McCollan, traveling passenger agent for the Wabash Railroad Co., of New York, spent a few pleasant hours with John Munley, the enterprising young station agent for L. V. R. Co., of this place, Saturday last.

It will be an agreeable surprise to persons subject to attacks of bilious colic to learn that prompt relief may be had by taking Chamberlain's Colic, Cholera and Diarrhoea Remedy. In many instances the attack may be prevented by taking this remedy as soon as the first symptoms of the disease appear. 25 and 50 cent bottles for sale by Grubler Bros.

THE HOLOCAUST AT BUFFALO.

It is Now Believed That Twenty-two Workmen Perished.

BUFFALO, April 16.—The work of searching the ruins of the works of the American Glucose company for bodies was begun yesterday, and when the workmen were compelled to quit by darkness the remains of four bodies had been found. They were taken to the morgue, where they now are, identification being impossible. The largest portion of charred flesh and bones found was part of a man's trunk, found outside the walls. The man had evidently jumped from a window and been caught by a falling wall and roasted outside the building.

The morgue was crowded all day with weeping Polish women, wives and relatives of the men burned. They made a great outcry when the charred remains were brought in, and some of the more demonstrative threw themselves on the blackened pieces of flesh and wept. The morgue officials had to use force to get them away from the remains. The exact number of men who were cremated cannot yet be definitely stated. It is absolutely certain that twelve men were burned, but there is grave reason to fear that there were a number of others, and it is not improbable that there were twenty-two victims.

FAILED TO OBEY ORDERS

As a Result One Man Was Killed and Many Cars Wrecked.

HAZLETON, Pa., April 16.—A Pennsylvania railroad freight train collided with a Lehigh Valley express train at noon yesterday near Silver Brook, a few miles from here, on the Lehigh Valley railroad, and Patrick Daley, of Milnes, Pa., was instantly killed and twelve other passengers and train hands slightly injured. The accident was due to an oversight of the crew of the freight train.

At Pottsville the conductor and engineer of the freight consulted the schedules, but looked at those of the Pennsylvania instead of the Lehigh Valley railroad. They thought they found a clear track, and came down the mountains at a high rate of speed, failing to take the siding at Silver Brook, as ordered. The train collided with the express with terrific force, and the freight cars were telescoped and crushed into kindling wood. The engines were badly broken and the furnishing of the passenger cars torn out, the passengers being badly shaken up and thrown about. Daley was riding on one of the cars in the freight train and was thrown into a freight car and horribly mangled.

Interesting Ceremony at St. Peter's.

ROME, April 16.—A most picturesque and interesting ceremony took place in St. Peter's church yesterday morning, and was attended by a great number of persons from all parts of the world. The ceremony was the beatification of Juan Davilar, the Spanish theologian, who is known as the "Apostle of Andalusia." The pope prayed before Davilar's altar in the afternoon. Thirty thousand persons were present. His holiness was escorted by twenty cardinals and a large number of Spanish and other priests. At the end of the service his holiness received gifts, presented to him by the promoters of the movement that led to the beatification. As he was borne from the church he was most enthusiastically cheered.

Alexander and William Lindsey, of Tamaqua, were struck by the 4:20 east-bound train at the Reading station on Saturday, and slightly injured. They were returning from the shooting match in Mahanoy park, and attempted to cross the track in front of No. 12, as they dashed into the station. Alexander was thrown twenty feet ahead and on to another track, receiving a wound on the calf from his collision with the pilot. William was tossed aside, uninjured, beyond a few cuts about the face and body. They limped to the platform and boarded the train for Tamaqua.

TAMAQUA.

Some Interesting Paragraphs From a Wide-Awake Correspondent.

TAMAQUA, April 14, 1894.

This town has many handsome dwelling houses, none better can be found in the county. The notable structures are those recently built by the saving funds. They are not mere shells, but substantial buildings with all modern improvements, and are intended to be serviceable. There are not many saving funds that put their surplus to better use than these here. These funds have practical men at their head, and to their enterprise many people are indebted for the ownership of homes.

In the '50's, when the first telegraph line was put through this town to Pottsville, the poles used were scraped and painted and a handsome gilded top piece in the shape of an acorn was placed on them. But that was years ago. The telegraph companies are not of such an ornamental turn of mind now. I was reminded of this by seeing one of the top pieces in a scrap pile.

The Allen machine shops and foundry are still idle and going to decay. Larger or better equipped shops would be hard to find and they once gave work to many people. Some of the best mechanics learned their trades there.

Broad street crossing is one of the most dangerous to be found and it is surprising how many accidents have occurred there, especially in the evenings, as the facilities for illumination are very poor. The railroad company ought to place one or two arc lights in that neighborhood. The crossing is also frequently accidented for several minutes by the shifting of trains.

Some of the best shots in the county are Tamaqua men and a number of them can always be found in the United States Hotel. Mr. Clayton, the proprietor, is one of the best shots in the region and is a frequent competitor in matches.

As a summer resort city people could not find a prettier or healthier place than this. If there was a hotel on Dutch Hill—one of the best sites—it would be filled throughout the season. The site is high and airy, free from malaria and well drained. Besides, by way of diversion, we have some of the prettiest girls in the state and plenty of them, while our people generally are very sociable and most entertaining.

Those who never read the advertisements in their newspapers miss more than they presume. Jonathan Kenison, of Holan, Worth Co., Iowa, who had been troubled with rheumatism in his back, arms, and shoulders read an item in his paper about how a prominent German citizen of St. Madison had been cured. He procured the same medicine, and to use his own words: "It cured me right up." He also says: "A neighbor and his wife were both sick in bed with rheumatism. Their boy was over to my house and told me they were so bad he had to do the soaking. I told him of Chamberlain's Pain Balm and how it had cured me, he got a bottle and it cured them up in a week. 50-cent bottles for sale by Grubler Bros.

THE WEEK IN CONGRESS.

The Fight Over the Quorum Counting Rule the Principal Business.

WASHINGTON, April 16.—The struggle over the adoption of the new quorum counting rule decided upon by the Democratic caucus last Friday will be the feature of the present week in the house. Inasmuch as about one-third of the Democrats are violently opposed to any quorum counting rule, as indicated by the vote in the caucus, it will be impossible for the Democrats alone to adopt such a rule. The Republicans will, however, acquiesce in the adoption of any rule that contains the essential principle of recording as "present but not voting" those members who decline to respond to their names. This is the parliamentary principle which Mr. Reed has been contesting ever since the end of the Fifty-first congress. It must be embodied in any new rule submitted to the house or it cannot be adopted. It is expected when the rule is presented to the house that the greatest opposition will come from the new order of things inaugurated in the house. Owing to the death of Senator Vance both houses adjourned today, and the fight over the new rule in the house is postponed until tomorrow.

It is probable that but little time will be allowed for debate, and the chances are that when the house adjourns tomorrow evening the quorum counting rule will have been adopted and filibustering of the kind which has characterized the proceedings of the house for the past three years will be a thing of the past.

The resolution adopted by the caucus instructing the sergeant-at-arms to enforce Section 40 of the revised statutes, deducting the salary of absent members, save on account of sickness, it is believed, will have the effect of securing a very full attendance in the house hereafter. It is expected that the new order of things inaugurated in the house the consideration of the appropriation bills will be resumed and will consume the remainder of the week.

With the exception of the Chinese treaty, which is to be considered tomorrow, and the routine morning business of each day, the week in the senate promises nothing but a continuation of tariff debate.

THE WILD BEAST CONTEST.

Efforts to Prevent the Fight Between a Lion and a Grizzly Bear.

SAN FRANCISCO, April 16.—The fight announced to take place in Boone's arena at the Midwinter fair, next Saturday evening between Colonel Boone's African lion, Farnal, and a grizzly bear recently captured in the mountains has started up serious trouble between the Society for the Prevention of Cruelty to Animals and the executive committee of the exposition. The society announces that the fight cannot come off, and if it is necessary warrants will be sworn out for the arrest of the executive committee, not stepping at Director General De Young, in order to prevent the contest.

Preparations for the struggle continue. Nearly all of the seats are said to have been sold at prices ranging from \$10 to \$20 each, and tickets will probably be at a premium when the fight begins. Farnal is one of Colonel Boone's performing lions, but recently has become so ferocious that he is kept confined in a special cage, and his physical appearance is perfect. The grizzly bear is a fine specimen, fresh from the mountains, and weighs 150 pounds more than the lion.

Two Prisoners Escape.

HACKENSACK, N. J., April 16.—Two prisoners, Morris Stevens and August Sedaka, both men with a bad record, escaped from the Bergen county jail yesterday and have not yet been captured; a third, Henry Dukus, was only prevented from escaping by Sheriff Bogart after a desperate struggle. All three were under sentence of long terms in the state prison at Trenton. Two of them were horse thieves and the other had been convicted of robbing a school house in Bergen county. When Sheriff Bogart entered the corridor to give the prisoners their breakfast he was struck on the head by Dukus. The sheriff seized Dukus, and after a desperate struggle assistance arrived and the prisoner was overpowered. Meantime the other two had escaped.

Brasilians Incurgent Losses.

MOSTEVIDE, April 16.—The commander of the gunboat Beagle telegraphs that the Brazilians incurgent losses in the attack on the city of Rio Grande do Sul 300 men killed or wounded. The government loss was 100. Nine hundred insurgents subsequently landed on Uruguanay territory. They were not armed, but were under command of General Salgado, who had withdrawn these men from the insurgent forces in consequence of his not being in accord with the plan of Admiral de Mello. The insurgent squadron has gone to Paranaguá.

No Sunday Baseball in Savannah.

SAVANNAH, Ga., April 16.—The city authorities sat down on Sunday baseball yesterday. The Savannah and Macon team agreed to play the game scheduled for Monday, leaving Monday a day of rest, but the mayor prohibited it. More than two thousand people went out expecting to see the game. The management of the club will not fight the matter.

One of the Famous Six Hundred.

NEW YORK, April 16.—A veteran of the Crusades, a survivor of the glorious charge of the Light Brigade at Balaclava, William Hibbert by name, died in this city of pneumonia after an illness of one week. Mr. Hibbert was a native of Nottingham, England, and was 83 years old. He came to this country over twenty years ago.

The Portuguese Elections.

LISBON, April 16.—The elections held yesterday for members of the chamber of deputies resulted in the return of a government majority of about forty.

LIBERAL ADVERTISING.

Remarkable Success of a Firm in the Use of Printers Ink.

In January when times were the hardest and many advertisers were reducing their expenditures for printer's ink, the papers had an order from the proprietors of Paine's celery compound for the largest amount of advertising ever published by it for any medicine.

The wisdom of this course is shown by the fact that to-day the druggists of this city report that no other medicine sells as freely as Paine's celery compound. This is a good object lesson for the local advertisers, and shows that if they have an article of superior merit, and will advertise it liberally and judiciously in the papers, they will find their trade increasing, and hard times will not be noticed by them.

Among newspaper men, Paine's celery compound is especially popular. There is no occupation whose requirements are so wearing upon the nervous system as that of newspaper work. Subject to duty at all times, with a liability to sleepless nights and dinnerless days, there is a peculiar strain upon the system in the reporter's work, which frequently leads to physical exhaustion and mental depression. Many newspaper workers in Pennsylvania who have suffered severely from nervous troubles, arising from overwork and close confinement find pleasure in attributing to Paine's celery compound their new strength and vigor. It is an ideal medicine, producing lasting good results, and is pleasant to take. It is a soothing, strengthening, and altogether wholesome remedy that will cure any case of nervous exhaustion or kindred ailment that has not reached a hopeless state, in which a condition is possible since the invaluable properties of celery have been utilized in combination with other herbs to make this preparation.

At this season of the year, when the nerves need strengthening and the blood purifying, there is an enormous demand for the compound, which serves to prove the value of extensive and judicious advertising of a meritorious article.

Caught on the Fly.

A would-be tax jumper who was about to flee from the town by a neatly planned trick was caught by Tax Collector Scanlan, Saturday afternoon. The delinquent was a Pole. He had a confederate who cared for his baggage. The confederate arrived at the Lehigh Valley station half an hour before train time and secreted the delinquent's valise in a box at the side of the track opposite the station. When the train pulled in the delinquent stepped boldly aboard and his confederate drew the valise from its hiding place preparatory to handing it through a car window to the owner. The eagle eye of Collector Scanlan caught the trick and the scheme and in another moment the valise and delinquent were in his custody. The Pole was detained until he squared his accounts with the borough.
