WASHINGTON.

JUSTICE HARLAN INTERFERING IN FEDERAL APPOINTMENTS.

Progress of the Electoral Investigation.

A Resolution on the Subject to be Introduced Into the House.

AN EARLY ADJOURNMENT PROBABLE.

WASHINGTON, May 5.—Owing to the forwardness of the general appropriation bill it is thought by a number of members of Congress an adjournment sine die can take place towards the last of July. They do not suppose that the discussion of the tariff bill will occupy more than a week and say that time will be afforded for consideration of the Pacific Railroad bills and other prominent public measures.

A good deal of attention has been attracted by the course of the new Justice of the Supreme Court, General Harlan, of Kentucky, in regard to appointments in that State. A well-known Collector of Internal Revenue, named Holden, who was noted for his efficiency, has just been dismissed through Harlan's influence, in order that one of Harlan's friends might be appointed. It is stated at the Treasury department that Harlan is constantly interfering in the appointment of subordinates in the Internal Revenue service, of whom there is a large number in his State. A few years ago such a thing as an attempt by Justices of the Supreme Court to manipulate executive appointments in any part of the United States would have been an unheard of thing; but the change that has come over the Supreme Court since the demoralizing period of Grantism causes these things to be overlooked now. It would probably be found if all the facts were known, the Republican Justices of the Supreme Court possess a good deal of what is known as influence at the departments and are in the habit of using it.

THE ELECTORAL INVESTIGATION.

It is stated that Representatives Clarkson Potter went to New York last night to show Mr. Tilden the resolutions for an investigation into the Presidential case which he is about to offer in the House. It has been decided not to offer the resolution Monday, for the reason that on that day it will require a two-thirds vote to suspend the rules and pass the resolution, but to offer on Tuesday or Wednesday when it can be considered as a matter of the highest privilege. Those having the case in charge prefer not to risk any chances of obtaining a two-thirds vote in its favor, as failure to secure its prompt adoption at the outset would have a bad effect. A prominent Democratic member of the House said to-day of the investigation, that even should it result in unseating Hayes, it would not have the effect of installing Tilden in office.

HE SAID IT IS NECESSARY THAT A President should take the oath of office on the fourth of March following his election, which he says Mr. Tilden failed to do. He at first intended to take the oath in a public manner, but abandoned the design as soon as he learned of Grant's determination to arrest him on the charge of treason and throw him into Fortress Monroe, as an instigator of sedition and rebellion, upon his appearance at the Capitol for that purpose. That Grant was prepared for such action and would have seized Mr. Tilden's person is well known to many of both parties, and that Mr. Tilden was restrained by his knowledge of such a peril is of equal notoriety in private circles.

THE TARIFF BILL.

Strenuous efforts will be made this week to either lay the tariff bill on the table or postpone it until next session, which result would be equivalent to its defeat. Representative Wood, however, is still sanguine that it will become a law at the present session.

THE FLORIDA FRAUDS.

There seems to be some uncertainty as to whether a movement will be made to-morrow or Tuesday for an investigation of the alleged Florida Presidential frauds. Representative Springer is mentioned as authority for the statement that a resolution to accompany the report of Blair's Maryland resolution, reopening the Presidential question, has been prepared by the Committee on Judiciary. He has not seen the resolution, but presumes it will be similar to Blair's resolution calling upon Congress to order an investigation of the alleged frauds in Florida and Louisiana, and authorizing the appointment of a committee to send for persons and papers. It is not thought such an investigation, if ordered, would occupy much time, as the Committee on Judiciary, during the former Congress, thoroughly examined the subject of the Presidential canvass in Louisiana and Florida. The most important addition to the facts ascertained by that committee would be the deposition of McClain and Dennis, together with other authenticated papers in

that connection, which it is claimed can readily be produced, and are the first admission of frauds by parties directly concerned in perpetrating them. Few if any of the Democrats anticipate that congress will take any action disturbing the official position of President Hayes, and many of them desire to go no further than to place on record proofs of the fraud that may be produced before any committee that may be authorized to receive them. It can be said, however, that no line of conduct has yet been agreed upon relative to the subject above mentioned, although there is much speculation concerning it.

RUSSIA'S STRATEGY.

BUCHAREST, May 5.—It is understood Russia has proposed a new convention, by which she will be empowered to construct camps at Ploesti and Fokshani, engaging in return to remove the headquarters and other establishments connected with the troops from Bucharest. THE AUSTRO-HUNGARIAN COMPROMISE.

VIENNA, May 5.—It is officially announced that the Austrian and Hungarian Ministers have come to an agreement on the Austro-Hungarian compromise. The Bosph compromise will be submitted to Parliament for ratification next week.

NO POSITIVE CHANGE IN THE SITUATION.

LONDON, May 5.—Notwithstanding the hopeful news of Russian concessions announced from Vienna and intimated from St. Petersburg, it cannot be said that there is any positive change in the questions and dispute. It is said that a conciliatory disposition has prevailed in the Councils of the St. Petersburg Government, but it is asked, what does Russia consider at this moment to be peaceful concessions or conciliatory proposals? The fresh attempt to reach an understanding is described as getting over the difficulties of form by making far-reaching concessions on the merits of the question, but

THE MISFORTUNE.

seems to be what the Russians consider a question of principle. England demands the placing of the treaty of San Stefano before the Congress for unreserved discussion. Russia, it is said, refuses to give way to that point.

IN BERLIN.

as in London, the subject is treated with skepticism as long as it is known that Russia refuses to yield on the chief point, and that England maintains her demand.

A VIGOROUS CAMPAIGN.

LONDON, May 4.—The Times' Pen cor-

respondent telegraphs that General Tolleben is taking the Rhodope insurrection vigorously in hand. Troops have been ordered up from Andrianople and Philippopolis. Reports are current respecting the withdrawal of The Russian troops beyond the neutral zone. General Tolleben is very desirous of taking up a strong defensive position, which the present disposition of his forces does not afford.

INDICATIONS OF NEUTRALITY.

From the approaching re-establishment of diplomatic relations with Russia, the Bassiaret, a newspaper of Constantinople, concludes that in case of war between England and Russia, Turkey will be neutral, but adds that the question is too intricate to allow a definite conviction on the subject.

THE SHAH OF PERSIA.

reach Tabreez yesterday on the way to Europe.

POLITICAL OFFENSES.

ST. PETERSBURG, May 4.—The police are searching for the woman who attempted to assassinate General Trepoff, in order to arrest her, but thus far without success. The prosecutor has appealed against the verdict acquitting her. It is regarded as certain that the jury will be abolished in trials for political offenses of a grave character or assaults on functionaries while engaged in the performance of their duties. Special deliberations will soon be opened on this subject. The centralization of political trials in the capital will also cease.

THE ISLAND OF HELIGOLAND.

NEW YORK, May 4.—A dispatch from London says the British Admiralty has ordered that the Island of Heligoland be promptly and efficiently fortified.

LABAROFF'S APPOINTMENT.

ST. PETERSBURG, May 4.—Considerable political importance is attached here to the appointment of Prince Labaroff as Russian Ambassador to the Porte. The choice is agreeable to the Porte on account of the favorable impression he created during his former tenure of office as Russian Ambassador of the Crimean war. The Prince is understood to favor an amicable arrangement of the existing differences, and is regarded as a man of moderate views.

THE CABINET'S SILENCE.

LONDON, May 4.—The Times, in a leading editorial, says: The British cabinet admits that in principle an interchange of views respecting the substance of the treaty would be desirable in case the difficulties which now obstruct the congress be removed, but it shows no inclination to waive the preliminary conditions. Accordingly it has hitherto refrained from expressing its views and has not yet replied to the annex of Prince Gortschakoff's circular. In other words we are holding our case in reserve till the court before which it ought to be laid is properly constituted, or at least until there is a fair prospect of its being thus constituted.

HAVE YOU A COUGH?

That dry hacking cough is the herald of approaching consumption. To check the swift progress of the destroyer, prompt and decisive measures must be resorted to. A dose of Dr. Morris' Syrup of Tar, Wild Cherry and Horehound, taken when the coughing spells come on, will afford immediate relief, and eventually effect a thorough cure. It will be found equally beneficial in all forms of throat and
