Candy and the Teeth. The delegates to the annual convention of the Pennsylvania Dental Association met in Pittsburg, Jan. 23.

Among the subjects discussed was the effect of candy on the teeth. Prof. Pierce of Philadelphia, condemned the candy habit as most vicious. He said "children must have sugar, but as it is not flavored they will not eat too much of it." "Candy is flavored and they eat it to excess. It becomes an acid in fifteen minutes and hence is dangerous." Dr. Hurley of Oil city, thought candy when pure was not injurious to the teeth. When doctors disagree who shall decide?
