

# EVENING HERALD

Published daily, except Sunday by  
**HERALD PUBLISHING COMPANY,**  
Publication office and mechanical department,  
North Market Street.

The Herald is delivered in Shenandoah and surrounding towns for Six Cents week, payable to the carriers. By mail, Three Dollars a year or Twenty-five cents per month, in advance.

Advertisements charged according to space and position. The publishers reserve the right to change the position of advertisements whenever the publication of news requires it. The right is also reserved to reject any advertisement, whether paid for or not, that the publishers may deem improper. Advertising rates made known upon application.

Entered at the post office at Shenandoah, Pa. as second class mail matter.

THE EVENING HERALD,  
Shenandoah, Penna.

## Evening Herald

TUESDAY, MAY 14, 1906.

A CLEVELAND man died from blood poisoning the other day, caused by moistening a postage stamp on his tongue. What does anybody want to do that for, anyhow, when it is sufficient to breathe on the stamp?

BE on the lookout for counterfeit two-cent pieces—there are many now in circulation. It requires close scrutiny to detect them. They are of a leaden characteristic to the touch, and the lettering lacks the sharpness of the genuine.

THE Landis flag bill as it passed the Senate requires school boards to purchase out of the public funds flags made of American bunting, by American workmen, out of American wool and displayed on the school houses in their respective districts on staffs of American timber.

THE Spang heirs at Reading have regularly organized to hunt after the mythical fortune in Europe. When will the fortune hunters in America learn any sense? Must it be said for the hundredth time that there are no fortunes lying loose on the other side of the Atlantic?

IT is estimated that it costs on an average over \$5,000 to graduate a pupil from the Agricultural College of Pennsylvania. A member of the Legislature declares that it would be "cheaper to close the college and send the students to Yale or Harvard." And there is another advantage: He would learn foot ball at Yale or Harvard—a branch of study not taught at the State Agricultural College.

WHISKEY does not cure snake bites. It produces snakes. Men who were dead drunk when bitten by a snake have died from the bite. There is a substance, however, which is declared to be a perfect antidote for serpent poison. It is strychnine, hypodermically administered in doses of from 15 to 20 minims of liquid strychnine at intervals of 20 minutes. The remedy is to be administered till twitching of the patient's muscles begin. That is a sign the snake poison has been overcome, and the strychnine, having done its work on the serpent venom, is now beginning on its own account. Contrary to the common belief, there are now said to be no bacteria at all in serpent poison. The venom simply paralyzes the nerve centres.

THE apprehensions entertained by a few timid ones in regard to the future of beef can, we think, be safely dismissed. There is still enough grazing territory left to furnish provender for all the beef cattle needed to supply the wants of the country and leave a big surplus for exportation. In addition to the great cattle districts of the West and Southwest there are millions of acres in the older states upon which cattle of the finest quality were raised in sufficient abundance to meet the wants of the community, but which, since the country has been depending upon California, Kansas City and Omaha for its beef supply, have been turned to other uses. As soon as it will pay these old state farmers to breed and fatten beef cattle, so soon they will gladly enter upon it, and though it may cost the housekeeper a little more to furnish her table with choice cuts, the increase will not be so great as to prevent nearly everybody from having an occasional sirloin or juicy rib roast.

A WOMAN of Williamsburg, N. Y., popped the question three different times to a butcher from whom she purchased her meat, but he refused to give her his heart. He had often sold her a heart, but he said his heart belonged to another. As she continued to annoy him with her declarations of love after he had married the other, he had her arrested. It says the Norristown Herald, this Williamsburg woman is one of the "coming" kind, she should be sidetracked before she comes any further. The men of tender loins who had received the infatuated daisies' tender lines, and may-

hap read them, did not strenuously object to three marriage proposals, as they were inexpensive, and accompanied by such violent osculatory outbreaks, but when one sided courtship continued after he had wedded the woman who had not only captured his heart, but also his liver, and eke his entire meat establishment, he naturally thought it was time to draw the line and evoke the majesty of the law. A magistrate will do the rest.

DISCUSSING the alleged Wanamaker Presidential boom, the Washington Post says: "In any event the situation is full of interest. Mr. Wanamaker is a man of very great ability in the practical affairs of life. He knows how to manage men, he is shrewd, quick, bold and facile. There is little that is magnetic about him, but that means nothing in great things. The only magnetic man we have had in the national arena since the days of Garfield was thrice for the Republican nomination, and when he did win it, was defeated at the polls. Mr. Wanamaker, possesses what is more effective than magnetism—he is intelligent, determined, ardent and industrious, and has behind him the wealth necessary to give effect to any plan he may adopt. He will have against him, of course, the Hon. J. Donald Cameron, and presumably Mr. Quay—both tremendous forces in Pennsylvania politics—and the chances are that General Hastings, now Governor of the state, will view with apprehension the prospect of an enhancement which most inevitably overshadows his own aspirations. But Wanamaker, if he should enter the fight at all, will enter like a giant, and the man who takes him lightly will make a sad mistake."

THE Mayor of the city of Cologne, in Prussia, has ordered a boycott against the American dried apple. He states that quantities of the slices are offered for sale which contain a larger or smaller percentage of zinc. Of thirteen samples selected for investigation eleven are said to have contained zinc, absorbed from zinc netting on which the apples were dried. This netting method is employed to save time and labor in turning the apples, and also that the air may reach them more readily. The old-fashioned way was to spread the slices on boards or wooden racks and place them in the sun. When dried on one side they were turned over. This was a healthful manner of procedure and precluded the possibility of poisoning in the manner indicated by the Mayor of Cologne. According to experts he employed, the eating of such dried apples may undoubtedly be injurious to health, especially to children and those who have weak constitutions, as by the progress there is formed in the apples malarial zinc, which has an analogous operation to that of lactate of zinc. United States Consul Warner says there is considerable trade in the Cologne market in America dried apples, and from information given him the order of the Mayor will frighten the public against eating dried apples and thereby injure, if not destroy, altogether this trade. Such a result would be even more far-reaching, for it is probable it would spread through Germany, where American apples find a good market.

Drank Two Quarts of Whisky and Died. SHAMOKIN, Pa., May 14.—Joseph V. Schwartz, aged 35 years, died at Continental Cut as the result of having swallowed two quarts of bad whisky. He had enjoyed the reputation of being able to drink two quarts without a pause, and after having drunk his second quart he amused a crowd by singing a song and dancing a jig, at the conclusion of which he dropped to the burlesque floor dead.

Suicide of a Convict. BALTIMORE, May 14.—John Frieser, aged 28, under a ten year sentence in the Maryland penitentiary for murder, committed suicide yesterday afternoon by leaping into an airway. He was sentenced in 1890 for the shooting of Miss Mary Stone, a mill girl of Hampden, Baltimore county, of whom he was insanely jealous. Frieser's father committed suicide in the same manner a few years ago.

Awoke to Meet Death by Flame. MIDLAND, Mich., May 14.—Mr. and Mrs. Frank Hule were burned to death at 3 o'clock in the morning. The couple moved into the house Saturday night. They were busy unpacking goods until a late hour, and soon after retiring awoke to find the house in flames, and were so hemmed in that escape was impossible. The children were rescued. Neighbors say the fire was incendiary.

Mother and Baby Burned to Death. ST. LOUIS, May 14.—Mrs. Charles Hise, living at the corner of Montgomery and Ninth streets, and her six-months-old baby were burned to death by the explosion of a gasoline stove. Mr. Hise was badly burned about the body in extinguishing the flames that were burning another child of 4 years. The father and surviving child are in the city hospital.

Minnesota's Riotous Mine Strikers. DULUTH, Minn., May 14.—At a meeting of the county commissioners the sheriff was instructed to break up the strike at Virginia as speedily as possible. He left last night with fifty deputies for the scene of the trouble. It is feared, however, that it will be necessary to send troops before the disturbance can be quelled.

Proposed Increased Taxation in France. PARIS, May 14.—The Budget estimates of the premier and minister of finance, M. Ribot, for 1907, which was submitted to the chamber of deputies today proposes several increases in taxation in order to provide for a deficit of 35,000,000 francs.

# MAY'S WINTRY BLAST.

It Has Done Much Damage to Fruits and Vegetables.

## NEW YORK'S GRAPE CROP RUINED.

The Damage to That Crop in the Chautauque Belt Alone Will Reach Fully Two Million Dollars—The Damage by Frost in Other Sections.

NEW YORK, May 14.—Reports from many sections of the state indicate that Sunday night's frost did an immense amount of damage to growing vegetables, crops and fruit. Telegrams from Dunkirk, where the thermometer fell to 25 degrees, state that the grape crop of the Chautauque grape belt was ruined. Gerry Rickman, the millionaire grape grower and wine manufacturer, says the loss in the belt by reason of the destruction done to the grapes will reach at least \$2,000,000. His own loss he estimates at \$350,000. Last year the crop in this belt was valued at \$1,500,000, and by reason of new acreage coming into bearing the crop this year would have been much larger.

The Chautauque grape belt extends through Erie county westward to Erie. It occupies a strip from five to eight miles in width along the southern shores of Lake Erie. The number of acres bearing grapes last year was 26,000. This year 35,000 acres would have been bearing. The vines were loaded down with blossom buds Sunday evening, and today, from one end of the belt to the other, the vineyards are nothing but blackened ruins, and have the appearance of having been visited by fire.

Three thousand six hundred freight cars were loaded from the belt last season. The total number of baskets reached 10,800,000. To this number 3,000,000 might safely be added for increased acreage this year.

Brookton, generally known as the center of the Chautauque grape belt, is in mourning. Nothing is raised there but grapes, and the frost cut them all down. The grape growers are demoralized.

Growing Vegetables Encased in Ice. MILWAUKEE, May 14.—The temperature fell last night, and there was another heavy frost during the night. Snowfall at Depece, Manitowish, Madison, Chippewa Falls, Oaklawn, Appleton, Mayville, Wausau, Palmyra and other places in nearly every section of the state. The ground was covered to a depth of an inch in the northern section, but was light at points below Green Bay and Chippewa Falls. Everything is frozen up tight at Wausau, and there is an inch of snow on the ground. Nearly everything that grows was frozen at Vircona, corn and vegetables being covered with a quarter of an inch of ice.

Ice an Eighth of an Inch Thick. PITTSBURGH, May 14.—The thermometers in and about this city marked 30 degrees yesterday. There was a very heavy frost, and in many places ice an eighth of an inch thick was formed. Most of the early garden truck and small fruits were destroyed. Nearly all the apples of low grounds are frozen. The leaves of the forest trees are blighted. Reports from all over western Pennsylvania, eastern Ohio and West Virginia indicate that the frost was as severe there as here.

Peach Trees Escape Damage. KINGSTON, N. Y., May 14.—There was a light frost in the valley of the central Hudson, which damaged some of the fruit blossoms and young vegetables. In some sections, back from the river, ice is said to have formed a quarter of an inch thick. Some growers say that their strawberry crop will be partially ruined, as the early garden truck cut off. Much damage is already reported from the fruit district of southern Ulster. Peaches are thought to have escaped, being too far advanced.

What Probably Escapes Damage. CHICAGO, May 14.—Chicago shivered in a temperature of 40 degrees yesterday with a heavy gale blowing off the lake. The chief of the weather bureau at this point predicted damage for fruits in Michigan and Wisconsin, where snow fell last night, with frosts in Indiana and Illinois. No reports have been received here indicating damage to wheat, and the weather bureau officials do not believe that grain of any kind will be seriously hurt by a cold wave.

Frost Damage in Ohio. CINCINNATI, May 14.—Specials from various points in Ohio indicate that the cold was greatest and the frost most damaging in the Lake Erie slope; also that below the fortieth parallel of latitude the damage was almost insignificant. In the northern half of the state between the lakes and the fortieth parallel serious damage was done to small fruits and to vegetables, at the tree fruits were only slightly hurt.

Slight Damage in Missouri and Texas. KANSAS CITY, Mo., May 14.—Overcorner states that very little damage was done to gardens and none at all to grain by Sunday night's frost in Kansas and Missouri. Garden truck was slightly nipped and the buds and foliage of fruit trees injured somewhat, but not seriously. The most serious damage was done Friday and Saturday nights.

Virginia Fears Damage to Fruit. LEXINGTON, Va., May 14.—The temperature fell close to freezing Sunday night and early risers found a white frost which was very destructive to early vegetables. Fruit growers in the Shenandoah valley fear the frost will blast the prospects of what would otherwise be the plum fruit crop of the valley for years.

Corn Must Be Replanted. CHARLESTON, W. Va., May 14.—Reports from the north of this state show damage to crops and fruit from Sunday night's frost. Along the Ohio river, in the western part of the state, corn was nipped so as to require replanting.

Early Fruit All Killed. VALPARAISO, Ind., May 14.—The heavy storm yesterday did a great deal of damage in this country. Snow fell in afternoon, and it was below freezing during the night. Early fruit will all be killed.

Remarkable Fall in Temperature. WILLIAMSPORT, Pa., May 14.—Within twenty-four hours the mercury in this section fell 45 degrees. A heavy frost prevailed in the valley yesterday morning.

Frost in South Carolina. COLUMBIA, S. C., May 14.—Dispatches to the register state that traces of frost were seen in the Piedmont belt of the state yesterday. No damage was done.

## Tired Women

Should stop and consider the dangers which threaten them because of their weakness, languor and lack of ambition. Thousands of women find their strength unequal to the demands of duty. And yet there is no escape from the incessant round of care and toil. They must have strength. How shall it be given? By building up their systems through purified, enriched and vitalized blood. Hood's Sarsaparilla will give them strength because it will make their blood pure and enable it to feed the nerves upon proper nourishment. It will create an appetite, tone the stomach and invigorate every organ. It is what tired women need.

## Hood's Sarsaparilla Is the Only True Blood Purifier

Prominently in the public eye today. It feeds the nerves on pure blood.

Hood's Pills act harmoniously with Hood's Sarsaparilla. 25c.

## It Will be a Great Day.

One of the events of the year will be the dedication of the mammoth and magnificent temple of the Independent Order of Odd Fellows, just completed, at Philadelphia. The dedicatory ceremonies, which will be of a highly impressive character, will take place in the new building on Tuesday, May 21, and will be supplemented by a great parade of the Order in the afternoon of the same day. The procession will be one of the largest and most imposing civic pageants ever witnessed in this country, and it is predicted that more than 100,000 visitors will pour into Philadelphia from points more or less distant in this and other states. To enable the public at large, as well as Odd Fellows and their families, to enjoy the great spectacle at a moderate expense, the Reading Railroad will sell special excursion tickets from all stations on its lines to Philadelphia at the rate of a single one way fare for the round trip, no tickets, however, to be sold for less than 50 cents. Children between five and twelve will be carried at one-half the special rates. These excursion tickets will be good on all trains going to Philadelphia on May 20th and 21st, and for the return trip until and including May 30th.

How to Treat a Wife. (From Pacific Health Journal.) First get a wife; second, be patient. You may have great trials and perplexities in your business, but do not, therefore, carry to your home a cloudy or contracted brow. Your wife may have trials, which, though of less magnitude, may be hard for her to bear. A kind word, a tender look, will do wonders in banishing from her brow all clouds of gloom. To this we would add always keep a bottle of Chamberlain's Cough Remedy in the house. It is the best and is sure to be needed sooner or later. Your wife will then know that you really care for her and wish to protect her health. For sale by Grubler Bros. Druggists.

Notice to Subscribers. Subscribers to the EVENING HERALD who are not receiving their paper regularly and people who wish to receive the paper as new subscribers, are requested to leave their addresses at Hooks & Brown's stationery store, on North Main street.

Relief in Six Hours. Distressing Kidney and Bladder diseases relieved in six hours by the "New Great South American Kidney Cure." This new remedy is a great surprise on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold at the City Pharmacy, 107 S. Main St., next door to the post office, Shenandoah, Pa. 4-9-3m.

Reduced Rates. On the occasion of the dedication of the Odd Fellows' Temple at Philadelphia, May 21, 1906, the Pennsylvania Railroad Company will sell, on May 20 and 21, excursion tickets to Philadelphia and return from all points on its system east of Pittsburgh and Erie, north of Quantico and south of Canandaigua, inclusive, at a single fare for the round trip, with minimum rate of fifty cents. Tickets will be good for return passage until May 23, inclusive. This rate is open to the public, and offers an excellent opportunity for a visit to Philadelphia at a very small cost. Fast and frequent express trains run from Philadelphia to all principal New Jersey seashore resorts.

Mr. D. P. Davis, a prominent liveryman and merchant of Goshen, Va., has this to say on the subject of rheumatism: "I take pleasure in recommending Chamberlain's Pain Balm for rheumatism, as I will do all that is claimed for it. A year ago this spring my brother was laid up in bed with inflammatory rheumatism and suffered intensely. The first application of Chamberlain's Pain Balm eased the pain and the use of one bottle completely cured him. For sale by Grubler Bros. Druggist."

Coming Events. May 18.—Annual picnic of the Citizens' Cornet Band, of Wm. Penn. in Wm. Penn. Grove. May 20.—Monster picnic at Columbia park by the Gymnasium Club. May 30.—Ice cream festival in Robbins' hall, under the auspices of the Young People's Working Society of the United Evangelical church.

June 6.—Lecture by Rev. T. Bateman, entitled, "That's the Man," in the P. M. church.

# CUBAN REBELS SUPPRESSED.

A Spanish Government Order Which Disproves Reported Insurgent Successes.

WASHINGTON, May 14.—Minister Dupuy de Lome, of Spain, says the Tampa story as to a bloody battle in which 1,000 or more Spanish troops were slaughtered is absurd. He does not regard a denial necessary, but he expresses surprise that the public should be misled into crediting a tragedy which, if true, would be of such magnitude as to be known by the whole world. The insurgents would not have escaped the attention of the American correspondents on the ground. He says the reports of telegraphic wires being out of contact, Senor De Lome says there can be no battle, as there is no enemy other than small scattered bands who are carrying on a guerilla warfare.

PHILADELPHIA, May 14.—The Spanish government has notified the Cramps, shipbuilders, that the gunboat contracted for to be used on the River Cauto, in Cuba, will not be needed, as the Cuban rebellion is practically at an end. This is due to reports made by General Campos, commander-in-chief of the Spanish forces in Cuba, that no further ships or materials of war need be sent him. The gunboats were to have been of the latest design of swift and small craft, suitable for navigating the shallow water of the Cauto, which is a main artery of communication to the interior of Cuba. She was to be capable of transporting 400 troops inland, 120 tons burden, and to draw not more than four feet of water.

State Senator Murdered by a Woman. ST. LOUIS, May 14.—State Senator Peter R. Morrissey was murdered while asleep in bed by Maud Lewis, at her home, 3319 Washington street. The woman placed the muzzle of a revolver against the sleeping man's left eye and pulled the trigger. She also shot him in the mouth. Morrissey, who was a single man, was one of the best known Democrats in St. Louis, and was just entering on his fourth year in the state senate. He and the woman had lived together for years, and she was of a jealous nature. It is supposed she killed him as the result of a quarrel. Maud Lewis, half crazed over her deed, is strapped to a cot in a prisoner's cell at the city hospital.

No Match Between Corbett and Jackson. LOYTON, May 14.—A crowded meeting of the National Sporting club was held last evening, at which the secretary read the cable dispatch addressed by Manager Brady to the club expressing Champion Corbett's willingness to entertain a proposition to meet Peter Jackson before the club. Jackson was present, and made a speech begging the club to put up a purse and let him have a chance to meet Corbett. His proposition, however, met with no response. Owing, it is said, to Corbett's sneering allusion to the National Sporting club it has been decided to decline to put up a purse.

Schooner Wrecked, Crew Saved. MILWAUKEE, May 14.—The schooner Quickstep, which left Milwaukee light for Manitowish Sunday afternoon, tried to make the harbor at Saabogau yesterday afternoon, but failed. An unsuccessful effort was made to anchor the boat. The life saving crew, after making two unsuccessful attempts to reach the Quickstep, finally managed to save all of its crew. A farmer whose name was not learned, and who assisted the life saving crew, was seriously hurt and may die. The Quickstep is believed to be a total wreck.

The New Civil Service Commissioners. WASHINGTON, May 14.—The president has made the following appointments: John B. Harlow, of St. Louis, and Colonel William G. Rice, of New York, to be civil service commissioners. The effect of these appointments will be a reorganization of the commission as regards the political leanings of its members. Mr. Proctor, who continues on the commission, is a Democrat, while Colonel Rice is a Democrat and Mr. Harlow a Republican. The two outgoing commissioners are Republicans.

Struck Against a New Foreman. TRENTON, May 14.—Four hundred boys and girls employed in the weaving department of S. K. Wilson's woolen mills chased out of the mill and through the streets Charles F. Sloan, a new foreman, who had been put in the place of William McGregor, who had been foreman for fourteen years. The boys and girls then quit work and demanded McGregor's retention. This was refused, and they finally returned to work on a promise of fair treatment from the new foreman.

The Japanese People Disappointed. LONDON, May 14.—The Times publishes a dispatch from Kobe saying that the fact of the Japanese government yielding to the representations of Russia, France and Germany in regard to the Liao Tung peninsula and agreeing to restore that territory to China has greatly excited and disappointed the Japanese nation. It is added that the suspension of newspapers continues, and the Japanese ministers and the foreign legations are strictly guarded.

Michigan's Severe Snow Storm. GRAND RAPIDS, Mich., May 14.—The most reliable advices obtainable here indicate that so far fruit has not been materially injured in western Michigan, but great anxiety is felt for its fate after last night's storm. The mercury stands at 25 degrees, in a driving snow storm from the north, which may send it down to 50 or 25 degrees.

Rich Gold Find in Alabama. CHATTANOOGA, Tenn., May 14.—North Alabama is greatly excited over a find of gold on Santa creek, near Guntersville, Marshall county. A vein has been struck said to be three feet thick, and it is stated on the authority of leading citizens of that county that the precious metal has been found in paying quantities.

Killed with a Billiard Ball. ROME, Ga., May 14.—Frank Cather and George Daniels, negroes, became involved in a quarrel at Robinson's saloon last evening over a game of billiards. Daniels suddenly threw a billiard ball at Cather, striking him over the heart and killing him instantly.

Two Blown to Bits by Dynamite. LEBANON, Ind., May 14.—While blowing up stumps Albert Sackett and Frank Jones, living south of this city, were blown to pieces by the premature explosion of a stick of dynamite.

The Weather. For eastern Pennsylvania, New Jersey, District of Columbia, Delaware and Maryland, increasing cloudiness, with rain; cooler; southerly winds, becoming northwesterly.

# MUNYON PRAYED FOR.

A Prominent Divine Invokes God's Blessings on the Lament Professor.

He Declares the Remedies Are Worth Their Weight in Gold.

Rev. W. E. Andrews, of Westfield, Mass., writes to add my testimony in favor of Munyon's Homeopathic Home Remedies to the mass that has already been published. I have used the Cold Cure, Dyspepsia Cure, Nerve Cure and Headache Cure in my family with perfect satisfaction. These remedies are worth their weight in gold. In my family they have cured the worst cases of cold in one day, and dyspepsia of seven years' standing was cured with three vials of the Dyspepsia Cure. I have had very severe headaches, which were driven away in half an hour by the Headache Cure. My wife suffered greatly from sleeplessness, and one vial of Nerve Cure gave her perfect relief. I sincerely pray God's blessing upon the proprietors of such valuable remedies.

Munyon's Stomach and Dyspepsia Cure cures all forms of indigestion and stomach troubles such as constipation, rising of food, distress after eating, bloating of the stomach, palpitation of the heart, shortness of breath and all affections of the heart caused by indigestion. It soothes, heals and invigorates stomachs that have been weakened by over-eating, or where the lining of the stomach has been impaired by phlegm and injurious medicines. Price, 25 cents.

Munyon's Homeopathic Home Remedy Company, of Philadelphia, put up specifics for nearly every disease, which are sold by all druggists, mostly for 25 cents a bottle. Those who are in doubt as to the nature of their disease should address Professor Munyon, 1505 Arch street, Philadelphia, giving full symptoms of their disease. Professor Munyon will carefully diagnose the case and give you the benefit of his advice absolutely free of all charge. The Remedies will be sent to any address on receipt of retail price.

M. J. LAWLOR,  
Justice of the Peace

Insurance and . . .  
Real Estate Agent,  
123 E. Centre St., Shenandoah

TWO-STORY Frame Building, 20x26 feet, on South Chestnut street. Rents for \$18 per month, will be sold cheap.
