A party of Reynoldsville fishermen went out recently and stopped at a hotel five days near by. When they came to pay their bills the landlord said: "My rates are \$1.50 a day, which would make \$7.50 each. If you had stayed a week I would only have charged you \$7.00, as that is my weekly rate."

The Ladies' Village Improvement Association advertised in THE STAR last week that a market would be held in the Bee Hive building Saturday afternoon last, July 28th, but the market was not held because there were not enough ladies interested in the market to make arrangements and solicit for same. A statement was made in the Punxsutawney Spirit last week that H. L. Young, of that town, had taken a drive through Clarion county recently and that he found one township where the supervisor kept the small stones picked off the public road, which to Mr. Young, was something remarkable. This gentleman need not go out of his own county to find supervisors who keep the stones off the public roads. There are two such officials in Winslow township, L. P. McCleary and Tilton Reynolds, who have the loose stones picked off the roads once a month.

Game Yesterday.

Severely Punished.

An Italian who is very quarrelsome when intoxicated, had the life almost knocked and thumped out of him Monday evening near the railroad junction above Prescottville. When they got through with the Italian a doctor's service was necessary.

Was Too Short.

Frederick Clark, who assists his father, Harry D. Clark, in the restaurant and green grocery next door to postoffice, went to Pittsburgh Monday to join the U. S. Marine Corps, but Fred was not tall enough, neither is he of age, and he could not pass examination. No one can join the Marine Corps for less time than five years. Three years will be spent on a "sea going" ship of war, or in Cuba, Puerto Rico, Manila or Guam, giving a young man the opportunity to visit all parts of the world. The remaining two years are served in barracks at different naval stations in the U. S.

Taking a Vacation.

Rev. W. Frank Reber, pastor of the Presbyterian church, and Mrs. Reber are visiting their parents at Fayetteville, Pa. Mr. Reber went to Allegheny Saturday and preached in one of the prominent Presbyterian churches of that city Sunday. Mrs. Reber met him at Tyrone Monday. They will be absent during the month of August and it is not likely there will be any preaching in the Presbyterian church during this month. If there is any such services announcements will be made in THE STAR. The Sunday school, Christian Endeavor and mid-week prayer meetings will be held as usual.

Ice Cream, Cake and Music.

The members of Hope Hose Company will hold a lawn fete on S. T. Reynolds' lawn on Tuesday and Wednesday evenings, August 7th and 8th. Ice cream, cake and berries will be served and the Keystone band will give a concert on the lawn each evening. Chinese lanterns will be conspicuous and it is very likely an air light will be put in to illuminate the lawn for this special occasion. The proceeds of the lawn fete is to pay firemen's expenses to the convention at Kane the following week. Our people should patronize the firemen liberally as they are certainly deserving of the financial support of the public.

Will Move to Schuylkill County.

Bills have been printed at THE STAR office announcing a public sale at the farm of John Goodwill, near this borough, on Thursday, August 9th, beginning at 9:30 a. m., at which time three horses, two colts, eight milk cows, two milk wagons, heavy wagon, sleds, farming implements, grain, garden truck, household goods, &c., will be sold to highest bidder. Mr. Goodwill, a kind hearted, genial old gentleman who has resided in Reynoldsville a number of years, expects to move to Schuylkill county to remain permanently. "Jack" Goodwill, as he is familiarly known, has many warm friends here who will be sorry to see him move away.

"The Star" Building.

The contract has been let for the erection of a two story brick building at corner of Main street and Coal alley, opposite Baptist church, which, when completed, will be a home for THE STAR and its editor. The first floor will be used for the printing office and the second floor fitted up conveniently for dwelling rooms, which will be our domicile.

The erection of this building will give us a financial burden to carry and we will have to ask our friends to assist in lightening the burden by paying up their back subscriptions. Each one's indebtedness is small but if all who are in arrears will pay part at least it will be a great help to us. When THE STAR is located in the new building we expect to equip the office so as to be in shape to do better work at less expense, in fact we hope at no distant day to make THE STAR and THE STAR job department second to no other newspaper or job office in the county. To do this, however, we must have the continued hearty support of our numerous friends and ask others to join in to help push it along. We need the support and encouragement of all.

Test of a Man's Honesty.

It has been agreed that newspaper subscriptions are an infallible test of a man's honesty. They will sooner or later discover the man. If he is dishonest he will cheat the printer some way—declare he has paid when he has not—sent money in the mails which was lost—he will take the paper and not pay for it on the ground that he never subscribed for it—or move off and leave it coming to the office he left. Thousand of alleged christians are dishonest in this particular at least and the printer's book will tell fearful tales at the final judgment.—Clearfield Public Spirit.

Anthrax Again.

The people of Falls Creek are again stirred up over the reappearance of several cases of anthrax, both in cows and in individuals and many people are frightened lest an epidemic should prevail. Several cows have died already this year from the disease and several persons of the town are sick in bed with it. Many persons have stopped using cow's milk, especially that of cows of town that are allowed to run at large, and extra precautions are being taken on all sides to prevent the spread of the disease. The cow of B. D. Shaffner that died last week was examined by Dr. Hoffman, of Brookville, and the germs of anthrax discovered. Charles Senter and Joseph Rielly are each sick, suffering from the disease in its exterior form, which is not as dangerous as inwardly, but the local physicians have the cases well in charge. Too much care cannot be exercised, and the bodies of cows that die from the disease are being burned.—Falls Creek Herald.

MAN OF EXPERIENCE.

Short Biographical Sketch of Lieut. Thos. A. Roberts, New Superintendent.

To-day the A. V. Ry. becomes a part of the great Pennsylvania railroad system and the Low Grade Division is added to the Middle Division of the Philadelphia & Erie railroad, with Lieut. Thomas A. Roberts, of Renovo, as superintendent of same. It is but natural that our people would want to know something about the man who will be superintendent of this branch of the railroad, and from the Elmira Daily Gazette of May 4, 1900, we clip the following biographical sketch:

"The birth of this widely-known railroad man occurred in the city of Philadelphia on the 20th day of June, 1841. He received a thorough training in the public schools of that city and entered the service of the city survey department of Philadelphia in the year 1858. In 1861 he was commissioned as second lieutenant of Company B, Fifty-third Pennsylvania volunteers, at that time commanded by Colonel John R. Brooke, now major general of the United States army. Mr. Roberts experienced considerable service, but at the end of eight months was obliged to resign on account of ill health. During the year 1864 he made his entry into railroad service in the capacity of a rodman on the construction of what was then known as the Pan-Handle railroad, a line constructed between Pittsburg and Steubenville, Ohio. From 1866 to 1880 he was an assistant engineer in the engineering department of the Pennsylvania railroad. In 1880 he was promoted to the position of a division superintendent of the Pennsylvania system and has since so served. In 1883 Mr. Roberts was transferred from the superintendency of the Bedford division of the Pennsylvania Railroad company to take charge of the division known as the middle division of the Philadelphia & Erie railroad extending between Renovo and Kane; this position also involves the superintendency of the extensive railroad shops at Renovo, as well as of three different branches of the middle division. The middle division from Renovo to Kane is 161 miles long. The branch from Keating to Kautus is twenty-two miles; from Ridgeway to Falls Creek is twenty-seven miles; and the branch from Johnston to Clermont covers twenty miles. The shops at Renovo employ an average of 1,100 men and those on the division foot up as many more, making a total of about 2,300 men under Mr. Roberts' supervision. Mr. Roberts in 1890 was elected school director at Renovo and at once became president of the school board. He has since continuously filled the position, and from the first has taken a very active part in the advancement of the cause of education. By those intimately acquainted with his services in that direction, it is stated that he is one of the best qualified men in the state, outside of the teachers' profession, in the active management of school affairs. Mr. Roberts belongs to the Episcopal church, where for a number of years he has served as treasurer. He belongs to the Engineer's club of Philadelphia, United Service club of the same city, and to the Masonic fraternity. A wife and six children constitute his family. Mr. Roberts has been the architect of his own fortunes and has gradually and steadily risen to an honorable and influential position in railroad circles. He is a gentleman of careful judgment and is an executive officer of great tact and ability. Under his watchful scrutiny the important interests of the great Pennsylvania system, on the middle division and at Renovo, receive the closest attention, on the part of the large force of men under his supervision.
