FACTORY INSPECTOR CAMPBELL has deputies in this region inspecting bakeries, under the recently enacted law.

News from St. Louis, Mo., is to the effect that Senator Quay will not return before Christmas. He may, however, change his mind.

THE office-seekers are beginning to think that President McKinley is taking a dreadfully long vacation. When he does come back he may be an unwelcome visitor to several place-hunters from this state.

THE Governor of Kansas gives voice to the opinion that courting on a tandem wheel is pretty hard work. He prefers a "buggy and a gentle horse," which indicates tolerably good sense for a Populist statesman.

THE resignation by Judge Willard of his seat on the Superior Court Bench comes too late for the election of his successor this year, so that the Governor's appointee will have ample time to demonstrate his fitness for the place before his choice need be ratified at the polls.

THE sound money Democrats of Pennsylvania are more completely orphaned now than they were last year. The Republican party is pretty well crowded just now, but the gold Democrats can all be accommodated with comfortable seats, if they choose to come in and become a part of the only honest money and protection party in the country.

IF business booms this fall the men who advertise will get the most of it, as they always do in good times or dull times. Those who are after their share of the business, and as much more as they can get, are now making their preparations to secure it. To advertise is the most effective, economical and expeditious way of getting business, and there is no better channel to reach that result than by using the HERALD'S columns.

THE Borough Council took an important step last night in permanent street improvement that will no doubt meet with the approval of the taxpayers. It seems to be the desire of Council to pave at least two squares each year, and if this plan had been decided upon several years ago our streets in the business portion of the town at least, would present a much better appearance. Let our Borough Fathers continue the good work. It will prove an economical expenditure of the people's money.

Building Associations. Frank Commissioner Gilkeson, in his annual report, gives the condition of the building associations of the state for the year 1906. The total assets are \$1,078,000, 100.80. The Commissioner states that taken as a whole the building and loan associations are in a sound financial condition, and that a vast majority of them are well and economically managed. This is an intimation that some are not in that sound condition entitling them to the full approval of the department.

It is for these that the department was specially instituted. The occasional default of a trusted official had revealed the fact that the auditing of the various association officials had been performed in a very careless and superficial way, and that careless bookkeeping or worse had been practiced for years. Under the vigilant supervision of the state department these defects are being gradually remedied. Unbusinesslike methods are pointed out, and strict compliance with all the safeguards that the state has directed are exacted.

The supervision of the department is an additional guarantee of the stockholder against wrongdoing by those in charge of the financial affairs of the association. The result of the supervision by the state has been decidedly beneficial, and we look

confidently forward to the time when not a "majority," but all the associations shall be reported as being "well and economically managed."

STOCK AND PRODUCE MARKETS.

Vanderbilt Stocks Selected for Manipulation in the Stock Market. New York, Sept. 2.—The character of today's stock market was very similar to that of yesterday, individual stocks being pushed to a high level to stimulate and sustain the market while a solidizing was effected in other parts of the list. The Vanderbilt stocks were selected today for manipulation, and the price of each member of the group was successively raised, while in the stocks recently favorites in the speculation heavy offerings were made to realize. The success of these tactics is shown by the small decline in the general list. Coincident with the buoyancy in the Vanderbilts, the grangers and the active railway list sank to the lowest of the day. Later in the day these stocks recovered somewhat from the lowest, and the Vanderbilt stocks, except New York Central, declined very materially from the highest. There were other stocks showing special strength all through the list, especially among the industrials. Closing bids: Butte, & Ohio, 100; Lehigh Valley, 214; Ches. & Ohio, 254; N. J. Central, 94; Del. & Hudson, 115; N. Y. Central, 119; D. & W., 120; Pennsylvania, 145; Reading, 145; Erie, 145; Lake Erie & W. 215; St. Paul, 204.
