WHAT NOT TO GIVE AT CHRISTMAS.

Whips, swords and guns to children. Unless we want the children to play whipping, dueling and fighting. Whips, swords and guns are not gifts for children.

Rubber toy animals for the baby to squeeze, and those which make a noise when pinched. Unless we want the baby to learn to squeeze the live kitten until it cries.

A kitten or puppy is most unsuitable for a very small child. Unless we want the child to enjoy hurting it, though ignorantly.

A live goldfish. Unless we like to see an animal slowly smothered from lack of air, and think it will be good training for the child to see the fish gasp, and die a lingering death.

Any live animal that must depend upon a young child for food and water should not be chosen for a gift.

A caged bird. Unless we think it a happy sight to have a bird prisoner. Unless we are sure it is a proper sight for a child.

Books on hunting, robbery, murder and war. Unless we want the child accustomed early to thoughts of death and agony. Books can't be judged at a glance like toys and animals. Books given to children should first be read.

Choose. Give. But think. WESTERN HUMANE PRESS COMMITTEE.

STATE ISSUING NEW AUTOMOBILE LICENSES.

Highways Department Records Show An Increase of 39,100 for Last Year Over 1912.

On and after January 1 all owners and operators of automobiles, motorcycles and other motor-driven vehicles must display 1914 licenses. They are the same size as those now in use, but the new ones have white figures and a black background. Licenses for solid tired vehicles have an added aluminum plate, showing the weight of the vehicle for which the license is issued.

All licenses are being sent out by parcel post this year; heretofore they have been sent by express.

The highways department shows that 131,239 licenses were issued in 1913 against 92,139 for 1912, an increase of 39,100.

One of the most important features of the new act is that fixing the age limit of those who may operate cars. No person under sixteen years will be allowed to run a car on any public highway, no exception being made in any case.

The act also gives the commissioner of highways the right to revoke the license of any chauffeur or owner and the registration of any car for improper conduct in the operation of the machine.

The Fact Remains. No amount of misrepresentation by the peddlers of alum baking powders, no juggling with chemicals, or pretended analysis, or cooked-up certificates, or falsehoods of any kind, can change the fact that Royal Baking Powder has been found by the official examinations to be of the highest leavening efficiency, free from alum, and of absolute purity and wholesomeness. Royal Baking Powder is indispensable for making finest and most economical food.
