LOVE-CHARMS. The love-charm still lingers, the last link of the old days of ignorance and superstition when charms were believed to be powerful to cure disease and defeat death. The day of charms is the use of Dr. Pierce's Favorite Prescription. It overcomes all the ills peculiar to women. It imparts strength to delicate organs, stops the drains that sap vitality, restores the color to the cheeks and roundness to the form. It brings health back and health itself is beauty. It is impossible for the face to be fair or the figure shapely if there are pains, irregularities, displacements, drains, or weakness in the organs of womanhood.
