the importations were kept for a time me hardened to the changes in

The story that a patient, inoffensive donkey, about the meekest individual in the animal kingdom, had actually whipped the "king of beasts" in a fair stand up and knock down night, in which no favor was shown, and the best one was to win, was sent out from Cincinnati about a dozeo years ago, and, very naturally, was regarded as the able effort of a new and native Munchausen. But it was an actual fact! It happened in 1874. just after the garden had been opened. There is one romante connected with the history of the garden which has never before been in print; in fact, only within a short time was it known to even the directors themselves, and a dozen people kept it as a religious secret for half as many years. Some years ago one of the head keepers, who had as a sweetheart one of the prettiest girls in the neighborhood, bantered her to go with him into the cages of the several animals in the Carnivera house. The Man and the People. It really seems that it is time for a war to break out in this country to turn the people's thoughts into serious channels. Men and women are falling into rater silliness, and the latest advanced specimer, is the grown man who leads a dog around by a string. The fashion has nearly died out among young women, and it is almost incredible that men should be found to revive it. A targe man leading a possile was seen on Chestnut street on afternoon to the great disgust of the on lookers, and two or three men were only restrained by their friends from kicking the big booby.-Philadelphia Call.

The flat-tery bere fruit, for the queen began to ask herself if these rare vocal gifts ought not to be dedicated to her people. She de-termined first to have the unbiased opinion of a musical critic, and so went incog aita to a French professor, Dumanois and sang before him in Bucharest. The professor caused the queen to run over the scales and then to sing a song and an opera air. Then, turning to her, he said, seriously: "You have no voice at all, though plenty of musical feeling and exsellent phrasing. I would train you for he operetta, but that, to be sincere, you have not the right face." The queen anded the professor several gold pieces with her card, buying, before she left, a dozen opera airs for private study.-Pail

I have suffered greatly from periodical returns of hay fever. At the suggestion of Covert & Cheever, druggists, I obtained during a severe attack. I can cheerfully testify as to the immediate and continue relief obtained by its use. I heartily recommend it to those suffering from the or kindred complaints. - (Rev.) H. A. Smith

Chronic Losseness of the Bowels Results from imperfect digestion. The cause lies in the torpidity of the liver. A regular habit of body can be secured by taking Simmons Liver Regulator to aid di-gestion, to stimulate the dull and sluggish liver, and rid the system of excessive and poisonous bile. The Regulator corrects acidity of the stomach, cures dyspepsia and insures regularity of the bowels alike free from laxity or costiveness,

There is no one article in the line of medleines that gives so large a return for the money as a good porous strengthening plas-ter, such as Carter's Smart Weed and Bellaonna Backache Plasters.

A Dangerous Surgical Operation. A fatal mistake. At the time Dr. Vance, of Cleveland, performed the operation or the lady for the removal of a cancer of the stomach he found when too late that the poor woman had no cancer to be removed. The disease was indigestion, and if she had taken the Shaker Extract of Roots (Siegel's Syrup) that awful distress at the nit of the domach, which made the doctors think she nad cancer, would have been removed. Distress after eating, dull, heavy feeling in the head, with pains in the side and back all vanish after using this wonderful remedy. The tired, languid feeling gives place o strength and vigor.

Mrs. Delia Marsh writes from Pea Ridge.

Benton county, Ark, that she had dyspep-sia in the worst form for five years, and that nothing gave any relief until she used the Siegel Syrup.
