There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

SUNDAY SCHOOLS

Special Column Every Week For S. S. Items

QUESTIONS ANSWERED; SUGGESTIONS OFFERED; PLANS DISCUSSED.

We are nearing the time when many Sunday schools of the county will elect their officers for the following year. In how many of these will be elected a superintendent to take charge of the Home Department? In other words, how many schools of your district have Home Departments?

I believe the Orson district will elect six. One more is in prospect. Probably two or three now will be added to the list before the Spring conventions. (The H. D. Supt. of that district is an intimate acquaintance so happen to know all about the work which hasn't been done there).

That the work may be successfully started in the different schools a little care at the outset seems necessary.

As we undertake the work in schools that are new to us seek the acquaintance of the most active workers, explaining the object of a Home Department to them. Then fix upon some day to visit the school and if possible organize there a Home Department. Be ready if possible to answer all questions. The directions contained in "The Home Department" leaflet sent out by the Sunday School Association free of charge are convenient for explaining the work. Also most of the denominational houses sending out Sunday school supplies, will send samples of Home Department supplies for almost nothing.

It is well to procure as many different samples as possible. These will supply us with all the second-hand information that we need. Much more can be acquired by working.

When visiting a school we should display samples especially of report envelopes and Home Department Quarters from the publishing house from which that school gets its

supplies. Leave the sample with them if they wish it.

Think of it! The standard set for us is thirty-three Home Departments in Wayne this year. We can get them. Shall we?

I should be glad to help in the work anywhere that I can if you will write.

Yours Fraternally,  
(MRS.) JUNE GOULD,  
County Superintendent Home Department Work,
