REPUBLICAN STATE TICKET. FOR TREASURER, JAMES S. BEACON, OF Westmoreland.

FOR AUDITOR GENERAL, LEVI G. McCAULEY, OF Chester.

REPUBLICAN COUNTY TICKET. FOR JUDGE, HON. O. P. BENTLEY, OF Pottsville.

FOR SHERIFF, HENRY S. ALBRIGHT, OF Orwigsburg.

FOR POOR DIRECTOR, JOHN ROWE, SR., OF Tremont.

FOR JURY COMMISSIONER, JOHN ANSTOCK, OF Mahanoy City.

PRESIDENT MCKINLEY has traveled considerably since March 4, and has yet to find himself in the enemy's country.

THE railroads are employing 100,000 more men than at this time last year. It is hard to keep the run of all the items of Republican luck.

Twenty thousand boxes of California fruit are marketed daily in New York city. The 40ers who paid 75c for an onion never dreamt of such a possibility.

JOAQUIN MILLER is enjoying himself at a Seattle hotel, and at the same time supplying his newspaper syndicate with picturesque accounts of imaginary adventures in Alaska.

WILL the Pottsville Chronicle please state its opinion of the state and county platforms of its party? A suffering public awaits this important piece of information.

THE cure for overproduction is consumption. Give the mass of the people the means to buy what they want by steady employment and good wages and there will be no trouble from overproduction.

SOME of the Kansas papers think this year's Thanksgiving Day should cover two days and include the sacrifice of two turkeys, there being too much to be thankful for in a single day and one turkey per family. Everybody will be glad to see Kansas so enthusiastic.

THE prediction of Robert Bonner, of New York, two years ago, that the time would come when a horse would be bred in this country that could cover a mile in less than two minutes, was verified last week when Star Pointer paced that distance in 1:50.7. No achievement is ever so great that no effort is made to exceed it.

SPECULATION as to the putting in service again of Gordon planes is being indulged in. Gordon planes are not likely to be put in operation again except in case of emergency, and what is more, it will not be very long before the Mahanoy plane will be dispensed with also, and the coal and freight transported via Tananqua.

THE coupling of the name of Congressman Bailey of Texas with the cowardly assassination of Prentice Matthews fourteen years ago, in Copiah county, Mississippi, comes upon the country with startling effect. Nothing short of the most conclusive proof will be accepted. Matthews was a leading Republican during the stormy and bloody era in Mississippi politics some twelve or fifteen years ago.

THE question of street ventilation is one that has received much publicity recently in town, especially by those who have visited Mahanoy City and viewed the improvements made in that borough. There are many who believe that the Borough Council would act wisely in paving at least one or two squares each year, instead of the plan in vogue here for many years. This is a subject that our Borough Fathers might give some consideration, with much profit to the municipality.

THE proceedings of the Democratic state convention at Reading yesterday were of a nature similar to that which characterized the conventions of that party in this county years ago. Congressman Ernestrouth, one of the best political acrobats in the state, presided temporarily, and a row was precipitated through the insistence of some of the Luzerne delegation for fairer treatment on the committees than had been accorded them. The feeling between the factions was at such a pitch that little was necessary to provoke open hostilities and the city was knocked off

the shoulder by a hot headed secretary and the fun started. The proceedings for a time were disgraceful in the extreme, several persons being knocked down and their clothing torn and the Reading police had to be called in to restore order. Shades of Thomas Jefferson and Andrew Jackson defend us! The proceedings were enough to cause those patriots to rise from their graves to repudiate the party that has degenerated to the low degree the storm-tossed and shipwrecked Democracy has reached in its mad worship of false prophets.

In cases of burns, sprains, cuts, or any of the other accidental pains likely to come to the human body, Dr. Thomas' Electric Oil gives almost instant relief. Try it.

Engineer and Fireman Killed. Akron, O., Sept. 1.—A Cleveland, Akron and Columbus engine attached to a southbound freight train on that road exploded at Frederickburg, killing the engineer and fireman and badly scalding H. E. Shank, the brakeman. The dead are William Thornley, engineer, and Louis Brown, fireman, both of Mount Vernon.

Frederick Wogden committed suicide at Torrington, Conn., Sunday with flames and knife.

Fifteen Cubans arrived in New York Monday. They had been prisoners at Cuba for two years and a half.

A wounded negro was found on the top of a train at Poughkeepsie. He is supposed to have been shot at Haverstraw.

Three robbers threatened Louis Simons, a Chicago milk dealer, and then stole all his savings, leaving him bound and gagged.

The clues to the murderer of Sexton George Stetz, in Brooklyn, are scarce. Two men are under arrest, but there is little evidence against them.

The contract for 20 of the 25 locomotives to be built in this country for the Japanese government has been awarded to Brooks Locomotive works, Dunkirk, N. Y.

Travelers are frequently troubled with dysentery, diarrhoea or other bowel complaints brought on by change of water and diet. One dose of Dr. Fowler's Ext. of Wild Strawberry will bring relief.

The case of Miss Cisneros. Washington, Sept. 1.—Consul General Lee's investigation into the circumstances attending the arrest of the young Cuban girl, Evangeline Cosio Cisneros, have resulted in sweeping away a great deal of the romance that attached to her case. He called the state department yesterday from Havana that the girl is not the niece of the Marquese Santa Lucia, but is the daughter of a poor and respectable Cuban named Augustin Cosio. Her mother's name was Cisneros. Moreover, General Lee reports that this girl is not an only daughter, nor has she been raised in wealth and luxury, but is one of five or six children.

Nicaragua Merchants Want Gold Basis. Managua, Nicaragua, Sept. 1.—A meeting of merchants, which was largely attended, was held here yesterday. Resolutions were adopted deploring the present financial condition of Nicaragua, and petitioning the government to place the country on a gold basis, estimating the present paper dollar at silver dollar at 30 cents gold, asking for the issuance of gold certificates in their place, and at this valuation, and requesting the government to export and sell the present silver coinage of Nicaragua.

Children Fined for Matches. Fort Wingate, N. M., Sept. 1.—While playing with matches in an old out-building used as a storehouse little Alice Winston and Harry Arnold, aged 3 and 4 years, set fire to a can of oil, causing an explosion. Alice was burned beyond recognition. Harry was badly burned about the head, and will probably die.

McLaurin's Probable Victory. Columbia, S. C., Sept. 1.—Democratic primaries were held in this state yesterday to name a candidate for a United States senator in the vacancy caused by the death of Senator Evans. From returns thus far received McLaurin will be nominated by a considerable majority over Evans and Irby. Evans will double Irby's vote.

London, Sept. 1.—A dispatch to The Daily News from Tehran confirms the news of heavy fighting between the Kurds and Armenians on the frontier. The commander of the cavalry of the Kurds was killed, according to the report, and his son narrowly escaped. The losses of the Kurds are variously estimated at from 200 to 600 killed and wounded. The Armenians claim to have lost only 20.

To heal the broken and diseased tissues, to soothe the irritated surfaces, to instantly relieve and to permanently cure is the mission of Dr. Miles' Little Early Risers, C. H. Hagenbuch.

Strippers Aligned Workers. Washington, D. C., Sept. 1.—One hundred strikers met a crowd of miners accompanied by the mine superintendent, Frank Strasser, on the way to start the mine yesterday. A battle with rocks, fists and clubs took place between the men just outside the city limits, and a number were painfully injured. Superintendent Strasser's scalp was cut from a blow with a club, and he was bruised about the body. He, with his men, were followed to town by the angry strikers. No arrests have been made.

Small preparations often prevent great misdeeds. Dr. Miles' Little Early Risers are very small pills in size, but are most effective in preventing the most serious forms of liver and stomach troubles. They cure constipation and regulate the bowels. C. H. Hagenbuch.

How to Find Out. Fill a bottle or common glass with urine and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys. When urine stands in this positive evidence of kidney trouble. To frequent desire to urinate or pain in the back, is also convincing proof that the kidneys and bladder are out of order.

What to Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passages. It corrects inability to hold urine and stinging pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. You may have a sample bottle and pamphlet both sent free by mail. Mention EVENING HERALD and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The proprietors of this paper guarantee the genuineness of this offer.

Accommodations to Compete. Washington, Aug. 31.—Secretary Gages has made the first experiment with the Turney law providing for the competition of architects in the design of public buildings by inviting seven architects to submit competitive designs and estimates for the Norfolk, Va., building, for which there is an appropriation of \$190,000. Heretofore all the designs have been made by the government architects. It is the intention of the secretary also to invite architects to submit plans for the new Ellis Island and immigrant station, which is to cost \$500,000, and for the public building at Camden, N. J. A majority of the architects invited to compete for the plan of the Norfolk building are residents of Virginia.

STOCK AND PRODUCE MARKETS

Dealings on Wall Street Characterized by Great Irregularity. New York, Aug. 31.—Today's stock market was characterized by great irregularity, prices of many of the leading securities remarkably stable, even on large transactions, while the price movement of others was wild and erratic to the last degree and quite independent of any general influence or harmony with others. Sugar was the sensational feature, and covered a range of nearly eight points during the day. There was no news regarding the stock received during the day, that was not known at the opening of the market. But the speculative traders drew new attention from the facts already known that led to very excited trading in the stock. The speculation turned on the probable benefits to the industry from the treasury department's interpretation of the clause of the tariff bill discriminating against sugar from countries that pay an export bounty. The belief that this clause would be administered so as to insure the exclusion from competition of Dutch refined sugars gave sugar stock its strength today. Twenty-six negroes, among them three women, were arrested and brought to the Pittsburg jail. Other arrests are to follow when the men who are charged with misdemeanor can be located. The county officials have for some time past been laying the ropes to break up the lawlessness of this place, and the raid yesterday was made on warrants issued on the strength of charges made up by detectives who have for two weeks or more been living among the campers, gathering evidence. The charges against the prisoners include crime of all sorts, from murder down.
