# IRON HALL REDIVIVUS

Somerby's Enemies Bitterly Denounce His Election.

## PLAN OF THE RECONSTRUCTION.

The Malcontents Would Rather Have the Affairs of the Institution Remain in the Hands of the Court-Officers of the Reorganized Order.

BALTIMORE, Sep. 14.—The election of Freeman B. Somerby for Supreme Justice of the Order of Iron Hall at the reorganization convention here is bitterly contended upon by his enemies. After the election Mr. Somerby made a short speech thanking the delegates for the renewed expression of their confidence in him. He then offered his resignation of the office to which he had just been elected, saying he did not wish to continue in the position and all he had desired was a vindication of his administration of the affairs of the Order. This, he said, had been given him by his re-election as Supreme Justice.

The meeting decided not to accept his resignation, and therein Mr. Somerby's enemies again found cause for the statement that the convention was packed with his friends, while the others were excluded from participation in its proceedings. The latter claim that only a fraction more than half of the old policy holders were represented at the meeting. They admit that additional thousands went to the Order reorganized, but they will have no part of Somerby and the other supreme officers and leaders. The malcontents prefer to have the affairs of the wrecked institution remain in the custody of the court instead of again placing them in the hands of the wreckers.

Mr. Somerby, however, succeeded in having his plan submitted by the reorganization committee and adopted by the convention. It is substantially a scheme to have the members of the Iron Hall hold on to their old certificates, take out new ones in the new organization and pay assessments until the court turns over the funds to the new organization, provided it can be induced so to act.

The other officers elected are J. Albert Clark, Exeter, N. H., Past Supreme Commander; A. H. Hosmer, Supreme Accountant; Joseph Harris, Supreme Cashier; Dr. C. H. Baker of Philadelphia, Supreme Medical Director; Somerby, Hosmer and Harris are officers of the old concern.

The financial plan of the new order is to pay \$1,000 in seven years for about \$450, or \$500 in seven years for about \$250. Old members going into the new concern sign a warrant giving the Supreme Accountant the power to draw from the receiver of the old Iron Hall the amount due them, which is transferred into what is explained to be the reserve fund of the new order. Old members will receive new certificates dated at the time of their entrance into the old order.

They will have to pay a certain percentage, about \$125 on \$1,000. Of this amount they will pay one-sixth in cash, give a note for the remainder, which will be deducted from the amount of the certificate when paid at maturity. The one-sixth cash payment goes into the reserve fund.

The new officers will be required to give heavy bonds, and it is proposed to engage the services of an expert accountant, not a member of the Order, to examine monthly all accounts and file a report for publication. Several of the new officers of the concern, after the plan was adopted, could not definitely explain how it could be worked out.

## NEW MINE REGULATION.

Orders Issued by the Philadelphia & Reading Company.

POTTSVILLE, Pa., Sep. 24.—In view of the fact that accidents are liable to occur at their mines throughout the region at any hour, day or night, the Philadelphia & Reading Coal and Iron Company have issued orders compelling all inside and outside foremen and machinists to take up their residence in the immediate vicinity of the colliery at which they are employed.

This step is taken so that competent men are promptly on hand in case any serious accidents requiring immediate attention, and it will affect a large number of employees who, in preference to being deprived of the privileges of town life, have been daily traveling from 10 to 20 miles by car or carriage to their work.

## Big Land Corporation Formed.

DENVER, Col., Sep. 24.—A giant corporation has just been formed in Denver by Stephen W. Dorsey at the head, which is to be known as the American Land & Canal Company, with a capital stock of \$2,000,000. The company is in reality a consolidation of a large number of big concerns. The proviso is made that the capital stock of the corporation may be increased to \$10,000,000 if the directors choose to do so.

## Lawyer Sayles Denies the Story.

PROVIDENCE, R. I., Sep. 24.—Lycurgus Sayles, said to be the lawyer to whom Lizzie Jordan is alleged to have applied for information as to the distribution of her father's estate in the event of his death, says that there is not a word of truth in the story so far as he was concerned; that he never saw Lizzie Jordan to talk with, and that he was not in Fall River during the preliminary hearing.

## Mrs. Harrison About the Same.

WASHINGTON, Sep. 24.—Mrs. Harrison is about the same; indeed, there has been no change since arrival, except that her spirits are better. She sleeps but little. Her nervous prostration is quite marked to-day. The difficulty of assimilating solid food continues. She is able to take only a little liquid nourishment.

## Gen. Husted Wores.

FREESKILL, N. Y., Sep. 24.—General Husted's condition is slightly worse. Both temperature and pulse have fallen, and the patient is nervous and restless.

## NEW PARTY IN ENGLAND.

Sir John Gorst's Movement Threatens the Gladstone Government.

LONDON, Sep. 24.—A new danger threatens Mr. Gladstone's government in the movement headed by Sir John Gorst, recently Lord Salisbury's Financial Secretary to the Treasury, to form a party to advocate dealing with social legislation or, in other words, with the labor questions, in preference to Irish home rule, which the Premier insists on putting to the front to the virtual exclusion, for a long time, of definite action on matters of far more importance to Great Britain and of far more interest to the people.

More than 50 of the advanced Conservatives and Unionists have already promised adherence to such a party and its programme, and the importance of Gorst's leadership in such a crusade cannot be overestimated. He is one of the most clever men on the Conservative side of the House of Commons, and is so genuinely devoted to the cause of the workingman that he constantly courted the resentment of his chief while in office by urging upon the Salisbury Cabinet the claims of labor, which he frequently did at times most inopportune to the plans of the Administration.

Although, of course, party intrigues rather than sincerity in the cause of the poor is charged as the basis of the movement, and may have some to do with it in the adhesion of some Unionists to Sir John's scheme, nevertheless it may serve to attract a good many malcontents from the Liberal majority.

## SETTLEMENT AT LAST.

Rejoicing at the Ending of the Granite Cutters' Strike at Barre, Vt.

BARRE, Vt., Sep. 24.—The last act in the trouble of the granite industry occurred here when the representatives of the Union and the Association signed the bill of prices and agreement, thus ending a long and bitter contest of five months' duration. The dealers held a long session to discuss the wisdom of beginning work before a settlement was made elsewhere, but finally decided to do so, and the bill was signed.

It is understood that the Association agrees to have Barclay Brothers' injunction removed, and all sheds will resume work as union yards Monday. Union cutters are happy over the outcome of the struggle and look upon the settlement as a partial victory.

Men will be set to work rapidly, leading dealers notifying the trade to send orders so that stock can be quarried before winter. Barclay Brothers and McDonald & Son of Quincy have purchased the Drigo Granite Company's valuable dark quarry. Real estate owners and the general public are pleased at the settlement of the longest and most costly labor trouble ever known here.

## THE MAHARAJAH AT THE FAIR.

His Display of Diamonds Will Surprise Everybody in Chicago in '93.

SAN FRANCISCO, Sep. 24.—Armed Reid, managing editor of the "Strait Times," Singapore, is in this city on his way to Chicago as special commissioner to the World's Fair for the Straits Settlements and Malaya. He says the Sultan of Johore will erect a typical Malay house at the World's Fair, in which 25 Malay men and women, will be sent to reside. They will be engaged in the manufacture of gold and silver ornaments, and in the various callings of their race.

The Sultan, better known as Maharajah of Johore, will attend the opening of the exhibition in person. His display of diamonds will be unrivaled. Merchants of the Straits Settlements and native States will exhibit a quantity of tin, gamboge, pepper, dye stuffs, India rubber, rattan and other Straits produce.

## EXPULSION FROM MEXICO.

An American Merchant Who Criticized President Diaz's Administration.

MONTREY, Mex., Sep. 24.—There is considerable feeling expressed among the Americans here over the action of the General Government in expelling from the Republic C. C. Hogue, an American merchant of this city.

Mr. Hogue has seen fit to criticize President Diaz's administration, and the authorities regard his action as coming within the meaning of the law relating to pernicious foreigners, and he was expelled on that ground.

Mr. Hogue came here from the United States several years ago, and has many friends in this part of the Republic.

## Big Forest Fires in Colorado.

DENVER, Col., Sep. 24.—Great forest fires are devastating the country in Western Colorado in the vicinity of Newcastle, and already thousands of acres have been burned over. The latest estimate places the loss at \$200,000, and the fires are still raging. The fires are said to have been started by incendiaries, and the timber is very dry and no means are at hand for checking the flames.

## Gov. Russell Not to Speak in the West.

GREENFIELD, Mass., Sep. 24.—Gov. Russell is much annoyed at the untrue reports that he is to do some campaign speaking while in the West next month. To a reporter he said that he was going to Chicago to represent the State at the dedication of the Columbian Exposition buildings. He may make one speech at Chicago in connection with the dedication.

## Fast Filling Strikers' Places.

DAVENPORT, Ia., Sep. 24.—There is practically nothing new in the strike situation of the Burlington, Cedar Rapids & Northern Railway telegraphers. Supt. Williams says that no difficulty is experienced in filling the strikers' places with new operators, and there is therefore no sign of a compromise. All trains are running on schedule time.

## Another Liberal Elected.

LONDON, Sep. 24.—The election in South Leeds yesterday of a member of Parliament in the place of Sir Lyon Playfair, who has been elevated to the peerage, resulted in the victory of J. Lawson, Liberal, over Reginald C. Neville, Conservative. The vote was 4,414 Liberal, against 2,466 Conservative.

## Two Emperors to Meet.

VIENNA, Sep. 24.—A Berlin telegram announces that the Emperor William will visit the Emperor of Austria in Vienna, on Oct. 10, after attending the grand ducal wedding at Weimar on the 8th.

# TO RAZE PEST HOUSES

Hamburg's Plan to Prevent Another Cholera Epidemic.

## ABATEMENT STEADILY CONTINUES.

Believed that in Two Weeks the Plague Will be Virtually Extinct—Columbia and the Quarantine Against American Ports—Situation in New York Bay.

HAMBURG, Sep. 24.—The weather remains cool and damp. There is no dust, and the air is kept clear by strong winds. Should such favorable conditions continue for two weeks more, physicians say, the end of the period would find the plague virtually extinct for the fall and winter months.

The number of fresh cases to-day has been 359, or 50 fewer than yesterday; the number of deaths 144, or 15 fewer than yesterday. The internments have numbered 241, or 50 less than yesterday. The hospitals contain 2,593 patients, or 184 less than yesterday. The majority of the patients in the hospitals are now convalescent.

By next Monday, when the sudden diminution of fresh cases will begin to be apparent, the number of patients probably will have sunk to 1,200 or 1,300, as hundreds will be discharged as cured within the next two days.

The Board of Health has been authorized to destroy many houses in the suburbs which have suffered most from the plague. The houses named for destruction are tenements which have no adequate means of ventilation and have no sanitary conveniences. All of them have been occupied by laborers' families, whose members have died off like sheep during the plague.

Seven houses in Barmbeck and three in Horn have lost two-thirds of their occupants through cholera in the last three weeks, and they are so thoroughly saturated with the disease that no disinfection, the Health Board say, could render them safe.

After the disappearance of the disease many other tenement houses will be examined with a view to tearing them down. These measures are deemed necessary to insure the city immunity from a return of the epidemic next year.

The precautions taken by the authorities are so obtrusive to sight and smell as to throw a stranger into a hypochondriacal state. Violations of the sanitary regulations are punished by a fine if the offender is poor, and by imprisonment if rich.

The cholera will prove a boon to Hamburg and other large cities if it leads to the better housing of the poor. Although they cannot be compared with Hamburg, the older parts of Berlin are deplorably overcrowded. One case in point is a single building which is occupied by 250 tenants, mostly families.

Thirty-six smaller dwellings open off onto one passage. The windows in these wretched structures are often stuffed with rags and papers instead of being supplied with glass. The average size of the room is 16 feet by 10. Some families, in which there are five children, have only one bed.

The condition of these dwellings is deplorable. They are full of dirt and vermin, and veritable hot beds of disease.

In the country districts the state of affairs is often worse. Cases are on record of four families, consisting of 32 persons, occupying a single small room, divided off into sections for the use of the different families by chalk lines. All married servants on an estate are housed in one room.

The figures in Antwerp up to date are 189 cases and 63 deaths.

## COLUMBIA AND QUARANTINE.

Why the Concord Was Ordered to Aspinwall—Trouble Feared.

WASHINGTON, Sep. 24.—The Navy Department, in explaining the order to Admiral Walker to send the gunboat Concord to Aspinwall from La Guayra, Venezuela, states that they do not fear any trouble there, but that she will be on hand should anything occur. Consul Simms has notified the Department that there is a good deal of complaint on account of the quarantine orders against the United States.

The inhabitants of the republic of Colombia think the regulations too strict and claim that trade is paralyzed, and that if it continues there will be trouble. The Navy Department, however, does not fear any such outbreak, but, as Commodore Ramsey said to-day:

"We have not had a vessel there for some time and think it may be good to send one, so the Concord was ordered to the Isthmus. The Navy Department has three war vessels near by if any trouble should occur, for the Chicago and Kearsage are at Venezuelan ports, distant about a day's sail."

Minister Pascoe, at Guatemala, cables the State Department that that country has established a strict quarantine against all American ports.

## Fire Island Almost Deserted.

FIRE ISLAND, N. Y., Sep. 24.—Fire Island is almost deserted. Chambermaids, soldiers and policemen hold fast away here at present. Manager Wall has no intention as to when he may expect any other guests. Dr. Vought accompanied the Wyoming's passengers, who have gone to the city in the Cepheus. Dr. Seyward, who is now in charge here, is entirely satisfied with the sanitary condition of the island.

## No More Exiles Sent to Siberia.

OMSKA, Sep. 25.—Orders have been given to cease sending exiles to Siberia for the present, as cholera is prevalent along the route. Many exiles have been stricken this summer, and the exile parties are believed to have been an important factor in the spread of the disease. Since last April 6,793 exiles have been sent to Siberia from southern Russia.

## Situation at Lower Quarantine.

QUARANTINE, Sep. 24.—Dr. Walker's report from Lower Quarantine is that there are no new cholera cases and no deaths on the island, or detained vessels. The Rugsia's officers have been released from quarantine and taken to their vessel in the upper bay.

## The Plague at Craon.

VIENNA, Sep. 24.—Seventeen fresh cases of Asiatic cholera and two deaths are reported from Craon to-day. The disease is said to have spread in the garret, but full details are withheld.

## MIGHT HAVE BEEN AVERTED.

Conscientious Scruples and the Panic in the New York Synagogue.

NEW YORK, Sep. 24.—It is said that the panic at Ludlow street yesterday, which resulted in the death of four persons, and the injuring of many others, several of whom will die, might have been averted by little effort. Some of the less orthodox worshippers say that the fire could have been extinguished in a moment if the older members of the congregation had not had conscientious scruples about putting out a fire on a holiday. To do so they considered a desecration of the day.

The complete list of the injured is as follows: Isaac Walcott, superintendent of the synagogue, internally injured. Albert Wolf, aged 24, suffering from nervous shock and slight injuries. Rachel Backowitz, widow, aged 60, fractured skull; fatally hurt. Tillie Stillker, aged 17, badly bruised. Herman Cohen, 15 years of age, ribs crushed, internally hurt.

Mrs. Rebecca Friedland, aged 49, fractured skull; fatal. Miss Ida Cohen, aged 21, skull fractured. Julius Altman, aged 9, badly bruised, leg broken; will die.

Rachael Bursk, aged 27, fractured skull; injury fatal. Mrs. Annie Cohen, widow, aged 58, fractured skull; fatally hurt. Simon Greenberg, aged 35, fractured skull; fatally hurt.

Mrs. Louise Cohen, mother of Ida Cohen; internally injured. The dead are Mrs. Joseph Beck, 44; Naomi Rosenthal, 30; Jacob Boyum, 50, and an unknown woman, aged about 39.

## WASHINGTON'S BIG CROWD.

Figures Regarding the Number Who Attended the Encampment.

WASHINGTON, Sep. 24.—The Grand Army Encampment brought to this city more people than have ever before been assembled here. The crowds at Cleveland's or Harrison's inauguration were not nearly so large, nor did the throng at the triennial convulse of Knights Templar compare with it.

The Baltimore & Ohio Railroad alone brought 150,000 people to the city, and there were brought to the Pennsylvania Railroad station 150,000, of whom 25,000 to 30,000 came by the way of the Chesapeake & Ohio and Richmond & Danville railroads. A few thousands others came by boats and wagons. The number of accidents reported has been surprisingly small.

The city opened for this immense crowd easily and well. Fifty thousand veterans were furnished free quarters by the citizens, and all other persons who came were able to find comfortable lodging and abundant food at low rates. A temporary hospital was provided for veterans, and each day many emergency cases were attended to. Serious cases, however, were very few.

## THEY HAVE NO YACHT.

Venezuelan Officials May Not Pursue the South Portland.

NEW YORK, Sep. 24.—The report that the Venezuelan Consul has sent a 1,000-ton eighteen knot yacht to head off and seize the South Portland, which is alleged to be carrying guns and ammunition to the Venezuelan insurgents, is denied. It is said that neither the Nourmahal nor the Atlanta can make 18 knots an hour, and there is not a yacht of that size on this coast capable of making it. The general opinion among shipping men now seems to be that the South Portland will go on her way unmolested.

It is said that negotiations are pending for the chartering of the Albert Douden and the Golden Fleece. The Golden Fleece, it is said can be hired for \$100 a day through the Hughes Yacht Agency. The other vessels which are lying at the battery are quite fast, and have been engaged in the fruit trade.

## TWO MURDERS IN WILKESBARRE.

A Prominent German Stabbed—Another Man Killed for Revenge.

WILKESBARRE, Pa., Sep. 24.—Nicholas Hehl, a prominent German of Hazleton, was stabbed 11 times by three drunken men last night, and died almost instantly. The murderers, whose names could not be ascertained, were arrested.

Michael Wrich of Sticklin, Pa., who was murdered here yesterday, and his body placed on the railroad track, some months ago stole \$500 from a fellow boarder and fled to Jersey City. He was arrested and brought back, but only \$100 of the stolen money was recovered. He was released on bail.

It is now believed that the friends of the man who lost the money lay in wait for Wrich and murdered him.

## To Sue the Hamburg Company.

BRIDGPORT, Conn., Sep. 24.—Judge Alfred B. Beers, John M. Hawley and David F. Read, of this city, will shortly institute civil suits for damages against the Hamburg American Packet line, due to their detention and the exposure and privation to which they were subjected on the memorable trip of the Normanna. The Bridgeport gentlemen base their claim upon the fact that they were informed when they secured passage that no steerage passengers would be admitted to the Normanna on that trip. They will claim \$10,000 each.

## The Arms Spirited Away.

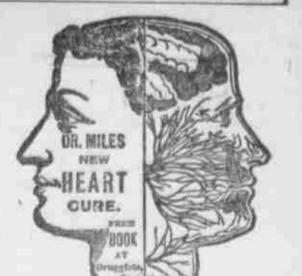

HOMERIDGE, Pa., Sep. 24.—Detectives who have been trying to locate the arms taken from the Pinkertons on the day of the riot, July 6, traced the weapons to a coal mine near Minhall station, above here. The detectives made a raid on the mine but the expected arms were not to be found. They learned that the arms were removed a day or two ago. They claim to know the parties implicated in their removal and a sensation is promised soon.

## Secretary Elkins Recovering.

WASHINGTON, Sep. 24.—Secretary Elkins will return to Washington on Monday. Advice received by his private secretary do not indicate that Secretary Elkins at any time has been seriously ill. He left here suffering from a bilious attack which became aggravated by his active participation in the West Virginia campaign, but has since yielded to treatment.

## English View of the French Tariff.

LONDON, Sep. 24.—In commenting upon the effects of the French tariff, the "Daily News" says that the price of every article of common consumption in France, save fruit, has been increased since the tariff went into operation.

# HEART DISEASE!

STATISTICS show that one in FOUR has a weak or diseased heart. The first symptoms are shown by breathlessness, dizziness, fainting, fatigue, nervousness, palpitations, etc. Dr. Miles' Heart Cure is the only medicine that has proved of any benefit in heart disease. It is a powerful remedy, and has cured many cases of heart disease. It is a powerful remedy, and has cured many cases of heart disease. It is a powerful remedy, and has cured many cases of heart disease.
