The Merkovitzes were getting the worst of the battle when Mrs. Golofsky came to their rescue, and in the melee men and women became entangled in a struggling, kicking, slugging mass, piling on top of one another like the boys game of "bloody miller." THE GREAT COAL STRIKE

Employees Declare That They Can Readily Secure New Hands. PITTSBURGH, April 17.—Arrangements for the coal miners' strike, which is to take place next Saturday, have been nearly completed. At a conference held between National Organizer Cameron Miller and District President Cairns a series of meetings was arranged to take place while the strike is in progress to keep up enthusiasm and keep the men in line.

In a few days circulars will be sent out to the operators notifying them that the miners demand a restoration of the old price for mining, which is seventy-nine cents in this district. It is evident from the short official notice which the operators will receive that the miners do not expect them to consent to the advance in wages asked for, as the operators would scarcely have time to come together and formulate any reply before the strike is declared. It is thought, however, that they will agree upon some concerted action before the strike is well under headway in order to protect themselves.

It is pretty certain that some of them at least are now preparing to continue operations with new men the moment their present employees lay down their picks. They claim that about one-half of the 800,000 miners in the country are out of work and have been idle most of the winter because they could find no employment. They are consequently very poor and anxious to go to work at any price. It is, therefore, claimed that the operators will have no trouble in getting men to take their places.

Wrecked by a Landslide. SALT LAKE CITY, April 17.—A landslide occurred at Weber canyon, east of Ogden, on the Union Pacific road, causing an accident to a freight train. The watchman went forward to flag the passenger train, not being aware that there was a special freight going east. The engineer and fireman of the freight train jumped just as the engine was about to crash into the mass of rocks. The fireman had a leg broken. The engine was badly wrecked. The passenger train was delayed several hours.

Where the Steals Money Went. INDIANAPOLIS, April 17.—The testimony in the prosecution of the Indianapolis bank wreckers has brought out where the money is planted. Houtton, manager of the exchange department of the First National bank, of Chicago, yesterday testified that he had seen by cable at different times to Elijah Coffin, an uncle of the defendant Coffins, who was the secretary of the London branch of the concern, \$800,000.

Pulliam, of this city, the only female city treasurer in the state, makes it appear that she is \$1,500 short in her accounts. She has been suspended pending further investigation. It is not thought she has been dishonest but that the shortage is due to some one having obtained the money by illegal means.
