

MAHANOT CITY.

George Stecker, a ten-year-old resident of Spruce street, was arranged before Justice O'Brien, yesterday, charged by Mrs. Charlotte Kershner with assault. It was proved that the lad had thrown several snow balls at the old lady, one of which struck her square in the ear. The Justice reprimanded the lad and allowed him to depart as it was his first offense.

The town is crowded with sports from all over the county this afternoon. Big sports and little sports, sports with fifty cents to a hundred dollars are on hand with their little "wad" to win, or lose, on the Cox-Green match. The Cox party was at Lewis' this morning, offering 10 to 7, with few takers. Fogel and Hunsinger are the heaviest betters of the Cox party, while W. W. Lewis and the Girardville people are taking the short end on Green. Lewis seems quite confident of his winning on the Girardville man.

Hogan Canfield, of Cambola, arrived in town this morning, loaded with Wilke-Harre money, won last night in the cooking main in Hazleton. The fight was between Luzene, Carbon and Schuylkill county birds, and was won by the Mile party, of Summit Hill. The battle was to be best five out of nine, and the Mile party won the first five battles and took the money, about \$200. The fight was largely attended, Mahanoy City being well represented.

FOR LIEUTENANT GOVERNOR.

The Farmers Want Hon. O. M. Tinkham--April Finds Him Well Again.

There is no man more popular among the farmers of the country than Hon. O. M. Tinkham, whose likeness is here given.

A man of acknowledged ability, of commanding presence, an excellent presiding officer, he will undoubtedly fill with credit the office to which the farmers of his own state wish to elect him.

Ten years as agricultural editor of the Freeman and Watchman, of Montpelier, Vt., secretary and president for several years each of the Vermont state dairy-men's association, and employed by the boards of agriculture of Maine, New Hampshire, Massachusetts, and New York at their meetings, assistant commissioner of agricultural affairs, dairy commissioner at the world's fair at New Orleans, member of his state legislature, where he was chairman of the house committee on agriculture, and recently accredited by the secretary of agriculture to Europe to study the labor problem, he is one of the most conspicuous representatives of the farming interests of the country.

Some time ago, Mr. Tinkham was prostrated with heat in the hay field, and from the consequent derangement of the system suffered severely from dizziness, so much so that walking was difficult. He tried the famous Paine's celery compound, which had been so publicly recommended by Mayor McShane, of Montreal, Rev. Father Ouellet, Miss Mabel Jenness, Ida Lewis, and others, and the result was most happy. To quote his own words:

"The dizziness is all gone, and I am now quite recovered."

The success of his vigorous lectures upon his European experiences has been marked. He is now residing at North Pomfret, Vt., and the citizens of the state will wisely insist upon his going into politics so far as to take the lieutenant governorship.

Mr. Tinkham's experience with the wonderful remedy that makes people well and is as superior to all other spring medicine as milk is more nourishing than water, is not surprising.

Men and women all over the country are finding strength and freedom from disease in Paine's celery compound. It clears the sluggish blood of the unhealthy humors that a poor circulation and faulty assimilation tend to produce. It corrects unhealthy nervous action and feeds the nerve centers with just the elements needed to build them up again into healthy tissues. Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth college, discovered the formula for the famous Paine's celery compound after long years of study of the deep changes that take place in worn-out, disordered nerve tissues.

Dr. Phelps was accustomed to explain in his lectures his mastery over diseases due to bad blood and nervous weakness, as follows: "In diseases of the liver, kidneys, and heart something is in the blood that ought not to be there. Neutralize these bad humors. The nerves and nerve

centres are starving. Feed them with the elements that will build them up again. Paine's celery compound embodies these advanced ideas regarding the blood and nerves.

As was to be expected, so remarkable a discovery has not failed to attract the attention of scientific men all over this country and in Europe. Medical journals have given Paine's celery compound much discussion. Paine's celery compound is extensively used in all the large homes and institutions for sick and aged persons throughout the country. To-day it stands unquestioned as the most valuable and reliable remedial agent at the physician's command for curing neuralgia, rheumatism, dyspepsia, inability to sleep and diseases of the heart, liver and kidneys. It is prescribed by the entire medical faculty.

It is the greatest spring medicine, "the only spring medicine worthy the name," says one physician of the highest standing in the profession. For languor, debility and all forms of nervous weakness it has proved its invaluable curative power. It makes people of all ages and occupations well and active.

The famous Dr. Parr, who lived to such a patriarchal grand old age, was accustomed to say: "'Now' is the watchword of the wise. 'Now' is on the banner of the prudent." Take Paine's celery compound "now." April is the most favorable time.
