Posts or Benches.

Would it not be well to set out a few posts in front of some of our churches for some of our young men to lean against while waiting for their sisters?—*Clearfield Journal*. We have been thinking of suggesting that seats be put up in front of some of the Reynoldsville churches for just such gallant (?) youths.

Injured Internally.

It was mentioned in this paper last week that Rev. J. C. McEntire had been injured by a horse falling upon him, but it was not thought at the time that he was so badly injured as it has since terminated. The old gentleman has been confined to his bed and has suffered intensely. He was injured internally.

He does not expect to be sent back to this place for another year, and does not know to what charge he will be appointed by the conference. Rev. P. J. Slattery has made many friends here who will be sorry to see him leave. He is an able minister and a brilliant man, and wherever his lot is cast the people can expect to hear good sermons every time he enters the pulpit. He is an up to date preacher.

Michael Kearns, formerly of Reynoldsville, now an employee of T. O'Laughlin's tailoring shop at DuBois, and Miss Genevieve Daly, of DuBois, were married at St. Catharine's Catholic church in that town last Wednesday morning in the presence of relatives and friends. After the ceremony they went direct to their new home on West Long avenue, which had been furnished and fitted for their reception and they began housekeeping. The *DuBois Courier* says: "The bride is a daughter of L. V. Daly and has many friends and acquaintances, the family being among the best known in town. Mr. Kearns is a young man who came here sometime ago from Reynoldsville. He is the man who manipulates the bass horn in the Volunteer band and is a musician of recognized ability. The young couple will receive congratulations from a host of friends." Mr. Kearns' musical ability is well known in Reynoldsville where he has lived for some time and played the bass horn in the famous Keystone band.

Observed Monday.

Saturday next, September 7th, according to an act of the last Legislature, is Labor Day but it was decided by a few men at this place to observe Monday as Labor Day, and on Friday evening a message was sent to Pittsburg to secure a speaker for the occasion and on Saturday James L. Michels, of Pittsburg, General Worthy Foreman of the Independent Order Knights of Labor, came to Reynoldsville in response to the message. A meeting was to have been held on the commons below Jackson street at ten o'clock Monday forenoon, but it was not generally known and the crowd was so small that the meeting was postponed until two o'clock in the afternoon. It was noised about that Mr. Michels would speak in the afternoon and a good sized crowd turned out to hear him. Had the matter been taken in hand in time and properly advertised a large crowd would have been at the meeting. However, those who were present listened attentively to the old man's remarks and afterwards discussed the present situation in a calm and sensible manner.

NEW R. R. TO BE BUILT!

CHARTER GRANTED LAST WEEK—SURVEYORS AT WORK.

The Road Will be Constructed to Connect Reynoldsville and Warren.

The following dispatch from Harrisburg last Wednesday, which appeared in several of the daily papers that came to Reynoldsville, has given our people something to talk about:
A charter was granted to the Reynoldsville, Warren & Buffalo Railroad Company, the road being 80 miles long, and to run through the following counties: Jefferson, Clearfield, Elk, Forest and Warren. It will connect the central portions of McCalmont township, Jefferson County, with the Dunkirk & Allegheny Valley Railroad, near Warren. Several of the incorporators are from Buffalo, N. Y. Capital stock, \$1,200,000. S. B. Elliott, of Reynoldsville, Pa., is president.

A representative of THE STAR called at the B. L. & Y. C. M. Co. office Monday to interview S. B. Elliott, president of the proposed new railroad. Mr. Elliott received the reporter very cordially, but was reticent about the new road. He said the road would certainly be built and that two or three corps of engineers are at work surveying the proposed line, and further than that at present he sayeth not.

The B. L. & P. owns, or has large interest, in coal mines in the neighborhood of Punxsutawney and as a natural result those mines get the preference for cars, &c. Five years ago the B. L. & Y. C. M. Co. secured a controlling interest in the road in order to get a good car supply and better shipping facilities. After the failure of A. G. Yates the coal company of this place lost control of the road and has since been having difficulty in getting cars to fill their orders. The new road will give the B. L. & Y. Co. a shipping outlet north independent of the B. R. & P. The Reynoldsville & Falls Creek tracks will be used from this place to Falls Creek and the new road will be constructed from that place to Warren.

When the new road is built a larger output of coal from the mines at this place will be the result. The construction of this road will be a great benefit to Reynoldsville, as this will be the terminus of the road. It cannot be constructed too soon, and THE STAR hopes that it will not prove to be only railroad talk, but that by this time next year the iron horse will be heard snorting along in the valleys between Reynoldsville and Warren. The route has been surveyed several times and two years ago the probabilities of building the road were discussed.

It has been rumored that the Vandervilts, the Central Railroad of Pennsylvania, and other corporations were negotiating for the purchase of the B. L. & Y. C. M. Co. mines, but the reports lack confirmation.

A Noted Sidewalk.

M. M. Fisher has built a sidewalk in front of his place of business on Main street that in all probability will be rebuilt. We have been informed that the town council forbid Mr. Fisher making his walk any higher than other walks onto which his joins, but he raised it up so that at the meeting Monday night the council rightly called it an "obstruction on Main street," and referred the matter to the street committee.

Missionary Worker.

Mrs. Davis, of Steubenville, Ohio, who is making a tour of the Clarion Presbytery in the interest of Home Missionary work, delivered an interesting talk on Mission work in the Presbyterian church last Sunday evening. A collection was taken up and given to the Home Missionary Society of the Presbyterian church in this place.

A Boy's Invention.

It is an old saying that "necessity is the mother of invention," yet it occasionally occurs that mischievous boys get inventions that necessity is not the mother of. A car of peaches was left on the siding at this place one night last week and some of the boys helped themselves. Their way of stealing the fruit was with a long sharp stick.
