

# FREELAND TRIBUNE.

VOL. VIII. NO. 32.

FREELAND, PA., THURSDAY, OCTOBER 17, 1895.

\$1.50 PER YEAR.

## BRIEF ITEMS OF NEWS.

PARAGRAPHS GATHERED FROM ALL PARTS OF THE REGION.

**Synopsis of Local and Miscellaneous Occurrences That Can Be Read Quickly. What the Folks of This and Other Towns are Doing.**

Richard Fowler, of Hazleton, has accepted the position of coal inspector for Marple & Co.

Wm. Doggett, of Washington street, has removed to Connecticut, where he expects to secure a position.

The employes on the strippings operated by Marple & Co. will receive a 10 per cent advance on Monday.

Saturday next will be the general pay day hereabouts. The employes at Eckley and Drifton were paid this week.

Miners should wear the "Wear Well" working shoe. It is the best.

Rev. J. D. Griffiths, of the English Baptist church, preached an excellent sermon in the Baptist church at Edwinstown on Sunday.

Gornik, the Polish weekly published at Wilkesbarre, will be issued as a daily during the remainder of the campaign. It is Republican in politics.

Edwin J. Gibbons, of Plains, a prominent Democrat in the fifth legislative district, was instantly killed in the mines on Monday by a fall of coal.

Miss Mary McGroarty, of Philadelphia, attended the wedding of her sister here last evening. John S. McGroarty and wife and Bernard Brennan and wife, of Wilkesbarre, also attended.

The very latest in New York and Philadelphia dress goods can be seen at A. Oswald's. Can and inspect them.

The superior court judgeship problem, whether electors will vote for six or for seven candidates for the superior court, has been argued before the supreme court in Pittsburgh and a decision is looked for today or tomorrow.

In view of the explosion at the Dorrance colliery last week the Lehigh Valley Coal Company has issued orders that hereafter no mine boss shall carry a naked light at any time or under any circumstances inside its collieries.

Mary, a young daughter of John McCole and wife, of South Ridge street, died on Monday. This is the second victim of diphtheria within two weeks. There are only a few cases existing now, and none are considered dangerous.

Try the Wear Well Shoe House. Their goods cost no more and give better satisfaction than any other store in Freeland.

Another well-attended meeting of the Democratic district committee was held in town last evening. The committee men intend to poll every Democratic vote in the old fourth, and are busily engaged making arrangements to do this.

The next ball to be held here will take place on Monday evening next, and will be under the auspices of the Stars Athletic Association. This is the first attempt of the young men, and they propose to make their opening ball equal to any held at the opera house.

The jury empaneled to investigate the death of Charles Brill, who was killed in Upper Lehigh mines on the 9th inst., met at Squire Buckley's office on Monday evening, and after hearing the testimony of several witnesses rendered a verdict of accidental death.

Geo. Wise has a large lot of horse blankets on hand at his Freeland and Jeddo stores, which he is selling very cheap.

The Luzerne County Telephone Company is a corporation which is being organized to operate a telephone system in the county. Their rates will be \$30 a year for commercial places and \$24 for residences. This is about one-half of the present rate charged.

Judge Craig, of Carbon county, has refused a new trial to J. W. Maloy, editor of the *Lansford Record*, who was convicted of libeling a man named Scott. The case will likely go to the supreme court, as the decision of the judge is as unjust as was the verdict of the jury.

Miss Sarah Dodson and Miss Ellen P. Stewart left yesterday for Bloomingdale, this county, to attend the wedding last evening of Isaac Benscoter and Miss Martha T. Stewart. Miss Dodson will remain away three weeks and Miss Stewart will attend the county institute at Wilkesbarre next week.

### Today is Opening Day.

Bright and early this morning the doors of the New York Novelty Hardware Store were thrown open, and the mammoth stock of light hardware and novelties was ready for inspection by the public. This new business venture in town has a cheerful appearance about it, and the goods are displayed so well that one is certain when he sees the place that it is under the management of an experienced man. The proprietor, A. Wolf, has been engaged in this line of trade since boyhood, and that he has the hardware business down to fine points may be seen in the figures at which he sells the goods. Miners and mechanics never had a better chance to secure for a small sum the many little necessary articles which they require. The store is in Cutler's building, 79 Centre street, and will be open every evening until 9 o'clock.

### This Week's Weddings.

At St. John's Slavonian Catholic church on Tuesday morning Miss Mary Shigo, of town, and Andrew Hardine, of Hazleton, were married. Rev. Colack, of Pittston, read the mass, and Rev. Staz, of St. John's church, performed the ceremony. The bride was attended by Misses Mame McDonald, Kate Wislock, Mary Wislock and Margaret Rushy, of Freeland. The groomsmen were Andrew Shigo, Thomas Hamara, George Sushock, of Freeland, and John Busehock, of Hazleton. Misses Susie Faltz and Mame Hudocky were the flower girls, and Miss Cella Brennan the organist. The affair throughout was conducted upon the most fashionable plan, and all who took part performed their duties in style. After the wedding a reception followed at the home of the bride, after which the young couple and their friends went to Hazleton and continued the festivities in Macnercher hall. Mr. Hardine and wife will reside at Hazleton.

Jerry McCarty and Miss Annie McGroarty were married at 7 o'clock last evening at St. Ann's church. Rev. E. A. O'Rielly officiating. The ceremony was witnessed by many of the friends of the young couple. Miss Mary Tolan, of Wilkesbarre, was the bridesmaid, and James B. Ferry, of town, the groomsmen. Misses Kate and Annie Brennan, of Wilkesbarre, were the flower girls. A reception at the home of the bride's mother followed, and was attended by a large number of invited guests. They will reside in a handsomely furnished house on the Hill.

William Purcell, of Freeland, and Miss Mary A. O'Donnell, of DiI ton, will be married at St. Ann's church at 3 o'clock this afternoon. Roger O'Donnell, a brother of the bride, will be groomsmen, and Miss Maggie Purcell, a sister of the groom, will be bridesmaid.

### Major Drasher Installed.

Last evening Stephen Drasher, of town, was installed as major of the Fourth regiment, Military Rank of the Knights of the Mystic Chain, a position to which he was chosen at the recent state convention of the order. The installation ceremonies were conducted in lodge room No. 2 of the P. O. S. of A. building by the officers of the regiment, who arrived here from Wilkesbarre at 7 o'clock. They were met at the train by Company B, of town, commanded by Jacob Wolf, and escorted up Centre street to the hall. The Mayberry band supplied the music. The officers from Wilkesbarre were: Colonel Jacob Stetzer, Major John Stetzer, Lieutenant John Munroe and Sergeant George Dressal.

The installation of Major Drasher was a very interesting ceremony and was witnessed by the Freeland Knights in full uniform. After the business of the evening was over the visiting and local members adjourned to the Delmonico restaurant, of which the new major is proprietor, and were there served with a banquet. Mr. Drasher was complimented by many friends during the evening upon his elevation to the ranks of the regimental officers.

### Rocco Still Unaptured.

Rocco Dido, the Adams street Italian who disappeared after shooting Policeman Mollick in the arm on Sunday evening, is still at large. Burgess McLaughlin and the Freeland police have followed up every clue that they thought would lead to his capture, but the wily fellow has so far eluded their vigilance. The officers, however, have not given up the chase, and as they know the people whom he is likely to call upon if he returns, a close watch will be kept upon a number of houses in the region. Officer Mollick's arm is healing rapidly, but it will take some time to place it in perfect condition again.

### New Style of Mileage Books.

The Lehigh Valley Railroad Company has issued a new series of regular mileage books and the ticket offices have been stocked with them, they to be used when the supply of old ones runs out. The new books are quite neat in appearance. The mileage strip is composed of one continuous piece of paper, having a space for each mile, and the conductor tears off a strip corresponding to the number of miles the person wishes to travel. The advantage will be that conductors will not have to tear out the little pieces that always hang in the old form of books.

### Provided With a Chapel.

Through the generosity of Mrs. E. B. Cox, of Drifton, the Catholic inmates of the Laurytown almshouse have been provided with a chapel in which regular masses will be celebrated by Father Dever, of Beaver Meadow. Mrs. Cox has borne the entire expense of equipping the chapel with all the necessary requisites. Father Dever was instructed by her to proceed with the work of accomplishing the undertaking and this he has done with entire satisfaction to this truly charitable woman.

The best is the cheapest in the end. Go to the Wear Well Shoe House. Their shoes all wear well.

Ladies, don't forget to see the dress goods at A. Oswald's.

### JEWISH SOBRIETY.

Even in Times of Storm and Stress the Jews Abstain from Liquor.

During the current month as many as forty thousand men and women employed in the various branches of the clothing trades in New York city have been on strike, and they have met with a measure of success that was hardly expected even by themselves. A particularly interesting feature of the strikes, which have taken place one after the other since the opening of the month, has been the universal sobriety and peacefulness of the people engaged in them, nearly all of whom are Jewish Russians who have come here within a few years. Not as many as half a dozen of them were arrested for intoxication and still fewer of them for any breach of the peace or other unlawful conduct. There was no perceptible increase in the amount of liquors consumed in the quarter which they inhabit during the period when they were out of employment. Mass meetings were held daily in the immediate vicinity of drinking saloons or in buildings part of which were occupied as saloons, the keepers of which say that their sales of beer were even lighter than usual, while there were no calls for stronger liquors. Thousands of members of the Brotherhood of Tailors were assembled daily for a fortnight in and around Wallhalla hall, hardly a man of whom ever drank anything more affecting than soda water or lemonade.

There is a marked contrast between this sort of thing, says the *New York Sun*, and that which frequently existed in former times in the great strikes here.

### THE ELECTRIC ENGINE.

Likelihood That Grand Trunk Will Adopt It for the Port Huron Tunnel.

Passengers on Grand Trunk trains may make the journey through the tunnel under the Detroit river at Port Huron behind an electric locomotive, according to information current in electrical manufacturing circles. It is to the effect that the conservative Canadian railway management is figuring on an adoption of methods practically the same as those in use in the Baltimore & Ohio tunnel under Baltimore.

A desire to avoid smoke and cinders was among the causes which induced the latter company to install electricity. The Grand Trunk is forced to abandon steam engines, so it is said, because of their effect upon the tunnel structure.

The latter cut through the rock is lined with steel casing, back of which is a filling of what is said to be a peculiar kind of asphalt. The tunnel is a mile and one-eighth in length and the grade at both ends is an important one, amounting to 105 feet to the mile. Specially constructed locomotives weighing ninety-five tons and having eight drivers are used to haul trains through.

In developing the energy needed to handle long heavy trains it has been found, it is stated, that the excessive heat generated by the engines is a serious matter, and escaping steam from the engines is exercising an effect upon the asphalt backing, the result of which is its deterioration. In other ways, it is stated, steam has been found to exercise influences upon the tunnel structure that are serious.

### NEW CURE FOR CONSUMPTION.

Injection of Tubercular Serum Employed by an Italian Savant.

A new cure for consumption has been reported to the state department by the United States Consul Chanceller at Havre. He says the cure was first brought to the attention of the world at a congress of physicians and scientists at Bordeaux to consider the question of combating consumption by vaccination. Prof. Marigliano, an Italian savant, read a paper which attracted much attention, claiming to have discovered an efficacious process for the treatment of consumption by the injection of tubercular serum, which, he says, renders the subjects of this most formidable disease immune.

The consul recalls the comparative failures of other attempts to treat consumption successfully, and says this particular process is still in the experimental stage. The paper is open to several objections, for Prof. Marigliano gives no precise information as to his process for obtaining the serum, which can be had only from himself, his statistics are incomplete and lacking confirmation and his infallible remedy cannot be yet regarded as an accomplished fact.

### Phonograph Entertainments.

Prof. Lyman H. Howe will give phonograph entertainments at the opera house tonight and tomorrow evening. He is accompanied by the renowned wizard, "Golden," who mystifies you with his clever work. The entertainments are under the auspices of the Mayberry band. Admission, 10, 20 and 30 cents.

### Sweepstake Shooting Match.

On Saturday, October 26, a sweepstake shooting match will take place at Dave Mace's hotel, Butler valley. Shooting at live birds in forenoon for a show, in afternoon at blue rocks for the sweepstake. All hunters invited.

### PLEASURE CALENDAR.

October 21.—First annual ball of the Stars Athletic Association, at Freeland opera house. Admission, 50 cents.  
November 27.—Sixth annual ball of the Jeddo Progressive Club at Freeland opera house. Admission, 50 cents.

Old newspapers for sale.

### A More Feasible Plan.

J. Bennet Smith, of Wilkesbarre, who is quite an authority upon mining and engineering matters, had an interview recently with Thomas A. Edison, and says that the plan of generating electricity at the culm banks and transmitting it to New York is impracticable. Mr. Smith stated that it was proposed to transmit to New York about 10,000 horse power. Edison informed him this amount, estimating the distance from Wilkesbarre to New York to be 150 miles, would require a copper cable eighteen inches in diameter. This is seen the impracticability of generating electrical energy and shipping it any great distance.

In regard to conveying the culm to New York through pipes by floating it with water, Mr. Smith says that is also impracticable. The sediment would accumulate in the depressions and solidify, gradually stopping up the pipes, and, also, the action of the mine water would destroy the pipes in a very short time, to say nothing of the friction.

Mr. Smith, however, has a plan of his own. It is to build plants right at the culm heaps, generate the gas and pipe the same to New York or elsewhere, to be used there in gas engines as a fuel for generating electricity. Mr. Smith, in explaining his plan, says: "We know all about piping gas, for we have abundant experience to guide us, and there is no question but that gas could be manufactured here and piped to New York ready for use. The other schemes are all visionary and impracticable, but this one opens up the greatest possibilities for the coal region."

### Ten Men Have a Narrow Escape.

Very fortunate it was on Tuesday morning that the safety knives of the Empire shaft, Wilkesbarre, did their work well, or ten men would have been killed. As it was, four were quite badly injured and six slightly. Engineer David Halliday was in charge when the morning shift went to work. Several loads of men had gone down on the carriage. At 6.45 ten men in charge of Contractor Richard Roderick, got on and gave the signal to lower. They had not gone down 100 of the 550 feet, when Engineer Halliday lost control of the engine, and the carriage dashed downward at terrific speed, but the knives closed in on the guides and in a measure checked the speed of the falling carriage. It was all over in a second or two and the carriage dashed down on the dump at the bottom of the shaft and hurled the ten men on it in all directions.

Four were badly hurt. They are Michael Muscavage, William Casper, William Yotkavish and the contractor, Richard Roderick. All were bruised and cut about the limbs and body and are suffering severely from the shock. The other six were more or less cut and bruised, but none of them seriously.

The breaker was idle in consequence of the accident, as the officials did not deem it safe to work the colliery until a thorough examination had been made of the carriages and machinery.

### The Railroads Are Busy.

The various railroads passing through the coal region are doing an immense freight and coal business at the present time. Every engine owned by the Lehigh Valley is in use and more could be utilized. In the fall shipments in freight are heavier than in years and the coal shipments are increasing wonderfully.

Delaware, Susquehanna and Schuylkill trainmen are working from twelve to sixteen hours daily. The company is rushed with business. The coal trade has brightened and long trains are being sent from the collieries along the line to tidewater and to the yards where connections are made with other roads.

The Pennsylvania Railroad's business is also thriving, and the line is humming day and night with the noise of the locomotive and freight car. The Jersey Central was never in a better condition. Its freight and coal business is enormous. The same is true of the Reading.

In the Wyoming region the Delaware and Hudson, the Delaware, Lackawanna and Western, the Erie, the Wilkesbarre and Eastern and the Susquehanna and Western are all doing a large business.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by druggists, 75c.

Ladies, the best-fitting and most stylish shoe in the market is the Vision, sold at \$2. Can be had only at the Wear Well, Eberts' old stand.

## TWO NEW ATTORNEYS.

ONE IS A WOMAN AND THE OTHER A NATIVE OF HUNGARY.

Miss Trescott, the first female attorney in Luzerne county, and Mr. Menowski, the first Hungarian lawyer in America, admitted to the bar on Monday.

On motion of Hon. H. W. Palmer, Miss Mary L. Trescott was on Tuesday admitted by Judge Woodward to practice as an attorney-at-law in the courts of Luzerne county. Miss Trescott, who is a niece of ex-Judge D. L. Rhone, bears the distinction of being the first woman admitted to the bar of Luzerne county. She is a graduate of the office of Hon. H. W. Palmer and the examining committee found her fully qualified to enter her chosen vocation. She is a bright, intelligent woman and her career in the courts will be watched with interest.

Miss Trescott is a native of the lower part of the county. She had long been a teacher in the public schools at Ashley, at White Haven, at Wilkesbarre and other places. A few years since she cast about for a new field, not so well filled. She graduated in stenography at Poughkeepsie, N. Y., during her vacation in the summer of 1893, carrying off a prize.

She has since been a standing commissioner to take testimony for the use of the courts, and a notary public during her law studies. While thus making herself useful as an office assistant, she studied law, and upon receiving her certificate from the board of examiners for admission to the bar a few weeks ago, was especially complimented.

John Menowski, Jr., of Plymouth, was on motion of Attorney C. W. McAlarney admitted to practice the same day as an attorney in the courts of this county. Mr. Menowski is a native of Hungary, having come to this country with his father when 11 years old and has the proud distinction of being the first man of his nationality admitted to the bar in the United States. He is particularly bright and capable and will likely make an excellent attorney.

### RELIGIOUS SERVICES.

Announcements of religious services and church news will be published free of charge under this head every Thursday. Pastors are invited to send us all items that are of general interest to the public.

### METHODIST EPISCOPAL.

M. E. services will be held in Lindsay's hall every Sunday as follows: Preaching, 10 a. m. and 7 p. m. Class meeting, 9 a. m.; C. W. Barton, leader. Sunday school, 2 p. m.; C. W. Barton, superintendent. Epworth League, 6 p. m.; Edward Jones, president. Prayer meeting every Wednesday evening at 7.30 p. m. The public is cordially invited to all of these services.

### Rev. Edmund White, pastor.

HOLINESS CHRISTIAN.

Services at the Holiness Christian Association church are as follows: Sunday: Preaching, 10 a. m.; Sunday school, 2 p. m.; experience meeting, 3 p. m.; preaching, 7.30 p. m. Week day services on Tuesday and Thursday evenings.

### Rev. H. P. Jones, pastor.

ENGLISH BAPTIST.

Services for Sunday, October 20: Prayer meeting at 10 a. m. Preaching at 10.30 a. m. Sunday school at 2 p. m. Preaching at 6.30 p. m.

### Rev. J. T. Griffith, pastor.

WELSH BAPTIST.

Preaching in Welsh at 3 p. m. by Rev. J. T. Griffith. All are welcome.

### When Baby was sick, we gave her Castoria.

When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

### POLITICAL ANNOUNCEMENTS.

FOR POOR DIRECTOR—A. S. MONROE, of Hazleton.

Subject to the decision of the Republican nominating convention.

FOR POOR DIRECTOR—THOS. M. POWELL, of Hazleton.

Subject to the decision of the Republican nominating convention.

FOR POOR DIRECTOR—FRANK P. MALLOY, of Freeland.

Subject to the decision of the Democratic nominating convention.

FOR POOR DIRECTOR—SIMON BUBE, of Hazleton.

Subject to the decision of the Democratic nominating convention.

WANTED.—A boy, about 14, to work in printing office; good opportunity to learn the trade thoroughly; must have fair education. Apply at the TRIBUNE office.

LOST.—On Monday, September 23, a small chestnut-colored cow with white feet, white tail and white spot on forehead. Any information as to its whereabouts will be liberally rewarded by James T. Gallagher, Freeland.

We are First to appreciate the wave of lower prices. Thanks to a lucky purchase we are able to satisfy you on that score, as we keep nothing but first-class goods.

\$2.98 Men's heavy double-breasted winter suits, well made and substantial.

\$5.00 will secure you a good extra heavy blue cheviot suit, which cannot be duplicated elsewhere under \$7.50. Our line of black suits is unsurpassed.

\$8.50 buys a suit every bit as good as a made-to-order suit and there's more city style about them.

\$1.50 There is no need for your boys to look shabby when you can get a good heavy winter suit at this price. Bring your boys along. Better goods, of course, at better prices, but prices equally as reasonable.

99c derbies—the latest styles and best quality. Everybody has heard of our Gotham hat—haven't you?
