**HOWARD MUTCHLER ON BRYAN.**  
A Clipping From An Editorial in the Paper the Eastern Express.  
Ex-Congressman Mutchler, of this district, was one of the delegates at Chicago. His daily paper, the Eastern Express, says of Bryan:

"It must be remembered that eloquence alone doesn't fit a man for the Presidency. Well-turned phrases and polished periods are not nearly so much to be desired in the White House as sound, sane, conservative common sense. Right thinking must be put above eloquent words, and how is it with Bryan? Well, he believes in the platform, heart and soul, and what may be said of the platform may be said of him. He is radical and in some ways a revolutionist. His views are extreme. In his own State he has been opposed to the administration Democrats, and was beaten on the issue. "In Congress he was a champion of tariff reform, and of free silver and of the income tax. He is one of those Westerners who believes that the East should be fought as the natural enemy of all the Western and Southern States. He has made some very intemperate remarks about the believers in sound money, and there is no reason to believe that he would not be ready and willing, to approve some very dangerous experiments in government if he ever got in the White House."

**A Practical Illustration.**  
"The Steuben Courier," of Bath, N. Y., says: "W. P. Sedgwick has placed in his store window the most practical illustration of the silver question which has yet been devised. On one side are ten silver dollars, good the world over for their face value, by reason of the credit of our Government. Underneath these he has a block of silver which is the melted product of ten silver dollars, and which in that form is worth just \$5.24 1/2. On the other side is a ten-dollar gold piece, and underneath a piece of gold obtained by melting ten gold dollars. Both pieces of gold have the same value whether they bear the Government stamp or are a shapeless lump. On the silver melting, however, Mr. Sedgwick will have to lose \$4.75, as he can never get that block of silver which is worth only \$5.24 1/2, back in to the shape where it was worth \$10, thanks to the common sense of Republican legislation."

**A Snake Fought a Tire.**  
The Hulpe brothers of Middletown "gotem" when over here last week on their wheels. They say a rattlesnake held them up, and when they attempted to ride him down he struck at the leg of one of the men, but missed it and punctured the tire. No doubt it was lucky for the snake he made the miss for had he hit the leg it is more than probable he would have died of alcoholism. We warn our snakes to beware of Orange county legs.

**A Strange Hallucination.**  
A young man, about eighteen years of age, has been arrested at Portland, Pa. for running on the railroad tracks puffing and whistling in imitation of a locomotive which he imagines he is. According to a record kept by the Chicago Tribune, 163 Democratic papers have bolted the Chicago ticket so far. The campaign of education appears to be working backward.

**PIKE COUNTY.**  
BUSHKILL, July 21.—The sport in Pike county continues. The city boarders are arriving daily and are showing local angles what they can do. A party of jolly campers were at Brink Pond, near "pop" Curry's. A fine lot of pickerel were caught in the mill pond. One of the members saw an enormous catamount while carrying water from the spring in the swamp below Brown's Cabin. The pull was dropped, and the frightened camper rushed into camp and gave the alarm. The party are well supplied with fishing tackle, and they expect to keep their table well supplied with pickerel, eels and catfish.

The above from the Philadelphia Ledger, reminds us of the story of a man who was an unconscionable liar, and always proved his remarkable statements by his colored hired man. One day in telling a hunting story he declared he had shot a buck through the right ear and hind foot with a ball, some little doubt being manifested at the statement, Pompey readily responded "yessir dat am a fac I seed the buck shot. The company still seemed incredulous and the darkey was asked to explain how such a thing could possibly happen, the hind foot and ear were to far apart. "Well" said Pompey "dat deer was des a scratchin his ear with him behind foot when the Judge fired." When he was alone with his master soon after he demonstrated in this wise, "Massa I doant min peccurbation your stories but after this jestry try and sagaciate the parts a little closer together. It stretches my imagination too much."

"Pop" Curry's at Brink Pond and Brown's Cabin are at least ten miles apart as the crow flies. The camper must have been unusually dry to have gone so far for water, but then what is a little thing like that to a correspondent for a city paper.

**Croquet Tournament.**  
The Milford Golf Club entertained its members and a company of invited guests at the grounds last Friday in a delightfully new, yet old way. A croquet tournament was held and so much skill displayed on the part of the players that one afternoon was not sufficient to finish the games. Saturday afternoon the winners of the preceding day met to compete for the prizes. Those who took part were the Messrs Reed, Witchief, Harsell, Mott, Van Wyck, Broadhead, Van Etten and Lewis, and Messrs. Beck, Bendle, Van Wyck, Pinchot, Harsell, Reed, Broadhead and Dr. Reed.

The first gentleman's prize, a handsome silver match safe was won by Dr. Reed, and the first ladies' prize, a beautiful silver manicure set by Miss Lila Van Etten. The second prize, a silver book mark and pen wiper were secured by Mr. Beck and Miss Bertha Reed.  
Refreshments were served on the lawn after the completion of the games, and all were delighted with the pleasant entertainment afforded.

**Fire at Forest Lakes.**  
Last Tuesday evening about 11 o'clock the inmates of the Club House were startled by an alarm of fire which was found to be in the large double cottage owned by John Davidson and A. B. Ogden. The building was unoccupied and the origin of the fire is a mystery. The cottage and contents were wholly consumed, but none of the surrounding buildings were injured. There has been the moving cause to establish a night watch and Fred Tyle, of Mast Hope, has been employed in that capacity. There are now about fifty guests at the Club House.

**Hobby at Matamoras.**

**SOBER SECOND THOUGHT.**  
The Sincere Democrats Are Making Themselves Heard in Opposition to the Chicago Republicans.  
Louisville "Courier-Journal" (Dem.)  
The voice of the great Democratic party is making itself heard throughout the land. It is disclaiming utterly the performances of the Populist and Anarchist masquerade at Chicago. It is now fully perceived that the Democratic name has been usurped by those who are not Democrats. That the whole thing was a "take." The voice of the Democracy of the nation is declaring that neither the platform nor the candidate is Democratic nor anything akin to Democracy, but is everything that the Democratic party was organized to oppose, and has been fighting for a hundred years.

If the platform prevails these great Democratic principles perish from the earth. Many of these doctrines are entrenched behind the United States Constitution itself, but the anarchistic platform at Chicago does not hesitate to strike through the body of the Federal Constitution to reach and destroy them. It declares for the destruction of the obligation of contracts. It declares for the repudiation of national credit and integrity. It declares for the repudiation of debts, public and private. It declares for a depreciated currency. It declares for the destruction of the independence of the judiciary. It declares against the power of the law to protect property and life from the depredation of armed mob under male leas. It declares for unlimited extravagance in still more pensions. It declares for heavier taxation to raise money to expend in Populist and communist schemes at the people's expense. It relegates to the rear revenue reform and the reduction of taxation incident thereto.

No assemblage of excited French revolutionists could have screamed forth a wilder platform, nor placed upon it a more theatrical Boulanger. And yet a serious, earnest, responsible Anglo-Saxon nation and Anglo-Saxon people are called upon to countenance, approve and perpetuate such Midsummer madness as this. Surely there can be no danger of its success. The people already—even those subjected to the excitement incident to the mob at Chicago—are catching their sober second thought, are coming to their senses. They are looking to the consequences.

**Hart on the Situation.**  
In a recent statement Mr. Hart declared that this district would give a good majority for free silver and the Chicago ticket. He stated that there were many Democrats however in the district who had come out honestly and boldly and declared they would not vote for Bryan and free silver. He claims that these bolters are more than off set by Republicans who have announced their intention to vote for free silver. Mr. Hart strange to say does not predict a Democratic victory in this State, but he claims that the free silver sentiment is stronger here than has been supposed. He will send a large amount of campaign literature out for the conversion of voters.

**BRIEF MENTION.**  
—Simon Barry a life long resident, of Monroe county, is dead at 72 years.  
—Judge Purdy caught a rainbow trout in the Lackawanna, above Prompton, last week.  
—The general humidity and heat during the past week has been of a high order. They have fairly made every one sizzle.  
—Do you want pure honey? If so, send your orders to Rueling DeWitt & Son, at the Milford Apiary. See their "ad" on the fourth page.  
—Charles St John, of the High Point Inn is making many improvements, among them a roadway around the lake for carriages and bicyclists.  
—Charles W. Klebisch Esq., of New York well known to many people here died at Engleville Conn., July 19, of paralysis and heart failure.

—Mr. G. S. Holbert was the first in Deckertown to buy a rubber tired carriage. We understand that it gives great satisfaction. It runs almost noiseless.  
—State Senator George Handy Smith was stricken with paralysis Monday morning and his physicians say he cannot live more than five days.  
—Bishop Cox, of the Episcopal diocese of Western New York, died suddenly July 20 of nervous prostration at the Chilton Springs Sanitarium.  
—The Erie conductors will have their annual excursion, and picnic at Shohola Glen Aug. 6. Special trains will be run on all the branches of the Eastern division.

—Samuel C. Carpenter, of Easton, Pa., who has been on trial for the murder of Mrs. Ray Blackwell was acquitted at Bolvidere last Saturday, and discharged from custody.

—The Deckertown authorities have awarded contracts for building water works, the total cost of which will be about \$50,000, and they are to be completed in less than three months.  
—"Billy" Brink was taken in by officer Smith last Saturday for displaying too much exhilaration on the streets. Monday morning he interviewed Esq. Angle to the tune of \$1.60.  
—Charles Case, of Matamoras thought he could beat the cars with his fast horse last Friday night on our streets. This erroneous idea cost him a skin when the argument was heated before Square Angle.

—Down in New Jersey the watermelon and cantaloupe crops are being destroyed by lice. The farmers will lose thousands of dollars by the wholesale destruction of those luscious vegetables.  
—The work of grading Centre Square and laying out walks has been commenced. This is a long needed improvement, and all should be willing to lend a helping hand to those who have volunteered their aid.

—Landlord John M. Hill of the Anselomink House East Stroudsburg was "canned" recently. It came from some Republican friends in the shape of a carved stick with a free silver handle representing a shoe and stocking.  
—The wild pigeon was very plentiful in this State twenty five years ago and large numbers were shot or trapped and shipped to the city markets. From 1880 to 1896, but six so far as known have been shot in Pennsylvania.

—The shipment of peaches from the Delaware peninsula has commenced. The railroads charge six cents for every basket, and the basket and peaches will only bring ten cents when sold. Who makes the money at this rate?  
—There are about 50,000,000 silver dollars in circulation and three hundred and seventy eight million coined and ready for use which the Government would be glad to circulate but cannot, yet some people think all this country needs to make it happy is more silver.  
—Oscar West, proprietor of the Kresgeville Hotel in Monroe county, had his teeth extracted by a traveling dentist who warned him not to take any liquor for several days. The pain becoming severe West disobeyed the injunction and was seized with a peculiar sensation which the doctor pronounced lockjaw. So far all efforts at relief have proven fruitless.

**Lycium Entertainment.**  
We gave notice last week of an Entertainment for the benefit of the Milford Lyceum Association, to be given at the Crisman House on Thursday evening, July 23rd at eight o'clock. We now desire to call attention anew to this worthy enterprise. The Association needs help in maintaining its Library and Reading Room, and the Directors would be very glad of funds for the purchase of new books. Entertainments similar to the one now proposed have been held at the same place in previous years, and have been very successful. Efforts have been made in the present instance to equal the past, if not to surpass it. Many kind friends will lend their assistance and the programme is one of unusual merit, comprising music, vocal and instrumental, recitations etc. Also a solo on the Cornet by Mrs. Whiting, of New York, which will prove a great attraction. In the close, a collection will be taken for the Association.

**Boke Smith No Bolter.**
