There are 600 creameries in Pennsylvania and 1,000,000 acres of land devoted to the dairy interest. The capital invested is \$129,000,000 and the annual worth of butter in the State is 20,000,000.

Many a cruel and heartless crime is committed in the name of "business." A man does a mean, contemptible act, and excuses his conscience by calling it business. We should not get terms confused. Robbery and fraud and deception and heartless avarice bear about the same relation to business that the tube rose does to skunk cabbage.—*Marienville Express.*

An exchange asks: How many miles will the jaws of a gum-chewing girl travel in the course of a year? and then says: Giving her jaw a play of half an inch or an inch of travel for each chew, thirty chews a minute, sixty minutes an hour, ten hours a day, 365 days in a year, her jaws will have traveled 6,750,000 inches, or a fraction over 103 miles. This is for the girl with the small mouth; the big mouthed girl can beat this record.

On Thursday, March 1st, a new law relative to the state board of medical examiners went into effect. Section 14 of the act provides that from and after the first day of March, 1894, no person shall enter upon the practice of medicine or surgery in the state unless he or she has complied with the provisions of the act and shall exhibit to the prothonotary in the county in which he or she desires to practice medicine or surgery a license duly granted by the state board. After exhibiting the license and upon the payment of one dollar the applicant shall be registered.

W. T. Foster, the western weather prophet, makes these predictions: "One of the severest storm periods of recent years will prevail over the United States and Canada from March 7 to April 13. In many parts of the country unusually heavy rains or snow will fall and floods may be expected. Several principal low barometers or storm centers will cross the continent within the period, moving eastward. Tornadoes may be expected in those parts frequented by those destroyers. Temperature will go to great extremes and frosts will damage early crops far southward. Electric storms will precede and several cold waves follow some of these blows. Those crossing the continent from March 7 to 11, 12 to 16, 18 to 24, 25 to 28 and April 4 to 8, should be carefully watched."

The stout man who wears a tight belt around his waist to give him the appearance of jauntness as well as to do the suspender service does not know what harm he is doing to himself. A doctor stated recently that the wearing of a belt by a man, especially a stout man, is most injurious to health. It stops the circulation and does not permit the digestive organs to operate as they should. When asked why it should be so much more injurious for a man to wear anything around his waist than it is for a woman, the doctor said: "A man and woman can't be compared in that regard. A man uses entirely different muscles in breathing than a woman. He becomes accustomed to breathing from his abdomen, while a woman breathes almost entirely from her chest. Men had better wear loose belts and provide some other substitute for suspenders."

The Pittsburg Times of last Wednesday contained a communication from Kittanning which stated that Mrs. David Rosenberger, who lives near that place, had given birth to five children at one time, and that the babies were all living and doing well. This is simply another sample of how stories enlarge as they are re-told. A reporter of the Times came up to Kittanning to see the five babies and "write 'em up." Mr. and Mrs. Rosenberger are poor people who live in a tumbled down house on a poor piece of land. They both had the grip and applied for aid from the township. The reporter traced the story up thusly: "One woman in mentioning the family's misfortune remarked that Mrs. Rosenberger had four small children and one was a baby. The next woman said she had four little children and a baby. The third asserted that she had just given birth to a baby which made five she had, and all were living. By the time the story reached Kittanning she had given birth to five babies at once and all were living. The Kittanning people accepted the story readily, as they knew that "Banty Dan" was poverty stricken enough to be the father of half dozen babies."

About Prescriptions.

The best of medicines are none too good for sick folks. It's bad enough to be sick without running chances with second grade drugs. That's the reason we buy only the very highest quality of everything. It's a great satisfaction to us to know that every prescription we send out is just as good as drugs will make it. No matter what you paid for it you couldn't get it better.

Low Rate Excursions to Washington.

The two remaining excursions to the capital will be run on March 22nd and April 19th, and judging from the extensive patronage accorded previous trips there is every likelihood of there being even a greater number of people who will avail themselves of the extremely low rate in effect for this popular series. The entertainment afforded by a visit to the handsomest city in the Union, and the educational benefits following an inspection of the architectural achievements and other attractions there, will more than repay the journey which, in any event, is rendered exceedingly pleasant by the admirable train service of the Pennsylvania Railroad Company.

A stop-off at Baltimore will be allowed within the limit, which is ten days, and return trip may be made on any regular train within the prescribed time. The ticket will be sold and the special train of parlor cars and day coaches will leave as per the schedule below:

Life is a Lottery.

Perhaps,

But you can't afford to take any chances when you're sick. Don't let the druggist enrich himself at your expense. Lookout for impure drugs. They are cheaper, of course,—for the druggist—but how about you? Then again, how about accuracy and skill in compounding your prescription? That counts for something too, don't it? We pride ourselves on combining all these features.
