SAURDAY, DECEMBER 2, 1900.

OUR COUNTRY: First, Last and Forever.

The Reed rules are to be in force in the House of Representatives at the coming session. This conclusion was reached at a conference of the Republican leaders.

It is refreshing to know that almost every foreign country is anxious for a coalition with the United States. England and Germany are just now casting longing eyes in this direction. This country has shown its prowess in the recent Spanish unpleasantness.

Swindling Syndicates.

It is probable that as long as there are people who can invent schemes by which other people are to get something for nothing, or enormous returns for very small investments, just so long will dupes be found, and men and women will risk their savings in the hope of acquiring sudden riches.

The public has had a number of sharp and severe lessons with "get-rich-quick" societies, and it would seem that the experience which the people had with these should have proved sufficient to make them steer clear of them. But with each new scheme there crops up a fresh lot of lambs ready for the sacrifice.

The latest fleecing machine, which has just been closed up in Brooklyn by the police, and which was known by the honest name of Franklin Syndicate, promised to pay its patrons at the rate of 500 per cent. per annum on their investments. The offer of such preposterous gains should have been sufficient to cause any one to hesitate before investing their money. But judging from the record made by the Syndicate, the money fairly poured into the headquarters of this latest swindling concern.

Whatever assets may have been seized by the authorities it is certain that but little of the money invested will ever find its way back into the pockets of the investors. The number of investors is so large, and the available assets seized are so small, that the amount for each one will be insignificant. Those who have been bitten will probably profit by their experience.

It has been, doubtless, in many of the cases, an illustration of the old adage, "A fool and his money are soon parted."

Almost from the outset of the British occupation of Cape Colony, says a writer in the Engineering Magazine, there was friction between the two main classes of settlers, who, though distinctly of the same generic stock, failed to assimilate in the friendly manner of the Dutch and English in the settlement of New Amsterdam, called New York after the transfer. The Boers have always claimed, and honestly believed, that they were oppressed; which assertion impartial history cannot be said to have sustained. Great Britain, at least for more than a century, and also at least as regards her white subjects, has been scrupulously careful in dealing with colonial affairs. In this instance, one grievance seems to have been as to the abolition of slavery, which was suppressed at about the same period in the British West Indies on a similar adjustment. The Boers, however, were incensed on not receiving compensation satisfactory to them. This, combined with many other and pre-existing causes, real and imaginary (such as extreme love of personal and national independence, racial antipathy, divergent customs and ways of thought) led to the further dispersion of the Boers.

IMMEDIATE RELIEF AND PERMANENT CURE

JOHNSON'S DYSPEPSIA CURE

A Scientific, Unfailing and Permanent Remedy for Dyspepsia, Indigestion and All Stomach and Nerve Troubles.

Thanksgiving morning the schooner Clara, from Cape May for Philadelphia, with a cargo of sand, while at anchor in the Delaware river, near Chester, Pa., was run down by the Philadelphia and Baltimore steamer Erickson. The schooner was cut in twain, and three of the officers of the schooner were drowned. There were James Wanser, Thomas Rice and Edward Wilson, all colored, of this city. Captain Joseph E. Williamson, the only other man aboard, was caught in the wreckage of the schooner and was seriously, if not fatally, injured. He was rescued.

1,000,000 GIVEN AWAY.

By a special and particular arrangement with the manufacturers of Dr. David Kennedy's Favorite Remedy, free trial bottles of this great medicine for the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia and Constipation, will be sent absolutely free, postpaid, to all persons suffering from any of the diseases mentioned above who will send their full name and post office address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., providing they mention this paper when they write.

A very simple test to determine whether your Kidneys or Bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a cloudy,ropy or stringy appearance, if it is pale or discolored, you do not need a physician to tell you that you are in a dangerous condition. Dr. David Kennedy's Favorite Remedy speedily cures such serious symptoms as a pain in the back, inability to hold urine, a burning itching pain in passing it. Frequent desire to urinate especially at night, the staining of linen by your urine and all unpleasant and dangerous effects produced on the system by the use of whiskey and beer.

By a searching investigation it was found that over 91 per cent of the people who sent for a sample bottle were so much benefited by its use that they purchased a large sized bottle of their dropper, which in most cases cured them while in some rare instances it took as many as two or even three bottles to effect a permanent cure. Dr. David Kennedy's Favorite Remedy is sold by all druggists at \$1.00 per large bottle, or six bottles for \$6.00.

northward, and, about sixty years ago, to the great trek into the then almost unknown desert. In this wilderness were established the Orange Free State and the Transvaal, now correctly called the South African Republic.

LONDON WITHHOLDS NEWS.

War Office Has Not Yet Received Gen. Methuen's Casualty List.

London, Dec. 2.—Absolute silence has fallen over affairs in South Africa. The war office has not yet received Lord Methuen's casualty list. The public and the press, hitherto patient, are beginning to murmur at the apparently needless delay which keeps many families in a state of painful suspense.

It is regarded as practically certain that Lord Methuen has been reinforced by half a battalion of the Gordon Highlanders, a regiment of cavalry and a battery of field artillery. The De Aar is being daily reinforced by troops to hold the lines of communication.

It is supposed that the Natal advance has been delayed by the necessity of getting supplies to Pietermaritzburg, but not a word emanates from any of the various commands.

Lieutenant General Sir Charles Mansfield Clarke, who will command the Sixth division, has seen much service in South Africa.

McKinley and Bradley.

Cincinnati, Dec. 2.—There is a movement on this side of the river, as well as in Kentucky, to present the name of Governor Bradley for the nomination for vice president on the next ticket with McKinley. Soon after the election of Governor Bradley four years ago there were factional troubles that defeated Dr. Hunter as the Republican caucus candidate for senator and these factional troubles continued until Governor Bradley recently took the field for Taylor for governor. It is said now that there will be no doubt about Kentucky sending a solid delegation to the Republican national convention in the interest of McKinley and Bradley as the next ticket.

November Receipts and Expenses.

Washington, Dec. 2.—The monthly comparative statement of the receipts and expenditures of the government during November show the total receipts to have been \$16,845,572, against \$18,909,915 for November, 1899. The disbursements during the last month were \$40,769,847, which leaves a surplus for the month of \$6,175,725.

The Taylor Cannot Be Doctored.

New York, Dec. 2.—Dr. Doty gives out the following statement in relation to the detained steamer J. W. Taylor: "Owing to the fact that bubonic plague may be transmitted by rats or other vermin which might possibly escape the germicides already used by floating to other parts not undergoing disinfection at the same time, I deem it proper to keep the Taylor under my supervision at quarantine, where she will be loaded from lighters before sailing from the port. I am satisfied that in this way every precaution has been taken to protect the public health. Hereafter all vessels arriving from Santos, whether there is infectious disease among the crew or not, will be subjected to the same precautions."

THEN AND NOW.

To say that a man has Bright's disease was once considered equivalent to saying that he stood in the valley of the shadow of death. The end was only a question of time. But that was before Warner's Safe Cure had spread its benefits over the land.

C. H. Lincoln, of Medford, Mass., says:

"I had typhoid fever, and after it came kidney trouble, and it was whispered around that I had Bright's disease of the kidneys. I knew what that meant, so I pitched the medicine I had outdoors. I then bought one bottle of Warner's Safe Cure, and took it according to directions. The first bottle gave me relief and I bought a second. Before that was gone I had gained nearly ten pounds. I continued taking Safe Cure, and it cured me."

"I am fifty-nine years old, and enjoy as good health as any man of my age. If anyone has kidney trouble and Warner's Safe Cure will not cure him, nothing will. I believe it the best and only cure for kidney disease on earth."

Nowhere does the proverb, "Delays are dangerous," apply with such force as in kidney derangement. When Bright's disease has set in the kidney tissue is breaking down and passing away every minute. The strength of the body is sapped steadily, surely.

Inasmuch as Warner's Safe Cure alone stops kidney degeneration, should it not be used without an hour's delay when pain in the back and head, a cold skin and bad digestion give unmistakable warning?

City's New Railway Project.

Mexico City, Dec. 2.—There is much interest in the proposed new railway which will cut Tabasco, Yucatan, Chiapas and Campeche in connection with the railway system of the central portion of Mexico. The railroad will be called the Southern National and International, and will be 600 kilometers in length. Its construction will involve very difficult engineering work. The capital subscribed so far is about \$10,000,000, including a subvention of \$6,000,000 to be given by the federal government. The line is to cost about \$14,000,000.

Charged With Wife Murder.

Jacksonville, Fla., Dec. 2.—Mrs. John Williams, a well known and beautiful young woman of this city, died Thursday night. After all arrangements had been made for the funeral an order came from the coroner to hold the body, as an autopsy would be held. Shortly after the autopsy a warrant was issued and John D. Williams, the young woman's husband, was arrested, charged with the murder of his wife. The autopsy developed that Mrs. Williams came to her death by a violent blow in the stomach, bursting the bladder and rupturing other vessels. The woman died in great agony, but made no charges. The husband refuses to talk except to deny the murder.

After all arrangements had been made for the funeral an order came from the coroner to hold the body, as an autopsy would be held. Shortly after the autopsy a warrant was issued and John D. Williams, the young woman's husband, was arrested, charged with the murder of his wife. The autopsy developed that Mrs. Williams came to her death by a violent blow in the stomach, bursting the bladder and rupturing other vessels. The woman died in great agony, but made no charges. The husband refuses to talk except to deny the murder.

Corporations to Desert Illinois.

Chicago, Dec. 2.—Corporations with an aggregate capital of more than \$500,000 are preparing to move out of the state of Illinois and establish their headquarters in other states, mainly in New York. The chief reason assigned is that the legislature and courts of Illinois have assumed so distinctly an anti-trust complexion that the corporations have decided to retaliate.
