The W. C. T. U. convention held in the Methodist Episcopal church last week was well attended and considerable interest was manifest at each session. The resolutions adopted by the convention were crowded out this week.

If you want to save your money, invest it in the German National Building and Loan Association of Pittsburgh; it has advantages that no other association in the state gives. Inquire of Henry A. Reed, the shoe man, for particulars. Remember there is no entrance fee. It will pay you to consult Mr. Reed as he is thoroughly posted in Loan's and can show big inducements to the investor and borrower, and give printed matter fully explaining the workings of the Association.

Prof. List, the blind pianist, gave an entertainment in the opera house last Thursday evening to a full house. The entertainment was to have been given in Centennial Hall but a piano could not be secured for the hall and the opera house was engaged. Prof. List certainly has few superiors as a pianist. He makes a piano almost talk. In his talk on "how the blind see," Prof. List said this life is what you make it. He thinks there are other people in the world who are deserving of as much sympathy as the blind, especially those who do not develop their mental powers.

Messrs. Heydrick, Osborn & Webber, the new lumber firm and present owners of the Litch lumber plant, have had a survey made of a route for a railroad from their saw mill to the siding below the tunnel, and we understand that it is their purpose to ask the Town Council for the right of way for their road on such streets as may be needed for their purposes. This seems to be a practical business enterprise, and it might be politic for our business men to inquire if something might not be done in the same connection to help them handle their goods. For instance the construction of a freight warehouse at some convenient point on the proposed road.—Brookville Republican.

Out Of Season.

F. K. Arnold has a plum tree in his yard that is now in bloom. Almost all the leaves have fallen off the tree which adds to nature's curiosity.

Going Out Of Business.

Henry A. Reed, the shoe merchant, who has been in business in Reynoldsville for five years, is selling out his stock of shoes to quit the business in this place. Mr. Reed has rented his room to another party and must give them possession of the room by Jan. 1st, 1895. Henry is a live and energetic business man and has built up a good trade.

Killed by Fall of Coal.

Teapil Zaturkoi, a Poleander, was killed in Big Soldier mine early Wednesday morning by a fall of coal. He was working at night shoveling coal after one of the machines when the accident happened. The deceased was about 35 years old. His remains were buried in the Catholic cemetery Thursday morning, followed there by a number of his countrymen and English speaking miners. The mines were all idle Thursday on account of the funeral.

Blood Poisoned.

George Schwem has had a very sore right hand and arm for ten days. He was tending bar at Hotel Dillman and had a little pimple on his hand which he picked open about 9.00 a. m. and continued at his work. It was not long until his hand began to swell and by noon the hand and wrist was skin tight, and for a few days Mr. Schwem was in a critical condition. The beer spigots are brass and it is supposed, of course, that he was poisoned from the spigots while handling beer.

Caught at York.

In the court proceedings published in THE STAR several weeks ago, mention was made that the grand jury had found a true bill against James and William Reinard for selling liquor without license and to miners, and that William had "skipped for pastures green." In this age of civilization it is pretty hard for a man to escape the clutches of the law long, especially if he remains in the state. William Reinard went to York county, Pa., joining the Maryland line, thinking he would be safe from the officers of Jefferson, but he "got left" on that, for Sheriff Gourley got track of him and escorted William to the Jefferson county jail last.

Jumping Beans.

The jumping beans on exhibition in one of the windows of Riston's cigar store are a puzzle to many people who watch them. These curiosities come from abroad. They are very lively little things and when placed on a surface jump about or roll over in most erratic fashion. Their antics, which seem very mysterious, are occasioned by the presence in the interior of the bean of a nervous little worm, which is constantly kicking up. The little fellow is not desirous of getting out, for if a hole is made in the bean, the worm will proceed to seal it up and continue his high-kicking performance. The exertions of the worm cause the irregular-shaped bean to travel about in erratic fashion.

In Honor of a Visitor.

Mrs. Wm. Johnston, of Shamokin, Pa., daughter of our townsman, John Goodwill, has been visiting her parents and friends in Reynoldsville the past few weeks. Mrs. Johnston lived in this town about eighteen years ago and made some very warm friends then who have not forgotten her. She is a member of the Daughters of Rebeckah in Shamokin and the members of the same order in Reynoldsville, who are a hospitable and sociable class of ladies, decided to hold a social in honor of Mrs. Johnston during her visit, therefore on Tuesday night they donned their best "bib-and-tucker," sweetest smiles, and filled their baskets with palatable delicacies and congregated at the home of Mrs. William Gibson, sister of Mrs. Johnston, where they spent a most delightful evening. There was no scarcity of "chin music" during the entire evening. Mrs. Johnston is not like a woman who could not enjoy such an occasion.

Ball Game Thursday.

The New Bethlehem ball club came to Reynoldsville Thursday noon to play two games with the home club, but rain stopped the second game at the end of the second inning. The largest crowd that has attended a game at this place this season, witnessed the game. The batteries were, New Bethlehem, Johnston and Schrecongost; Reynoldsville, Bitters and Hunter. Johnston, the visitor's colored pitcher, got rattled and our boys batted him at will for several innings. In the sixth inning Johnston got out of the pitcher's box and a Franklin man began twirling the ball, but he did not have speed enough to "fan our boys out" rapidly. Bitters was down to business Thursday and pitched a good game. Walter Williams got a good "swipe" at the ball and knocked it so far that before the New Bethlehem boys got it back to home base Williams had scored. The home club put up a good game. Walter Williams pitched the first inning of the second game. Score for first game was 21 to 14 in favor Reynoldsville.

Good For Prof. Hughes.

Prof. Hughes, county superintendent, deserves the praise of all lovers of education for cancelling all the certificates of teachers that the magnanimous school board of Ringgold township had selected for their winter term of schools. The school board had been paying the enormous sum of from \$28.00 to \$32.00 for teachers and this year they decided to pay \$20.00, \$23.00 and \$25.00 per month. When Prof. Hughes heard of their action he notified the board that he would not permit any teacher to go into their schools at such salaries. The board increased the salaries three dollars per month and Prof. Hughes cancelled the certificates of all the teachers they had hired. This had the desired effect and the board put the wages back to that of last year, \$28.00 to \$32.00, which is from \$10.00 to \$15.00 per month too low yet. One would be led to believe that such a school board either had \$20.00 teachers during their school days or they are most everlastingly stingy. At one of the meetings one school director made a brilliant (?) speech and eloquently (?) said "Gentlemen of the board I want you to understand I got my education in a log house with greased paper for winders and had to sit on the soft side of a plank." This director wanted to keep the schools closed all winter and save the expenses thus incurred, but some of the other fellows knew they were compelled to have six months school, and decided on the reduction of wages which Prof. Hughes knocked "galley-west."

The editor of this paper does not expect to ever assume the duties of a school teacher, but we have always been in favor of paying teachers good wages. It is certainly poor economy to try and save a little school tax by paying teachers about half what they should get in a number of places. Economy is wealth, but economy in this manner means "ignorant scholars." Again we say Prof. Hughes done perfectly right, and we give him credit for it. Out with such economy.

K. G. E. Reunion.

The Northwestern Reunion Association of the Knights Golden Eagle was held at Brockwayville on Wednesday of last week, which was a big affair for that town. The town was handsomely arrayed in gala attire, and nothing was left undone to make the reunion a pleasant success. There were between one and two thousand visitors in attendance. The Eagles spread themselves over the town until about noon and then rain dampened their gay feathers. The parade formed at 1.00 P. M. with between 300 and 400 Knights and Ladies in line, and they traversed the boulevards of the town amidst delightful music and rain. Mountain Cliff Castle No. 359, of Reynoldsville, won the prize \$25 for largest attendance and best appearance in parade. Pleasant Valley Temple No. 25, Ladies of K. G. E. of this place, captured the prize of \$15 for their appearance and number. The Keystones band accompanied the Eagles to Brockwayville. The next reunion will be held at Punxsutawney.

The scribe of this paper was at Brockwayville Wednesday afternoon and we found a pleasant and sober crowd. The greatest attraction, after the parade and speech making, was the ferris wheel. This thrilling-sensation producer drew patronage like molasses draws flies, and some of the boys stuck to it as long as their nickles lasted.

Want Money.

There are a few subscribers to THE STAR who have been taking the paper for two and a half years that have never paid a penny on their subscriptions, and they have been politely requested to do so. We have been lenient thinking that they would pay, but they don't seem to be in a rush. Unless these are paid within a reasonable time we will have to resort to some method of collecting the money. People who are compelled to pay their subscriptions, or any other debt, generally get cross about it, but they should not. It is said that a "hint to the wise is sufficient," and if that be so we will just say that publishers of newspapers can, under the law, arrest any man for fraud who takes a paper and refuses to pay for it. Those who have not paid know just as well as does the editor that they have not, so it is not necessary to waste more postage in sending bills.

Fond of Chicken.

Preachers are not the only people that trod mother earth who delight in devouring chickens. The N. T. L. of the Reynoldsville Presbyterian church, which is composed of eight or ten young ladies, is getting a reputation as "chicken-eaters." The ladies of this society have been fortunate enough to get numerous invitations to dine with friends recently and their fondness for chicken preceded them and when they gathered around the festive board their favorite dish occupied a conspicuous place among the palatable dishes prepared for the occasion. No one would think of inviting the N. T. L. out for a meal now without wringing the necks off of several chickens. By the way, the N. T. L. is composed of good workers in the church who are entitled to help eat Presbyterian chickens.

For Sale.

A store and valuable property for sale on Main street, opposite Burns House. Inquire of William Copping.

Board of Trade? Oh, Yes!

Every live town should have a live Board of Trade. Some time ago Reynoldsville organized a Board of Trade and it was a lively creature for a short time and has one offspring—the big woolen mill—as a result of active work done. Has dissolution taken place or has it become so drowsy that it will be impossible to ever get it out of the lethargy it has fallen into? When the Board was organized everything was done in a business like manner and bid fair to be one of the best things ever organized for the welfare of the town. About the first discouragement was the non-attendance at the meetings. At times it was almost impossible to get enough together to make a quorum. When the Board was organized one gentleman, who has an eye to business, was so well pleased with the evidence of enterprise manifested that he gave his check for \$25.00 to help give the Board life. Many others paid their membership fee of two dollars at that time, while others who were well able to pay lost their interest in the Board before they even paid in their two dollars. The fact of the matter is that a town without a good, active Board of Trade is not "in it" in this fast age. It is the town that is on the lookout that gets the manufacturing establishments. Do you want any factories in Reynoldsville? Then awake the Board out of its lethargy and to business. It is stated that the managers of the Wilkesbarre lace works are looking about for a new location. Would you like to have the works moved to Reynoldsville? Let the gentlemen know it and give them a cordial invitation to come and see our town. In the language of the Punxsutawney News, "we want more sights of factories and fewer sites for factories." There is one consolation if the Board is defunct the three story brick woolen mill is large enough for a monument for such a short lived Board of Trade.

School Notes.

Does your boy play "hooky?" Our schools are in a flourishing condition. The new books for the night schools have been ordered and will be here this week.

Unless the steps in front of the school house are repaired some scholar may be badly injured.

The state appropriation for the schools of Winslow township amounts to \$3,821.95 this year.

It's a poor sort of a school boy who never resolves to lick the teacher when he gets "grewed-up."

The school appropriation from the state for this borough has been received and amounts to \$2,916.19.

Prof. Henry is teaching the third room of the night school. This room opened last Wednesday night.

The Greensburg school board has determined to enforce the law upon all persons selling cigarettes to school boys under 16 years of age.

Gave Himself Up.

Charles Shaffer, the young man who threw the acid in the face of Carrier Thompson at Cool Spring about a year ago, returned last week, and went to Brookville and gave himself up. He was placed under \$800 bail for his appearance at court. Shaffer is teaching school at Apollo, Armstrong county. Shaffer said to a friend who inquired why he had voluntarily placed himself in the hands of the law, that he did not want the charge hanging over him. A man in his situation would naturally feel like a fugitive from justice, and could have no peace of mind.—Punxsutawney Spirit.

The Famous Keystone Band.

The famous Keystone band, of Reynoldsville, which is excelled by no musical organization in this section of the state, passed through Falls Creek Wednesday morning on their way to Brockwayville to attend, with the lodge from Reynoldsville, the big day of the Knights of the Golden Eagle. The Keystone band of Reynoldsville is an organization composed of gentlemen and musicians. They play a grade of music that very few bands in this section attempt, and at the band contest held at Dubois recently this organization carried away the first prize.—Herald.

Robbers at the Tannery.

When catarrh attacks a person of scrofulous diathesis, the disease is almost sure to become chronic. The only efficacious cure, therefore, is Ayer's Sarsaparilla, which expels scrofula from the system and the catarrh soon follows suit. Local treatment is only a waste of time.
