

WEATHER FACTS.

WASHINGTON, Nov. 25.—Ohio Light rain, slightly cold on Saturday morning, followed by rising temperature.

SPRINGFIELD, O., November 25, 1887.

THE RAIN

"The rain it raineth every day," says the poet. He had a good deal surer thing of it than Springfield has. Still, for the small inch or so of water which we have had, Springfield is duly thankful.

Get an Umbrella.

When you get it, get under it. It is good for sun as well as rain. In either case hold on to it. When the man comes who wants to borrow it, say "no, my friend, no chestnuts this time of year; go to The When, as I did, and buy you an umbrella. You can get them there in every variety and at different prices, but there is a new lot just opened of gold and silver-tipped handles, with silk shed, that are particularly serviceable, and they are very cheap."

That is the kind of advice to give to a friend.

ILLINOIS TRAGEDY.

Desperate and Deadly Fight at a Dance—Two Men Kill Each Other at an Early Hour.

One Hundred and Twenty Five Thousand Dollars for an American Rabbit Killer—A Disaster on Lake Huron—Other Telegraphic News.

By the Associated Press. ELIZABETHTOWN, Ill., Nov. 25.—The Harding County quarrel, which threatened to depopulate two counties a few months ago, has broken out again. Last Tuesday night a dance was given at a farm house near Battery Rock. Among those who attended were Joe Blair and Bill Partisan and Joe Huerton, relatives of the Oldhams. About 2 o'clock in the morning the festivities were terminated by a report of a pistol. Blair staggered back against the wall, while Blair advanced on him with the weapon. Before the aggressor could fire again Huerton sprang upon him like a tiger and during the struggle that ensued lights were extinguished. Half a dozen more shots were fired, and the dancers rushed, panic-stricken, out of the house. Ten minutes after the first pistol shot, all was quiet again and half a dozen young men returned. They lighted lanterns and found Huerton had been shot twice through the body, but had succeeded in drawing a knife, and the results of his awful work were seen in twelve wounds on Blair's body. The inquest exonerates both of blame.

CINCINNATI WATER.

It was undoubtedly the cause of the untimely death of Mr. Frank C. Goodie. In conversation on Thursday with a gentleman who is thoroughly conversant with all the features of Mr. Frank C. Goodie's illness, a representative of the REPUBLIC learned that Mr. Goodie's untimely death was directly traceable to the abundant Ohio river water at Cincinnati. Just prior to his illness Mr. Goodie went to Cincinnati to conduct a case in the United States court in which he and his father, Judge James S. Goodie, were attorneys. He remained there four days and then came home, but again went to Cincinnati and remained two days. Before going to Cincinnati Mr. Goodie was in excellent health, but on his return at the expiration of his first visit he complained of a feeling of uneasiness and depression that amounted almost to illness. He went back to Cincinnati, however, to conclude his business, and on his return home was compelled by an attack of typhoid fever to take his bed, which he never left after.
